Dr. Albert Oltmans, who since 1886 has been connected with the missions and educational work in Japan under the auspices of the Reformed Church, has requested and been granted by the board a leave of absence for an indefinite time, same to go into effect May 1, 1908.

R. W. Scott, employed by the Metropolitan Insurance company, and who was transferred to Grand Rapids a few months ago to be employed there as assistant superintendent, has been put in charge here of the local office as superintendent to succeed J. E. Walker, who will work for the Illinois Life Insurance company. Mr. Scott has made a success for the time he has been employed at insurance work.

Notice was served on many boys and girls at an early hour Friday morning to at once remove the soap and tallow from begrimed windows which the youngsters had decorated on the occasion of Halloween the night before. A large force of patrolmen in citizens' clothes was placed on duty and a tab was kept of many of the names of the merry-makers. As a result many of the juveniles had their first experience at cleaning window under the eyes of a patrolman.

Leonard Kramer had a hearing before County Agent Roosenraad, Saturday afternoon, in Justice Van Duren's court. Kramer has a bad record back of him. Only a short time ago he with some other boys, broke several window lights in Attorney Visscher's boat house and for some time he has been in several mixups, and the officers thought it best to put him where he will be have. He is now 14 years of age and will have to stay at the reform school until he is 17. He was taken by County Agent Roosenraad to Lansing.

J. E. Murray of this city, general agent for the Banker's Life Association of Des Moines, Iowa, early this week paid over to the family of the late L. Fris \$4000, the amount of insurance carried in that company.

While disclosing nothing of importance in the case, the officers express confidence that they have enough evidence to prove beyond a doubt that Shimmel is the man who should be punished for the murder of Martin Golden. Much of the old testimony and much new evidence has been introduced by the state.

The county jail was without heat the other day and sheriff and prisoners alike were treated to a little game of freeze out. For some unknown reason the boiler gave out letting out the water and filling the whole building with smoke. Until workmen could make repairs the jail was without heat.

J. W. Graves, late publisher of the Grand Haven Advocate, has moved with his family to Galena, Ill. and is now publishing and managing the Galena Weekly Tribune. Galena is known the country over as "Grants town." The general lived at Galena for a number of years prior to the Civil War. It is one of the towns on the big river and is a lead and zinc mining center.

Roswell P. Bishop has been appointed by President Roosevelt on the Spanish Treaty Claims Commission and now holds the same position formerly occupied by Congressman Diekema. Mr. Bishop is well known in Holland as he was formerly on the Harbor appropriation committee and in that capacity did noble work for our harbor.

John A. Vanderveen, proprietor of the Boston restaurant, will resort to the novel scheme of sending each of the city aldermen a bill for \$5 even though he has no account against them. Mr. Van der Veen claims that he is just as much entitled to the payment of the individual accounts as the aldermen who propose to have the city collect the \$5 license for operating restaurants.

Saturday evening a ten-dollar note mysteriously disappeared from sight in the Peoples State bank and although a rigid search was instituted it was not recovered until Monday, when the janitor, G. Verburg, noticed it clinging to the back of a radiator. C. Stam, the owner was completely mystified as to its disappearance and was even more surprised when it was returned to him with the strange explanations as to its hiding place.

Announcements were received Saturday morning of the death of Mrs. L. A. M. Riemens, which occurred October 20 at her home in Huize Hazenberg, Maarsse, Netherlands. The Riemens family is well known here; having resided in this city for several years. She is survived by a husband, a son, Dr. L. A. M. Riemens, in the East Indies, and two daughters, Adrie and Johanna Antoinette, the latter being selected as valedictorian of her class when she graduated from Hope college in 1902.

The closed season now prevails among Grand Haven commercial fishermen. The tugs made their last trip out to the reef Friday and brought in their nets. Some big catches have been made on the reef this fall. The Dornbos made the banner catch, one of 3900 pound. Friday the Dornbos brought in 1800 pounds of trout, the Anna, 2300 and the Augur, 2100. For the balance of the season the tugs will fish for herring in close waters. Some unusually big trout have been caught in the reef nets this fall. A hook was found in one of the big monsters of midlake. This fellow had evidently at some time or other ran up against some of the hooks of the Wisconsin fishermen as the commercial fishermen of the west shore use baited hooks to a large extent. The fishing on the reef was done in about 40 fathoms of water this fall and from the catches that were made there has evidently been no diminution in the watery population out there. The tug crews often caught sight of the lower lake liners while fishing at the reef. Friday three of the big fellows loaded way down passed between the tugs and the Grand Haven shore.

Engel Achterberg is building a house for himself in Te Roller's addition on 22nd street.

The final chapter in the history of the defunct Walsh DeRoos Milling & Cereal company was closed yesterday when the office supplies were sold to the junk dealer. The consignment comprised about 5,000 pounds and consisted of the company's books, stationery, labels and other supplies. The property is still in the hands of the trustees and an effort is being made to utilize it for a manufacturing institution.

C. H. Thompson traveling salesman for the firm of Delbridge, Smith & Co., Chicago was arrested by Chief Kamferbeek on the charge of cashing the company's checks and appropriating them for personal expenses. He was locked up in the jail pending the arrival of the Chicago authorities. It is alleged that Thompson cashed the company's checks in Kalamazoo, Muskegon, Grand Rapids and other cities.

Richard VanOort was apprehended by Deputy Game Warden C. Doornbos Tuesday night and arraigned before Justice Van Duren yesterday morning on the charge of illegal fishing in Macatawa bay, near the Grand Haven bridge. He pleaded not guilty and furnished bonds in the sum of \$300 for his appearance next Tuesday. According to the deputy who made the arrest, when he and his assistant approached Van Oort leaped into the water and hastened to the shore near the German gelatine factory. He afterwards returned by way of the wagon bridge, when he was nabbed. Van Oort asserted that he fell into the mud. His companion escaped.

Clark, Grand Haven; Bert Wheat, Robinson; Dr. Chappel of Grand Rapids. The party will leave here Monday night going directly to Newberry, U. P., from where they will go directly into game in the deep woods. The party is well supplied with a camping outfit, with which they are kept comfortable although the weather is usually very cold in the north woods at this time of the year.

Joseph Annis of this city recently secured possession of a copy of the old Detroit Gazette, which was printed nearly a century ago. The relic proved a handsome investment, as he refused an offer of 30 times the purchase price, which was a quarter. The publication is dated July 25, 1817, and is printed in both French and English. The market quotations form an interesting comparison with the present high prices prevailing. Flour is quoted at \$14 per barrel; butter, 31 per pound; cheese, 25 cents per pound; eggs, 37 cents per dozen; fowl, \$1 per pair. Wheat and corn brought the farmer \$2 per bushel; oats, \$1 per bushel; and potatoes, \$1.25 per bushel. Labor then brought \$3 a day, for most of the people were either gentlemen or the hardy pioneers who were working for themselves and not obliged to work for others.

Fred Jones, 20 years old, residing at 191 East Thirteenth street, was terribly crushed and mangled by being run down by a heavy switch engine in the yards of the Pere Marquette railroad at Wyoming. He was taken to St. Mary's hospital in Grand Rapids, where he died at 11 o'clock. Before he died he said that his mother's name was Arnsma and that she lives at the address in Holland. He said that he made his home with her, but had a sister, Mrs. Arnold 475 Terrace avenue, Grand Rapids. He continued to talk until the loss of blood and the shock gradually consumed his strength.

