Lets get acquainted! You have ideas about the kind of clothes you want.

You don't want anything freaky, funny or foolish—just a good, smart, sensible style that will become you.

A fabric that looks well and will wear as well as it looks.

Tailoring that's right from trouser-cuff to coat-collar.

A price that is within your means, and full value for every dollar.

Those are my ideas about men's clothes, too.

Let's get together on this clothes question!

Save Tire Troubles By Putting

MAXOTIRES

In Your Casings While They Are In Good Condition

Fabric Breaks—Rim Cuts—Stone Bruises—these are the causes of blowouts.

MAXOTIRES are built just like the carcass of a tire and are made to protect the tube from blowouts.

MAXOTIRES will enable you to get all the miles out of your casings which were ever built into them. Tires seldom wear out, they just naturally give out—rim cuts, bruises, etc., and are thrown on the junk heap only partly worn out.

HAS INJUNCTION TO STOP PARK ANNEX BUILDING

W. WEIHE CLAIMS \$10,000 DAMAGE TO RESORT PROPERTY WOULD RESULT.

Three Hundred Park Cottagers Will Follow Case Thru Court; Park Plat Is Claim

William Weihe of Palm Beach, Fla., who has large investments in summer cottages at Macatawa Park, has, thru Attorney M. A. Sooy of this city, started suit against the Macatawa Resort Company and Frank Oosting, a local contractor, and an injunction may be issued by Judge Orien S. Cross restraining the Macatawa Resort Company from constructing a contemplated annex to the east and north end of the Macatawa hotel. The annex is to be constructed just to the south and directly in front of Mr. Weihe's cottages and is to be 325 feet in length, 3 stories high and 34 feet in width.

The ground floor at the east end of the addition is proposed to be fitted and used for store purposes, the two upper floors to be designed for rooms for the hotel guests.

It is the claim of Mr. Weihe that the proposed site for the annex is a part of some land reserved as a park, known as Hotel Park, and that the Macatawa Resort company or no one else has a right to erect any buildings thereon but that it must be kept and used for park purposes only.

Mr. Weihe claims that if the annex is constructed it will do irreparable damage to his property to the extent of at least \$10,000 as it would practically ruin it for resort purposes.

Mr. Oosting is in no way concerned in the matter except that he has the contract for the stone work of the proposed building.

This case will decide a long argued question, whether lands reserved for park purposes at Macatawa at the time of platting can be used for any other purpose. The case will be watched with much interest as there are about 300 cottage owners anxious to have the court determine the rights in these public places, designated as parks.

The injunction proceedings may hold up the building of what might prove to be practically a new hotel at this popular resort.

KOOYERS HAS A MAJORITY OF 633 IN DISTRICT

The indications are that Vincent A. Martin will be elected to the state district, unless Muskegon county casts a tremendous vote for James L. Smith, the Democratic candidate. With many precincts missing in Ottawa, the vote in this county this morning gave Martin 3115 and Smith 1865. In the first legislative district, without the Holland vote reported Kooyers, Republican led Van Tongeren, Democrat, 661 to 443, the second district Bosch had 2056 to Chittick's 1188.—G. H. Tribune.

The majority of Kooyers in Holland is 305 and gives him a majority of 633 in his district.

LEARN HOW TO LEAD IN SINGING

E. O. SELLERS OF MOODY INSTITUTE WILL TEACH CONVENTIONITES IN THE ART

E. O. Sellers of Moody's Bible Institute has written John Vanderluis a letter of extreme importance.

At a musical conference is Mr. Seller's idea to impart some knowledge to those interested in Sunday School work the art of leading in singing. Some in religious work is very inspiring and those interested in religious work should know how to conduct a song service or a meeting in which song play some part.

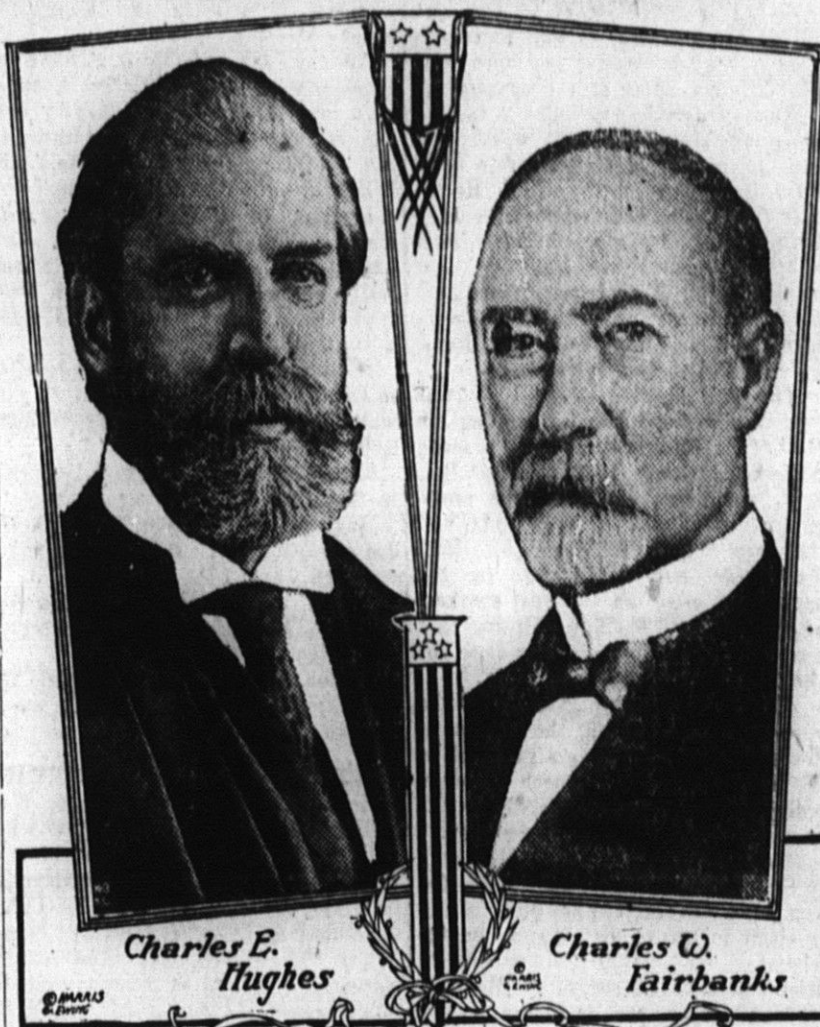

Mr. Sellers in his letter has the following:

Regarding the musical conference that I am to lead each day, during the State Sunday School convention in your city, will you have a competent pianist who can help me at that time, and can you co-operate with me in getting the idea among the delegates that this is not a gathering for some thirty or forty people who particularly have the job of leading Sunday school music. I cannot put over what I have in mind unless I have from one to two hundred people present, that is and do what I would feel to be a job worth while. I am writing to Prof. Goodrich today, suggesting that this conference will have a good deal to do with congregational hymn singing, interpretation of hymns, how to conduct them, etc. What I have in mind is a general chorus class rather than something that is too technical. I will make it interesting by calling upon different ones to lead hymns, to sing verses, and I will try to make it as profitable as possible, emphasizing some of the common mistakes made in the use of hymns.

In Holland township the voters never got through voting until 6:30 instead of 5 o'clock. The voters in the building were locked in and it took until that time to handle the left overs after five. The counting of the ballots was not completed until noon yesterday.

Marriage licenses were issued to Arthur E. Linquist, Grand Haven and Minnie Dakstam, Whitehall; Cornelius Baker, Holland and Alice Blake, Grand Rapids; Eddie Preston, Douglas and Mabel Woodworth, Macatawa Park; Clyde McNutt, Fennville and May De Gloppe, Grand Haven; Peter Te Nassenaar and Anna Roon, Allendale; Martin Hiemstra and Hattie Baterink, Georgetown.

Will He Have a Close Shave?

The presidential results are still in doubt up to 11 o'clock. Both Hughes and Wilson need the electoral vote of California. Wilson is now slightly ahead but there are still one-fifth of the rural precincts to hear from. As a rule the farmer vote is republican and this is especially true in California. Should the returns go in favor of Hughes as the indications all point there is little doubt but that Hughes will be our next president by a very narrow margin.

MR. COTTON HURT IN DODGING AUTO

STRUCK HEAD ON THE PAVEMENT AT RIVER AVENUE AND 12TH STREET

The old gentleman, Arthur B. Cotton, living at 93 West Fourteenth street was quite seriously injured in trying to get out of the way of a passing automobile at the corner of River avenue and Twelfth street last evening.

Mr. Cotton became frustrated while crossing the street and trying to dodge an oncoming automobile, slipped on the pavement striking his head, rendering him unconscious. He was taken to his home by Dr. Bos who was passing and a nurse was immediately installed at the bedside.

This morning a report from the home states that Mr. Cotton had a fairly good night and his condition is as well as can be expected this morning.

HOLLAND LOSES A JACKSON CONTRACT

NO GAME FOR SATURDAY; THE SCRUBS TO MEET FENNVILLE IN HOLLAND.

Holland High wants a game for Saturday of this week but chances of making a date are very slim. The school's Coach Drew has sought have already made arrangements for a contest for this week and others who have open dates do not care to tackle the present squad that represents Holland.

Jackson high school was at first that to be Holland's opponent this week but word was received here that a game would be played with Flint Saturday instead. A game with Jackson would have meant over a hundred dollars expense to the hosts.

Fennville high school will be here Saturday, however, for a return match, playing Holland's reserves. They won over the scrubs two weeks ago on their home grounds by a small score and revenge seems to be in order. So far the reserve game will be the only gridiron event for Holland Saturday.

