The new plant is a sawmill in which interior finish of the highest grade will be manufactured. The industry will be located in the immediate vicinity of the Holland furnace factory, bordering on the Pere Marquette railroad. The main building will be one-story brick 48 x 100 feet and a wooden shed of the same dimensions will be erected. Work will be commenced at once. Five acres of land have been purchased and a large lumber yard will be maintained in connection with the new enterprise.

Captain Austin Harrington and F. K. Colby have purchased the ferry steamer "Liberty" from Messrs. Martin and Baby of Chicago and she will be operated as a ferry and excursion steamer next season on Macatawa bay and Lake Michigan. Mr. Gristwood has been married twice previously and his wife once. The couple will reside at Lowell.

Three new witnesses whose identity has not yet been disclosed, have been secured by the state for the Shimmel case which will be tried during the November term of court which opens November 4. It is reported that the prisoner said things to Wilkinson, the forger, who was confined in jail with him and he may be brought here from prison to testify against him. The prosecuting attorney stated today that the state had not definitely decided about calling Wilkinson but would have an interview with him first. Mortimer A. Sooy of Holland has been retained to defend Shimmel in the coming trial.

With bunches of hair torn from her head and hair and hair pins scattered over the floor, Mrs. Rense Poppema was found in an unconscious condition at her home by Deputy Sheriff Arie Zanting Tuesday evening when he was called to interfere in a lively scrap in the neighborhood. The officer carried her into the house and it was fully an hour before she revived. Miss Afrika Mensenga, a boarder at her home, accompanied by her sweetheart, Hyo Venema, entered the house and demanded possession of her clothes, which Mrs. Poppema refused to relinquish owing to the non-payment of a board bill. The scrap which followed called out the whole neighborhood. When the officer arrived the couple had fled, but they paid a fine of \$7.25 in Justice McBride's court yesterday morning after pleading guilty to the charge of assault and battery.

Captain Bill Boswell, known by everyone who ever crossed Lake Michigan often, and who for years has been the commanding officer of the steamer Puritan, is dazzling the eyes of his friends with a handsome diamond ring. Bill looks at the ring fondly, for it is a beauty, and Bill always had an eye for beauty. But it is not the beauty of the ring nor the value of it that makes Bill so proud of it. It is the source from whence it came. Boswell is popular with the people who patronize the Graham & Morton and knows pretty nearly every man, woman and child that was ever on his boat. He is popular with his crew too, and it is due to this popularity with the men under his command that he is now wearing the diamond. Just before leaving for his last trip this season the men and officers of the Puritan called on Captain Boswell, and after being received by that august person, proceeded to bestow upon him the diamond ring with words of appreciation for his ability to run a ship, to handle his men and to be a good fellow they at the same time maintaining discipline. EXCESSIVE DRINKING

Orrine Destroys the Craving for Drink Sold Under Positive Guarantee

Excessive or continued use of alcoholic beverages always result in a diseased condition of the nervous system.

The drinking man is often heard to say, "I can stop of my own free will and when I wish," but the poor fellow is now devoid of the power to act at the proper time and in the right way,—it's too late, the craving has secured a firm hold and because of the diseased nervous system he has not the ability for sustained effort. The result we all know.

Drunkness is no longer considered a crime; eminent scientists and physicians have agreed that it is a disease and must be treated as such.

The home treatment that has been used for a number of years, and is highly successful is Orrine. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded.

Orrine is in two forms. When desiring to give secretly, purchase Orrine No. 1, and if the patient will voluntarily take the treatment, Orrine number two 2 should be given. The guarantee is the same in either case. Orrine costs but \$1.00 per box. Mailed in plain sealed wrapper on receipt of price. Write for free treatise on "Drunkness" mailed in sealed envelope by The Orrine Co., Washington, D. C. Sold by leading druggists everywhere and in this city by the Model Drug Store Holland, Mich.

Home-made Mixture Cures Rheumatism.

There is so much Rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer.

Get from any good pharmacy one half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home made mixture and in most cases a permanent cure is the result.

This simple receipt is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only Rheumatism, but numerous others disease. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

Cheapest accident insurance—Dr. Thomas' Eclectic Oil. Stops the pain and heals the wound. All druggists sell it.

TESTING BULLS WITH AUTOMOBILE

How Mexican Learned Whether Animal Was a Fighter.

That the automobile can be used with great success in determining the courage of young bulls intended for the bull ring has been demonstrated by Pedro Fernandez Somellera on his Isidro hacienda in this state. The novel experiment was made a few days ago with a 22-horsepower car, says a Guadalajara letter in the Mexican Herald. On all haciendas where fighting bulls are raised the young animals are "tested" with a view to determining their future fitness for the bull ring. Those that prove their courage are marked and left to grow up for future contests. Up to this time the tests have been conducted by men on horseback armed with pikes like picadors. But Mr. Somellera, who is an enthusiastic motorist, this year decided on an innovation by introducing the motor car in place of the horsemen. Accordingly, after the young bulls had been herded into a large corral, the machine was driven into the inclosure. The occupants were armed with the usual pikes. The experiment proved an exciting success. Several of the young bulls charged the machine at mad speed, and it was only by clever driving that the car and its occupants were kept clear of the horns of the surprised and apparently indignant animals. The bulls that attempted to mix with the automobile have been credited with exceptional bravery, and they are expected to bring fame to the San Isidro hacienda by their future performances in the bull ring.

Poetic Belief of Finns.

The ancient Finns believed that a mystic bird laid an egg on the lap of Vainamoinen, who hatched it in his bosom. He let it fall into the water, and it broke, the lower portion of the shell forming the earth, the upper the sky; the liquid white became the sun, and the yolk the moon, while the little fragments of broken shell were transformed into stars.

