Says the G. R. Press with reference to the dredging of Grand river: "The government dredge is about opposite Jenisonville. There is still \$11,000 of the appropriation left out of which the November bills must be paid. It is considered enough, however, to dredge a continuous cut of four or five miles. If the engineers encounter streaks of good luck as they have in the past it may be possible that the dredge will come way up to the city in a very short time. By this good luck is meant striking a stretch where the water is five feet deep at low water mark. One place was found in the river where it was thought the dredge would have to work, where for a mile no dredging was done. This saved a lot of time and money. The dredge has been making a cut of eight feet most of the way because it was found that the banks of the channel washed in. Therefore it was found economical to cut deeper in order that the washing in of the bank would not affect the depth of the channel. This was an additional expense. Then, too, it has been deemed advisable to construct some arrangement to hold the banks in place. This will probably be done by driving piling along the edge of the channel."

Then in trying to get his team on the right road again he drove them into the culvert. A messenger was sent to the postoffice for help. The late train from Grand Haven was nearing the place also, and by signaling it was stopped within ten feet of the culvert. Two minutes longer and the train would have passed over them.

Prof. Henry C. Adams, of the Michigan University, who is an expert on railroads, during his recent European trip gave a week's study to the railroads in Holland. From Extreme Nervousness.

THAT no one remedy can contain the elements necessary to cure all diseases, is a fact well known to everyone. Dr. Miles' System of Restorative Remedies consists of seven distinctively different preparations, each for its own purpose. Mrs. L. C. Bramley, 37 Henry St., St. Catharines, Ontario, writes: "For years I suffered from extreme nervousness and annoying constipation, developing into palpitation and weakness of the heart. I was unable to sleep, suffered much from headache, pain in my left side, palpitation and a constant feeling of weakness and prostration. I began using Dr. Miles' Nerve, Heart Cure and Nerve and Liver Pills and the Anti-Pain Pills to relieve sudden paroxysms of pain and headache. I soon felt much improved and the pains and aches and weariness left me. I then took Dr. Miles' Restorative Tonic and am now restored to my former good health."

"The expression of a 'wide open town,'" says Chauncey M. Depew, "means that the very worst of vices run as they please. It means that gambling places are wide open to get from men the money that their families need, and to teach young men to steal from their employers in order to get money to gamble with. A 'wide open town' affects the people of every set who wish to bring up their children in virtue and sobriety. In such a town shame and corruption are flaunted before the very faces of your daughters, and there is no escape from it. I tell you, the honest women of no city want a 'wide open town.'"

Twenty years ago Jerry Simpson, the defeated Kansas congressman, then captain of a tow barge, was wrecked on Lake Michigan. About the same time this year he was wrecked on the political sea.

Robert Thornburn of Company F, Thirty-first Michigan, had a sad home coming at Lansing, Saturday morning. His mother, Mrs. Jane Thornburn, lives there, and the young soldier sought to surprise her. He had not announced his coming, thinking to make the meeting with his mother more joyous. Upon arriving he went to his brother's house, where his mother resided, and rang the bell. The summons was answered by his mother who was so overcome by the unexpected appearance of her son that she sank to the floor and died within a moment. Her heart was weak and the excitement of the unexpected meeting was too much for her.

Fred Baker, a faithful employee of the Bryant Paper Company of Kalamazoo, on Thursday grabbed a piece of string which was fastened to a shaft. It wound round his thumb and pulled him over the shaft, breaking both legs and hips, both arms, tore off his thumb and cut his head open, besides inflicting internal injuries. He could not recover, and leaves a wife and three children.

If any man's health is weakened or wasted, or running down, he should take the right means to build himself up strong and well, so that he can both live and care for those he loves. He should investigate the virtues of that great remedy, the "Golden Medical Discovery" originated by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. It is a remedy that makes a man thoroughly well by giving power and capacity to the digestive and assimilating organs. It makes healthy ingesting blood out of the food he eats. It gives him strength and energy to put into his daily task. It builds up hard muscular flesh and nerve fiber, revitalizes the tissues of the throat and lungs, heals inflammation, purges the blood of bilious poisons and makes a man, strong, vigorous and hardy.

"My husband had been sick a long time," writes Mrs. J. W. Britton, of Clinton, Dewitt Co., Ill. (Box 475). "He had declared with home physicians and even went to Chicago and consulted a doctor there but without receiving any help. He went to the hospital and was operated on and after three months came home to die (as the doctors here thought), but after while he commenced to take your wonderful medicine, the 'Golden Medical Discovery' and now, thanks to your most welcome medicine, he can eat anything he wants and is again a well man."

An investigation shows that Eaton county has been well tiled by the sparrow hawk, now under arrest at Jackson. Nearly 69,000 sparrows have been paid for this year, and more than \$1,000, or nearly three times that of any other year, has been paid out. The greatest amount paid out in one month was in July, when \$442 was paid out on order from township clerks, nearly all of which are now thought to be forged.

Seems as if all the things we like disagree with us, and all the things we don't like, agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course, it isn't Nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he may eat what he likes and as much as he likes. Dr. Pierce's Pleasant Pellets are for people who are troubled with indigestion. Particularly for those in whom it manifests itself in the form of constipation. The "Pellets" are quick and easy in their action. They are in perfect harmony with Nature. They effect a permanent cure. You need take them regularly only a little while. After that, use them occasionally when you need them—when you have eaten anything that disagrees with you. They may be used just as freely as you would take water or any other necessity of life. Once used they are always in favor.

My husband was advised to get Dr. King's New Discovery for Consumption, Cough and Colds. I gave it a trial took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman. Trial bottles free at Heber Walsh of Holland and Van Bree & Son of Zeeland. PROPOSES ARBITRATION.

Spain Insists Protocol Permits Her to Fix Terms of Withdrawal from Philippines.

PRESENTS LONG DOCUMENT IN ANSWER.

By Mutual Consent the Memorandum Is Handed to Americans Without Being Read, and Meeting Adjourns Until Saturday—What America Is Willing to Pay for Islands.

Paris, Nov. 16.—The meeting Wednesday of the Spanish-American commissions began at 2:15 p. m. and ended at three p. m.

The Spanish commissioners presented a long document in answer to the American argument which was submitted last week. By mutual consent the memorandum was handed to the Americans without being read and the meeting adjourned to Saturday next. The Spanish communication will be translated and its contents will be discussed by the American commissioners Thursday at their usual daily session.

The Spaniards, in their communication, reaffirmed the position which they have assumed against the discussion here of Spain's Philippine sovereignty. They insist that the words "shall determine the control, disposition and government of the Philippines," in article 3 of the peace protocol, do not warrant any reference to Spain's withdrawal from the Philippines except on her own terms, and therefore the Spaniards propose arbitration on the construction to be placed on the words "the control, disposition and government."