ANNUAL MEETING OF FAIR TOMORROW NIGHT

WILL BE HELD IN THE AFTERNOON AT 2 O'CLOCK SHARP

There has been so much done to divide the citizens of Holland, owing to the great election just held that the Fair directors had decided to postpone the annual fair meeting from Saturday November 4, until tomorrow at 2 o'clock sharp in the city hall.

The men back of the fair feel that they want the undivided attention of every business man in Holland and in fact every citizen in Holland, and for that reason the fair meeting will be held when the decks are clear of all other things that are now holding their attention.

Keep this day in mind—tomorrow—at 2 o'clock sharp in the afternoon at the city hall, with every one interested in the fair invited.

By attending the meeting the directors will not alone be benefitted by your suggestions but you can also become a member of the Fair association. This membership has been depleted through lack of interest taken by individuals whose support the fair association deserves.

Izzy Altman received a picture postal from a former Holland boy named Frank E. Beavers, who is chief mechanic in charge of the American ambulance corps in Russia. He writes under date of Sept. 15: "I am leaving tonight for Persia."

BUSINESS MEN BACK UP THE FAIR FINANCIALLY

WILL FIX UP THE RACE TRACK IN FINE SHAPE AND PAY FOR HORSE BARN.

Forty Business Men Get Together Last Night and Baise Finances and Make Plans for Fair

Jake Lokker, George Kollen, A. H. Landwehr called around them last evening, in the city hall, a bunch of forty business men.

There were no directors of the fair or anyone present of the managerial staff. It was a meeting of a number of business men who begin to realize that we must save the Holland Fair for Holland, and not alone must they finance the enterprise temporarily but they must also give it their moral support.

The business men of Holland just begin to appreciate what the fair means to this city since an array of financial benefits have been enumerated to them thru the local press. They took hold of the matter last night with a will, and made provisions to pay for the horse barns and to have the race course fixed so that it will be the best half mile track in the state.

Plans were also made to have the rules and regulations, constitution and by-laws changed and made them up-to-date. This of course will have to be done by the new officials to be elected tomorrow afternoon.

Many plans have been suggested to bring more financial aid to the association, and these plans will be gone over with the officials of the fair to see whether they are workable.

In order to increase the revenues, no doubt the admission will be raised from 35c to 50c for adults. Charges will be made for automobiles that want to be in the inner circle of the race course. People have to pay to be in the inner circle everywhere and why not be public-spirited enough and pay a small sum to get the best place in the Fair grounds to see the races and at the same time aid the fair without a kick? Race meets, baseball games and kindred attractions could be staged when the fair is not on thus adding materially to the revenues of the association and with the 10c jitney of today the fair grounds is not so far away as it formerly was owing to this fact.

The business men were all very enthusiastic and to a man in favor of retaining E. P. Stephan as secretary of the fair. His efficient management for the past four years has stood out so strong that there is no question on the part of the directors or the business men that his retention is most desirable. In fact they insist that he remain.

Last year it was difficult to get Mr. Stephan to handle the job again. What success those interested in the fair will have in securing his valuable services further will be largely up to one of the men who made the Holland fair a success, namely Mr. Stephan, himself.

UNION SAYS CAPPON HAS ALL STATE FORM

COACH LICHTNER HAS NO ALIBIS TO OFFER FOR HIS DEFEAT.

"Heine has a fine boost for Cappon," says the Grand Rapids Press.

"Union is offering any alibis for its beating at the hands of Holland high Saturday. Coach Lichtner and his players were disposed to give the aggregation of Coach Drew all the credit that is coming to them for their triumph."

"Halfback Cappon was the particular object of Union's praise. It is the opinion of Coach Lichtner that the Holland star is easily the best back performing in western Michigan ranks this season. Heine is sure that Cappon will be able to make the varsity if he sticks to his determination to enter Michigan when he completes his high school career. T. H. had is a sophomore now."

Mrs. Johanna Woltman, widow of the late Jurria Woltman of Zeeland, has been granted a pension of \$12 a month through the agency of John Nies of this city.

Mrs. John Vander Haar of this city was rushed to Edgewater hospital to undergo a serious operation. The physicians in charge were Drs. Winter, Boot, and Fisher. The patient is doing nicely today.

The ladies of the Home Missionary society of the M. E. church will meet Friday afternoon at the home of Mrs. N. Huiling, East Eighth street, for the purpose of tying comforters for the girls mission school. They are requested to come early with thimbles and scissors.

COMMUNICATION.

Great God—What joy filled my heart, when I heard the first three whistles blow. My heart almost stopped beating for joy, (great joy) it meant for me, for my boys, and for my neighbor's boys and girls. Altho some are too young to realize it today, I wish I could shake the hand of every man that voted dry. I can only pray to our great Father to bless each and every man, may all the joys he can give them be theirs, and also print in large letters the thanks to Chairman Stephan who made it possible for loving mothers who were too tired to walk to town, to hear the election returns. To hear the great joy ring out as it were, in the silent night, who dare say our men are not as noble, brave and true today as many that lived before?

STATE TO COMPLETE LAKETOWN NEW ROAD

MACADAM ROAD 8 INCHES THICK; SAVE \$18,000 FOR OTHER ROADS.

The Laketown township officials have turned over the completion of the new six mile road extending from the interurban car barns to the Saugatuck township line to the state and it will become a federal aid road.

Although the township issued \$36,000 in bonds for building the road the state will increase the amount to \$60,000 and make it regular macadam road, 8 instead of six inches thick. Through this transaction the township will save approximately \$18,000 which will be spent on other roads.

BIG AND LITTLE POTS IN TOWN

SONS PREPARE A HOME FOR THE OLDER POTS AND CHILDREN.

In former years it was a common occurrence to see emigrants coming to Holland from the Netherlands. Long strings of them plunking along the wooden walks with wooden shoes, golden head-gear, white caps and sleeveless dresses. Now these arrivals are very rare, in fact, since the war there have been none such, until Klas Pot came to town. This family has just arrived after a stormy voyage over the Atlantic. Two of the Pot boys came nine months ago and prepared a home for the father, mother and little Pots and now all the Pots are located on West 19th street. The family comes from Utrecht.

HUGHES CARRIES HOLLAND BY LARGE MAJORITY

GRAND HAVEN ALSO GIVES A MAJORITY FOR HUGHES

County Candidates On the Republican Ticket Are Elected With An Overwhelming Majority.

Holland and Ottawa county remain in the Republican column as usual, and although the Democrats have been very active this year the impression made was not strong enough to make any material inroads in the Republican county strength.

Although the majority in Holland for Hughes was not of the Rooseveltian kind, nevertheless it was a very substantial vote and shows that the city has not strayed far from its old-time belief in the Republican doctrine.

Hughes carried the city by a plurality of 374. Even the second ward gave the Republican candidate a majority of three. Grand Haven with four wards heard from gave Hughes a majority of 218.

Early returns from outlying districts in Ottawa county indicate that Hughes will carry Ottawa county by at least 2,000 votes.

The following is the results by wards in the city.

Hughes, 1st ward, 266; 2nd ward, 57; 3rd ward, 239; 4th ward, 261; 5th ward, 289; 6th ward, 157.

Wilson, 1st ward, 212; 2nd ward 54; 3rd ward, 140; 4th ward, 218; 5th ward, 182; 6th ward, 89.

Benson, 1st ward, 18; 2nd ward, 22; 3rd ward, 11; 4th ward, 18; 5th ward, 17; 6th ward, 9.

RESULTS IN HOLLAND TOWNSHIP

Holland township gave Hughes 272; Wilson 254, a majority of 18. Charles E. Townsend received 317 to Price's 209, a 108 majority. Representative in Congress, Carl E. Mapes defeated Peter J. Danhof by 74 votes, the count being Mapes 302, Danhof 228. The county offices were carried as follows: probate judge, James J. Danhof 347; Dean S. Face, 189; Plurality, 158. Sheriff, Cornelius J. Dornbos, 373; John J. Gleason 172. Plurality 201. County Clerk, Orie Sluiter 326; John Dykema, 206; Plurality 110. Register of Deeds, Peter J. Ryenga 337; Andrew Van Lopik 199; Plurality, 138. Prosecuting Attorney, Fred T. Miles, 351; Charles E. Misner, 191; Plurality, 160. Drain Commissioner, Barend Kammeraad, 358; Jacob Nyenhuis, 183; Plurality, 175. County Road Commissioner, Austin Harrington 312; Charles J. Clayton, 219; Plurality 93. For the legislature, Vincent A. Martin received a plurality over James A. Smith of 79 votes; for representative from the first district of Ottawa County, Gerrit W. Kooyers won over Herman Van Tongeren by a plurality of 74.

RESULTS IN PARK TOWNSHIP

Park township gave Hughes 123; Wilson 70; a majority of 53. Charles E. Townsend received 138 to Price's 60, a 78 majority. Representative in Congress Carl E. Mapes defeated Peter J. Danhof by 76 votes the count being Mapes, 138; Danhof, 62. The county offices were carried as follows: probate judge, J. J. Danhof, 145; Dean S. Face, 56; plurality, 89. Sheriff, C. J. Dornbos, 162; J. J. Gleason, 45; plurality 117. County Clerk, O. J. Sluiter, 139; John Dykema, 61; plurality, 78. Treasurer, Fred Gordon, 138; W. J. Hanna, 59; plurality 79. Register of Deeds, P. J. Smith of 66 votes; for representative from the first district of Ottawa County, Gerrit W. Kooyers won over Herman Van Tongeren by a plurality of 64.