WANTED

Every Man, Woman and Child in Holland

to call at our store for the greatest strength creator and health restorer which we have ever sold—Vinol. It is not a patent medicine; but the most valuable cod liver preparation made by an extractive and concentrating process from fresh cod's without a drop of oil to nauseate and upset the stomach and retard its work, and tonic iron which is a needful constituent for the blood added.

We do not believe that there is a person in this vicinity who cannot be benefited by Vinol at this season of the year. Vinol is delicious to the taste, and it is recognized as the greatest strength creator for old people, weak, sickly women and children, nursing mothers, and after a severe sickness.

Vinol is unequalled for hacking coughs, chronic colds, bronchitis and all throat and lung troubles. Creates an appetite and makes those who are too thin, fat, rosy and healthy.

We have had so much experience with Vinol and seen so many wonderful results from its use that we offer to return money without question if it does not accomplish all we claim for it. R. M. DePree & Co., Druggists, Holland, Mich.

RAILROAD LAYS OFF THOUSANDS OF MEN

UNION PACIFIC ABANDONS ALL CONSTRUCTION WORK ON THE ENTIRE SYSTEM.

BETWEEN 4,000 AND 8,000 WORKMEN OUT

Building of Lane Cut Off Which Would Have Been Finished in 15 Days Is Stopped—Country's Financial Situation Slightly Improved.

Omaha, Neb., Oct. 30.—The Union Pacific railroad at noon Monday discharged between 4,000 and 8,000 workmen. This statement is official, and is authenticated by General Superintendent Park and Assistant to the vice president, T. M. Orr.

Abandons All Construction. The discharged men are from the construction department and every piece of construction work on the entire system is abandoned. The Lane cut-off, west from Omaha, which has cost \$5,000,000 and three years' work, and which would have been finished in 15 days, has been abandoned. The work has ceased on all work in Kansas City and along the Kansas division, including the new line between Topeka and Lincoln, Neb.

Stop Work on Shops. The work on the new shops in Omaha has been temporarily abandoned.

None of the operating force has been discharged, and probably will not be for some time. On this point General Superintendent Parks says: "Will Lay Off Train Crews."

"We expect a curtailment of business, and as fast as this occurs we will lay off train crews. For the present this will not be done; our orders are to dispense with every available man and to stop every piece of construction work on the system. We are ordered to cut expenses in every possible way."

Probably Ordered by Harriman. These orders came from New York, but the officials would not say who ordered them. E. H. Harriman is the only official of Union Pacific higher than Omaha officials.

Other Roads Not to Follow. The Burlington and the Northwestern, which have headquarters in the city, are proceeding with their work.

When asked if the Northwestern would follow the Union Pacific's action, General Manager Walters of the lines west of the Missouri river said: "No, we are too busy to quit work and lie idle."

General Manager Soldredge of the Burlington lines west of the Missouri river, said no more men would be laid off by his road than was usual for the approach of winter, that the financial situation was cutting no figure whatever in the affairs.

Cabinet Holds Conference. Washington, Oct. 30.—President Roosevelt was in conference with all members of his cabinet except Secretary Taft for more than two hours Tuesday. The financial situation was under consideration.

Secretary Cortelyou believes that the general money situation throughout the country, and especially in New York, is steadily improving. During the last seven days he has deposited in the national banks a sum approximating \$50,000,000, and since early in September, when the secretary began his weekly distributions, nearly \$70,000,000 have been deposited, which brings the amount of public funds now in the national banks up to over \$215,000,000, of which about \$12,500,000 has been deposited to the credit of government disbursing officers. During President Cleveland's first term very large amounts of public funds were deposited in the national banks for the declared purpose of relieving the treasury of a burdensome surplus, but never before in the history of the country have such large sums been placed with depository banks to avert threatened trouble in times of unusual disturbance in the financial centers.

Secretary Cortelyou remained with the president for some time after the conclusion of the meeting. Secretary Garfield also later conferred with the president, taking up the question of federal appointments in the Indian Territory, which probably will be announced about the time the president's Oklahoma statehood proclamation is issued next month.

Conditions the Same in Gotham. New York, Oct. 30.—The financial situation was without notable developments Tuesday. The stock market was a little unsteady but without extreme agitation.

The announcement that the Imperial Bank of Germany had raised its discount rate from five and one-half to six and one-half per cent., in order to protect its gold holdings, was not unexpected by bankers here. It is thought quite likely that the Bank of England will follow suit by raising its rate at the regular meeting.

Lend Money at 75 per Cent. The Chase National bank and the Hanover National bank each lent a \$1,000,000 on the stock exchange shortly after 1 o'clock at rates between 50 and 75 per cent.

At 1 o'clock Tuesday afternoon, when the money stringency on the exchange was severe, the First National bank sent \$1,000,000 to the floor of the exchange which was loaned at 75 per cent.

Cancels Gold Engaged. The Russo-Chinese bank cancelled

\$900,000 of the \$1,000,000 gold engaged abroad for import. An official of the bank said the reason for the cancellation was that the bank considered gold imports have assumed proportions that exceeded actual necessities here. This makes the total gold engaged for import to New York on this movement \$17,850,000.

Stocks Remain Low.

Business became quieter when the market grew unsteady. There was no general effort to force prices upward, but Union Pacific, Pennsylvania and Brooklyn Transit ruled about a point above their lowest. Reading first preferred rose 3 1/2. Western Union declined 4. Pressed Steel Car preferred 3 1/2 and Southern Pacific preferred, United States Rubber first preferred and American Telephone and Telegraph 3.