Gerhardus Posthumus, the well known marble dealer, is one of the few Hollanders who will not relinquish allegiance to Queen Wilhelmina until the day of his death, although he came to America about twenty years ago. Mr. Posthumus is a pensioned subject of the Netherlands government and draws a good voucher every year for distinguished services in the army of his native country for a period of almost twenty years. As a reward for service in important military maneuvers he was honored with an emblem bearing the insignia of Wm. III on which are fastened three clasps containing the names of the three most distinguished battles in which he took an active part. Besides the token he was presented at the close of his army career in 1882 with a silver medal from the king and these two awards he prizes very highly.

An annual event of more than passing interest was observed last Wednesday by three sisters who have the unique distinction of being triplets at the age of 66 years and letters of congratulations are dispatched both ways across the Atlantic on the date of their anniversaries. The triplets were born in the Netherlands and are Mrs. J. Krokkee of this city and Mrs. Adriana DeBlaa and Mrs. P. Oeneer of Axel, province of Zeeland, the home of their birth. Mrs. Krokkee was the only one of the trio to sever home ties by emigrating to America and came here shortly after her marriage nearly 40 years ago. Her two sisters are both widows and she has not seen them for 40 years. They were members of a family of 10 children, seven of whom are living. A brother resides in Beavertown and the others are still in the Netherlands. Although the trio jointly were mothers of 17 children, in none of these families have triplets or even twins made an appearance. Mr. and Mrs. Krokkee have been residents of this city for 20 years and since that time Mr. Krokkee has been employed in the Cappon & Bertsch tannery.

## Time Is The Test.

The Testimony of Holland People Stands The Test.

The test of time is what tells the tale. "A new broom sweeps clean," but will it wear well is what interests most. The public soon find out when misrepresentations are made, and merit alone will stand the test of time.

Holland people appreciate merit and many months ago local citizens public endorsed Doan's Kidney Pills; they do still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

Mrs. F. Brieve, living at 60 W. First street, Holland, Mich., says: "My husband suffered from kidney trouble, had backache and soreness and stiffness of the limbs so severe at times that he could hardly lift anything. The secretions from the kidneys were very much disordered and he was restless and unable to sleep at night suffered from frequent headaches and dizzy spells. He saw Doan's Kidney Pills advertised, used them carefully as directed and was soon cured." (From statement given April 26, 1900.)

## A PERMANENT CURE.

On December 12th, 1906, Mrs. Brieve confirmed the above statement saying: "Mr. Brieve thinks just as highly of Doan's Kidney Pills as he did in 1900, as the cure they then effected has proved permanent and he has not suffered from kidney trouble in any form since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, Sole agents for the United States.

Remember the name-Doan's and take no other.

## Prepare The Mixture Yourself As Advised.

Mix the following by shaking well in a bottle, and take in teaspoonful doses after each meal and at bedtime.

Fluid extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. A local druggist is the authority that these simple, harmless ingredients can be obtained at nominal cost from our home druggists.

The mixture is said to cleanse and strengthen the clogged and inactive kidneys, overcoming Backache, Bladder weakness and Urinary trouble of all kinds if taken before the stage of Bright's disease.

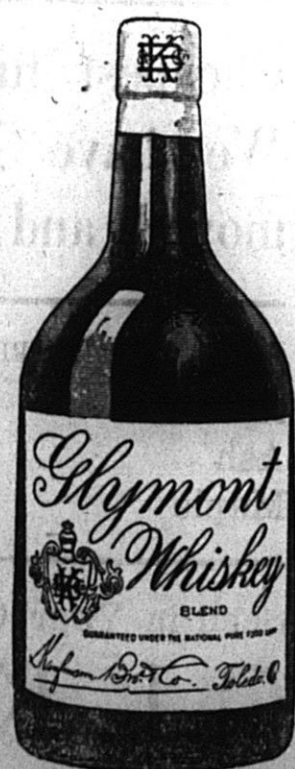

Those who have tried this say it positively overcomes pains in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or acting in a healthy manner should mix this prescription at home and give it a trial, as it is said to do wonders for many persons.

The Scranton (Pa.) Times was first to print this remarkable prescription, in October, of 1906 since when all the leading newspapers of New York, Boston, Philadelphia, Pittsburg and other cities have made many announcements of it to their readers.

## CAFFEREY POSTS SANDER'S

POLITICAL SITUATION IN LOUISIANA IS DRAMATIC.

Lieutenant Governor's Friends Refuse to Let Him Fight with Son of Former Senator.

New Orleans, Nov. 4.—The firm reply of Lieut. Gov. J. Y. Sanders Sunday to what has been universally accepted as a challenge for a duel by Donelson Cafferey, son of the late United States Senator Donelson Cafferey, has created a dramatic political situation in Louisiana.

Another matter, entirely foreign to the personal combat, increases the tension. The practically rival proclamations of the lieutenant governor and of Gov. Blanchard of the coming extra session of the legislature were brought face to face by the governor's arrival here Sunday from the east.

Early Sunday morning, in close conformity to the code of honor, Mr. Sanders issued a written reply to the statements of Mr. Cafferey. This statement declared that the lieutenant governor holds himself personally responsible for the utterances which caused the trouble, and adds: "I am prepared to meet that responsibility and Mr. Cafferey knows where to find me."

Preceding this statement two representatives of each man in the dispute had held conferences and Mr. Sanders' friends had declared firmly they would not accept a challenge in accordance with the duelling code because the lieutenant governor could not violate the statute law making duelling a crime.

Next followed the "posting" of several sections of the state by Mr. Cafferey with hand bills stating that satisfaction had been refused him by Mr. Sanders. These hand bills declared that the lieutenant governor had called some of Mr. Cafferey's statements untrue.

The discretion of both the lieutenant governor and Mr. Cafferey is relied on to prevent a personal encounter. There are fears, however, that friends of the disputants may be drawn into a serious quarrel.

## POLICE HEADQUARTERS BURN.

Incendiary Fire in Buffalo Destroys Records and Injures Firemen.

Buffalo, N. Y., Nov. 2.—Police headquarters of this city was practically ruined Friday afternoon by fire discovered in the lavatory and which spread rapidly through the two top floors.

All of the 30 prisoners were removed in safety. This is the fourth time the building has been on fire within a few months.

"Police records, the rogues' gallery and many important documents, including the original copy of Leon Czolgosz's confession of the assassination of President McKinley, were destroyed. The fire was of incendiary origin. Two companies of firemen were caught in the collapse of the roof and cupola and eight men were seriously injured. None will die.

## BIG WINE CELLARS BURNED.

Largest and Oldest Plant in Chautauqua Grape Belt Destroyed.

Dunkirk, N. Y., Nov. 2.—The G. B. Rickmans Wine company cellars at Brocton, the largest and oldest plant in the Chautauqua grape belt, were destroyed by fire Friday night. There was over three-quarters of a million gallons of wine in the cellars and the loss will reach \$250,000, partly covered by insurance. The flames for a time threatened to wipe out a good part of the village.

## LIFE CONVICT KILLS GUARD.

Attempts Escape with Dynamite and Then Slays Self.

Rawlins, Wyo., Nov. 2.—A convict named A. Eckard, serving a life sentence, Friday shot and killed Ed Samuelson, day cellhouse keeper at the state penitentiary, in an attempt to escape. Eckard had a pistol and a stick of dynamite and when Samuelson opened his cell the prisoner shot him dead. Eckard then tried to dynamite the outside door and, falling in this, shot and killed himself.

## CENTRAL AMERICA TO SEND NOTED MEN

DELEGATES TO THE PEACE CONFERENCE AT WASHINGTON THIS MONTH.

Bonilla for Honduras—Four Other Republics Also Will Be Represented by Their Leading Statesmen, Lawyers and Political Writers.