Indemnity for Philippines.

Washington, Nov. 16.—Up to this point the discussion at Paris having touched on principle, there has been no attempt to name exact figures in relation to the amount of money that might be paid to Spain by the United States on account of the Philippines. Such, for instance, was the statement that the United States would reimburse Spain "for the Pacific expenditures" made on account of the Philippines, for no one here at the time had an exact knowledge of what these expenditures amounted to in the aggregate. This has been ascertained, however, to the satisfaction of the American commissioners, at least, and they will name the exact amount of money which the United States is willing to pay over to Spain on this account.

Will Be in Cash.

What is proposed is a cash payment to the Spanish government, for the United States does not propose to enter into any relations whatever with any of the holders of any of the bonds issued by Spain, notwithstanding the efforts of some of the European powers to bring this result about. As to the amount which will be offered to Spain, the officials here are mute, but it is believed to lie somewhere between \$20,000,000 and \$40,000,000. Our commissioners do not look for an unconditional rejection of our offer, but believe there will be an attempt on the part of the Spanish commissioners to secure a liberal increase of the amount named. The American commissioners are under instructions to inform the Spanish commissioners that there can be no further delay in the final conclusion of the work of the commission, so that it is expected a conclusion, one way or the other, will be reached before long to the peace negotiations.

Must Defend Spain's Rights.

Madrid, Nov. 16.—The minister of foreign affairs, Duke Almodovar de Rios, has received dispatches from the Spanish peace commissioners, now in Paris, indicating that Wednesday's meeting of the joint commission will not be the last. The commissioners, it is added, have received additional instructions to defend Spain's rights in the Philippines.

The minister of marine, Senor Aunon, and the minister of foreign affairs have conferred on the subject of Emperor William's visit to Spain.

The newspapers discuss the Carlist agitation, but express belief that the followers of Don Carlos will not issue a revolutionary manifesto.

Can Do Nothing But Submit.

Paris, Nov. 16.—The Journal, referring to the peace negotiations, says: "We think that the extravagant demands of the United States have made discussion almost impossible between that country and Spain. Nothing but submission on Spain's part seems possible."

"As the rumored intervention of the German emperor is a myth, Spain should reconcile herself to the inevitable and set herself about preparing for future struggles."

Discontinue Prosecution.

St. Louis, Nov. 16.—In a letter to Edward A. Rozier, United States district attorney in this city, from Attorney General John W. Griggs, the former was ordered to discontinue the prosecution of David H. Hays, who was indicted in 1897 for embezzlement of \$15,000 postal funds while acting as cashier of the post office at St. Louis.

British Ship Wrecked.

Cuxhaven, Nov. 16.—The British steamer Bede, from Norfolk, October 29 for Hamburg, grounded off Mittelruecken at the mouth of the River Elbe, and has broken in two. Tugs and lighters are attending the wreck.

Sails with Valuable Cargo.

San Francisco, Nov. 16.—The steamer Aztec has sailed for the orient with a cargo valued at nearly \$300,000. She will carry to Manila 4,800 cases of liquor and to Japan 1,250,000 pounds of tobacco.

Called to New York City.

Kansas City, Mo., Nov. 16.—Rabbi Samuel Schulman, of B'Nai Jehuda temple, this city, has accepted a call to Bethel temple, New York city.

SELECTS A PRESIDENT.

The W. C. T. U. Elects Mrs. Stevens, of Maine, as Successor to Miss Frances E. Willard.

St. Paul, Minn., Nov. 16.—At yesterday's session of the Woman's Christian Temperance union Mrs. L. M. N. Stevens, of Maine, was elected president, and Miss Anna Gordon was chosen as vice president at large. The following statement is authorized by the officers of the W. C. T. U.:

"The outlook for the W. C. T. U. in the United States is the very brightest. The burden which has harrassed the local unions for a decade now being dropped will open up the neglected fields of legitimate temperance work. The \$23,000 in the hands of Miss Cornelia Dow, custodian of the Willard fund, will be used to pursue as many temple trust bonds as possible. The treasury will be enriched by the life membership fund, which will reach \$2,000 before the close of this convention. It will be voted to-morrow to raise a Frances Willard memorial fund for the extension and perpetuation of the principles for which she has given her life. Two dollars will be asked from each local union, to be paid annually on the 17th of February, the date of her translation. This, from 10,000 unions, means a fund of \$20,000, as many unions will give enough over that sum to make up for those failing to respond. Organization will be rushed, and a net increase of 30,000 new members is not unreasonable to expect. Altogether the results of this convention are in every way satisfactory."

ELOPEMENT ENDS IN MURDER.

F. E. Frederickson Slain by Anna Swanson's Father Near Webster City, Ia.

Webster City, Ia., Nov. 16.—A murder, resulting from an elopement, occurred near here. Anna Swanson left home in the evening and joined F. E. Frederickson, her betrothed. They went south in a buggy, intending to be married Tuesday morning.

The girl's father had forbidden her going with Frederickson and repeatedly ordered him from the house. As soon as her departure was discovered the father started in pursuit. He overtook the couple, and when he demanded the girl Frederickson opened fire with a revolver. Swanson had his rifle in the buggy and with the first shot he fired instantly killed Frederickson.

Swanson was not hurt, but took his daughter and went to the nearest justice of the peace, where he gave himself up. It is reported that the girl's mind is failing.

Their total tonnage was 1,287.27. For the year 1897 the losses were 63 men and 11 vessels, valued at \$75,750. The average annual loss for the past 25 years has been 16 vessels, aggregating 1,076.18 tons, valued at \$81,978, and carrying an insurance of \$65,579. The annual loss of life for the same period has averaged ten yearly. This year it was 92.

Crime of a Drunken Son.

Reading, Pa., Nov. 14.—Morris J. Lutz, aged 44 years, a shoemaker, was shot and fatally wounded Sunday by his son Harvey, aged about 18. Young Lutz came home intoxicated and his father reprimanded him. This angered the boy and he fired two shots through his father's head. The boy then committed suicide by cutting his throat.

OF GRAND RAPIDS.

Has been selected to represent Michigan in Water Color Portraits at the Trans-Mississippi and International Exposition, held at Omaha, Neb., from June 1st to Nov. 1st, 1898.

The races riots in Wilmington, N. C., and the attendant loss of life, it is charged, all came about through an editorial in the Wilmington Record, of which A. L. Manly, a colored man, was editor. He is now a fugitive from Wilmington, to escape lynching at the hands of a white mob, which had sworn to have his life, and which also destroyed the office and presses upon which the paper was printed. The editorial in question reads as follows:

"We suggest that the whites guard their women more closely, thus giving no opportunity for the human fiend, be he white or black. You leave your goods out of doors, and then complain because they are taken away."