Charge \$1 for New York Exchange. Pittsburgh, Pa., Oct. 30.—Owing to the shortage of currency here the banks Tuesday began to charge \$1 for New York exchanges.

Bankers generally remain optimistic and say the situation is improving and the outlook is better than it has been for some days.

Limit Currency Withdrawals.

Laurel, Miss., Oct. 30.—All banks in southern Mississippi Tuesday posted notices that withdrawals of currency would be limited to \$25 to each depositor, except for pay rolls. It was announced that action was taken as a precautionary measure in the interests of the depositors, and that the banks were in good condition. All banks at Laurel, Hattiesburg, Wiggins, Gulfport and many small lumber towns are included.

Stock Exchanges Suspend Business.

New Orleans, Oct. 30.—The Louisiana stock exchange and the New Orleans stock exchange Tuesday suspended business and all actual trading in both the institutions will cease until Monday, November 4. The Louisiana exchange will suspend all business without reservation, but on the floor of the New Orleans stock exchange state and city securities will be dealt in during the period through which the temporary suspension is in effect.

The action of the two exchanges is directly attributable to a communication received by each exchange from the New Orleans Clearing House association requesting the institutions to suspend business temporarily. The reason for the request was given that the financial condition in the north and east was such as to seriously imperil speculation in stocks and bonds, and that legitimate business interests must suffer thereby.

Fugitive Hides in Kansas City.

Kansas City, Mo., Oct. 30.—J. Edward Brady, president of the Merchants' Refrigerating company, which was placed in the hands of a receiver last week, following his mysterious disappearance, is in Kansas City in hiding, according to the statement by an attorney interested in the case. Brady, it is stated, is endeavoring to arrange the affairs of the company which has liabilities of \$600,000 and will soon face his creditors.

Kansas Bank Absorbed.

Kansas City, Mo., Oct. 30.—The Wyandotte State bank, at 601 Minnesota avenue, Kansas City, Kas., with deposits of \$500,000, was absorbed this morning by the Commercial National bank of Kansas City, Mo. The work of transferring the deposits began immediately, but the doors of the Wyandotte State bank will remain open for several days for the convenience of its customers.

Gold Starts for America.

London, Oct. 30.—The sum of £601,000 in bar gold was sold Tuesday and £998,000 in American eagles was taken from the Bank of England as part of the gold intended for shipment to America. The gold was insured at Lloyds and started for New York on the Kronprinzess in Cecilie, which left Southampton at night.

The price of the eagles was about 76s 9d.

STUDENTS HAZED AT ROLLA, MO.

Lively Class War in the State School of Mines.

Rolla, Mo., Oct. 30.—As a result of class rivalry of several weeks standing 20 sophomores of the State School of Mines were routed out of bed Sunday night, and, half clad, were tied to trees on the campus of the school, where they remained until daylight, shivering in the nipping atmosphere. After they had been released by other sophomores, the entire sophomore class, rallied, captured 75 freshmen, bound their arms with ropes and chains and marched them around town accompanied by the school band. School Director Young was forced to declare a holiday Monday as the class rooms were vacant. The trouble arose over the refusal of the freshmen to obey the injunction of the sophomores to wear green caps with yellow buttons.

Monday night the freshmen came to terms by agreeing to wear the green caps, and their surrender was celebrated with a barbecue, which was attended by all the students.

Banish Liquor at Birmingham.

Birmingham, Ala., Oct. 30.—Jefferson county, after one of the hottest campaigns in its history, went dry in Monday's election. The majority was 1,500. The city of Birmingham gave a majority of 320 against prohibition.

Hang Negro for Attack on Girl.

Belen, Miss., Oct. 30.—The body of Charles German, a negro, who, it is charged, attacked the young daughter of a white farmer, was found hanging to a tree about five miles from here, his body riddled with bullets.

NAVY NEEDS MORE MONEY

CABINET CONSIDERS SECRETARY METCALF'S ESTIMATES.

Increase of \$5,000,000 in Standing Appropriation for Payment of Enlisted Men Is Approved.

Washington, Oct. 28.—Naval matters occupied the attention of the cabinet during a considerable part of Friday's meeting. Secretary Metcalf has just completed the compilation of the estimates for the maintenance of the naval establishment, and as these show a great increase as compared with the current fiscal year, thereby promising to cause much debate in congress at the approaching session, the president and the secretary of the navy are giving their most earnest attention to them.

The secretary advanced a proposition to increase by \$5,000,000 the standing appropriation for the payment of enlisted men in the navy. According to his estimate, this increase would admit of the recruitment of about 3,000 blue jackets in addition to the present force. The proposition was received with favor and will be included in the estimates to be submitted to congress.

Secretary Metcalf also has before him the report of the naval general board, headed by Admiral Dewey, upon the new construction required to meet the plans of the board, and this was touched upon incident to the construction of the width of the canal locks.

It is pointed out that by reason of the fact that he last year expressed the opinion that one new ship would be all that should necessarily be authorized at this congress, the president has somewhat embarrassed himself, but as several of the battleships which were last year supposed to be perfectly serviceable have since rather unexpectedly been shown to be of obsolete type, it is not apprehended that the president will have any difficulty in explaining to congress the necessity for amending the original estimate, for it is now quite certain that no less than two and probably three battleships of the first order will be recommended in the estimates.

ANOTHER DREYFUS AFFAIR.

French Officers Arrested as Traitors—One, a Jew, Confesses.

Paris, Oct. 26.—The arrest of Ensign Charles B. Ulmo, of the French navy, at Toulon Thursday, on the charge of being a spy and his confession to having abstracted a secret naval signal book and the naval cipher code, was followed Friday by the arrest at Vendome of an officer named Berton, who is charged with negotiations with an agent of a foreign power for the sale of military secrets.