Washington, Nov. 4.—The Central American peace conference which will convene in Washington, probably on November 11, will draw to this city as delegates the leading statesmen and professional men of Costa Rica, Guatemala, Honduras, Nicaragua and Salvador, as well as the ministers accredited to the United States from those countries. These men will assemble here to represent the hopes entertained in the various republics that the conference may effectually end wars between themselves and revolutions within their borders.

In addition to their regularly accredited ministers to the United States, Guatemala, Honduras and Salvador have sent two delegates each, while Costa Rica and Nicaragua have sent but one.

## Honduras Sends Bonilla.

Probably the most picturesque figure who will be seen at the conference is Senor Policarpo Bonilla, a former president of Honduras, and now the recognized leader of the liberal party in that country. He is said to be a lawyer of great learning and ability. He will have as his colleague Senor E. Constantino Fiallos, C. E., now secretary for foreign affairs, and an authority in political science. He began his political career as secretary of the Honduran delegation to the first pan-American conference.

The chairman of the Costa Rican delegation, Senor Luis Anderson, is the youngest member in the cabinet of President Gonzales Viquez, holding the portfolio of foreign relations and public education. He is one of the prominent lawyers of his country.

## Noted Men from Guatemala.

Guatemala has sent as chairman of its delegation Dr. Antonio Batres-Jarregui, a prominent lawyer, whose services have been most important to his country. He is dean of the Guatemalan diplomatic corps and has been chief justice of the supreme court of Guatemala, member of the council of state, member of congress, chairman of the Guatemalan delegation to the third pan-American conference, and is recognized as one of the best-known writers of Latin America. Victor Sanchez-Ocana, who accompanies Dr. Batres, is a distinguished member of the Guatemalan bar and prominent in state affairs. He was director of the national college and postmaster general of Guatemala for a long term, and has lately represented his country in a diplomatic capacity.

## Other Brilliant Delegates.

The chairman of the Nicaraguan delegation will be Dr. Jose Madriz. He is an able lawyer and a public writer of renown. His political career has been varied, he having held offices of great trust, among others that of secretary for foreign affairs.

Salvador will have as chairman of its delegation Dr. Salvador Gallegos, who represented his country in Costa Rica at the time of the negotiation of the San Jose treaty in 1906. He has had a long and brilliant political career, having been for many years secretary for foreign affairs. He will be accompanied by Dr. Salvador Rodriguez, a lawyer, public writer and an accomplished orator, who represented his country in the San Jose conference.

## STEEL TRUST IN BIG DEAL.

Secures Control of Tennessee Coal & Iron Company.

New York, Nov. 5.—The United States Steel corporation has secured a controlling interest in the Tennessee Coal & Iron Railroad company. The deal was concluded Monday and is traceable to the conferences held at the home of J. Pierpont Morgan Saturday and Sunday.

It is understood that the price paid is a little above \$85 a share. The holdings of a pool controlling some 70 per cent. of the stock of the Tennessee Coal & Iron company were transferred in the sale.

## Admits Taking Bribe; Fined \$200.

Milwaukee, Nov. 5.—Max Reinholdt, former supervisor from the Nineteenth ward, pleaded guilty Monday afternoon before Judge Brazo to the charge against him resulting from the grand jury investigations. He was fined \$200. Reinholdt was charged with accepting a bribe of \$50 in connection with a county hospital contract several years ago.

## TRUST COMPANIES TO BE SUPPORTED

MORGAN AND OTHERS DECIDE TO AID TWO INSTITUTIONS OF NEW YORK.

Stocks Moving Upward—Turn in Financial Crisis Seems to Be Reached—Three Small Banks in Kansas Are Compelled to Close.

New York, Nov. 5.—The buoyancy of the stock market Monday reflected the ultimate decision of large bankers to support the two institutions—the Trust Company of America and the Lincoln Trust company—which have been subjected to the most severe runs during the last two weeks.

The day was one of doubt and conflicting rumors, and the fact that it passed without an adverse development is evidence that the worst of the situation is probably over. At a late hour in the morning an agreement was reached, largely through the influence of Mr. Morgan, by which the trust companies will cooperate in future for their mutual protection and the directors will lead the assistance of their personal fortunes to meet immediate necessities.

## Turn in the Crisis Reached.

The achievement of these results, with the steady upward movement of the stock market till near the close, is believed to mark the turn of the crisis. The loss of \$30,000,000 in cash by the clearing house banks, according to their Saturday showing, in spite of \$30,000,000 which had been poured into their tills during the week from the treasury, was expected to have a disturbing effect. It was a worse showing than will be possible again in the face of the heavy arrivals of gold. Gold engagements since the beginning of the present movement now amount to \$32,000,000, which would more than bridge the loss in surplus reserve last week.

The disturbances which are sweeping over the exchange market and arousing concern in foreign markets were indicated by the rise of foreign exchange in New York considerably above the point at which gold could be imported profitably. The fact that it is still coming this way indicates the determination of New York bankers to strengthen their position even at a loss. The high rate for bills was caused by the demand for exchange to cover the arrivals of gold.

The executive committee of the Merchants' association Monday passed formal resolutions in which confidence in the financial institutions of the city was expressed.

## Three Kansas Banks Close.

Topeka, Kan., Nov. 5.—Bank Commissioner J. W. Royce announced Monday that three Kansas banks had been forced to close their doors, owing to the failure of the Bankers' Trust company of Kansas City, Mo., on October 28. The banks are the Coyville State bank, Coyville; the Garland State bank, Garland, and the Citizens State bank, of Mulberry, all small institutions. They had deposits with the Bankers' Trust company. Receivers will be appointed at once.

Birmingham, Ala., Nov. 4.—Fast passenger train No. 3, on the Queen & Crescent, going at a high rate of speed, collided head-on with a freight train one mile south of Morganville, Ga., Sunday morning. Two men were killed, six seriously injured and about 20 passengers sustained more or less painful injuries.

Three coaches, mail, express and second-class passenger, were burned, all the mail and express matter being entirely consumed.

It will be a love feast. Harmony in the party will be preached. Roger C. Sullivan will be asked as well as Mr. Bryan, but discussion of Illinois factional disputes will not be allowed to intrude if they can be excluded.

## Missouri Politician Fined \$500.

Norfolk, Va., Nov. 5.—Joe Dean, 18 years old, called Julia Johnson, also in her teens, to the door of her boarding house Monday night, and shot her through the abdomen. He then shot himself in the temple. Both will die. Jealousy is said to have been the cause.

A Chinese paper has suspended publication after a career of 996 years. It is a pity the long-felt want could not have been stretched a little so as to cover a 1000th anniversary. Probably its managers found it impossible to get the old subscribers to pay up.

There is nothing in the present financial situation to cause alarm. Wall street flurries are like the early frosts. They purify the air and fertilize the commercial world.

"There is just as much money in the country as ever there was. There is just as much property as ever. The land and the mines are as productive as ever. Upon the whole there were never so many people before who were free from debt." Such is the comment of a San Francisco paper on the financial situation. If that town feels cheerful the rest of the country should be calm and confident.

#### Will Leave for Cuba.

N. J. Whelan will leave next Thursday for a trip to Cuba. He goes with a party that has for its object a thorough inspection of the business resources of the island along certain lines.