"Poor white men are careless in the manner of protecting their women, especially on farms. They are careless of their conduct towards them, and experience among the poor white people in the country teaches that the women of that race are not any more particular in the matter of clandestine meetings with colored men than are the white men with colored women. Meetings of this kind go on for some time, until the woman's infatuation or the man's boldness brings attention to them, and the man is lynched."

"Every negro lynched is called a big, burly, black brute, in fact many of those who have thus been dealt with had white men for their fathers, and were not only not black and burly, but were sufficiently attractive for white girls of culture and refinement to fall in love with them, as is well known to all."

Mr. Manly says that the trouble all grew out of the fact this much-talked-of editorial had been misquoted by the press of North Carolina, and only parts of it had been reprinted with editorials tending to inflame the whites of the south. This, he says, had been done to try to scare the white voters for political effect. He did not seem to think that the editors of the papers which started the blaze of riot realized the harm which would follow the articles printed in their papers.

After a careful compilation of the election returns it is claimed in behalf of Senator Burrows that of the Republican senators and representatives-elect the Senator has a dead clinch on 39 legislative votes on joint ballot in caucus, leaving 34 to Albert Pack, or whoever else may be designated by Gov. Pingree to receive them. Senator Burrows made a gallant and open fight and is in every way entitled to the fruits of his victory. His re-election was made an issue and the people, through the Republican party, have decreed in his favor in no uncertain manner. Western Michigan is a unit for him; a majority in the eastern part of the state, outside of Detroit, also favors him; and the Republicans as a party demand his return. For a third of a century Senator Burrows has given constant aid to the Republicans of Michigan. For a quarter of a century he has been in public life and his record is the pride of our state. He sat with McKinley in committee and helped make the McKinley tariff law. He took the place of John Sherman on the senate finance committee and assisted in framing the Dingley tariff law. He was one of the senate conferees who completed that law, and he has a just pride in its benefits to American industry. He always was for sound money. For years he has aided in making the Republican policies which have won party victories and brought benefits to the American people. In his recent campaign he gave Michigan his undivided attention and worked day and night from beginning to the end. No one did more than he to win a complete party victory.

The surprising feature of this fall's elections is that, following the general rule, they did not go heavily against the Republicans, the successful issue of the war with Spain to the contrary notwithstanding. Invariably in the first congressional election after a party comes into power and has inaugurated its president, there is disappointment and dissatisfaction. This was even so in 1863, two years after President Lincoln had assumed the helm of state, amid the most perplexing embarrassments. In the November election of that year the Democrats reduced the Republican membership in Congress from 135 to 102, and increased the Democratic membership from 48 to 75. New York gave a Democratic majority on the state ticket of 10,000; Pennsylvania, 8,500; New Jersey, 14,000; Ohio, which had given Lincoln a majority of 20,000, gave a Democratic majority in 1862 of 5,537; Indiana, which had given Lincoln a majority of 23,000, gave a Democratic majority of 9,543; and Illinois, which had given Lincoln nearly 12,000 majority in 1860, gave the Democratic candidate for state treasurer in 1862 a majority of 10,546. Had Lincoln been a candidate for re-election that year he would have been defeated. Considering all this President McKinley has done most remarkably well.

The real significance of the November election is that it put an end to the necessity for any parley by the Republicans with the "friends of silver

in either party." The next senate will be an out-and-out honest money senate, the first for many years. Moreover, the Republican gains in senators will give them the full senatorial representation of the states of largest population and richest material resources—New York, Pennsylvania, Ohio, Illinois, New Jersey, California, Wisconsin and Michigan. It will be the largest Republican representation from the leading states since the foundation of the Republican party. There will not be a Democratic senator in the next senate from any state from the Atlantic to the Mississippi, except in the south and from the lakes to the Ohio river. All the New England senators will be Republican. Maryland, of the border states, will send two Republicans, and its neighbor, West Virginia, two also, Kentucky and Delaware will have one Republican each. Only one large northern state, Missouri, will have Democratic representation in the senate, and the voting strength of the Democrats in that body will come chiefly from the minor, smaller states, and more particularly such of them as have a restricted suffrage. The full extent of Tuesday's victory cannot be truly gauged until it is remembered that the group of United States senators to be elected in 1901 will succeed the thirty whose terms of office expire on March 4 of that year, and that only thirteen of this number are Democrats or Populists and a clear majority of Republicans are from states which were carried by the Republicans on Tuesday. Free silver is balked in the United States senate for the next eight years. Therefore, business men, producers, laborers, and financiers can rest assured that no disturbance of the finances can occur during that long period. Even if some miracle should give us a free-silver House the Senate will stand as a bulwark against flat money or other destructive financial legislation.

Just now it is interesting to note the different verdicts rendered at political inquests held by the sound-money and silver wings of the Democratic party respectively. Both factions are already sparring for position in 1900, and the Silver forces, not a bit dismayed by last week's set-back, are ingeniously explaining how it was done. Geo. P. Hummer, in a lengthy communication to his organ, the G. R. Democrat, appeals to every Democrat who was enrolled under the banner of Mr. Bryan in 1896 to take courage, for "the cause we wage is a just one and must ultimately succeed. There are still enough Democrats in the Republican party who are ready to ally themselves with the Bryan Democrats to sweep from power the Republican party," etc., etc. The same gentleman still maintains that the gold standard owes its latest endorsement to the shortage of the wheat crop in Europe, the stories of gold discoveries in the Klondike, and the expenditures incident to the war with Spain. Col. Wm. Bryan himself has also been heard from and proclaims that "the Chicago platform has not been abandoned by those who endorsed it in 1896, and will be reaffirmed in 1900, because it gives expression to the hopes and aspirations of a large majority of the party." And then there is ex-Gov. Altgeld, author-in-chief of the Chicago platform, let us note what he has to say: "One more such a republican victory will destroy that party and forever end the hypocrisy and false pretense now reigning in Washington.... In Pennsylvania and Delaware and New Jersey and New York and Connecticut and one or two other states where they (the Democrats) had refused to endorse the national platform they have suffered humiliating defeat.... That fraudulent side show, called the gold democracy, will now pass out of existence and the democratic party from the Atlantic to the Pacific will line up on higher ground. It will assume the aggressive and fight for the mighty principles enunciated in 1896. Tuesday's election will make Mr. Bryan more formidable than he has ever been, because it is going to bring to the front the great principles which he has advocated." Whatever else may be charged up to these authors of the Chicago platform, one thing is sure, they are brimful of hope.