DECORATING CONTRACT FOR STATE MEET LET

HOLLAND STREETS TO HAVE A GALA APPEARANCE DURING S. S. CONVENTION

President Wm. Vander Ven and Harry Harrington, chairman of the Outside Decorating Committee, have awarded the contract for street decorations for the State Sunday School convention to the Home Decorating Co., of Chicago. Through the efforts of the committee composed of J. Kooiker, C. J. Dornbos, Benj. Brower and F. J. Congleton, and the generosity of the business men, enough money has been raised to have the streets decorated in welcome attire. Eighth street will be decorated from the Pere Marquette Depot to River Ave. and River Ave from 7th to 12th street. Holland will be going one better than some of the cities that have entertained the State Convention, as flags will be flying a warm welcome and a cheery good bye to all the delegates that come to Holland.

FORD IS STOLEN BY JOYRIDERS; FOUND

MACHINE OWNED BY LOUIS KAMPHUIS SMASHED BY UNKNOWN.

A Ford, owned by Louis Kamphuis, of North Holland, R. B. 2, was stolen from in front of the Kardak & Karstee grocery Saturday night and found Tuesday between Grand Haven and Muskegon, badly smashed.

Kamphuis left the machine on 7th street and River avenue and says he was gone about five minutes when he returned to find it had disappeared. No trace of it was found till Sheriff Dyk-huis located it Tuesday. The joyriders are unknown.

GILBERT TO MAKE HOME IN CHICAGO

SHIFTING OF PURCHASING DEPARTMENT MAKES CHANGE NECESSARY.

Mr. and Mrs. R. H. Gilbert, now living at 336 Maple Avenue left Holland Thursday morning to make their home in Chicago. The change is necessary because of Mr. Gilbert's connection with the De Pree Chemical Co. Purchasing department, which is being transferred to Chicago.

The rush of business has made the buying activities of the San Tox people so great that Holland is not near enough to the big market of Chicago. The headquarters at 1017 Chamber of Commerce building will be used. Mr. and Mrs. Gilbert will live at 6830A Ridgland Avenue.

The departure of Mr. Gilbert from this city is regretted by his business associates and other friends. Coming to Holland four years ago last September as principal of the high school, he decidedly "made good." Two years ago he resigned to take up work with the San Tox company. As leader of the high school band it is expected that his place will be filled by John Van Vyven.

SPELLING MATCH SHOWS FOOLISH COURSE

BUSINESS MEN OF HOLLAND COULD NOT SPELL WORDS GIVEN TO SIXTH GRADERS

Supt. E. E. Fell Shows How Impractical Some School Courses are Made.

Supt. E. E. Fell Monday night converted the Social Progress Club for a few moments into a spelling class and gave the members, gathered at the home of Mr. and Mrs. R. H. Gilbert, two examinations in spelling. One examination consisted of a list of twenty of the more ordinarily used words and the men taking part in the examination distinguished themselves by achieving perfect records in these. The other examination consisted of ten words given as a spelling test to sixth graders in Springfield, Ill., at the time when a school survey was being conducted there. There was only one member of the club who spelled four of these words correctly; some misspelled them all and a few hit on the correct spelling for one or two words.

The examinations were given to illustrate how things should not be done in a school. The ten words given the sixth graders were unusual words which the average man or woman would perhaps not find occasion to use more than once in a life time. Yet a great deal of time was wasted in the Springfield school and many other schools in having the pupils learn to spell, when it would have been much simpler for them to look them up in the dictionary or those rare occasions when they should be compelled to use them. A few hundred words are all that most men and women need in business, professional and social life, and Mr. Fell's contention was that it was the business of the schools to concentrate on those rather than on words seldom used.

And the whole exercise was but an illustration of how a school survey can help a community improve its school system. What was true of spelling in this case is frequently true of arithmetic, geography, history and all the other subjects. In many schools these can be greatly improved. And not only can methods of study be improved, but frequently the inefficiency of a school system lies in the teaching staff, or in the executive staff or in the board of education or in the people of the community or in a defective school plant.

Whatever is wrong, a school survey is for the purpose of locating the trouble and straightening it out. Such surveys have been held in a number of the larger cities of the country. They have served to show to the people of those communities how their school system looks to outside experts and how they can go about making the most of their school system so that they will get the highest possible dividends out of the investment in the real education of children.

Reports of these school surveys have been published in book form and many of them serve as guides for wide awake superintendents and boards of education in smaller communities by which they can check up their own school systems and learn whether or not they come up to the standard.

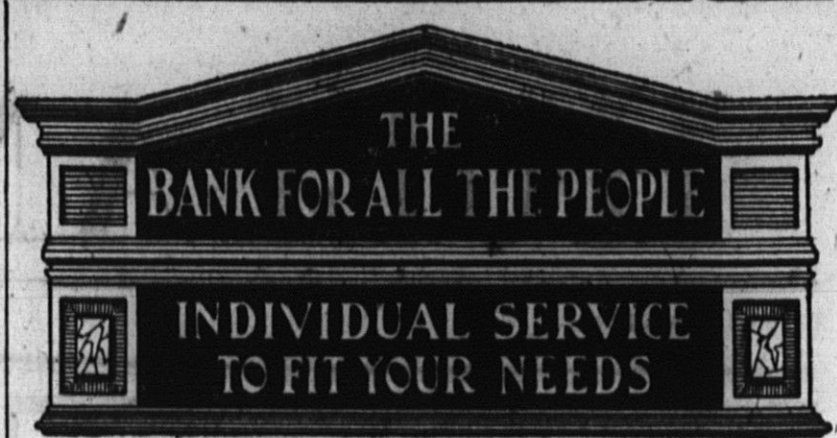

QUITE A COINCIDENCE HAPPENED IN THE DRY PARADE

BEER WAGON JUST TOOK UP THE END AS THE LINE PASSED

Quite a laughable incident occurred during the dry parade when the line had passed and the motes in the air finished up the rear. A beer wagon with a case or two and a large key trundled in from West Eighth street from the Interurban Freight house and it so happened that it just lined right up behind the last auto in the parade and kept on in this way until it reached one of the third parlors on East Eight Street.

Some of the spectators thought it an exhibition of the horrible example kind, however others saw how the whole thing happened and a laugh went up all along the street. The driver was very much disturbed to see that he was being laughed at and failed to appreciate the reason why.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.—Adv.

The Christian Endeavors of Holland bombarded Blenden last Monday night, carrying sixteen automobile loads of young fighters, by presenting the big cantata pageant which they are giving throughout the country in the campaign for prohibition. An audience of over 300 greeted them at the town hall in that place, who enjoyed the program very much including a very stirring address by Prof. Milton Hoffman of Hope College. A collection of \$12.72 was taken for the cause of prohibition.—Zeeland Record.

Last Thursday evening a group of seven men journeyed to Hanley (that's a cowpath somewhere between Holland and Grand Rapids) and there brot a stirring message of Prohibition in song and in story. The treatment accorded the men was excellent, and the audience that greeted them was as considerate as they were patient and sympathetic; especially sympathetic when for variety, the quartet sang "Lucky Jim." The reports are that Hanley is going dry by an overwhelming majority.—Hope College Anchor.

After selling a load of grain a Kalamazoo county farmer went into a restaurant at Kalamazoo to eat, leaving his overcoat in his car outside. When he finished his meal he looked for his coat, but it had disappeared. The clothing stores were closed and the night was too cold for a drive to his home without a coat, so the farmer went to a secondhand store and bought an old overcoat that fitted him. When he reached home and told his wife of his adventure she told him he had bought his own coat in the pawn shop and she was right.—Grand Rapids Crescent News.

Rev. L. J. Hulst, dean of ministers in the Christian Reformed denomination, this week enjoyed the distinction of celebrating the 67th anniversary of his ordination into the gospel ministry. Although he is in his ninety-second year the veteran minister is still active in writing for the denominational weekly and occasionally preaches two sermons on a Sabbath when called on for his services.—G. There is a minister who appreciates the editor. At a recent editorial convention he offered the following toast, "To save an editor from starvation, take his paper and pay for it promptly. To save him from bankruptcy, advertise in his paper liberally. To save him from despair send him every item of news of which you can get hold. To save him from profanity write your correspondence plainly on one side of the sheet and send it in as soon as possible. To save him from mistakes, bury him. Dead people are the only ones who never make mistakes."

Now is the time for folks to plant their tulip bulbs, hyacinth, crocuses and narcissus for spring flowering. It is time, too, to take in your canna bulbs and sensitive plants. It is a peculiar thing in nature's plan but in order to get the flowering qualities out of such bulbs as tulips and hyacinths, the bulbs must be frozen. That's why they are planted in the fall. If they were planted in the spring they might bloom but the flower would be without a stem.

Rev. R. L. Haan, who for two years has been pastor of Grandville Avenue Christian Reformed church, has accepted the call from the Orange City, Ia., church. It is reported that the state of Mrs. Haan's health has been a contributing factor in the decision. Her lungs are affected and it is thought that the Iowa climate will be more beneficial. Mr. Haan came to the local charge from Holland where he was pastor of the Central Avenue church for more than ten years, building it up so that when he left it was the second church in size in the denomination. The Grandville Avenue congregation also has grown considerably during his pastorate.

When you hear a man running down his home paper or any other local industry, take a good look at him. Ten to one, he will have a chin as long as a rail, an eye as restless as a horse thief, and he will hither around in his chair as though he had a touch of St. Anthony's dance. Talk with him awhile and you will discover that he has made a failure of everything he ever tried and nine times out of ten he is dependent on the public for favors or support; you will find him of a meddlesome, peevish, jealous, hateful and unreliable nature; a man who is always complaining and although he has but little if anything of his own, one would imagine to hear him talk that he had a quit claim deed to the earth and a first mortgage on heaven. He knows everybody's business. Such people, like mosquitoes, were not created in vain, perhaps, but one fact remains staple, they do not add materially to the pleasures of conducting a legitimate business.