The arrests are creating a great stir, and as Ulmo is a Hebrew, the papers term his case a second Dreyfus affair.

It appears that Ulmo offered certain documents to the minister of marine for \$30,000, saying that unless his offer was accepted he would sell them to a foreign power. A dummy correspondence was begun, ending with Ulmo's capture.

A search of his lodgings revealed that he not only possessed the secret code signals, but was in possession of complete plans for the mobilization of the French navy, the location of harbor mines in the event of war, photographs of the mechanism of France's famous 75-millimetre field gun, etc.

ALFONSO HAS TUBERCULOSIS.

King of Spain Will Consult Specialist in London.

Madrid, Oct. 26.—The alarming reports circulated earlier in the month regarding the health of King Alfonso appear to be confirmed. It is understood the king, who will travel under the strictest incognito as duke of Toledo during his coming visit to London, will submit to the examination of a specialist in tuberculosis, from which disease his father died. The king's open air life thus far has kept the hereditary disposition in abeyance and an operation was performed on him recently in the hope of checking the growing symptoms of consumption.

HELPED WIFE COMMIT SUICIDE.

James Wardell, of New York, Convicted of Manlaughter.

New York, Oct. 26.—Charged with having aided his wife Laura to commit suicide on June 7 last, James Wardell Friday was convicted of manslaughter in the first degree. Wardell's defense was that his wife had committed suicide without his knowledge. The woman was found dead with a bullet wound in her head, but an autopsy showed that she had died from gas asphyxiation and that the bullet was fired into her body after death. Wardell, who is 23 years old, was remanded for sentence on Thursday next.

Filipino Can't Be a Citizen.

Santa Rosa, Cal., Oct. 26.—Acting upon advice of the United States district attorney's office, County Clerk Fred L. Wright has refused the application of Benigno Bocco, a local Filipino, for naturalization papers.

Col. Stephen L. Littler Dies.

Springfield, Ill., Oct. 26.—Col. Stephen L. Littler, a capitalist, died Friday of typhoid fever, aged 37 years. During Gov. Tanner's administration he was a member of the governor's personal staff.

What a Young Man May Accomplish and How.

The resignation of Charles A. Floyd of this city to again conduct the business interests of the Michigan State Fair, a very lucrative position, is another demonstration that marks his good business judgment. Starting in his business career seven years ago as bookkeeper, ticket agent, and general hustler for the Grand Rapids, Holland & Lake Michigan railway at a meager salary, he rapidly worked himself up to the position he now holds with the Grand Rapids, Holland & Chicago. In resigning he feels it his duty to stick by those interests that were the stepping stone and ladder to his success. Although only 19 years of age at that time and taking the burdens of the family's maintenance upon his shoulders, after the death of his father, he struggled bravely onward until he attained the success that is now his.

What qualifications constitute the success of any young man?

They are these, honesty, energy, punctuality and constancy.

Without these four cardinal traits a man cannot accomplish much.

These qualifications have made Floyd's business career a success, and will continue to make it more successful. They can make any young man such, who will follow them out.

Do not look with jealous eyes on the advancement of anyone, which is too often done, but try a whirl at it yourself young man, and see how soon old and tried business heads will take cognizance of the fact. You will soon make yourself felt in the community in which you live.

The Opposition to Bryan.

In his address in New York Wm. J. Bryan neglected to tell the country definitely whether he would seek the candidacy in 1908. It is understood that he is reserving this information for a demonstration in Washington which he is to attend two or three weeks hence. He is to be the star figure there, and the persons who are getting up the meeting have arranged a program which they expect will make him reveal himself decisively on that issue.

The troubles for Bryan as a perpetual presidency seeker are increasing. Just as he reached New York on Monday of last week a boom was formally started there for Chanler, the democratic lieutenant governor of the state, who won the election in 1906, although Hugh, the republican, carried the governorship. This fact makes New York once more the enemy's country for the Nebraskan. A few days ago a mass meeting in Shelbyville, Tenn., declared for a Southern nominee for the presidency this time, although it did not single out anybody in particular for the nomination. Probably the fact that half a dozen southern men have been mentioned in connection with the candidacy by different politicians and newspapers had something to do with that gathering's reticence on that point.

This determination of the South to talk out against Bryan is a fact of some consequence. The Nashville American says the Shelbyville gathering has started a movement which "may develop into something very important." Nashville is to have a meeting on November 12, which according to that journal, is to "give Democrats all over the state an opportunity to their sentiments on this question, and to call on other southern states to hold conventions for a like purpose." It is possible that the protest throughout the South against Bryan may be strong enough to impel him to withdraw and to give the conservatives a chance. It will be remembered that the conservatives controlled the St. Louis convention of 1904 and put up one of their most distinguished representatives. His mal-treatment by the voters on election day put his element in the shadow for the next year or two, but some of its members are again demanding the privilege of selecting the nominee. This time the old "safe and sane" section of the Democracy has the South on its side, and therefore may accomplish something in the convention. At the

polls, though, the result can hardly differ much from that of 1904. Radicalism is dominant in this Democracy of the North and West. An anti Bryan Democrat next year would probably fare as badly as the same sort of a candidate did three years ago.

The president certainly did give the bears due notice.

Bankers who go too often to Wall street are apt to go to the wall.

Cleveland Republicans say that they are going to beat the Tomtom.

Mighty fast year, this 1907. The wireless, the balloons, the steamships and the trotters are smashing records right and left.

It isn't any consolation to the man who has already begun to shovel coal into the furnace to know that winter doesn't really begin until December.