In the meantime Boss Croker of Tammany Hall, New York, has left the scenes of his recent conflict and is in Chicago, having an interview with Mayor Harrison and others, how best to relegate the silver question and its advocates to the rear, so as to save the prospects of the Democratic party in 1900 by defeating free silver in the next national convention. It has been the aim of Mr. Croker and Senator Gorman to put William J. Bryan on the shelf and eliminate from the democracy the free silver idea. With this end in view Mr. Croker had secured the nomination for congress in New York of a large number of democrats who were in favor of sound money, and many of these were elected. Says A. J. Eddy, president of the Iroquois Club of Chicago, a leading sound-money Democrat: "Silver and the Chicago platform have been again repu-

diated by the people. One of the consolations of the hour is that Bryan cannot be the nominee in 1900. Yesterday ended what remained of his aspirations. A great party will not again suffer the humiliation of being led by a mere talking machine. The returns show that the gold democrats are steadfast in their opposition to silver and the Chicago platform. They voted the republican ticket, and they hold the balance of power in every close district."

Dr. A. Kuyper in Chicago.

Dr. Kuyper after his return from Iowa, spent last week in Chicago, and delivered a series of three lectures at McCormick Theol. Seminary, also one at the Congregational Seminary and at Englewood. The latter was in the Holland language.

Wednesday evening the Holland Society of Chicago honored him with a banquet at the Athletic Club. Plates were set for seventy-five. The menu was an elaborate one. Above the tables were suspended ribbons, orange, red, and blue, the Dutch national colors. Behind the honored guest's chair was a recent painting of her majesty, Queen Wilhelmina, by Suchze, and on either side of that paintings of Amsterdam and Holland. President Peter Van Schaak acted as toastmaster and the speakers were Wm. K. Ackerman, Geo. Birkhoff, Jr., F. H. Cooper and Dr. Kuyper.

The latter responded to the toast, "The Queen, Her Subjects, and Their Ancestors," and the Inter Ocean gives the following synopsis of what he said: "The professor, who speaks English fluently, though with a strongly foreign accent, referred to the feeling of affection which was entertained by the Hollanders for their Queen.

so proud of the Dutch stock as when he came to America and saw the respect in which the descendants from it were held. In New York he had seen the people eagerly contending which of two men of Dutch blood they should make Governor of their state. He claimed that American institutions were of Dutch warp, although of English woof. It was after the old Dutch republic that they were patterned. He looked for a revival and expansion of the Dutch nation, which would make it in the twentieth century, as in the sixteenth, a blessing to humanity. The Dutch spirit, the old, plous, tenacity, he said, was manifested all over the world—in the Orange Free State and the South African Republic as well as in the United States."

At a "fire" meeting Wednesday evening, attended by the committee on fire department of the common council, chief engineer L. T. Kanfers, and a delegation from each of the hose companies, the question of increasing the efficiency of the fire service in the city was informally discussed, with a view of presenting to the common council a project upon which all might and should agree. It is generally conceded that it is a saving of money to the city to maintain the present volunteer system as long as it can be done consistent with the requirements and exigencies of our growing city. Sooner or later however we must resort to the system of a paid department with its largely increased burdens. The length of time for which this can be postponed is mainly depending upon the extent to which the present system can be made to fill the bill. It was with this object in view that the conference on Wednesday evening was held and that the

He claimed for the Dutch people the highest rank among civilized peoples. If the standing of a nation was to be rated by the honor which they paid to women, he said, that the people of Holland in placing a young girl over them, were entitled to the first rank. He related some anecdotes which revealed the goodness of heart and the strong will of the young Queen. At her coronation the people were moved by her simplicity, frankness, and dignity of demeanor, and their lover for her was boundless. The professor believed that if she came to America she would be a dangerous rival of President McKinley.

Continuing, Dr. Kuyper said: "Of the people which this girl rules I have to say that they are physically such as you see I am; that is to say, stout and hearty; and mentally we can point to novelists, musicians, painters, and scholars who have world-wide reputations."

"In your late war with Spain, there was, of course, no feeling of sympathy on the part of our people with the Spanish; but, on the other hand, the regard entertained for America was much qualified in the minds of many of our people by a remembrance of the financial losses they had suffered through investment in American railroads."

"Our colonies were at one time a source of wealth to Holland, but 'wealth brought sin, sin brought pain, and pain brought us back to God again.' Your Nation is about to begin a career of colonial expansion, and I predict that if your chief motive is simply commerce, and not a philanthropic desire to elevate the people of your colonies, they will inevitably make you unhappy. If broader sentiments move you then God will point out the path of progress."

"I am happy to say that our land is receding from the old unbeliefs and beginning to realize that there can be no happiness without a grasp of something above us. A significant instance of the new spirit with us is the going back to the older ideal of national character, as we find it embodied in the life of William the Silent, and the revival of the national hymn of the reformation, with its grand air and inspiring words."

Dr. Kuyper said he had never been

common council gave the firemen an opportunity to express their ideas upon the most feasible course to pursue. A free discussion ensued, and the recommendation as finally made embraces the following supplemental equipment: A team of horses and a new combination hook and ladder and hose wagon, to be stationed at engine house No. 1, second ward, and a single horse and hose wagon stationed at engine house No. 2, first ward. The idea is that while the horse at No. 2 is to be kept there at all times, ready at call, the team at No. 1 can be worked on the streets during the day, as is the general practise in cities of our size. The project as outlined was favorably received and will be further considered by the committee. Efforts will be made to hand in a report on the matter at the next meeting of the council, embodying details and costs involved.

JONES GETS OUT ALIVE.

Famous Hunter Returns from the
Arctic Circle, But Fails to Bring
Out Any Musk Oxen.

"Buffalo" Jones, formerly of Okla-
homa, now of the arctic, hunter and
traveler, and who was believed to have
died in the north, passed through Seat-
tle the other afternoon on his way
to Troy, Kan., and Chicago. After tra-
versing hundreds of miles in the dreary
north and enduring disappointments
and hardships he returns vigorous and
strong.

Jones has been 17 months in the
arctic. His trip is the most remark-
able on record and would have ended
successfully but that enemies cut the
throats of his musk oxen. He left
Oklahoma in the spring of 1897 with J.
R. Rea, of Alberta, N. W. T., for the bar-
ren lands of the arctic circle, intend-
ing to bring out a herd of musk oxen.
Taking the Edmonton route, he and
his companion pushed along until win-
ter caught them at Great Slave Lake.
He struck across the country and
found the chimney built by the Frank-
lin relief party 30 years ago. It was in
a perfect state of preservation. He
rebuilt the house of ice around the
chimney. The temperature was 68 de-
grees below zero. Musk oxen were
scarce, but wolves and caribou were
seen in droves. Six of Jones' dogs were
killed by wolves and two died of hydro-
phobia after being wounded by wolves.
He got six splendid specimens of the
musk ox, but the night before they
were to start for the states Eskimos
cut the throats of the oxen, owing to
a superstition against allowing them
to go out of the country.