The Woman's Foreign Missionary Society of the M. E. church was entertained Thursday by Mrs. George Bouken and Mrs. Matilda Vander Woude. Devotions were in charge of Mrs. E. Saunders. Letters from a Chinese student were read by Mrs. Carl Shaw. The report of the district convention was given by Mrs. T. Binns. Reports of the Branch meeting were given by Mrs. John Prakken and Mrs. Ella Gowdy. Rev. Bowerman spoke words of encouragement. The society voted to help purchase a Victrola for Miss Norse the missionary who soon returns to Africa. Cream and cake were served to the large number present. In the evening the Standard Bearer society met at the home of Jay Devereaux. Devotions were in charge of Mr. R. Sibley and Mr. C. Frank. Mr. Wm. Hawk read a very fine original missionary story entitled "An Incomplete Penteost." Miss Lucile Chase sang a solo and Miss Elsie Gowdy told of an African mission. Songs were sung and games played. Delicious refreshments were served by the host.

HOLLAND CAN AID IN SENDING CHRISTMAS SHIP

America's Christmas Ship to foreign lands which this year will be the Navy collier Caesar or a collier of the same type, is being retained by the government for carrying food supplies to destitute Syrians and Armenians. It will leave New York December 1, carrying a capacity cargo of foodstuffs and new clothing for Beirut, Syria, from which port relief will be distributed by the American Red Cross and Red Crescent agents, aided by United States consuls and missionaries. Holland people will have a share in its gifts.

The American committee for Armenian and Syrian Relief has just sent \$208,000 through the State Department to various distribution centers to be distributed immediately by the Committee's agents direct to the most needy survivors of the Armenian deportations and the Syrian famine months. This money will purchase grain, blankets and clothing, giving the sufferers within the Turkish Empire a foretaste of the Christmas cheer which the United States navy boat will bring.

As a necessary preliminary to the sending of the Christmas Ship arrangements are being made for collections in the churches of the entire country on Thanksgiving Day, the receipts of which will be used in completing the cargo. The ship will carry 600,000 pounds of rice, 200,000 pounds of lima beans, 400,000 pounds of crushed wheat, 2,100,000 pounds of whole wheat, 500,000 pounds of sugar, 1,000 cases of condensed milk for children, 10,000 barrels of flour, 50,000 gallons of petroleum and 25,000 gallons of cotton seed oil.

Military regulations forbid the carrying of any except new clothing.

Hundreds of cases of warm underwear and sweaters and light shoes for men, women and children, stockings for women and children, cotton and woolen socks for men, blankets and blanket shawls, gray cotton and woolen cloth in the piece, unbleached muslin, and cotton thread, needles and pins will form a part of the cargo. Contributors to the cargo and churches which are raising money are sending their gifts to W. A. Staub, the Red Cross representative in charge of the Christmas ship at the Bush Terminal, Brooklyn, New York.

Navy officials and prominent churchmen of all denominations will join the ceremonies to be held at the Christmas Ship's departure, adding to its cargo the holiday good wishes of one country to the stricken races of another.

The money collected on the two days recently proclaimed by President Wilson as Armenian and Syrian Relief Days having been cable already for immediate relief, more than a quarter of a million dollars additional must be gathered to freight the Christmas ship. The funds already collected it is believed will be supplemented to this amount in hundreds of cities in which the proclamation days were used merely as the beginning of local campaigns which will last until after Thanksgiving.

There is little doubt, however, that even after the response of the country to the appeals of the President and the Committee has been registered fully, many of the most elemental needs of the deportation victims, to relieve which in Armenia alone former Ambassador to Turkey, Henry Morgenthau estimates \$5,000,000 is necessary, will still be unmet for permanently, and that America's assistance to the sufferers of the Orient must continue.

FINDING GOLD IN AUSTRALIA

How the Original Prospector Made the First Discovery of the Precious Metal.

For 30 years the memory of a piece of gold-studded ore haunted Richard Greaves, a famous West Australian prospector, who has died lately. It was in western Australia, where he arrived in 1885, that "Dick" Greaves allowed the gold fever to get into his veins.

For two years after his arrival he prospected, off and on, for gold before its existence was definitely known in the state. He brought \$3,000 in cash to western Australia, and the greater part of that money was spent in prospecting work. It was a sample of stone, named Beare's stone, that sent him on his wanderings.

He was shown the stone, among others, shortly after his arrival in the state, and he tested it, and thereupon decided to find Beare and locate the place where the stone could be obtained. He never found Beare, nor did he find any more of Beare's stone.

To find gold in any stone, however, Greaves and his companion, Ted Palne, went out on their lonely prospecting trips. Success was denied them on several expeditions, but in October, 1887, they were rewarded, for in that month they discovered the first gold.

The story of the great find is simple, and, told in his own words, is as follows: "As water was getting scarce, and the country very dry, our work on that trip became a quest for water instead of gold. We got to a clay pan, but the water was thick and slimy. We had to set to and pull the dead kangaroos out.

"We had decided to leave the dray and take the horses and test the country round. It was the best bit of country we had seen for prospecting, and so we struck it. Ted Palne struck a flounder with a speck of gold in it. To find where it came from was the next move. On October 22 I came upon the reef, and we took a lot of stone out with gold hanging to it." From that beginning the mining industry sprang into first-rate importance.

PATHETIC PLIGHT OF RATS

Rodents Sit in Circle Around Onions on Board Ship, Weeping—Sailors Also Affected.

A very fishy rat story has been going the rounds of the American press, although part of it is undoubtedly correct and can easily be verified. The story circles around the arrival in New York of the French steamship Ville du Havre, consigned from a Spanish port with a cargo of onions. Members of the crew on arrival declared that they had all been weeping since the voyage first commenced owing to the painful effects onions have on the eyes, many of them being forced to sleep on deck. The quartermaster of the vessel carries the tragedy to a still higher point and solemnly declares that, on one occasion when he went down the forehold to get a coil of rope he perceived hundreds of rats sitting in a circle around the onion sacks, pathetically rubbing their beady-black eyes with their paws.

The Lacquer Crop.

It is a popular notion that the valuable varnishes known as lacquers are vegetable products that exude from various trees of India and the East when their twigs are punctured by a cochineal insect.

One kind of gum is, however, actually produced by the insect itself. The minute larvae begin to secrete the gum as soon as they puncture the tender bark and begin to suck the plant juices. In favorable circumstances the red secretion gradually envelops the larva in a hard lump, which protects it from attack. Frequently, however, the larvae are so crowded that a mass of gum is formed, and then the unprotected larvae gradually die of starvation or exposure.

Experiments have shown that if the larvae were transferred at the proper season to bunches of straw fastened to twigs in favorable situations, the larvae would migrate to the tender branches under the best conditions. The discovery has greatly increased the production of lacquer in India.

Uncertain Humanity.

"Briefly stated," we explained, "the story of Enoch Arden was about as follows: He went to sea and was shipwrecked on an uninhabited island where he remained for several years. When at last he was rescued Mr. Arden put out for home with considerable rapidity, only to find that during his absence Mrs. Arden had married again. What do you suppose was his subsequent action?"

"Hard to figure!" replied Mr. Gap Johnson of Rumpus Ridge, who had been listening with deep interest to the recital. "You can't tell which way a toad will jump when you poke him, and folks is just as peculiar. Probly he either took a shot at his wife's second husband or else borrowed enough money off'n him to get-back to his uninhabited island, and I wouldn't bet a nickel on either horn of the what-d'ye-call it?"—Kansas City Star.

Not There.

"So your boy is entering college this fall. You're sending him to your own alma mater, I suppose?"

"Not on your life! There are too many traditions clustered about my name in the old place. I wouldn't care to have my boy try to imitate some of the stunts I did when I was a student."

AFFECTED SLIGHTLY BY SEA

General Opinion That Tides Have More or Less Influence Over Flowing Wells.

In their investigation of the underground water resources of the coastal plain of Virginia, the geologists of the United States geological survey have collected data relating to many hundreds of artesian wells that yield excellent waters. The variation in flow exhibited by these wells with the rise and fall of the tide is of peculiar interest, the flow being notably greater at the flood than at the ebb tide. It is the general opinion among well drillers that practically all flowing wells near tidal rivers or inlets from open bays do feel the distant sea, but some of them so slightly that the variation in flow is not noticeable. The geologist in charge of the ground-water investigations in Virginia states that changes in water level in wells due to fluctuations in the height of the surface of some neighboring body of water, have been observed all over the world. It is customary to explain these changes by supposing a direct connection between the river, lake or bay; but in many places, as in eastern Virginia, such connection is clearly impossible, owing to the depth of the wells and the nature of the intervening beds, some of them dense, tough marls and clays. These beds, however, though they do not transmit water, nevertheless contain it, and as water is practically incompressible, any variation of level on the river or bay is transmitted to the well through the water-filled gravels, sands, clays, and marls. When a porous bed is tapped by a well the water rises to the point of equilibrium and fluctuates as the hand of the ocean varies its pressure on the beds that confine the artesian flow.

FOR EFFICIENCY IN FARMING

Big Corporations Might Succeed, but at Expense of Nation's Foundation.

A dream of the day when American farming shall be taken from the hands of the small bungling farmer, and put into large business hands of high efficiency was spread before the Minnesota conference on rural life by President Vincent. He sees the farm lands operated scientifically and in large units by corporate owners, the farm home converted into a modern city home, machinery lightening both labor and transportation, and factories utilizing the farmer's time that now is wasted in wet and chilly weather.

The saving under consolidated management of material that now is wasted under untrained individual ownership might support a one-third larger population in greater comfort than at present. We are the most wasteful of peoples in the north temperate zone, and the time will soon come when the average American will be compelled to adopt wiser methods of dealing with his land or give up his land.

But to take over the farm-owning fraction of the American people, hire it, think for it, house and care for it, manage and market its goods, would be to lose an educative force with which the nation can ill afford to part. The sense of ownership distributed among many individuals has been an element of moral strength that has proved dependable in time of great national stress.—Minneapolis Journal.