Board of Public Works.

Superintendent James De Young has suspended the building of sewers for this fall and has started a force of men at work laying water mains on Seventeenth street from First avenue to Van Raalte and then south to the Van Raalte avenue school.

Another water main is to be built on Eleventh street from Columbia avenue to Land street, and 500 feet on Fourteenth street from Land street east.

About 8,000 feet of sewer has been built this year on Sixth, Seventh, Fourteenth and Eighteenth streets, and in addition to this part of the Sixteenth street sewer was rebuilt and other repair work done.

The Fifteenth street sewer from Maple street to Harrison avenue will have to be put over to next summer on account of the season being so far advanced.

WHAT YOU SAW IN THIS PAPER 35 Years ago To-day.

Market Day.—The semi-annual gathering of the farmers for the purpose of exhibiting, selling and exchanging stock will be held at Zeeland, Wednesday, Nov. 6th; at Holland, Wednesday, Nov. 13th.

The Indians residing in the counties of VanBuren and Cass expect soon to receive from the government the snug sum of \$150,000. Lo begins to inquire of the pale faces if they don't wish they were Indians.

Last Wednesday night at about 12 o'clock the citizens of Grand Rapids were aroused from their slumbers by the fearful alarm of fire. Arriving at the scene of action they discovered Rood's block on Pearl street, one of Grand Rapids most beautiful monuments, one vast sheet of flame. The fire department was promptly on hand, using its best endeavors to subdue the flames, but the power of man appeared to be utterly futile in trying to subdue the fiery elements. It extended from Rood's block to Judge Lyon's building, and then across to Canal street, carrying everything before it, with the exception of the block, corner of Pearl and Canal streets which contains Nelson's book store and the Grand Rapids Savings bank. Prominent among the business houses consumed were Julius Houseman's clothing store, Dr. Gallup's drug store, Pressburg's clothing store, Hoogeboom's, and Mohl & Schneider's cigar stores, Crawford Bros. grocery store and Dr. Clemens' book store. The law firm of Norris, Blair, Linsley & McLaren are also heavy losers. The cash value of their library was \$8,000, of furniture \$1,000, insurance about \$4,000. The firm would willingly give \$20,000 to have everything replaced as many of their works were such as cannot be bought for money. Mayor Houseman was severely burned on his hands while in the act of saving some valuable books and papers from his store. It is estimated that the aggregate of insurance on buildings, stocks and personal property destroyed and injured by the fire, was about \$150,000. If this amount could have been distributed according to loss, it would nearly cover the entire damage done. On Thursday afternoon another fire was discovered on Monroe street, but owing to the promptness of Mr. Southwick in extinguishing the same no damage was done.

WHAT YOU SAW 30 YEARS AGO

Not from a desire to criticize, but from an actual necessity we must say: What is the reason our side walks are not repaired? Is the corporation prepared to pay \$5,000 for a broken leg?

Some thieves entered the store of Ed. Cole of Olive Center on Thursday night last, and robbed it of about \$25 worth of goods. The thieves were traced as far north as the River, but further their tracks were not discernable.

The opening advertised for Wednesday last, at Scott's hotel, was attended by a great many of our most prominent citizens. Music was furnished by Gee's brass band. The table was loaded with the choicest of the season. Everything was conducted on temperance principles, and the whole arrangement may safely be called a success.

The market day at Drenthe on Wednesday last was well attended. Although the wind blew cold, the farmers turned out en masse to market their cattle. Several enterprising merchants of this city were on hand to exhibit and sell, some of which were Mr. Pessink, H. Meyer & Co., H. Meenigs and several others with horses. Among the dealers in horses were some parties from Illinois. Very little property changed hands, however, and the weather being too chilly for outside pleasure, F. Boonstra reaped a big harvest in selling refreshments. From appearances we should judge that J. D. Everhard was doing a good business in hardware. The new wheat around Drenthe looks magnificent, and we know farmers, who had forty acres of it looking fine. The farmers all seemed flush with money, often unconsciously exhibiting wallets well rounded out, corroborating the outward appearance of the whole region.

Geo. VanDuren says he keeps nothing but choice meats. Go and see for yourself.

We hail with joy the return of our old and tried friend, Dr. F. S. Ledebor, to the fraternity of medical men in our midst. No doubt a great many of his old customers will return to him and encourage the practitioner to take up the successful career he enjoyed a few years ago. For the present he will be found at his father's residence on River street, but in a few days he will occupy the handsome house not long ago vacated by J. Fifield on Eighth street. We hope he will be as successful in his practice in the future as he has been here in times gone by.

Hallow'een passed off very quietly in this city. The only thing out of place the next morning was the bulletin board usually standing in front of Breyman's jewelry store. It was found in front of the mayor's office with the grinning physiognomy of a colored gentlemen upon it. The boys must have forgotten to celebrate.

Last Friday afternoon R. E. Werkman closed negotiations for the sale of the Phoenix Planing mill to a gentlemen by the name of Scott, who is at present a resident of Bad Axe, Huron county. The consideration, as near as we can learn, is in the neighborhood of \$13,000. Mr. Scott will be here and take possession of the mill some time next week.

"Those sour grapes" evidently made the editor of De Grondwet sick, for in the last issue of that journal he belched forth about a quarter of a column of rank egotisms in which he takes occasion to "puff" the Supervisor and condemn the News man for the little item in our last issue on City Taxes. Sophistry is indeed a fine art with our esteemed contemporary.