The trip will be made under the auspices of the Bartle Dairy Company of Toledo, Ohio, which has arranged to engage extensively in the cattle, dairy, creamery and cold storage business on the island. This company has established a colony and founded the town of Bartle, which although but two years old has shown rapid growth and now boasts of the finest depot on the Cuban railroad. The Bartle company also proposes to extend its business enterprises to the city of Havana and other points. The creamery, dairy, cattle and cold storage industries are in their infancy in Cuba, and the party of which Mr. Whelan will be a member will carefully investigate the resources of the island and the extent of the company's project and investments with a view of reporting their findings to the stockholders in this country. There will be nine in the party, among them being Senator Seeley of Oakland county, one of the best judges of cattle in the state; Representative Lawrence Snell, of Detroit, a well known dairy expert; W. B. Wood, of Detroit, the well known manufacturer of railroad motor cars, who is at the head of a corporation employing over 1500 men, and who is also vice president of the Bartle Dairy Co.; and M. D. Avery, of Toledo, secretary and general manager of the company.

The party was booked to leave today but owing to serious illness in the family of Dr. A. Scidmore Three Rivers, one of the members, the trip was postponed until Nov. 15.

#### Have Organized.

A Holland-American Aid Society was organized here Friday night with a membership of 130 and it is expected that the number will reach between 400 and 500 within a year. The officers elected were: Henry Brusse, president; M. Steenhagen, vice president; C. B. Vander Muelen, secretary; Cornelius Van Dyke, treasurer; trustees, W. Lawrence, J. C. Dyle and Albertus Wentzel. Woodman hall has been leased one year and the Holland singing school and Holland Concert band will give bi-weekly entertainments.

While work was progressing on the new crib at our harbor under the direction of C. A. Mercer, as foreman, two sledge hammers were lost in the lake in quick succession. The foreman, wanting to put a stop to this losing of tools, told his men and boys that the next one losing one should have to go down after it, and not come back without it. A few minutes later, Frank Johnson, a lad of about 16 years of age, missed his blow on the outer edge of the crib (and when a man misses a blow with such a heavy hammer with such a poor foothold, he is doomed to lose the hammer or take a bath) and not wanting to lose his hammer went in to the lake with it, water 16 feet deep, and brought his sledge hammer with him, and proceeded to work as if nothing had happened. How is this for pluck and presence of mind?

One of our enterprising merchants on Eighth street has taken unto him-

On Monday night last we noticed that several of our oil street lamps failed to shed forth their usual cheering light which guides the weary traveler on his way. Our mental query was "Where was Noble when the light went out?"

On looking over the common council proceedings, the reader will notice that Johannes Dykema has been appointed a member of the board of education, in the place of W. H. Parks, who has resigned on account of his removal from this city.

Last Wednesday as the "Dutch Local" going north, which is due at this station at 10:45 a. m., arrived at the switch at the foot of Market street, a car jumped the track and before the train could be stopped eight cars were derailed, five of which were hurled down an embankment some fifteen feet. Owing to the able management of the local officials the track was all clear for the 3:25 train in the afternoon, and there was but one train delayed on account of the accident. On Thursday a gang of men and an engine were busy all day clearing up the wreck, and by Saturday not a vestige will be left to show that there was ever a car thrown off the track at that point. In this connection it is proper to state that Photographer Burgess was promptly on hand and secured the first photograph of the debris which lay strewn along the track, and of the overturned cars as they lay in the ditch. Burgess claims to have got a first class picture of the scene. The damages sustained by the company through this accident are variously estimated at from \$1,500 to \$3,000.

Messrs. R. Kanters & Sons have purchased all the stock of the Holland Manufacturing company, and will in a short time commence operations on quite an extensive scale. It is their intention to keep on with the manufacture of the Palmer Wind Mill, and there is no doubt but that the enterprise will now prove an entirely satisfactory one, both to the proprietors and to our citizens. It will be remembered that the Holland Manufacturing Co. was the legitimate outgrowth of a meeting of our citizens held in Lyceum Hall, some two years ago for the purpose of organizing a Business Men's Association. The company has been dragging along in a crippled kind of a condition ever since, while the Business Men's Association apparently died at its birth. It seems to us that a thoroughly organized and wide awake Business association should be of enough interest to our merchants and business men to enlist their hearty co-operation, and for their liberal support toward making its influence felt, and used for the material advancement of our manufacturing and industrial interests.

We are happy to announce to our citizens that the proprietors of the Pluggers mill have closed a contract with Geo. H. Cutler, for the changing of their flour mill to a roller mill. Mr. Cutler is at present engaged in putting in the machinery of the Standard Roller Mills, with F. H. White as his assistant foreman, both of these gentlemen being in the employ of E. H. Allis & Co., Mill and Engine Builders of Milwaukee. We are indebted to G. H. Cutler for the following information about the contemplated change: The capacity of the mill will be about 100 barrels per day. The machinery to be added will consist of 4 set of rollers, 3 run of stone, 2 purifiers, 1 brand duster, 6 reels, a new cleaning machine, and flour packers. The contract amounts to somewhere in the neighborhood of \$10,000. On last Wednesday a gang of millwrights, under the charge of Mr. Cutler, arrived in this city and work on the change was at once commenced. Thus one improvement helps along another, and the day is not far distant when Holland will be as thriving a city as can be found on the east shore of Lake Michigan.

##### THE ANARCHISTS.

Thursday morning at about 10 o'clock news was received in this city that Louis Lingg, one of the condemned Chicago anarchists, had killed himself by placing a fulminating cartridge in his mouth and then discharging it. The discharge blew the entire side of his face off and at 2:50 p. m. he died, being evidently conscious to the last. The afternoon of Thursday word was also

received here that Gov. Oglesby had commuted the sentence of Samuel Fielding and Michael Schwab to imprisonment for life. The four remaining anarchists, August Spies, A. R. Parsons, Adolph Fischer and George Engle, were hung Friday forenoon at 11:54 o'clock. Thus the vengeance of an indignant and excited people was executed, and the sentence of the law has been fulfilled.

A number of athletic young men of this place went to Fennville Friday night to witness the sparring exhibition given by James Fell and Tom O'Donnel of Grand Rapids.

Last week oil was struck in Allegan by the company which was boring for gas and the town is going wild over the discovery. Monday night the village was illuminated with burning oil from six pipes. About 100 barrels of the crude product has been pumped from the well.

D. Bertsch received a letter from his son, Cadet William Bertsch, of the U. S. Military Academy at West Point on Tuesday enclosing a photograph of himself in full cadet uniform. Will writes that he likes life at the academy, but that they work the boys pretty hard.

##### WHAT YOU SAW 15 YEARS AGO.

Henry J. Cronkright carried out the terms of an election bet on the result for president Thursday afternoon, by wheeling Dave Blom on a barrow around one block of the city. The procession with its flags, fit and drums was a novel one.

The Sunday school convention held at Grand Haven on Thursday was attended by the following delegates from this city: First Reformed church—Rev. J. VanHoute and J. A. Wilterdink. Third Reformed church—Rev. H. E. Dosker, Arend Visscher, Martha Diekema, Jennie Kramers, Hannah and Alice Van Ark.

##### THE VERDICT OF 1892.

The pendulum of American politics has once more swung to the left.

The defeat of President Harrison, on the distinctive issue of the campaign, reflects apparently against the doctrine of protection.

After an uninterrupted system of protective policy the people have decided to sail for a while along another tack.

Grover Cleveland carried 23 states with 299 electoral votes; Harrison 16 states with 115 electoral votes; and Weaver 3 states, with 10 electoral votes. The Michigan vote was divided between 9 for Harrison and 5 for Cleveland. Two states are still in doubt.