That American Plan.

Some Philadelphia paper roused up once to record this dialogue: "Well, she makes him a good wife, doesn't she?" "Yes, indeed, and she makes him a good husband, too." That's another angle on the modern American scheme (if there is one) of family life. We are all accustomed to seeing the wife determine where the family is to live, what church they are to go to, where the children are to get their schooling, what lines of work the boys are to take up, what chances the girls are to have at getting married (except in so far as the younger women may have a say themselves), what standard of living the family is to maintain, etc., etc., but it's rather a shock to be told, even in jest, that she is also the master pilot of what should be their joint-stock craft. What has become of the old-fashioned husband, with a touch of Dombey in him, who had a chart and a compass of his own and an eye for the fixed stars of this life's sky? Have golf and the automobile so prolonged man's period of infancy that woman is now the maturer being and has to do the family steering?—Collier's.

By a Cross Old Person.

One is asked to tolerate good-humoredly and even to admire young high spirits as all so natural and simple. It may be natural and it may be simple, especially as simple is sometimes a synonym for fool.

But where is the consolation in a man being natural if he is naturally offensive?

Why should we like a woman the more for being simple if she is simply vulgar?

This apology for the casting off of good manners does not appeal to us at all.

No Fanatic.

"Now, you've been spending several weeks on a farm. Is it really true that farmers get up before daybreak and go to the fields?"

"The one I was staying with didn't. He said nine o'clock in the morning was early enough to start a game of golf."

TRAVEL MOVIES MAKE BIG CROWD GASP

"HAVE THEM EVERY WEEK" IS
PLEA OF MANY AT CLOSE;
MAY COME IN MARCH.

Side-Splitting Comedy Mingles With
Educational and Thrilling Colored
Scenes.

The best "Movie", by a thousand times, ever shown in Holland was the verdict of the audience that witnessed the Lyman H. Howe Travel Festival in Carnegie Auditorium Monday night. As the Land of the Midnight Sun and The Paradise of the Pacific were thrown up on the screen, the audience was lifted into other worlds and beheld, not the scenery of the screen, but picturesquely real before them. The audience was taken for a ride on the Hilo Railway, the only thing lacking to make the ride a true reality was the brakeman calling station stops. As one observed the molten and boiling lava and heard the thunderings of the great volcano Kilauea, one shuddered with horror.

The native Hawaiian boys diving for coins were pictured so realistically that a member of the audience was ready to throw a coin for the next dive, so complete was the illusion.

And then in the twinkling of an eye, one was wafted to Moorish Court Yards, up to the great Tower of Gold in the towering Pyrenees, and again to the great land of the Midnight Sun right into the midst of a Laplanders' Camp. As one watched the giant snowplows clearing the road, one almost felt for his overcoat, gloves and shovel and again as one saw thousands upon thousands of reindeer swimming in the fjord the whole herd swimming as one the hidden powers caused the onlookers to gasp with awe.

And last and best, a life at the United States Military Academy at West Point was reviewed. And each who saw and heard wished that his had been the opportunity to be there, while the students at Hope College anxiously were made to await the day when Military Training is introduced at the local institution.

The comedies pictured between the acts were of the best.

Prof. Nykerk is already making arrangements for next year to secure the same company while it is very possible and altogether probable the company will again be secured for March of this year as an extra number. They are now producing a Polar Expedition film, pronounced by Mr. Howe to be his greatest. Several people Monday night asked Prof. Nykerk to stage the pictures every week.

HAYDEN FUNERAL TO BE HELD ON FRIDAY

IS SURVIVED BY MOTHER AND
SEVERAL BROTHERS AND
SISTERS.

The funeral of Hubert Hayden, aged 22, who died Tuesday morning at the home of his mother, Mrs. Anna Lawver, 78 West 9th street, will be held at 2 o'clock Friday afternoon at the residence. The service will be under the auspices of the Masonic Order. Rev. Bowerman of the M. E. church will officiate.

An opportunity was given friends to view the remains yesterday afternoon and evening.

He is survived by his mother; also by Ralph, Cornelius and Walter Hayden, the last two of Oklahoma City and Alpena respectively; and by Mrs. Peter Zalsman of Bangor, Miss Beatrice Hayden of this city and Mrs. John Van Zoeren of Montreal, Canada.

When You Take Cold.

With the average man a cold is a serious matter and should not be trifled with, as some of the most dangerous diseases start with a common cold. Take Chamberlain's Cough Remedy and get rid of your cold as quickly as possible. You are not experimenting when you use this remedy, as it has been in use for many years and has an established reputation. It contains no opium or other narcotic. Obtainable everywhere.—Adv.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.—Adv.

WHEN MOTHER WAS A GIRL PROVED STOVE ALL RIGHT

She Was Just the Same as Her Ultra Modern Daughter in the Way of Gadding.

Mother finally became tired of the way daughter was acting, according to a writer in the Fort Worth Star Telegram, and she said to her: "You never do anything but gad about. When I was your age I tried to take some of the work off my poor mother's back. I didn't want to spend all my time with some silly, giggling girl like that chum of yours." After listening to this, daughter went to grandma and said to her: "You must have had an awfully easy time when mama was growing up. She stayed at home almost all the time, and helped you with the cooking, milking, washing and other work." Then said grandma: "She helped me with the work? I'd like to know when she helped me. Day and night, week in and week out, she was running around with some silly girl, and she never once turned her hand to help me with anything. I made every stitch of her clothes, did all her washing and ironed every rag she ever wore. Now, when I was a girl I really worked. In my time girls didn't run around like they did in your mother's day."

FALLING NOT CAUSE OF DEATH

Theory That Heart Stops Beating Before Body Touches the Ground, Is a Mistake.

It is quite a mistake to think that when a person falls from a great height his heart stops before even his body touches the ground. Breathing may be suspended for a few minutes, but if artificial respiration is applied at once, life can be restored in many cases. This was proved in Chicago when a girl fell a distance of 200 feet, with no more serious results than some fractured bones and a few internal injuries. She compares her sensations while falling to the faintness one feels when traveling downwards in a jerky elevator. It was only in the moment of landing that she lost consciousness. Doctors assert that such accidents would not so often prove fatal if artificial respiration were more generally tried. Just because the patient's pulse is not beating it is a fatal error to think he must therefore be dead. Treat him as you would a man rescued from drowning, and in nine cases out of ten you will save his life.

POINTED PARAGRAPHS

Falling in love doesn't lower an egotist's opinion of himself. Every man knows what to do with the things he hasn't got.

Even a sure-thing gambler is apt to lose in the matrimonial game.

Almost any pretty girl can bring out the silliness in a man's makeup.

If a man could only discover why a woman is a mystery she wouldn't be.

At the age of seventeen a girl knows more about love than a man ever will know.

Haven't you ever wished your running expenses would slow down to a walk?

After saying "I don't want to find fault," the average man proceeds to pick a flaw.—Chicago Daily News.

Why He Was Sick.

A mother whose son was sentenced to the Marion county workhouse recently from juvenile court, entered court a few days ago, and said that she wished to speak to Judge Frank J. Lahr in regard to her son, says the Indianapolis News.

"Judge," said the woman, "I was out at the workhouse yesterday, and my boy tells me he is not getting enough to eat. I think something ought to be done about it."

Judge Lahr assured the woman that the son's assertion could not be true, but when she insisted, he called the superintendent by telephone and inquired.

"Hold the phone a minute," said the superintendent, "and I'll look him up."

"Hello, judge," finally came back over the wire, "that man is working as a cook, and is sick today from eating too much at his work."

Noiseless Car Wheels.

A noiseless car wheel has been designed by Edwin C. Madden, formerly assistant postmaster general, which is asserted to have a number of important advantages over the old-fashioned wheel. It consists of two wheels, one within the other, and separated from each other by means of a rubber filling. The combination takes up all vibration and shock, so that the noise is reduced to almost nothing. Some of these wheels have been in use on a trolley line at Portland, Me., for nearly a year, and the degree of success which has attended their use has resulted in declaring the invention a success.

But This Clerk Will Not Attempt the Same Method on Another Bride.

There comes a time in the lives of men—and young men at that—when they do not wish any more biscuits. Thus it happened that Columbus young man who is employed in a house furnishing store has had his desires satisfied. He went to the home of a young married woman in Columbus to superintend the job of erecting a new range. The job was finished in good style, but the young man was not entirely satisfied.

"You know," he suggested, "I'd like to be sure that this stove will bake before I go back to the store. I believe you ought to make up a batch of biscuit dough and try some biscuits. If you don't have good luck, then I'll see what's the matter with the stove." The young wife said she was entirely too busy at that time to bake biscuits. But the clerk sat around and argued. Suddenly she rolled up her sleeves and went to work. In a little while she had a pan of biscuits in the oven, the clerk having built a fire in the stove. After while the biscuits were baked. The young woman set a pound of butter and 16 biscuits before the clerk.

"Now, eat those biscuits," she commanded. "If you don't eat all of them I will know there is something the matter with the stove, and you can take it back to the store where it came from."

The clerk, it is said, although no sworn affidavit is given, ate 16 biscuits, and now he knows how the fellow feels who started in to eat a quail a day and fell down on the task.

LIGHT USED FOR FISH BAIT

Tiny Celluloid Minnow Containing Electric Flash Attracts Bass—Invention Is Practical.

An inventive fisherman noticed that the stomachs of such game fish as bass often contain glow worms and other phosphorescent insects. He devised a tiny celluloid minnow which contains a miniature electric light, having its current supplied from a fine copper wire attached to the fish line. A contact button on the fishing rod flashes the lamp intermittently just as the glow worm's light is brightened and diminished by the creature's movements. It is said that the invention is thoroughly practical and has made some fine catches of fish for its owner.