Calumet Baking Powder

has turned the tables on high price baking powders. The
directions on High Price cans are the same as on Calumet
cans, viz.: 2 teaspoonsfuls to a quart of flour, but they say
that one can of High Price will go three times as far as
any other. Can any claim be more ridiculous? The
frantic cry of adulteration, danger and poison made by the
high price baking powder people is a blind to intimidate
the public and induce them to pay fancy prices for their
goods—also to divert attention from this defect in
their own goods.

Calumet Baking Powder is safe. Food baked
with Calumet is absolutely free from Rochelle Salts,
Alum, Lime, Ammonia or any injurious substance.

Monopoly must yield to moderation—
Impurity must improve or go under.

SURE ENOUGH GOLD MAN.

Klondike Miner Whose Anatomy
Yielded Yellow Metal to
Value of \$270.

Abraham Boyle, of Lander, Wyo.,
was a guest at the Great Northern
hotel, Chicago, the other day. Mr.
Boyle has just been discharged from
the insane asylum at St. Joseph, Mo.,
where he was sent as the result of an
extremely odd disease contracted in
the Klondike. During the summer of
1897 he was immersed much of the
time up to his waist in the waters of
the Yukon. His body succeeded in do-
ing what no medicine invented by man
has succeeded in doing as yet, namely
absorb gold. While this process might
be very lucrative it did not add to the
general health of Mr. Boyle. In fact, a
form of paralysis set in that deprived
him of the use of his limbs, and, the
disease spreading upward, he eventual-
ly became insane. Friends took him
to his old home, but his condition did
not improve, and he was taken to
Laramie, Wyo. He was there put un-
der the charge of Dr. William H. Har-
ris, who took him to a Turkish bath es-
tablishment and gave him medicine
that consisted largely of mercury. The
Homeopathic News vouches for the
statement that he was entirely cured
by this treatment, and gold to the
amount of \$270 was drawn from his
system by the mercury.

TO HAVE BAND OF ITS OWN.

University of Chicago Students Will
Organize a Tooting
Corps.

The University of Chicago, founded
by John D. Rockefeller, is to have a
brass band of its own. Student en-
thusiasm and college spirit are to find
expression through instruments of
brass manned by the large-lunged var-
sity rosters. Where once the tom-
toms of the old Midway sounded forth
the measures of popular Egyptian
march music, university talent will
soon be playing rag-time airs and
Sousa's latest successes.

President Harper is enthusiastic
over the prospect and will encourage
the plan, it is said, even to the extent
of taking down his cornet and playing
with the boys a part of the time. The
president was a bandmaster in his
younger days and at one time took de-
light in marching down the street
rending the air with the piercing
blasts of a B-flat cornet. He has
faith in the efficiency of the
trumpet to arouse college spirit among
his students.

A call for volunteers was issued and
personal appeals are being made to
every loyal supporter of the maroon to
join the organization which will play
for the glory of the institution which
bears the name of Chicago.

DEFENDS DANCING CLASS.

Jersey City Pastor Who Provides
Means of Pleasure for the Poor-
er Members of His Church.

Rev. John L. Scudder, pastor of the
Tabernacle and First Congregational
church, in Jersey City, N. J., who has
started a dancing class in connection
with his church work, has done so not
only as a means of keeping the young
people away from other worldly
amusements, but because he believes
dancing, under certain conditions, is
perfectly proper. Mr. Scudder when
regarding the dancing class, said:
"We have Biblical authority for
dancing. Dancing is all right within
certain limitations. In the crowded
section of the city, where the young
people are cooped up in tenements, the
desire to dance is as great as among
the wealthy, who can entertain their
friends and hold receptions in their
own homes.

"There is no place for the poor to
go to dance but to the public halls.
What harm can there be in their dan-
cing beneath the eyes of their pastor
and the deacons of the church? While
I believe that dancing is perfectly
proper in its place, there are limita-
tions I would place upon it."

Was made every day during the period
of the Chicago Exposition by the trains
of the Chicago, Milwaukee & St. Paul

Altho its trains hauled from ten to

was an accomplished fact,—a record to
be proud of, and which has resulted in
establishing the Chicago, Milwaukee

the travelling community as the short-

Chicago to Omaha, as well as to Cali-

Ladies Tailor-Made Costume.

To one who has made a study of the
subject, the increasing popularity of
tailor made garments commends itself
in many ways.

Today the cutting and fitting of
such costumes for ladies has become a
distinct art; and the great demand for
them is a sure sign that they have at-
tracted public favor, not as a fad or
whim of the passing hour, but as a
permanency.

The cut and finish of the tailor-made
costumes outline and set off the femi-
nine figure to far better advantage
than the burly and befrilled crea-
tions of the dressmaker. Under the
management of the ladies' tailor the
costume can be made to give the in-
dividuality of the wearer's appearance
any expression she may desire.—The
Tailors' Review.

THERE'S TROUBLE AHEAD.

Begins to Look as Though Americans Will Have to Fight the Filipinos.

AGUINALDO SAID TO BE TREACHEROUS.

Reported That He Has Said He Will Kill Off Americans Faster Than They Can Be Shipped to Islands—Gen. Merritt's View of the Situation.

Seattle, Wash., Nov. 16.—Capt. John Barneson, commander of the United States transport Arizona, has arrived here from Manila on leave of absence. Capt. Barneson left Manila September 24. He said the general impression among army officers was that when the peace commission concludes its labors the United States troops will have serious trouble with the natives. Admiral Dewey told him that Aguinaldo was not only unreliable, but treacherous. It is said that Aguinaldo has promised his men that immediately upon the withdrawal of the Spaniards he will declare war against the United States.

He says he will kill off American soldiers faster than the United States government can ship them to the islands. Capt. Barneson stated that there is a difference of opinion between the naval and militia men regarding the retention of the Philippines. The naval men strongly favor and the military oppose.

Gen. Merritt's Views.

London, Nov. 16.—Gen. Wesley Merritt, U. S. A., who is still in this city, has read with a great deal of interest the long letter of complaint against American officials in the Philippine islands addressed by the so-called Filipino junta of Hong-Kong to President McKinley and the people. In discussing the Filipinos, the American general refers to them as "children," and says it would be impossible to establish American government in the islands. He adds that they must have some form of colonial government, similar to the British colonial governments.