##### Installation of J. F. Zwemer.

It is customary in the Reformed church, for a person when installed as a professor in theology to have a public service. The Rev. James F. Zwemer, D. D., was unanimously elected to the chair of practical theology in the Western Theological seminary, by the general synod in session assembled at Albany, New York, in June, 1907. The committee made arrangements for the inauguration to take place in the Third Reformed church of this city, November 5, 1907. The faculty of the seminary, the board of superintendents, the students and a large number of friends of the institution were present at the exercises.

The exercises were in charge of the Rev. A. Van den Berg of Grand Rapids. The Rev. N. Boer of Chicago read the scriptures and Dr. N. M. Steffen led in prayer.

The Rev. A. Vennema, D. D., of Passaic, N. J., president of the general synod, was present and delivered

the sermon. In an eloquent manner he compared grace to a leaven which is tried in three measures of meal and works until the whole lump is leavened. This parable is a word picture. The truth flashes upon the mind at once.

Experiments have been made long and often to purify the human heart but all attempts have been futile. Culture and holiness do not necessarily go hand in hand. Wickedness is seen in high places. We see politicians in palaces, while Godliness is absent. The grace is not native to the heart. It is an importation and an impartation. It comes from above.

##### Adapted to Human Needs.

This grace is wonderfully adapted to the needs of a human soul. Like a leaven it transforms the life of the whole man. Put a leaven in the ground and it decays. Leave it in the air and it wastes away. But place it in a meal and there is a radical change. An element of life is introduced which has a telling effect upon the individual. It is not upon the outside, upon the surface of man, but begins at the very center of his being. It is like the breath of Almighty God upon dead bones, clothing them with flesh. New ambitions, new hopes, arise. Then it communicates its own property. Environments are improved. The moral influences are not lost. They have a benign effect but they do not sweeten the springs of man's being. Only grace can do that. When grace operates it gives new force, new life. It makes men gracious and godly.

The field where grace works is particular and general. It strikes the heart first of all. That is a little world all by itself. Its work may be silent and noiseless, but it is most telling and most useful. Its mode of action is slow but sure. It is quiet, constant and continuous, not along one line, but in every direction. It affects all the faculties, heart, affections and will simultaneously. And when a life is thus changed it branches out and strikes the world. The individual in the mind of the family, the community and where its inner life is changed will to some extent at least influence other lives.

Society is kept from becoming insipid and favorless, when Christian men make themselves felt. The laws of science must be re-emphasized. The time tried and time tested laws of centuries must be accepted. When grace is at work employer and employee, buyer and seller, producer and consumer, will not be warlike. The policeman on his beat, the judge on the bench, the lawmaker in legislature, the governor and the president in their exalted stations, all will then be a potent force for civic righteousness. And the man occupying the chair of practical theology has a large field before him, to train young men so that when they go out they will be a leavening power in the world.

Dr. J. W. Beardslee read the formula to the new professor, to which Dr. Zwemer subscribed.

##### The Charge.

The Rev. E. J. Blekkink, pastor of the Third Reformed church, delivered the charge.

"The task which rests upon you is a difficult but pleasant one. It is a vast and painstaking work. The sphere is one of intense activity and will call forth the best that there is in a man. Some ability and preparatory training is necessary before a student comes to the department of practical theology. But from this department men are sent out to preach. They must be able to divide the truth, build up the church, instruct the saints and save services, but how effectively this is to be done and with what force they can present the truth will depend in a large measure upon the training they receive in this department. The other chairs are very important but the results of their labors will be laid at this door. Systematic theology give a course of instruction in the fundamental doctrines. Church history traces the course of events during the eighteen centuries; Biblical theology treats of languages, but all these are as confluent streams flowing together in the lecture room of practical theology.

"To prepare preachers is an enviable task. Pious mothers among the Jews hoped that their sons might be the promised Messiah. Next to that is to prepare men to preach. The responsibility is greater now than ever before. Speech is powerful and must be adapted to the eye in which men live. The gospel can meet every need and every condition at any time, but the student must be drilled and instructed to present the truth in such

a manner that it will be effective. No human interest must be left untouched. Teach men to be pastors so that they may deal tenderly with the sick, win back the wayward and take care of the lambs of the flock. Let there be a healthy and vigorous spirituality in the lecture room."

##### Dr. Zwemer's Inaugural.

Dr. Zwemer in his inaugural address outlined the work of his department. The task is a difficult one. To train preachers is of great importance. Nothing can supersede the preacher's word. No false religion has ever provided for the regular and frequent assembling of people to be instructed. But Christianity has. Preaching has become a mighty agency for good and for evil, but the living word is still more effective. To preach is to spread the good tidings of salvation. But preachers must have a thorough knowledge of the scripture and elevated views of life. He must be convinced that the truth is a mighty power. The written word must be the source from which we expect to draw all that is needed to equip and prepare young men for this work. The principle is found there. It is a difficult matter to preach well. To influence the will, to stir the hearer to some action in our business. To preach effectively is to carry our point. The church has committed a difficult work to our hands and we need the guidance of the spirit and with his assistance large results will follow."

Secret societies, Tugenbund, etc., was the subject for roll call at the Woman's Literary club yesterday.

In an able paper on the Regeneration of Prussia, Mrs. James Price told of the energy and perseverance of King Frederick William in adjusting the political affairs of Prussia. During his reign the country experienced a complete regeneration. Political evils were corrected and art, education, religion and trade were advanced to a marked degree.

Mrs. A. C. Keppel played two pleasing piano numbers.

Mrs. H. Geertlings read an interesting paper on King Ludwig I. of Bavaria. His reign was marked by the erection of many splendid public buildings, the laying of the first German railway, which ran from Nuremberg to Furth, and the completion of a canal to unite the Maine and the Danube. He had a passion for science and are which he indulged in to the detriment of his kingdom. He lived most economically in order to enable himself to spend huge sums of money on his art collection.

Ludwig gained the disfavor of his people by his tolerance of the Jesuits and by his associations with the beautiful Lola Montez, whom he created Countess of Landsfeld to the great indignation of the people.

The program closed with a humorous reading by Mrs. M. A. Sooy.

##### Circuit Court.

The case of Bill Shimmel, charged with the murder of Martin Golden, was the first to be taken up at this term of circuit court. This time Shimmel is being defended by Mortimer A. Sooy of Holland, who was appointed by the court. It is not expected a jury will be secured from the regular panel.

John Bayes of Coopersville, charged with violation of the liquor law pleaded guilty, and Judge Padgham fined him \$10 and costs.

A. W. Stittgen, charged with violation of the liquor law, waived the reading of the information and entered a plea of guilty. The matter was left until later for final disposal.

The appeal case against Peter Hook was announced as ready for trial. C. A. Freberg of Holland pleaded guilty to the charge of larceny. Gay Robins and Pearl Amos pleaded guilty to the charge of lewd and lascivious cohabitation. The case of the people against Josephine DeYoung, charged with cruelty to child, went over term by consent. The cases of Charles Lyons and Guy Burton and Jennie Lawrence, which were noticed for sentence, were not taken up. Sentences will be imposed later in the term.

The case of Bert Slagh vs. John N. Vandenberg went over term by consent. Clarinda Boltwood et al. vs. Norton Rutgers is ready for trial. Albert J. Schmidt vs. Peter Hoeks is also ready. Walter I. Lillie vs. John D. Duursema goes over term by consent. Edward C. Smith vs. D. G. H. & M. R. R. is ready for trial. Fanny Veldman by Lida Veldman vs. Henry Alderink was announced as prepared for trial. Isabella Minnett vs. City of Grand Haven is ready. The case of John Birklow et al. Gertrude Stek-jette and Dick Van der Veen goes over term by consent.