Good Work of American Chemists.

Prior to August, 1914, ichthyol, an asphaltic material employed as an antiseptic medicament, was imported from Europe. It is derived from a bituminous rock, filled with fossil fish, that is found in the Austrian Tyrol. In view of the inadequacy of the foreign supply to meet the domestic demand under present conditions, America has come to depend on its own resources. So far as known, there are in this country no deposits of asphaltic material of the peculiar type from which ichthyol is derived, but American chemists have solved the problem of supplying the domestic needs in this regard, and favorably recommended substitutes for ichthyol, prepared from domestic materials by synthetic methods, are now available in the markets.

Cause for Alarm.

"My nephew, Virgil Pucker, had been sick for quite awhile," related old Riley Rezzidew, "and as soon as he was able to totter around in the house he wobbled out into the kitchen. Presently we heard a thud, and ran there to find him senseless on the floor. When he came to himself he told us that it was practically all over with him—he new he would never be any better, for his face was so bulged and twisted out of shape that nobody could possibly look at he did and live longer. It was sometime before we discovered that he had been looking at himself in the old mirror over the sink."—Kansas City Star.

Her Version.

In a certain provincial art gallery there is a picture entitled "Saved," representing a large Newfoundland dog standing over a child whom it had rescued from the river.

On market days many people from the country find their way to the picture gallery, and nearly all admire this lifelike painting.

The other day an old countrywoman stood gazing at it for quite a long time and, as she turned to go, exclaimed:

"No wonder the child fainted, after dragging that big dog out of the water!"—Tit-Bits.

Argentine's Wine Production.

The Argentine republic does not figure in most people's minds as a wine-growing country, yet some of its provinces boast of wine-growing as a leading industry and the output during recent years has increased rapidly. The Argentine vintage now averages about 130,000,000 gallons a year, of which the province of Mendoza produces about four-fifths. In 1905 the total output of the republic was some 10,000,000 gallons, less than one-third of what it is now.

Work of Science.

"A good fairy touched you on your cheek with her wand and left a dimple there," said the romantic young man. "Umph!" replied the sophisticated summer girl, "have it that way if you like, but the person who did the job was a beauty doctor, and he charged me an outrageous fee."

The Car that Stands Still Costs Everybody Money

To Shippers on the Pere Marquette Railroad:

We are doing everything possible to relieve the car shortage. We need your co-operation, in fact, we must have it if we are to be successful in our efforts.

There are too many cars on Pere Marquette teamtracks.

Many of these cars are now being used as warehouses. Possibly some of you are figuring that the payment of demurrage justifies this. Such, however, is not the fact. We would far rather have the car than the demurrage so that we can get cars to move your neighbor's freight and possibly your own freight when you put in your next order.

One of the principal causes of the coal shortage is the shortage of cars due to the inability of carriers to keep cars moving.

Please do not under any circumstances keep a car under load, or hold it for loading, a single day longer than is imperatively necessary.

Only prompt action on your part will enable us to supply you with cars when you want them.

5 EAST EIGHTH STREET

HOLLAND, MICHIGAN

COMING TO HOLLAND DR. O. B. HAYDEN,

FROM THE MEDICAL DEPARTMENT OF THE UNIVERSITY OF MICHIGAN.

Specialist of 30 Years Experience in the Treatment of Chronic Diseases and Deformities Without Surgical Operation Will Be At the

HOLLAND HOTEL

Friday, Nov. 10, Saturday Nov. 11 From 10 A. M. To 4 P. M. Two Days Only

Consultation, Examination and Advice Free

Making No Charge Except for Cost of Medicine or Material Used in Treatment.

Dr. Hayden was for years examining physician employed by the U. S. Government and is now authorized by this State to treat all chronic diseases of men, women and children.

That every one may have an opportunity to consult the doctor, it has been decided that he will visit the principal towns and demonstrate to the sick and afflicted in every community the latest successful methods of treating these long standing diseases without surgical operation.

A partial list of diseases treated: Diseases of stomach, bowels, including appendicitis, liver, including gall stones, kidneys, spleen, bladder, blood, skin, heart, eye, ear, nose, throat, hydrocele, varicocele, worms, epilepsy, swelling of the limbs, enlarged veins, leg ulcers, rheumatism, sciatica (sciatic rheumatism), paralysis, bed wetting, backward or undeveloped children, club feet, curvature of the spine,

diseases of the respiratory tract including catarrh and bronchitis.

Tumors, goitre, piles, enlarged glands, and all external growths treated with special medicine and serum by hypodermic injections.

Nervous diseases, neuritis, neuralgia, headache, disturbance of metabolism, causing weakness and lack of vital energy.

Diseases peculiar to the young, the middle aged and the old.

Those who are discouraged by having been treated with no benefit or who have been told an operation is necessary or who have been told their case is hopeless—are especially invited to call.

MODERN GOOD
SAMARITAN DRESSES
NUDE STATUE

There are ways and ways in which to celebrate Hallowe'en. Some are destructive, some are constructive. A sample of the latter type was effected in the city this last Hallowe'en that until Friday night was quite constructive and kind.

In the yard of Mrs. I. Cappon, West Ninth street, is a fountain. It is in the form of a nude figure. Some passerby, name unknown, heard its mute call for succor,—and bit. The cold autumn winds were too much.

The morning after Hallowe'en residents of that neighborhood awoke to find the fountain in gayer colors and ready for the censor's stare. A becoming skirt draped from the waist line, a warm shawl protected its bare shoulders and its stony stare was bounded by painted cheeks and a chic hood. One absent-minded business man was caught in the act of tipping his hat to the gay figure before he straightened with a start of comprehension and cheeks that rivalled the painted statue.

But Friday night (after dark) somebody undressed the figure and the fountain again appears as it left the sculptor's hand. It was a gay fling for the creature while it lasted, and future generations of stone cherubs will hear their grandmother tell on Hallowe'en night how one kind friend protected her rocky ribs.

COAL FAMINE IS LENTIENT
WITH THIS CITYPRICES OF OUTSIDE WORLD NOT
SUFFERED DUE TO LARGE
SUPPLY.

Residents of Holland and vicinity are very fortunate in the present coal famine that is creating havoc in neighboring cities. Holland's dealers, due to foresightedness, have a large stock of fuel on hand and are able to sell at almost the same price that characterized last winter.

Muskegon, Grand Rapids, Kalamazoo and other cities are forced to pay a raise of a dollar or more on a ton of coal for domestic use. Pochontas coal, for instance, is \$7.75 in Grand Rapids and \$7 here per ton.

Solvay coke in Grand Rapids is \$8.10 a ton and gas coke \$7.25. Gas coke here is \$6 for the egg coke and \$6.50 for the crushed, a raise of only \$.25 over last year.

One Holland fuel dealer, when interviewed on the subject stated that if the local coal dealers should be forced to buy their wholesale supply at present and still sell fuel at the same price they are now asking, it would mean a daily loss of from \$40 to \$50. This illustrates the saving Holland residents are enjoying.

The price of carrying coal is now only \$.40 a ton for coal and \$.50 for coke, while in recent years it was \$.25 for either one. That is due more to the amount of work it implies rather than any famine in fuel.

Local dealers are doing their best to keep their full supply on hand by buying at every opportunity, and as they haven't the demand that larger cities are up against, they are able to hold the price down.

It is hoped, however, that the present situation in the outside world, caused by a car shortage, will be relieved in the near future, as signs point, to avert any serious results to industries and homes as well.

SCHOOL THIEVES CAUGHT
BY THE CITY POLICEBOYS WORK IN SHOPS, WILL BE
PUT ON PROBATION.

Considerable Thievery Has Been Going on in the High School Gymnasium.

For the past year or more there has been considerable thievery going on in the High school gymnasium. Articles of value and money have been taken from the clothes of pupils who use the baths, or change their clothing for uniforms adaptable for sporting events.

The authorities have been at their wits ends to put a stop to this petty thieving.

The climax came when Frank Fabiano, who had changed his clothes for a uniform, had taken eight dollars from his pockets and placed it in a grip. When he returned to dress his found the money was missing and he made his loss known to the school authorities who quickly enlisted the services of Chief Van Ry and staff.

The result was that three young lads, one 17 and two 18, respectively, were found hanging around and when taken on suspicion, confessed to stealing the money. They denied any connection with any previous depredations in the gymnasium dating before this one.

The young men are all working in local factories and are not even members of the high school, not having finished the eighth grade. They are all children of poor parents put to work at an early age. This all came out in the cross-examination given the boys by Justice Robinson.

The young men begged to be given another chance and for that reason the boys' names are withheld from publication. Mr. Robinson gave the young men a very severe lecture, followed by a heart-to-heart talk, which broke them up completely. They made a promise to always go straight in the future.

He however exacted from them certain rules to follow for the next six months and put them on probation with instructions to report to the Chief of Police regularly.

The probation stipulations follow: Whereupon I placed said defendant upon probation for a period of six months, reporting to the Chief of Police, Frank Van Ry, of the City of Holland, who I appoint probation officer. The conditions of said probation are as follows:

1. That the probationer shall not during the term of his probation violate any criminal law of the state of Michigan or any ordinance of any municipality of the said state.

2. That he shall not during the term of his probation leave the state without the consent of this court.

3. That he shall make a report to the said probation officer in person on Saturday evening of each week during the said period of probation.

4. That the probationer shall abstain from the use of liquor and avoid pool rooms and bowling alleys during the period of said probation.

5. That he shall immediately obtain employment and pay to his parents the full amount of his earnings.

6. That he shall pay into court on or before Saturday, November 11, 1916, the costs of prosecution herein amounting to \$3.45.

WE HAVE SOME TOWN
SAYS MR. GENNHAS BEEN HERE THREE MONTHS
MAKING AN INSURANCE
MAP.