Floyd of Holland Resigns

Charles A. Floyd of this city has resigned the management of the Michigan State fair. This is the big Michigan institution which holds annual expositions in the city of Detroit and is operated by the Michigan Agricultural society. Mr. Floyd operates the Holland Interurban and during the past season added the burden of the management of the state fair to his other duties. After a season of unprecedented success he was offered a renewal contract of flattering terms. This proposition has been under consideration for several weeks. Yesterday a negative decision was determined upon.

Mr. Floyd first assumed connection with the state fair in 1906, when he went to Detroit and laid for the fair authorities their ticket and concession system. He handled this department of the fair during the 1906 show and at that time was offered the 1907 general business management. The owners of the Holland road agreed to permit Mr. Floyd to accept the Detroit opening in connection with his interurban duties. As a result he has been acting in dual capacity during the present season.

The 1907 fair was the biggest success ever, showing profits of \$40,000. The fair authorities were so well pleased that they offered Mr. Floyd splendid inducements to move to Detroit as a permanent home and take up the fair direction as a business by itself. Thus the problem became one of either forsaking the transportation business for the exposition or resigning from the Detroit connection. Thus, after ma-

ture deliberation, the latter course has been decided upon and Mr. Floyd is sending letters to the directors of the Michigan Agricultural society notifying them of his decision. This will mean that a new business manager will have to be chosen for next year's exposition.

BOB EVANS MAY BE
A VICE ADMIRALCONGRESS WILL BE ASKED TO
ESTABLISH THAT RANK
IN THE NAVY.

For Cruise to Pacific—Commander of Mighty Fleet, If Only Rear Admiral, Would Be Outranked in Countries He Will Visit.

Washington, Oct. 28.—The great battleship fleet which is to make its way from the Atlantic to the Pacific will probably be commanded by a vice admiral, and that officer is now Rear Admiral Robley D. Evans.

Of course this is conditional upon congress giving its sanction to the proposal that will be made by the executive to establish this new rank in the navy. The idea is not a new one. In fact, the president in his last annual message to congress, as well as the secretary of the navy in his annual report, made a recommendation to that effect, but without securing the approval of congress. Now, however, conditions are believed to be more favorable than ever before for this project.

Reasons for the Change.

Rear Admiral Evans is going to sail in command of the most powerful fleet that ever gathered under the American flag. Not only that, he commands more battleships of modern type than any other naval officer in the world, and the only officer whose blue pennant floats over a more numerous fleet of all kinds of warships is Lord Charles Beresford, and he is of even greater rank than a vice admiral, being an admiral, like Dewey.

On this cruise the American fleet is to touch in many foreign ports and to exchange courtesies with foreign fleets. In several places—in Brazil, in Chili, in Argentina—the American commander, supposing he retains his present title of rear admiral, would be outranked, for the navies of all of these countries contain officers of the grade of vice admiral, which would make the American commander's position humiliating.

Wouldn't Last Long.

It would be pointed out in Rear Admiral Evans' case that not only is he by his remarkable service record entitled to this advancement, but any objections to the creation of this new grade that might be broached in congress might be overcome by pointing to the fact that as Rear Admiral Evans retires next August, the office will be of short duration.

Majors, of Peru, who served under Gen. Thayer. Gen. John C. Cowin, of Omaha, also delivered an address.

Gen. Thayer served during the Shiloh campaign with Gen. Grant, taking a prominent part in that and succeeding campaigns. He was governor of Nebraska, United States senator, and territorial governor of Wyoming at various stages of his career, and was brevetted major general.

Doing Their Duty

Scores of Holland Readers Are Learning the Duty of the Kidneys.

To filter the blood is the kidney's duty. When they fail to do this the kidneys are sick. Backache and many kidney ills follow. Urinary trouble, diabetes. Doan's Kidney Pills cure all of them.

Holland people endorse our claim.

Otto G. Van Dyk, retired farmer 28 W. Eighteenth Street Holland, Mich., says: "I unhesitatingly say that Doan's Kidney Pills are the reliable remedy on the market today. While splitting wood a short time ago, I was suddenly taken with sharp pain or crick in the small of my back, so severe that I was unable to finish what I had started. I did not pay much attention to the pain at first, but it gradually grew worse and soon there were dull, constant pains across my back and loins. My condition soon became so bad that I was unable to exert myself in any way. I was hardly able to walk and gradually growing weaker when my son who had used Doan's Kidney Pills with very good results advised me to try them. He procured a box for me at George E. Lage's drug store. I had only taken a few doses when the pains began to leave as I continued using them, I gradually improved until I had received a positive cure. I now feel as well and strong as ever. I feel that I owe my present good condition to the use of Doan's Kidney Pills.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, Sole agents for the United States. Remember the name—Doan's and take no other.

Hard Times in Kansas.

The old days of grasshoppers and drought are almost forgotten in the prosperous Kansas of today; although a citizen of Codell, Earl Shamburg, has not yet forgotten a hard time he encountered. HEAD OF PRISONS IN RUSSIA SLAIN

GEN. MAXIMOFFSKY IS SHOT DOWN IN ST. PETERSBURG BY A WOMAN.

His Assassin Caught—Admits She Is Emissary of Social Revolutionists—Was Prepared to Blow Up Secret Service Headquarters.

St. Petersburg, Oct. 29.—Gen. Maximoffsky, director of the department of prisons of the ministry of the interior, was shot and killed Monday by a woman. The general was the highest responsible official connected with the Russian prisons and it is supposed that this was the reason he was selected for assassination by the terrorists.

The assassin fired seven shots point blank at the general, six of them taking effect. The wounded man was hastily taken to a hospital, but his condition was hopeless.

Emissary of Revolutionists. The general's assassin, who was arrested immediately, unhesitatingly avowed herself to be an emissary of the northern flying section of the social revolutionists, who had been entrusted with the task of punishing Maximoffsky for the stern regime which he lately had introduced in the treatment of important political prisoners, whom he ordered to be treated like ordinary criminals.