## Hope College News.

Anthony Verhulst

The Rev. J. E. Kuizenga, professor in Bible and Morals was suddenly called to the bed-side of his mother, who is critically ill at her home in Muskegon. Consequently he did not meet his classes.

The first regular meeting of the Choral Union was held Friday in Winants Chapel. The organization is composed of about sixty members, under the leadership of Prof. J. B. Nykerk. Their first study this year will be Jules Jordan's "Barbara Fritchie."

Madame Jacoby and her company appeared in Carnegie Hall Oct. 31. She was heard by an immense audience, but for some reason failed to create the enthusiasm which her former successes presaged.

Friday evening, Miss Harris, Sec. of the Students Volunteer Movement delivered an address in Winants Chapel. She made a moving appeal for greater missionary zeal. Mr. Wm. Walwood, Pres. of the Y. M. C. A. opened the meeting with prayer. A solo was sung by Catharine Pessink, accompanied by Miss Anna Scheulke.

The basket ball team is rapidly working into fine shape. Pleune, Oltmans, Veenker and Vruink of the regulars are in better trim than ever. Almost daily games are played with the second team captioned by Heusinkveld.

Greater laboratory facilities were needed because of the increasing popularity of Hope's Course in Chemistry and Physics. Accordingly the optics room has been fitted with the necessary apparatus and is now a fine addition to Hope's laboratories.

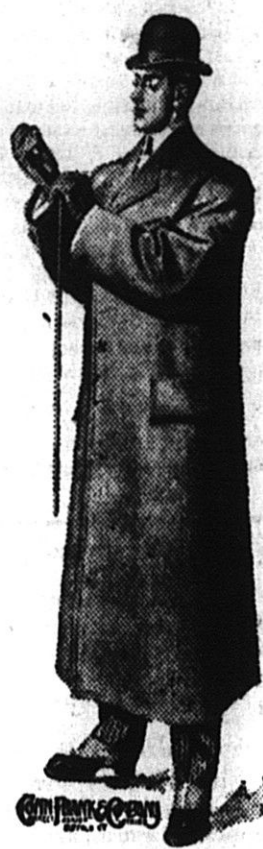

Hope's football team met and defeated Allegan on the campus Saturday. The score was 17 to 6. Allegan's only successful plays were punts. For Hope, Veenker distinguished himself by his end playing, and Oltmans, Veenker and Gebhard in working the forward pass. Williams acted as referee, with Lane as umpire. Hope plays St. Luke's and St. Marks soon. On Saturday next Hope meets the Grand Haven High School eleven on the college gridiron. This will undoubtedly prove to be the most interesting game of the season as Grand Haven has made a brilliant record this year, and Hope's recent victories entitles her to a fine show of winning.

## Cash Prizes.

At the last commencement of Hope College it was announced that Dr. Edward Bols, editor of the Ladie's Home Journal had established a series of prizes for essays to be written by the graduates and students of the college upon the history of the Dutch Colonists in Western America. The details of the contest have just been arranged. They are as follows.

The prizes to be awarded are  
A First prize of \$100.00  
A Second Prize of \$75.00  
A third Prize of \$50.00

These prizes are to be awarded to the writers of the best three essays on the subject of "The Hollander and his Descendants in the West of the United States," the essays to be limited in length to ten thousand words each.

The articles shall trace the development and progress of the Hollanders in the western part of the United States since their settlement there to the present time, the beginning of 1907, in Religious and Moral, Educational, Agricultural, Professional and Commercial interests, showing what the Hollanders have done in each branch, showing natural and material obstacles; what they had to do with; the men who have accomplished the most; the institutions they have influenced, erected, or been the direct means of creating; the influence of the Hollanders up on the religious, moral and educational life, et cetera, of the communities where they settled,—a complete picture, in brief, of what the Hollanders have done in the West to raise their own material and ethical standards of living and the standards of their communities. All names and dates as well as definite facts and statements used should be carefully verified. Accuracy will be first of all considered, comprehensiveness next, and readability next. Because an article is historical is no reason why it should be dull, dry, and difficult to read. The articles should of course be written in the English Language.

The Committee of Judges in this contest shall be: President G. J. Kollen, Mr. Gerrit Van Schelven, Prof. Herbert G. Keppel, President H. S. Nollen, and the Rev. E. C. Oggel, D. D. All manuscripts must be in the hands of the President of Hope College on or before April 15,

1908, and the judges shall award the prizes not later than June 17, 1908. The judges may withhold awards if manuscripts either in number or quality do not justify awards.

The first prize manuscripts in the series may be published in such newspapers as may be selected and will do so, after which one extra copy will be made of each of the three manuscripts; the originals to be filed with the Knickerbocker Society of Michigan, and the copies to be filed with the Holland Society of New York City, or with some other Holland Society or suitable Eastern historical society, for permanent record.

## Century Club.

The Century club met Tuesday with Mr. and Mrs. C. M. McLean. The program was in charge of Prof. J. B. Nykerk, who presented a most interesting paper on Oxford, "town and gown."

Prof. Nykerk first took his audience with him to Blenheim castle, the home of the Marlboroughs. America has squandered \$350,000,000 worth of heiresses on English dukes, peers and counts. The Nunnery of God's Toe and Trout Inn were also visited. High Street, said by Wordsworth to be the finest street in Europe, and the different colleges that make up Oxford. Christ's Church college has graduated many of the great archbishops and statesmen of England, among them W. E. Gladstone. Magdalen college is famous for its wonderful choir, and Jesus college, commonly called Jagger's college, recalls the war between town and gown in the sixteenth century, when much blood was shed.

"Social life at Oxford is worth ten times as much as it is in our American colleges," said Prof. Nykerk. "Afternoon tea from 4 to 6 o'clock is a most popular feature of this social life. One either entertains or is entertained almost every afternoon. These affairs are usually very informal. Thin slices of bread and butter, toasted scones, which are imported from the Netherlands, and tea are served. The English make delicious tea, but their coffee is very poor. How often I have longed for a cup of fragrant American coffee."

Mr. Nykerk closed his paper with a glowing description of the Pageant and the Commemoration festivities.

The musical program for the evening was made up chiefly of Oxford songs, with the exception of a violin solo by Miss Marguerite Van der Veen of Grand Haven. Miss Van der Veen, who has spent some years at the New England Conservatory of Music, played an arrangement of the beautiful Bach-Gounod "Ave Maria." She was accompanied by Mrs. G. W. Van Verst. Prof. Nykerk sang "King

Charles," by Robert Browning and Maude Varelle White. This song is quite as popular in England as "Dixie" is in America. A quartet composed of James Veneklasen, John Heines, Henry Heusinkveld and James Dykema, sang a popular Oxford college song, "Ode to Tobacco," and Arthur Heusinkveld played an Oxford song arranged as a piano solo.

The club will meet again on the evening of November 18, at the home of Mr. and Mrs. J. J. Cappon.

## Committed Suicide.

The identity of the man who threw himself in front of the Pere Marquette train just this side of Grand Haven last night has been established, more than 12 hours after the suicide occurred. He was Harley J. Phillips, register of probate at Grand Haven and former private secretary to the late Judge Wandy of the federal court at Grand Rapids.

The only county official not accounted for proved to be Phillips, who left yesterday morning for Grand Rapids, supposedly on a business visit. The officers came to the conclusion that the dead man was Phillips, although the features were so badly mangled that even his best friends could not identify him.

There seems to be but little doubt that Phillips attempted to conceal his identity. When struck by the engine he had little on beside his underclothing. He took no chances, and when he leaped he landed on the track in such a manner that instant death would be certain and that his body would be mangled so that to identify it would be next to impossible.