Mr. M. J. Benn of Richmond, Ind., and draftsman for the Sanborn Map Co. of Chicago, Ill., has been in Holland for the last three months making an atlas and maps of Holland to be used by every insurance company in the land. Some time ago this paper printed a story of Mr. Genn's work here and the intricacies of insurance map making and after he is through he ought to know more about Holland than we do ourselves.

Mr. and Mrs. Genn have divided their time between the local resorts and Holland and have enjoyed every minute of their stay in this vicinity.

When questioned by the editor as to what he thought of the city, he said: "I have been over every foot of property in your city; every building, factory and business establishment has been inspected, and I want to tell you that you have the biggest little city to be found anywhere. You have diversified industries and scores of them. Your city is clean, neat and up-to-date, and your resorts! Why man, the citizens of Holland do not realize what they have here. In fact the location is ideal and all that could possibly be desired." Mr. and Mrs. Genn will leave Holland and go to the next town where ever he may be assigned, but wherever he may go, he will speak a good word for our city and that is more than some of us do at times.

MAYOR CALLS FOR A
CLEANUP; FIRES O. K.

In about a week this city will have the pleasure and privilege of entertaining the State S. S. Convention. It is expected that there will be at least 1600 delegates from all over the state in our midst. Besides there will be some 2,000 more visitors from the surrounding country who will come in each day to attend the convention. In order that our city may make as good an impression on our visitors as possible, I would suggest that every citizen clean up his yard of leaves or any rubbish that may have accumulated. Let us show these visitors every courtesy that we possibly can. We have invited them to our city, let us uphold our reputation of royal entertainers and thus advertise our beautiful city.

John Vandersluis, Mayor.

The burning of leaves and rubbish collected from the yards of citizens started Saturday and all of this week, provided the wind is not too strong. Citizens are warned not to start a bon fire in a strong wind. To allow the cleaning up of the city, therefore, bonfires will be permitted from Nov. 4 to Nov. 11.

C. Blom, Jr., Fire Chief.

TOLL OF STORM IS
GREAT NEAR HOLLANDTWO BUILDINGS, STRUCK BY
LIGHTNING, BURN TO GROUND
IN RAIN.

An autumnal electrical storm of great fury passed over this vicinity between five-thirty and six-thirty last Friday evening with it center covering the southern edge of Holland and causing a large amount of damage.

The home of John Schutt on West Twenty-ninth street, just outside the city, burned to the ground after being struck by a bolt of lightning. At 6 o'clock during the height of the storm the ball of fire demolished the home and immediately it was ablaze.

That no loss of life was suffered is due to the fact that no one was in the house at the time. Mrs. Schutt, with the children had hurried to the home of her parents, Mr. and Mrs. John Van Dyke of west 16th street, at the approach of the storm as she disliked being alone. Mr. Schutt was still in the John Bosman Tailor shop on East 8th street where he is employed.

The neighbors succeeded in saving a few pieces of furniture before the flames kept them at a distance, but the rest of the furnishings and the building are now in ashes. The value of the house is estimated at \$1300, the loss being partly covered by insurance. A newly arrived winter's supply of coal and wood in the basement kept burning far into the night, covered by the iron parts of baby carriages, wash machine and beds.

A miraculous escape from death was experienced by Sidney Jarvis, motorman on the Michigan Railway, when he left his home on the way to the repair car, called out to immediate service. He carried an umbrella with a steel point. Using this as a lightning rod, an electric bolt shot down it, rendering Jarvis unconscious. The decorative tassels on the handle were burned off by the electricity but beyond being stunned, Jarvis was not harmed.

The barn of George Brinkman, a resident near Jenison Park, was struck by lightning shortly before 6 o'clock and burned without much being saved. An adjacent chicken house caught fire from the barn and also became a loss. Mr. Brinkman, standing in front of the barn when the bolt fell, was thrown to the ground, stunned, but was soon able to get about and untie the cattle and horses from the stalls.

All the hay, straw and grain he had stored, two pigs and a large flock of chickens were cremated. The house was saved by the neighbors, who carried buckets of water from a nearby creek.

TOWER CLOCK BARBER
SHOP CHANGES HANDSFREDERICK AND KAALMINK BUY
OUT HERMAN MEPPELINK;
START MONDAY.

Herman Meppelink, formerly proprietor of the Tower Clock Barber shop, has sold his stand to E. Frederick and George Kaalmink of this city. The new comers will take charge of their shop Monday morning with several improvements and will be ready to accommodate the large number of patrons.

Frederick and Kaalmink have been employed until recently in the Belt Barber shop on East Eighth street. In taking over their new venture they will be followed by wishes of success from many friends made during their work in the Belt shop.

"Y" TO HAVE
TWO QUINTETSBASKET BALL TO BE RIVAL CARD
WITH HIGH AND COLLEGE;
MANAGER NAMED.

"Y" basket ball will be a rival attraction this winter in Holland with the high school and Hope college contests. Former stars on well known teams of this vicinity are enrolled in the "Y" and will form two teams, a first and second.

The first two years of the city "Y" here experienced a lack of material that would not allow two fives. Now there will be some hard fighting for places on the first squad. Albert Van Zoeren has been appointed as basket ball manager.

Secretary Fred Steininger has gym classes every Monday and Thursday night that total a membership of one hundred. New names are being added to the roll each week and the success of the "Y" this year is expected to better all other years by far.

GAS TANK IN
GREAT DANGER

The painting of the enormous gas tank on East 13th street has been finished by the Bert Slagb firm of this city. That Holland has been "painted red" by some happy thought is the deduction made by visitors near there, but they are wrong. So were the residents of that vicinity when they said things on waking up to find a red world confronting them Wednesday.

Eleven hundred pounds of red lead were used in painting the tank. Its rim is 75 feet above ground and the work on its smooth side entailed some danger. Now the huge mass is one danger sign. Four men were engaged in the painting and lengthening out, it would have taken one man 41 days. It is a decided improvement.

INTER-CITY TOURNAMENT STARTED
YESTERDAY; SILVER CUP TO
BE GIVEN.

A big inter-city pocket-billiard tournament has been arranged by Grand Haven's largest parlors and Kris Karose of Holland. Four of the best players from here will meet Grand Havenponents at home and away from home on a regular schedule.

A silver cup will be donated to winning team besides numerous other prizes. There has been considerable interest around in the contests and quite a delegation of rooters followed the Grand Haven team to Holland Wednesday to witness the first game.

ELECT DELEGATES TO
GRAND RAPIDS MEETMESDAMES MARKHAM AND Mc
CLELLAN TO REPRESENT HOL-
LAND'S HOME MISSIONARY
SOCIETY.

The Home Missionary Society of the M. E. church held a meeting Monday evening at the home of Mrs. Albert Winstrom, 271 W. 17th street. Devotional services were conducted by Mrs. Guy C. Moody.

The annual temperance program was carried out as arranged by Mrs. O. D. Bottome, superintendent of the temperance department. A very interesting reading, "Home Rule and Home Rulers", was given by Mrs. Mabel Fisher. Clippings from the daily papers, bearing on the subject, were read by each lady present. Temperance songs were sung by the Misses Anna Boot and Clara McClellan.

Mrs. Etta Whitman gave a profitable temperance address, relating some personal experience in county option campaigns in the northern part of the state, and closing with words of encouragement applicable to the present time.

Mrs. E. Markham and Mrs. A. E. McClellan were elected delegates to the Home Missionary Conference Meeting at St. Paul's church, Grand Rapids, November 11-16.

Delicious refreshments were served by the hostess, assisted by the Misses Esther and Jennie Winstrom and Lucy Moody.

DUPLEX TRUCK CO.
DOING BIG BUSINESSWILL EMPLOY TWO HUNDRED
MEN AND MAKE TEN CARS
DAILY.

Michigan Tradesman: At a recent meeting of the officers and employees of the Duplex Power Car Company of Charlotte, Leroy H. Brown, the new manager, demonstrated that the business of that company probably has greater promise now than at any time in its history. The talk of Mr. Brown was educational to the employees, showing what was being undertaken, and mapping out the co-operative features whereby not only the company but all employees will be greatly benefited. To show what the present status is, it is desired to increase the working force immediately to 200 men, and calls for this additional force are being made through trade journals. As fast as help can be reached the output will be increased to reach ten cars per day, and this as early as possible. A night force is being arranged and the factory will run night and day. Three floors will be actively employed, the basement for machines, the second for assembling and third for wood and paint work. About thirty new men have been added to the force during the past week. Ample capital it is reported, has been procured to care for the increased factory operations.

ZEELAND TO PAVE
ITS MAIN STREET

Zeeland voted to bond for \$17,000 in \$1000 bonds to effect a pavement for its main street by a number of 331 to 150. The need of the improvement overshadows the expense and more than a two to one vote brings it.

CELEBRATED 47TH
ANNIVERSARY WED.MR. AND MRS. P. A. KLEIS MAR-
RIED IN '69; IN U. S. 69
YEARS

Mr. and Mrs. P. A. Kleis of 165 E. Ninth street Wednesday celebrated their forty-seventh wedding anniversary. They have lived in this country for the past sixty-nine years.

Mr. Kleis is 74 years old and is hale and hearty. Mrs. Kleis has arrived at the age of 68 and is in good health. The old couple have five children, eight grand children and one great-grandchild.

ZEELAND CLUB HAS
NOTED INSTRUCTORMANDOLIN-GUITAR CLUB BEGINS
ACTIVITIES WITH BARENSE
AS HEAD.

Arnold Barense has been chosen president of the newly organized mandolin-guitar club in Zeeland. Bert Grinwis is secretary-treasurer. The mandolin-guitar club has secured the services as instructor and leader of Mrs. Adabelle Dillabaugh, who has the reputation of being Grand Rapids' foremost teacher of the mandolin.