Gen. Maximoffsky was sponsor for Gov. Borodulin of Akatui prison, Siberia, the jailer of Mile. Spiridonova, and who recently was assassinated at Pakoff.

Col. Ivanoff, governor of the political prison at Viborg, who was assassinated in September, was another of Maximoffsky's instruments.

The introduction of soldiers into the prisons to preserve discipline was one of the most detested measures of Maximoffsky.

Prelude of Greater Act.

The assassination of Gen. Maximoffsky apparently was designed to be only a prelude to a greater act of terrorism—the destruction of the headquarters of the secret power, which has been the object of at least three terrorist plots of recent months.

When the slayer of Maximoffsky, who Monday night was identified as Mile. Ragozinaikova, of Perm province, the daughter of a teacher in the imperial conservatory of music, was taken to the police station her agitated attempts to free her bound hands and reach toward her breast led to an investigation, and it was found that she carried inside her corsege a case containing 13 pounds of a high explosive, a charge powerful enough to blow the entire buildings and its occupants to pieces.

DR. W. R. GILLETE CONVICTED

FORMER INSURANCE MAN FOUND GUILTY OF PERJURY.

First Conviction in Cases Based on Disclosures in New York Legislative Inquiry.

New York, Oct. 25.—The first conviction in the cases based on the disclosures in the legislative investigation of insurance affairs in 1905-1906 was obtained by the district attorney's office Thursday night when a jury in the criminal branch of the supreme court found Dr. Walter R. Gillete, former vice president of the Mutual Life Insurance company, guilty of perjury in the third degree.

The verdict was accompanied with a recommendation for mercy. The maximum penalty for this degree of perjury is ten years' imprisonment.

The jury was out one hour and 25 minutes. In the interval Dr. Gillete chatted with his son and daughter. If he was at all nervous he did not betray his state of mind. When called to face the jury, however, he paled perceptibly, the pallor giving way to a flush as he heard the verdict. For a moment he appeared surprised, but promptly recovered himself.

Dr. Gillete is 67 years of age and is well known in medicine from the practice of which he retired some years ago. He was born in Philadelphia.

The specific charge upon which Dr. Gillete was found guilty was that he had testified falsely before the grand jury on May 24, at which time he was vice president of the Mutual. The indictment alleged that Gillete, under examination by District Attorney Jerome, stated that certain moneys in the Dobbs Ferry bank were his personal funds, and that subsequently under a cross examination he admitted the funds were really the property of the Mutual Life.

GOLD IS BROUGHT OVER FROM EUROPE

ITS IMPORTATION HELPS BANKS TO SETTLE DOWN TO NORMAL CONDITION.

Copper is High Abroad—Certified Check System Works Well in Many Cities and Financiers Think Trouble is Just About Over.

New York, Oct. 29.—The principal events in the financial district Monday indicated that the worst of the crisis was over and that conditions were settling down to normal. There were no further bank suspensions and reports were favorable for the resumption of most of the banks which closed temporarily last week.

The engagement of \$18,750,000 in gold from Europe for importation to New York was followed by the sensational announcement of sales of American copper abroad, which will further increase the tide of foreign money to this country to an aggregate of over \$25,000,000. This, with the rapid rise of good securities on the stock exchange, in some cases as much as four and five per cent, which was naturally followed by slight reaction at the close, and the policy of the trust companies not to pay out currency for hoarding purposes, all contributed to strengthen the confidence in banking circles and among the public at large.

Bank Runs Nearly Over.

Runs upon banks practically ceased, partly because of recognition that they were unnecessary and unjustifiable and partly because of the policy adopted to pay large checks only in certified checks on depository banks. This system of payment worked no apparent hardship and was the cause of very little protest. Small checks were paid promptly in currency, and larger amounts where it was demonstrated that currency was required for purposes other than hoarding.

Copper Trade Developing.

One of the sensational features of the day was the remarkable development in the copper trade. The United Metals Selling company reported a sharp advance in the price. Copper which they would have sold gladly ten days ago at 12½ cents a pound, commanded 13½ to 13¾ cents a pound Monday.

New York, Oct. 28.—The feeling among banking authorities is that united action and wise counsels have already accomplished much in providing a solution for the financial problem with which they have been called on to deal during the past week, and that, with remedial plans now further perfected, the promise is strong for the uninterrupted maintenance of financial stability.

Saturday the bankers adopted the system of clearing house loan certificates and agreed that the withdrawal of savings deposits shall be permitted only on the legal notice of from 30 to 60 days. This example was followed by the banks of Chicago, Milwaukee, St. Louis, St. Paul, Minneapolis, Duluth, and other cities, not because of any weakness of those institutions, but to prevent the draining of their financial resources by the demand for money in the east.

Sunday Calm as Usual.

Sunday was marked by its usual calm, which gave the financial leaders an opportunity to ease the tension of overwrought nerves experienced during the past week. Most of them remained at home throughout the day and there was a noticeable absence of the hurried conferences of recent days.

The departure of Secretary Cortelyou for Washington removed a conspicuous figure from the field, but it was felt that with President Roosevelt's strong support, as expressed in his letter made public Saturday night, Mr. Cortelyou's presence in Washington was favorable to such further government assistance as might be required.