Phillips had been ill for some time, suffering from locomotor ataxia, and it is thought his physical condition preyed upon his mind. He was well known throughout western Michigan, especially in Grand Rapids, where he served several years as private secretary to the late Judge George P. Wandy. Returning to Grand Haven, he was given the position of register of probate for Ottawa county.

## Almost an Invalid.

Phillips was 29 years old and lived at Grand Haven with his mother. He left home for Grand Rapids yesterday morning and stayed all day. Some concern was expressed in the office of the probate judge over his absence, but nothing like suicide was suspected. He returned to his mother's house in the evening and left again at 6:30, saying he was going down town. Evidently instead of going there he walked south on the Pere Marquette tracks and reaching a secluded spot suitable for his purpose he carefully prepared for the coming of the train which was to strike him down.

Besides the mother, Phillips leaves a brother, William Phillips, deputy collector of customs at Grand Haven, and formerly deputy United States marshal at Grand Rapids.

## TIMBER FOR ONLY 20 YEARS

SUPPLY IN UNITED STATES WILL THEN BE EXHAUSTED.

Government Forester Pinchot Sounds Warning, Saying Natural Resources Must Be Protected.

Washington, Nov. 6.—"In 20 years the timber supply in the United States, on government reserves and private holdings, at the present rate of cutting, will be exhausted, although it is possible that the growth of that period might extend the arrival of the famine another five years."

This announcement was made Monday by Gifford Pinchot, the government forester, who has just returned from a six months' inspection trip, on which he traveled 10,000 miles.

In sounding his warning, Mr. Pinchot urged that the danger of the situation should not be underestimated. He said that the United States uses more timber per capita than any other country, and that every man, woman and child would be affected. He decried the policy of discounting the future of the country by failure to protect the natural resources, and he advises everyone who has not already done so to read President Roosevelt's speech at Memphis on this general subject.

About one-fifth of the forest area of the country is in government reserves, but Mr. Pinchot called attention to the fact that as privately owned timber lands are better than the government reserves, as a general rule, the government does not control one-fifth of the timber supply. The forest service will ask congress for more money and more men in order to extend the service, and will push the work of reforesting the denuded timber lands. Mr. Pinchot says, however, that it is utterly beyond the possibility of the service to meet the situation and prevent serious trouble. One hope entertained is the Appalachian forest and an effort will be made to protect this and promote the growth there.

President Roosevelt expects to call a conference in Washington shortly of governors of states and experts in the study of natural resources. The conference will be for the purpose of developing sentiment in favor of the administration's policy of looking into the future in the matter of conserving the natural resources, such as timber, coal, oil and gas, and the various minerals. It is believed by administration officials that when the people realize that the increase in lumber prices, which began in 1900 and has continued rapidly since that time, was based not on actual shortage of supply but upon the fact that the owners of private tracts of timber land were merely looking into the future, the government's policy will be endorsed without question.

## ROOSEVELT CASTS HIS BALLOT.

Laughingly Resents Hint That He Voted for a Democrat.

Oyster Bay, N. Y., Nov. 6.—President Roosevelt arrived at Oyster Bay shortly before ten a. m. to cast his vote. He was met by Mrs. J. West Roosevelt and drove in her carriage to the polling place, in a hall across the street from the rooms formerly occupied as the executive offices. As the president stepped from the carriage he was greeted and cheered by a throng of his neighbors, with most of whom he shook hands. He was then given ballot No. 84 and passed four minutes in preparing it to be cast.

After casting his vote one of the bystanders asked him if he had not voted for a Democrat—Willard Bartlett—who was nominated by both parties for the court of appeals. The president responded with a laugh, saying:

"It is a vile aspersion." Leaving the polling place, the president went for a drive about the village with Mrs. J. West Roosevelt.

## GET WHAT YOU WANT.

The "Just As Good Kind" Never Pays.

If there is one thing more than another that should aggravate a self respecting persons, it is to be told that the article they ask for at their druggists is not to be had but that they can have something "just as good or better." The principal reason for such attempts at substitution is either the desire of the storekeeper to sell something on which he can make more money or he hasn't the goods asked for and wants to make a sale of something in its place.

Every reader of this paper should bear in mind when asking for Vinol, the modern cod liver preparation that it is for sale in Holland at our store, and that it can always be had when asked for.

The reason Vinol is so far superior to old fashioned cod liver oil and emulsion is because it is made by a concentrative process from fresh cod's livers combining with peptonate of iron all the medicinal, healing and body building elements of cod liver oil, but no oil.

As a body builder and strength creator for old people, delicate children, weak, run down persons, after sickness and for Chronic Coughs, Colds, Bronchitis, and all throat and lung troubles, Vinol is unexcelled.

No one wants an old fashioned cod liver oil preparation or emulsion after once tasting delicious Vinol. Try it. If it fails to benefit we will return your money. R. M. DePree & Co. Druggists, Holland, Mich.

## BRITISH RAILWAY STRIKE IMPENDS

UNION VOTES TO CALL ONE AND OUTLOOK IN ISLANDS IS VERY GLOOMY.

Lloyd-George is Active—Some Hope That Board of Trade President May Avert the Trouble—Railroads Blame Socialism.

London, Nov. 2.—Notwithstanding the powerful influences that have been at work for some time past in the hope of averting trouble in the British railroad world, there seems to be but little probability of preventing a strike which will have the most serious consequences to the traveling public and the men and companies involved, as well as to commercial interests generally.

The action taken Friday by the executive committee of the Amalgamated Society of Railway Servants, in passing a resolution to call a general strike, leaves little or no hope for a favorable outcome. This society always has been looked upon as one of the most conservative of the labor unions, and its leader, Richard Bell, M. P., has been noted for his efforts to prevent strikes and for his utterances in favor of the rights of capital as well as the rights of the working man. Consequently the resolution is not taken lightly, and in view of these declarations and the determined stand taken by the society since the grievances of the men were first voiced, it does not seem likely that the men will withdraw from their present position.

## Won't Recognize the Union.

While there is a long list of alleged grievances, the principal one has turned on recognition of the union, and this the railroad companies, whose chief spokesman is Lord Claud Hamilton, are determined not to concede. The general strike, however, under the rules of the society and the requirements of the law, cannot take place for some weeks. In the meantime there is a remote hope that the efforts of David Lloyd-George, who, with the influence of his high position, as president of the board of trade, has been working strenuously to bring about a settlement, will be successful.

## Employers Blame Socialism.

The railroads charge that the present agitation is due to the growth of socialism and curiously enough, while this idea was being voiced by Lord Claud Hamilton Friday night in a declaration that socialism was "irreligious and immoral in its teachings," Mr. Lloyd George was averring in his address that socialism was "a bogey of to-day introduced to frighten the unwary" and that there was no danger but a "certain advantage in socialism inasmuch as it stirred the people to think."

## MICHIGAN MAN A SUICIDE.

Kills Himself in Los Angeles Because He was Jilted.

Los Angeles, Cal., Nov. 5.—Grief-stricken because the woman he loved had married another, a well-dressed, refined-appearing man, giving his name as Herbert Welch, entered the apartments of James La France and Robert Curry at the Hiawatha lodging house on Broadway Monday and after asking permission to use the telephone, sprang to a bureau where a revolver lay and picking up the weapon, shot himself fatally in the breast. It is believed he gave an assumed name. His home was in Michigan.

## Lad Shoots Girl and Himself.

Norfolk, Va., Nov. 5.—Joe Dean, 18 years old, called Julia Johnson, also in her teens, to the door of her boarding house Monday night, and shot her through the abdomen. He then shot himself in the temple. Both will die. Jealousy is said to have been the cause.