Regarding the complaints of the Filipinos, the general said:

"It was impossible to recognize the insurgents and I made it a point not to do so, as I knew it would lead to complications. Admiral Dewey, after my arrival, pursued the same course. What was done before is not for me to comment on. I, purposely, did not recognize Aguinaldo or his troops, nor did I use them in any way. Aguinaldo did not ask to see me until ten days after my arrival. After that I was too much occupied to see him.

"In talking with the leading Filipinos I told them the United States had no promise to make, but that they might be assured that the government and people of the United States would treat them fairly. This was because the United States is in the habit of dealing fairly with all struggling peoples, and not because I had been authorized to say anything of the kind.

"We purposely did not give the insurgents notice of our attack on Manila because we did not need their cooperation and did not purpose to have it. We were moved by fear that they might loot and plunder and possibly murder. Aguinaldo's subordinate leaders, in conversing with American officers, frequently said they intended to cut the throats of all the Spaniards in Manila.

"Aguinaldo himself wrote a complaining letter saying the insurgents had been denied 'their share of the booty,' whatever they may have meant by that. I took no notice of this letter nor do I think the subject now raised is a matter for discussion between Aguinaldo and any representative of the American government."

In part, the mayor says in his veto message:

"This bill partakes of the character of sumptuary legislation, which has been generally distasteful for centuries and to which, in common with thousands of good citizens, I am on principle opposed. It is a step backward to the middle ages, and is opposed to the spirit and policy of our free institutions, in that it attempts to abridge the personal liberties of the citizen."

GOES INTO BUSINESS.

Another New York Society Woman Seeks Novel Method of Making a Livelihood.

Another society woman in New York has gone into business. She is Mrs. Frederick E. Parsons, who will buy your gowns, select a becoming winter bonnet for you, dress your children, purchase your silverware, procure your Christmas gifts—in short, do whatever shopping you may need, while you remain at home entertaining your friends or devote yourself to social duties.

Mrs. Parsons is not a philanthropist upon reforming the taste of women in dress and in the household. On the contrary, she is now a business woman who makes shopping a science.

She will go from shop to shop to find what you want, and ask nothing for her trouble. You will not pay a penny more than if you did the work yourself, for she receives a commission from the establishments which she patronizes. It is small, to be sure, but many purchases will swell it into a nice little income.

Mrs. Parsons' personality is charming, and her home is artistic and refined. She belongs to a distinguished New England family, and has always been identified with the best society. She is the daughter of Rev. J. M. Smith, whose home was at Grand Rapids, Mich. She was educated in the east and made her home in New York after her marriage. Her husband was a member of the New York stock exchange.

After his death Mrs. Parsons found it necessary to do something to support herself and her three children. Being essentially a domestic woman, fond of home life and all the pretty things that help to make a house a home, she decided upon her novel business.

LOGANSPOUT HAS DISEASE.

All Water and Gas Pipes Are Being Eaten Away by Electrolysis.

In excavating for repairs of the natural gas mains at Logansport, Ind., the other day City Engineer Osmer discovered that the iron pipes are undergoing chemical decomposition by electrolysis, caused by the escaping current passing along the street car rails and escaping at the joints.

For several years honeycombed pipes have caused the city much annoyance, and the trouble was attributed to an inferior quality of piping. Engineer Osmer was in Dayton, O., last week and the work of eastern experts there caused him to start an investigation here. He finds that nearly 70 per cent. of the current is passing along the pipes by reason of the method of connecting the joints of the street railway tracks by wire which is exposed to the earth.

Some of the pipes are effected which have not been under ground three years, and a piece several feet in length was taken out which resembled an old rusty piece of iron, eaten full of holes.

The principal danger lies with the iron water pipes, which are liable to burst under pressure in time of fire.

Manager Skinner, of the Central Union Telephone company here, denounces the idea as being without any foundation, declaring that the electricity cannot reach the mains.

SILK MANUFACTURES.

Figures Which Show the Phenomenal Increase Since 1860—Imports Greatly Increased.

Silk manufactures in the United States, which in 1860 amounted to \$6,607,771 in value, doubled in the following decade, being, according to the figures of the census of 1870, \$12,210,662; more than trebled in the next decade, being, in 1880, \$41,033,045, and again doubled from 1880 to 1890, being in the latter year \$87,298,454, while a recent compilation by the secretary of the American Silk association shows that since 1890 the rate of increase has been accelerated, making it probable that the silk production of the United States to-day amounts to nearly or quite \$150,000,000 per annum in value. Meantime the importation of manufactured silks has fallen rapidly, that of 1890 being \$38,866,374, and that of 1899 only \$23,523,110.

Imports of raw silk, which in the fiscal year 1897 were 6,613,612 pounds, were in 1899 10,315,161 pounds, and the total value of raw silk imported in 1898 was \$31,446,800, against \$18,018,283 in the preceding year.

Manufacturers have apparently begun giving their attention to the foreign markets: their exports, which in 1875 were \$19,032, having increased to \$56,659 in 1888, \$161,673 in 1893, and \$297,074 in 1898. During the month of August, 1898, the exports were \$27,251, against \$21,400 in August, 1897, an increase of 28 per cent. in a single year.

Don't Go It Blind.

THERE'S NO NEED TO IN HOLLAND—
THE WAY IS ALMOST HEDGED
WITH GUIDEPOSTS.

Have you ever read a newspaper article, a glowing account of some accident told in elusive words to lead you on and found it ended up with a proprietary medicine advertisement? Made you mad, didn't it? And were you convicted of the merits of the article? We think not, because it told the experience of some stranger in a far off town and to take his word for it was like going it blind. It's a very different thing when a statement is prescribed from a citizen: from people we know and that's the case here:

Mrs. E. Mulder, living five miles east of Holland, near Eebenezzer, says: "I have been a sufferer for years from deranged condition of the kidneys. The secretion from those organs were irregular and unnatural, I could not rest comfortably at night and rose in the morning feeling tired and unfreshed. The least cold or a strain always aggravated the constant, heavy aching pains throbbing the small of the back. I had heard Doan's Kidney Pills so highly recommended that I made up my mind to try them and procured a box at J. O. Doesburg's drug store and used them. I felt better after the first few doses and in a short time I was entirely rid of the trouble. The pills also acted as a good general tonic in my case and I can recommend them very highly to anyone needing such a remedy."

RACE RIOTS DOWN SOUTH

Exasperated North Carolina Whites
Wreak Vengeance on Members
of the Colored Race.

NINE NEGROES ARE KILLED IN BATTLE.

Three White Men Are Wounded—The Entire Municipal Government Resigns at Wilmington—Cause of the Trouble—Bloodshed in South Carolina Over an Election Row.