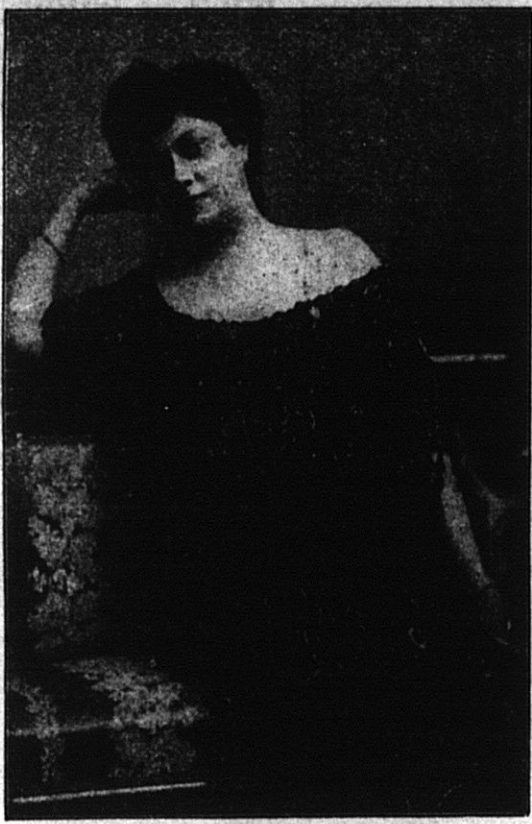

One prominent banker pointed out that it could not be brought to the attention to the country at large too strongly that the present situation is one dealing solely with the supplies of currency, and that neither the business credit of the nation nor its industrial and agricultural prosperity is affected. In this respect there is a sharp contrast with the conditions prevalent in 1893.

Have Another Hard Day.

New York, Oct. 26.—Friday was another nerve-racking day, but the financial institutions of New York showed extraordinary power of resistance to pressure put upon them. While it is true that several minor institutions have been forced to close their doors, yet two things should be said about them—first, that the amount involved was not so great as to exert any marked influence on the general situation, as these banks were located in residential quarters and did not come into touch with the larger financial institutions of the metropolis, and second, there is every reason to believe that these banks and trust companies are entirely solvent, and their difficulties will prove to be only temporary and due entirely to inability to secure ready cash on the gilt-edged securities in their vaults.

Grand Haven Accident.

Dick Gringhuis of Grand Haven, who was so badly injured at the Heap factory last week, died at 5 o'clock Sunday afternoon at his home on Washington avenue, living fourteen hours after an operation. The death is a particularly sad one because he leave a young wife, having been married only last March to Miss VanDoorne and the blow comes hard to the young widow.

The fatal accident came about in a peculiar manner. Only the day previous the young man went to work, operating a rip saw in the factory and while feeding a piece of lumber stuck in the carriage. Hoping to force it through the young man fed in another piece which suddenly flew back striking him in the side and inflicting a painful injury. A gold watch which he wore prevented the board going completely through his body. He felt faint and was helped down to the engine room where he was made comfortable until taken home shortly before noon. The accident occurred at 11:15. The Gringhuis family were former residents of Holland, having conducted a clothing store on River street years ago.

Conductor Arrested.

Ray Morrison and Clyde Taylor were arrested Friday afternoon by Deputy Sheriff James Irving on the charge of purloining tickets while in the employ of the Grand Rapids, Holland & Chicago Interurban Ry. company, when arraigned before Justice Van Duren both confessed their guilt and Taylor paid a fine and costs amounting to \$20, while

Morrison was given the choice between the payment of \$25 fine and costs or 90 days in the Detroit House of Correction. He paid up.

Morrison had been engaged as conductor for some time and in taking the tickets from the passengers, at times failed to punch them, pocketed them and gave them to Taylor, who sold them and the two divided the spoils.

Supervisors Walked.

Friday was a great day for the board of supervisors and for some of them in particular. The party left here in the morning and arrived at the poor farm in good shape. After looking over the farm and working up appetites which will go on record, they sat down to a meal which has never been equaled.

Two launches took the party up the river and toward the middle of the afternoon they re embarked for the return trip down the river. A number of them took the Baird launch, among them being Prosecuting Attorney Coburn, and started with flying colors. When nearing Spoonville the launch struck a sand bar but was finally released and started on down the river once more. But the troubles were not over for the launch ran out of gasoline and it was a case of remaining on the river until help came, with a chance of camping out all night or walking to the nearest point of the interurban road.

It was up to the over-fed passengers and they chose the latter course. Landing as soon as possible they started across country toward Nunica fully five miles away. Tramp, tramp, tramp, the boys went marching, over the fields, through the woods and along the country roads until finally the village of Nunica hove in sight in the gathering gloom of the autumn twilight. But they had all walked off the effects of the great dinner and there was not a sign of indigestion among the pedestrians.

Foot sore and weary they climbed aboard and came on to Grand Haven arriving in the evening. The board adjourned Saturday morning until January.—Grand Haven Tribune.

Fine Entertainment.

A very attractive entertainment is to be given in the Winant's chapel on Wednesday November 6. The Lia Carli Company will give an evening of music and impersonations, and from the press notices of the artists included in this company, each one is an attraction in herself.

Mrs. Gertrude Charles Metzger, whose stage name in Italy was Lia Carli, is the Vocalist and Manager of the company. Those who have heard her, speak with enthusiasm of her talent. Her experience in concert and Grand Opera, has well fitted her for public work.

Miss Helena Stone, the Harpist has won an enviable place in the musical world, having played with the great Thomas Orchestra in Chicago and in recitals throughout the United States. Her rare powers of musical expression are widely known.

Mrs. Myrtle Koon Cherryman is too well known in Holland as a reader and entertainer to need more than an announcement that she is to be with the company. As one of her audience said after her appearance in one Michigan town, "All we need hereafter, is the announcement that Mrs. Cherryman will read, and people will look up the time and place for themselves."