## TIMBER FOR ONLY 20 YEARS

SUPPLY IN UNITED STATES WILL THEN BE EXHAUSTED.

Government Forester Pinchot Sounds Warning Saying Natural Resources Must Be Protected.

Washington, Nov. 5.—"In 20 years the timber supply in the United States, on government reserves and private holdings, at the present rate of cutting, will be exhausted, although it is possible that the growth of that period might extend the arrival of the famine another five years."

This announcement was made Monday by Gifford Pinchot, the government forester, who has just returned from a six months' inspection trip, on which he traveled 10,000 miles.

In sounding his warning, Mr. Pinchot urged that the danger of the situation should not be underestimated. He said that the United States uses more timber per capita than any other country, and that every man, woman and child would be affected. He decried the policy of discounting the future of the country by failure to protect the natural resources, and he advises everyone who has not already done so to read President Roosevelt's speech at Memphis on this general subject.

About one-fifth of the forest area of the country is in government reserves, but Mr. Pinchot called attention to the fact that as privately owned timber lands are better than the government reserves, as a general rule, the government does not control one-fifth of the timber supply. The forest service will ask congress for more money and more men in order to extend the service, and will push the work of reforesting the denuded timber lands. Mr. Pinchot says, however, that it is utterly beyond the possibility of the service to meet the situation and prevent serious trouble. One hope entertained is the Appalachian forest and an effort will be made to protect this and promote the growth there.

President Roosevelt expects to call a conference in Washington shortly of governors of states and experts in the study of natural resources. The conference will be for the purpose of developing sentiment in favor of the administration's policy of looking into the future resources, such as timber, coal, oil and gas, and the various minerals. It is believed by administration officials that when the people realize that the increase in lumber prices, which began in 1900 and has continued rapidly since that time, was based not on actual shortage of supply but upon the fact that the owners of private tracts of timber land were merely looking into the future, the government's policy will be indorsed without question.

## PEACE AMBASSADORS BRING GOOD REPORTS

SEN. HORACE PORTER AND JOSEPH H. CHOATE BACK FROM HAGUE CONFERENCE.

## DID MUCH TO LESSEN THE HORRORS OF WAR

America Took the Lead in Many Humane Propositions—Obligatory Arbitration Favored, But Not Adopted.

New York, Nov. 6.—Gen. Horace Porter and Joseph H. Choate, two of the American ambassadors to the recent peace conference at The Hague returned home Tuesday on the steamer Kronprinzessin Cecilie and will go on to Washington in a few days to submit a report to the president. Both Gen. Porter and Mr. Choate expressed themselves as being entirely satisfied with the results of the second conference. Because two of the principal propositions before the conference—obligatory arbitration and limitation of armaments—failed to take positive form, Mr. Choate said the idea prevailed in some quarters that little had been accomplished. This view, he declared, would be dispelled when the results of the conference were studied and their far-reaching effect fully realized.

## To Force Arbitration.

No less than 14 conventions, dealing with various phases of war, were adopted, and the conference also declared in favor of many more propositions, among them the doctrine of obligatory arbitration. One of the principal conventions—adopted unanimously—was the proposition offered by the American delegation through Gen. Porter and designated "the Porter proposition." The convention prohibits the use of armed force for the recovery of contractual debts until all efforts at arbitration have failed. The importance of the convention was emphasized by the fact that it was signed by every creditor and debtor nation. Article 1 of the convention reads:

"The contracting powers are agreed not to have recourse to armed force for the recovery of contractual debts claimed from the government of one country by the government of another country as due to its citizens. However, this stipulation shall not apply when the debtor state refuses or leaves without reply an offer of arbitration, or in case of acceptance, renders impossible the establishment of a compromise, or after arbitration does not conform to the award."

Discussing the work of the conference, Gen. Porter said:

"War is More Remote. I think it will be fully recognized, when the work of the conference is studied and understood, that if this conference had succeeded in adopting only one of the 14 conventions finally agreed upon it would have repaid the nations for bringing it about."

"War seems remote now, but we have done much to ameliorate the horrors of it if it should occur. We have provided for the better protection of prisoners and wounded and for a fuller recognition of the Red Cross and other societies in the interests of humanity."

"This was the first time that all the nations of the globe ever met in amicable conference. The debates were interesting and intelligent. There was no acrimony; not a harsh word was uttered. Everywhere was evident an earnest desire to bring the people together, and when the text of the 14 adopted conventions is studied every one will be struck by their importance, not only as affecting the present but as indicating still better results at the next conference. One of our most important works was the agreement to hold the next conference in eight years—the same period that elapsed between the first and second meetings at The Hague. This, we believe, will insure hereafter the automatic gathering of peace conferences."

## America Urged Arbitration.

"One of the two things which failed to take positive form at the conference was obligatory arbitration. The United States delegation pressed this proposition to a vote and it received 32 out of 44 votes in the conference. But two or three large powers were not willing to go that far at this time. They would only agree to announce their endorsement of the principle of the thing. The conference, you know, was not one where a majority ruled. Neither were there rules for cutting off debate and demanding a vote."

## Wouldn't Limit Armaments.

"The second proposition which failed was that dealing with limitation of armaments. The attitude of several of the great nations taken in advance of the conference made it known that his proposition could not be accomplished. One nation wanted to remain mistress of the seas. Another continental nation, which had been subject to attack in the past, was reluctant to reduce its means of defense. Some thought that for a power like America to urge another power to diminish its right to arm for protection was a good deal like that nation asking New York city to reduce its police force."

Contractors Bennett and Schnorbach are making an effort to rebuild the 700 foot break in the north pier before the advance of winter. The piles have been driven and the work is being rushed to completion.

## Indian Skeletons.

What appears to be a find of great value to the students of Indian history in Michigan has been exposed on the streets of Saugatuck by laborers digging a ditch.

Seven skeletons of Indian braves, one of whom was undoubtedly a chief of note, constitute the discoveries made so far. The whole section was probably an Indian battle field.

The supposed chief's skeleton was adorned with much heavy silver jewelry, proving his high rank in the days of yore. He was evidently a young man of good stature, his leg bones being of unusual length and his teeth being in a remarkably good state of preservation.

In the majesty of sleep he lay face downward, tomahawk in hand. His left arm was ornamented with three silver bracelets unlike any made by the Michigan tribes, and under his bones were found two huge silver medallions which had decorated his breast. One bore the image of a turtle and its mate that of a crane, both symbol of Indian lore.

The bodies are unquestionably those of intruders, of different extraction than the tribes that frequented the state in its early history.

## Pickle Co. Man's Son Elopes.

Another Young Pittsburg millionaire has been captured by a poor but pretty nurse, Clifford S. Heinze, youngest son of H. J. Heinze, the wealthy pickle man, according to information made public on last Saturday eloped from New York with Miss Virginia Campbell, a trained nurse, to New London, Ct., where they were married. They are supposed to be now at the Jamestown exposition.

Mr. Heinze, the father, is fairly prostrated over the story and is confined to his room. Seen this evening he said:

"I have no knowledge of the marriage of my son and I sincerely hope that it may not be true. I have never heard of Miss Campbell, to whom my son is reported to be married. I have not been able to establish communication with my son, however, since he went to New York some days ago, for the purpose of visiting with his sister, who is married and lives there."

"Clifford was a very frank boy and usually told me everything. He and I were to have visited the Jamestown exposition together. I was to have joined him there this afternoon but was unable to go."

H. J. Heinze is worth perhaps \$25,000,000. He began his business career peddling sauer kraut from a wheelbarrow, in Allegheny. Clifford was his youngest son.