Wilmington, N. C., Nov. 11.—After a day of bloodshed and turbulence Wilmington has subsided into comparative peacefulness. Nine negroes were killed and three white men wounded during the day, one of them, William Mayo, seriously. The city is in the hands of a new municipal government and law and order is being established. Thursday afternoon the board of aldermen resigned one by one. As each alderman vacated the remainder elected a successor, named by the citizens' committee, until the entire board was changed legally. They resigned in response to public sentiment. The new board is composed of conservative democratic citizens. The mayor and chief of police then resigned and the new board elected their successors, according to law. Ex-Representative Vaddell was elected mayor and E. G. Parmelee chief of police.

Cause of the Trouble.

The trouble in Wilmington commenced at 8:30 Thursday morning, when an armed body of citizens, numbering about 400 and led by ex-Representative Waddell, chairman of a committee of 25 appointed for the purpose, proceeded to the publishing house of a negro newspaper, the Record, to wreck it. The editor of this paper had published an article defamatory of white women, and a mass meeting of citizens on Wednesday ordered his expulsion from the city within 24 hours and the removal of his press. Fifteen leading negroes were called in by the committee of 25 Wednesday night and directed to notify the chairman by 7:30 Thursday morning whether they would agree to the removal of the press. They were informed that if no answer was returned the press would be demolished. No answer was received by the chairman Thursday morning, and after waiting an hour the citizens proceeded in a body and demolished the fixtures of the printing office. The building was also fired and gutted. The leaders say that this action was the work of irresponsible persons, and as soon as the fire was discovered the fire department was called to extinguish it.

BLOODSHED IN SOUTH CAROLINA.

Six Negroes and One White Known to Be Dead as Result of Election Row.

Washington, Nov. 11.—A special to the Post from Greenwood, S. C., says Five negroes lay dead at Rehobeth all day along the roadside, another was killed Thursday and likely four others are dead and lost in the woods. One white man was buried, three others lie at the point of death and six more have been wounded. Four heads of families have left the country and armed troops of countrymen are scouring the country hunting other victims. All of this is the outcome of an election row at Phoenix.

The trouble was precipitated on election day, when 200 negroes at the polls opened a fusillade at the store in which the voting was going on. In this J. L. Etheridge (white) was killed and Tolbert was wounded. The second provocation was that a party hunting the slayers of Etheridge was fired into and one, Miller, fatally wounded and Fleming badly hurt. The arming of the negroes at the polls, the killing of Etheridge, the firing from ambush, all conspired to kindle a flame of passion and when that will die down two others are said to have confessed taking part in the ambush.

Kissed a Hero.

Des Moines, Ia., Nov. 14.—The famous kissing of Lieut. Hobson by Miss Arnold and Commodore Schley's similar greeting by the girls in the navy department are insignificant incidents when compared with the reception accorded Chief Boatswain's Mate Osborn Deignan on his home-coming to Stuart Saturday, for half a hundred girls kissed the Iowa man. Deignan was one of Hobson's crew and steered the Merimac into Santiago harbor. He is a modest youth of 21.

A Murderer Sidelined.

Manitowoc, Wis., Nov. 14.—Ernest Messmann, who was arrested for the brutal murder of Mr. and Mrs. John Bahls, at Mishicot on November 3 and placed in jail here for safe keeping, was found dead in his cell, having taken his own life by hanging. He used a towel to commit the deed. Before taking his life Messmann made a full confession to the sheriff of the atrocious crime.

Robbed by a Negro.

Springfield, Ill., Nov. 14.—John T. Pennington, bookkeeper at the Springfield Paving Brick company's plant, two miles southeast of this city, while en route to the plant from the city with \$800 in his possession with which to pay off the men employed there, was held up by a masked negro and the entire amount taken.

Many Horses Burned.

Sibley, Ia., Nov. 14.—At five o'clock Saturday morning Littlechild Brothers' livery barn and 19 horses burned. The fire reached Main street and burned 12 buildings, with merchandise. Loss, \$25,000; insurance, \$12,000.

After Long Idleness.

Pittsburgh, Pa., Nov. 15.—Window glass factories, with a capacity of about 1,100 pots, have started work, and nearly 10,000 men and boys are earning their first money in over six months.

PAVILION FOR THE POOR.

Mammoth Structure for Their Comfort to Be Erected on Coney Island Beach.

Four words spoken at the meeting of the board of estimate in the New York city hall will mean in future comfort, pleasure and happiness for thousands upon thousands of the poor of New York.

When the sweltering days of next summer come there will be on the shore of Coney Island a mammoth pavilion open to the public with accommodations for 10,000 persons.

It will be a public building run by the city. Its vast colonnade will stretch along the ocean front, and every comfort will be provided for the poor and suffering New Yorkers who want rest and fresh air.

Mayor Van Wyck and the board of estimate listened to a strong appeal by Deputy Commissioner George V. Brower, of the department of parks of Brooklyn. He asked for \$150,000 for a pavilion on Coney Island. The members of the board were skeptical, and were about to order the appropriation out of the budget. Commissioner Brower persevered and Mayor Van Wyck approved.

HIS NOSE COVERS HIS FACE.

New York Lumberman Seeks Surgical Relief for a Most Peculiar Affliction.

Richard Smith, a young lumberman, came from the Adirondacks to New York the other day to have his nose doctored. It has been growing all his life and shows no signs of stopping.

Four months before Smith was born his mother was struck on the nose by her husband in a fit of anger. She tried to stop the flow of blood by pressing the nostrils tightly with her thumb and forefinger. Upon the nose of the child, when it was born, was a mark on each side resembling a finger print. These marks, plainly visible now, are, according to the surgeons, the cause of the nose's growth.

Smith's nose has been growing ever since his birth. It has enlarged from where it joins the forehead to the tip, now below his chin, and hiding his mouth. It is as large as the two flats of a man.

Unable to Sleep.

AN AFFLICTION THAT MADE A WOMAN A BUNDLE OF NERVES.

Mrs. James Arthur, of Spokane, Suffered Excruciating Agony—Her Condition Creates Much Discussion.

From the Spokesman-Review, Spokane, Wash.

Mrs. James Arthur, of 1021 Augusta Avenue, Spokane, Wash., who suffered excruciating agony from rheumatism has created much discussion among her many friends. She told a reporter the following story of her sufferings and cure:

"From August, 1895, to the following January, I suffered from rheumatic pains. For weeks at a time the pain was so excruciating I was nearly crazy. Night after night I walked the floor unable to sleep. From a healthy woman weighing about 160 pounds I became a weak, thin bundle of nerves, unable almost to perform any ordinary household duties. Every time we had a spell of bad weather the awful agony would begin.

"Prior to August, 1895, I had doctored with Dr. Power. He said I had sciatica and muscular rheumatism. He gave me some medicine that seemed to do me good. Any way it stopped the pains at that time, but in August they came again worse than ever. I did not go to him again thinking he had made some mistake in his diagnosis of my case. One day while glancing over a San Francisco paper, I noticed an article regarding Dr. Williams' Pink Pills for Pale People and that they contained in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. The article contained an account of a case similar to mine that had been cured and I decided to try the pills. I went to the wholesale drug store, the Spokane Drug Company's place, at the corner of Sprague and Howard and bought a box.

"The pills are wonderful. I took two doses and the pain ceased. My limbs and feet were swollen and the agony was intense, but after taking the pills, the swelling went down and the pains ceased. I continued taking the pills until I had used two boxes, I think, and felt I was cured. The pills I found also gave me renewed strength and a better appetite, which was poor before.

"My lady friends who knew of my sufferings were much surprised to see the change in me, and frequently asked how it had been accomplished. I used the pills when I thought necessary for over a year before I told them. Now several of my friends are using Dr. Williams' Pink Pills on my recommendation, and they all tell me that the results are satisfactory.

"It is marvelous. I would not be without the pills. The other day while I was cleaning house, a lady friend called and found me scrubbing and washing. She knew I had been subject to rheumatic attacks and was astonished at seeing me thus engaged. When I explained to her how Dr. Williams' Pink Pills had helped me by stopping the rheumatic pains and also by giving me strength and could be had for 50 cents a box, she at once decided to give them a trial, which she is doing with much benefit.

"I am 48 years old, but feel much younger now than I did a year ago, and I did considerable more work this spring than I have done for five years.

If any one should desire to hear more from me regarding the merits of Dr. Williams' Pink Pills, I will answer any letters they may send me. They certainly give marvelous relief."

The day Mrs. Arthur was interviewed by the reporter was one of a series of rainy days which come so unexpectedly after a period of bright warm weather. It was a day when rheumatism ordinarily would appear in its most agonizing form, yet Mrs. Arthur was busily engaged preserving fruit. She had every appearance of being in excellent health.

The schr. Aberdeen, beached near Grand Haven harbor, was released Saturday and towed to Milwaukee to be docked for repairs. She is valued at \$60,000 and her cargo of barley which was in port pumped overboard, at \$27,000.

Another car ferry will be placed on the Detroit, Grand Rapids & Milwaukee railroad. She will run in conjunction with the ferry Shenago No. 2 and in good weather and a busy season will give Muskegon a steamer to Milwaukee every twelve hours. The steamer Moran, recently purchased by the Crosby Transportation Co., has started from Duluth for Buffalo and from there will run to Manitowish, Wis., to take her place on the Manitowish-Sheboygan-Muskegon-Grand Haven run. She succeeds the steamer Minnie M. on the route.

Mortgage: Saturday the steamer Nellie caught fire while lying at her dock. Her fastenings were burned and in a mass of flames she drifted out into the lake. Fred Robinson, the only occupant of the boat, was not awakened until after she drifted 20 rods from the dock. He had no alternative but to jump for his life and swim to the dock. The boat, after burning to the water's edge, sank in deep water. The boat was insured for \$1,000.

November is a month full of peril for the shipping on the great lakes. The winds are frequently of midwinter violence, and the heavy snow storms that sometimes accompany them make navigation exceedingly difficult. Compared with October, the number of severe storms is greater; northwesterly gales continue for a longer time, and the weather is more likely to be overcast and threatening.

There is a hot tug war on at Chicago. The outside tugs of the lines are running far down Lake Michigan, frequently going even to Sturgeon bay canal in search of business. The tow bill on incoming craft begins at the mouth of the Chicago river and the gratuitous work of the tugs is making good times for the lumber schooners, as it saves many dollars in wages for the crews.

At the lake front of Lincoln Park, Chicago, the waves of Lake Michigan are tearing great holes in the sea wall and the paved beach. The Park commission had just got well under way repairing the serious damage done by the storm of October 25, but the heavy breakers of last week have now put the whole shore line in a worse shape than ever. The action of the waves has undermined the outer driveway in Lincoln Park, after washing over and displacing the heavy granite blocks with which the beach is paved. The surf played havoc with the sea wall on the Lake Shore drive and ate its way into the dirt embankment.

The S. Thal, a tramp two masted schooner, foundered off Glencoe, Ill. in Wednesday night's gale and went to pieces in the surf. No trace of

the crew has been found and it is believed that they have all perished. On board the schooner were Capt. J. Schuttman and a crew of three men whose names are not known at Milwaukee, where the crew was shipped.

The schooner Lena Nielson tried to make St. Joseph harbor during the gale of Friday last, and failed. She drifted several miles and then the crew succeeded in getting up a little sail and she headed out into the lake with four men on board. Not long there after she was reported ashore at Lakeside, and the life-saving crew of St. Joseph started by train to the aid of the vessel. Mayor Starr sent blankets and clothing for the crew. The rescue of the men was attended with great peril. They had been drenched for 20 hours and were so nearly dead from exposure that they could scarcely fasten the line to the spars of their craft. One of their number had been kept alive for hours only by his comrades pounding his body to keep up circulation. The rescued were being cared for by the farmers in the vicinity until they were able to go to their homes. The Nielson was owned by Capt. Nielson and is a total loss. Her value was \$3,000. The cargo of lumber was consigned to the Peters Lumber company, of Benton Harbor.

The Goodrich line will take a try at the Chicago-Mackinac route next season. For years the Lake Michigan & Lake Superior Transportation Co. has had almost a monopoly of this route. The business between Chicago and the resorts to the north, notably Mackinac Island, Charlevoix and Pe-toskey has increased enormously during the last eight years, and the increase continues with each year. It may be that there will be business enough for all.

Col. Lydecker soon after the wreck of the steamer H. A. Tuttle blocked the entrance to Michigan City harbor, gave the customary thirty days' notice to the owners and underwriters to remove the wreck. Since then the boilers and engine were sold to Crosby, of Milwaukee, and the notice was also served on him. Thus far no move has been made to get the wreck out of the way. It is absolutely necessary that the entrance be cleared before ice closes it up. More than 20,000,000 feet of lumber has been contracted to be brought down to Michigan City this fall, and none of this can be moved at this time.

The treasury department gives notice that the work of removing the wreck of the steamer City of Duluth, sunk on the northerly side of the entrance to the harbor of St. Joseph, has been placed under contract and the contractor is now on hand with his plant for carrying on the operations.

The schooner Iron Cliff, which was beached at Chicago last week, almost directly in front of the Auditorium Hotel, has been released and placed in dry dock.