There are four classes, eligibility to any of which depends on the advancement the student has made in his studies, one of them being a class for beginners. Among the instruments played in this organization are the mandolin, the mandola, mandocello, mando-bass, harp-guitar and the guitar. Meetings are held every Friday evening.

PLAN OTTAWA COUNTY
COMMERCIAL CLUBGrand Haven Boosters Foster Move to
Aid the Villages' In-
dustrially

A movement is well under way to organize Ottawa county commercially. The method will include commercial organizations in every village and city in the county and a county commercial club to bring about co-operation for industries.

Ottawa county today is co-operating with the Western Michigan Development bureau and in that way works with every other county in western Michigan. Up to this time, however, the cities in the county have not co-operated commercially or industrially. Socially the cities are hand in hand on almost every movement.

In the interest of furthering agricultural movements in Ottawa county the secretary of the Grand Haven Chamber of Commerce is to address a meeting at West Crookery Saturday night and at Holland Friday evening.

RESOLUTIONS

WHEREAS, It has pleased Almighty God to remove from among us by the hand of death our beloved friend, Mrs. Helen Pardee, therefore,

Resolved, That we, the Director and members of the Chorus of the 56th Annual Michigan State Sunday School Convention, which is to meet in this city in the near future, feel most keenly that we, as a body representing the musical talent of the city of Holland, have, through the early departure of this life of Mrs. Pardee lost a friend of great musical talent, who was always ready to co-operate in musical activities of our city. And further,

RESOLVED, that we hereby give expression to our deep sympathy with the bereaved relatives in their great loss, and commend them to the grace and comfort of Him Who is, "an ever present help in time of trouble."

RESOLVED, that a copy of these resolutions be sent to the bereaved family and offered to the local papers, The Holland Daily Sentinel and Holland City News for publication.

In behalf of the Convention Chorus of four hundred and fifty voices representing the fourteen churches of Holland,

W. J. VAN KERSEN,
WM. VANDER HART,
GIRARD COOK,

Committee.

FIRE TRUCK SUIT STAGED FOR THIS MONTH

MANY HOLLAND CASES ON THE CALENDAR FOR NOVEMBER TERM

Although there is not a criminal case on the calendar from Holland, which speaks well for the largest city in the county, nevertheless this city makes up for it in other cases as the list is replete in civil and chancery suits.

Holland City itself will come in for a whirl at the bar of justice in the form of a \$10,000 suit with the Duplex Fire Truck Company, brought for the purpose of getting their money for the two trucks now stored in the Weerdung storage. The outcome of this case will no doubt be looked for with interest.

The calendar for the coming term contains twelve criminal cases most of which will be tried in the expected. There is a large civil jury calendar and a good sized chancery calendar to keep the court going several weeks. The line up of cases is as follows:

Criminal Calendar: People vs. Albert Kuiper; the People vs. Bert Shoemaker, grand larceny; people vs. Lloyd Roberts, desertion; People vs. Jacob Hoogstraet, desertion; People vs. William Coffey and Della Coffey, gross lewdness; people vs. Ivan Newman, desertion; people vs. Eli Sheldon, statutory rape; people vs. James Evans, embezzlement; people vs. Charles Dykema, larceny from person; people vs. Leonard Cramer, desertion; people vs. Dick De Boer, furnishing liquor to posted person; people vs. Jacob Wyno, carrying concealed weapons.

Jorgensen, et al.; Mary Spruit vs. Jacob Spruit, divorce.

Cases in which no progress has been made for more than a year: Lewis W. Bowers vs. Luella Bowers, divorce; C. H. Gleason vs. Grand Rapids Trust Co. Ludwig Elbert vs. Wm. Jaeschki; Geo. Metz et al. A. C. Van Raalte, et al.; Marie Meyers vs. Gilbert Hathaway; Emil Messchke et al. vs. Edward A. Mosley, et al.; John Kamphuis vs. Ida Kamphuis; George C. Wright vs. Mary C. Wright; Rink Schotmans vs. Nellie Schotmans; Margaret Thompson vs. F. M. Thompson; Elizabeth Michael vs. Nicholas Michael.

MAYOR EXHIBITS AN OLD, WORN-OUT SHOE

At the morning session of the Third Church Sunday School Sunday Mayor Vandersluis gave a very unique object lesson. He showed the children an old worn-out shoe, so poor that they could look right thru it. Then he told the story of the shoe. It came to him when he was called to a certain home in the city by a mother who was in trouble. She had been ordered by the trustee of the church to send her children to school and she could not do so because her children had no clothes and no shoes.

Inquiry showed that the father was working, earning good wages, but that he was spending practically all his money in the saloons of Holland. The poor little shoe, which a little girl had to wear in all this rainy weather, touched the heart of the Sunday School children and made them begin to "hate the saloon."

HAS MORE GREAT-GRAND THAN GRAND CHILDREN

Mr. B. J. Lemmen of Graafschap died at his home Thursday evening at 10 o'clock, aged almost 94 years. He is survived by a wife and six children, who were all present at the time of his death. Besides this he leaves 43 grandchildren and 46 great-grandchildren.

The funeral services were held on Monday at 12 o'clock from the home, and at 1 o'clock at the Reformed church at Graafschap. Interment took place in the Graafschap cemetery.

900 ATTEND 9TH ANNUAL OF DUTCH SOCIETY

H. O. H. OF THIS CITY HOLDS MONSTROUS AFFAIR IN NEW I. O. O. F. HALL

This useful organization known as the Hollandsche Ouderlinge Hulp Vereniging Concordia, held its 9th annual banquet with their families in the new I. O. O. F. hall Friday evening, November 3rd. The threatening weather did not keep the enthusiastic members from attending, as 900 in all participated, the hall being filled to its utmost.

During a brief business meeting six candidates were accepted in the fold as members, making a total of 320. At the close of the business, President W. Lawrence placed the entertainment committee in charge, consisting of P. F. Koopman, chairman, John VerSchure, R. Cannemeyer, George Huntley, N. J. Jonker, M. Kammeraad and H. Topp, Jr.

Toastmaster P. F. Koopman made a few brief remarks and N. J. Jonker opened with prayer, followed by singing "The Star Spangled Banner," led by the Central Avenue church orchestra of 23 pieces, John Van Vyven, leading. A short talk was given by N. J. Jonker as to the standing of the society. It was organized in October, 1907, with 100 members. Today 320 members are enrolled with \$2,000 in the treasury. The nominal fee of 50c per month and admission fee ranging according to age as follows, are paid:

18 to 24	\$2.00
24 to 30	\$3.00
30 to 40	\$4.00
40 to 50	\$5.00

In case of sickness or accident, the beneficiary is entitled to \$1.50 for the first week and a dollar each day for each working day not to exceed \$75 for one year and in case of death of a member, the beneficiary receives \$100. In case of the death of a member's wife he receives \$50. The "John and Henry" quartette rendered a song and were applauded back for another. They were followed by a dialog given by John and Andrew Ver Schure in the Holland language, entitled "The Farmer in the Photo Gallery." The original Dutch costumes were worn by them including wooden shoes. The audience cheered and applauded. Orchestra music was heard and a budget was given by N. J. Jonker. A recitation "Moof op de Vront" by Anthony Van Ry was followed by orchestra music; a recitation by Casper Selles and another selection by the "John and Henry" quartet.

The Hollanders as a rule are a healthy and strong class of people and so the refreshments were welcomed. Twenty young ladies, members' daughters, acted as waitresses while a number of the wives of members took charge of the kitchen, passing out good things to eat and real Dutch coffee.

Mr. John Van Vyven as leader of the orchestra rendered some choice music followed by the singing of "Het Hollandsche Volkslied." The audience all rising to their feet, the orchestra struck up the tune of "America" in which every one took part, both young and old. At a late hour every one went to their respective homes, well satisfied with the enjoyable evening spent and hoping to have it duplicated. The entertainment committee wished to thank everyone who served as waitresses and those that took part in the program.

Grand Rapids Farmers Don't Know Beans from Bags

Farmers around Grand Rapids admit they don't know beans even when the bag is open.

Six months ago a fat stranger who said he was a government expert, visited a half dozen western Michigan counties and offered farmers "the new creation" bean at the ridiculously low price of 10 cents a package. No farmer could buy more than \$2 worth, he said, as the government desired wide distribution. He promised eighty bushels to the acre.

Many farmers bought and had their employees buy. This month the beans were harvested and did not average more than usual and were the identical beans farmers are selling here for \$5 per bushel.

Farmers who weighed their packages of beans say they paid at the rate of \$125 per bushel for them. The government detectives are seeking the stranger.

TO BUILD WAREHOUSE FOR HOLLAND FURNACES

Continued fine weather has helped the realty market and dealers state business in Grand Rapids is in larger volume than earlier in the season.

Homer Adriance & Son have sold to Robert M. De Bruyn, a 50-foot lot on Market avenue in Grand Rapids on which he will build a large warehouse to be used in connection with the output of Holland furnaces, for which he is general agent.

HOLLAND APPLAUDS WELL KNOWN READER

MRS. FENETTA SARGENT HAS KELL WINS HEARTS OF CROWD IN HIGH SCHOOL

Before a crowded auditorium in the high school Friday evening, in spite of the absence of the teachers of the city due to the conference at Grand Rapids, Mrs. Fenetta Sargent Haskell, reader, entertained with a varied program that increased her popularity with a Holland audience.

The extremes of emotion and characterization were called for. Mrs. Haskell failed in none but on the contrary brought out each individual interpreted before the audience in a way that few readers are capable of.

The next number on the high school course is to be staged on Nov. 21. A joint recital by Alberto Salvi, Helen Brown Reed and Edith Harris, harpist, soprano and accompanist respectively, will be the grand windup of the trio of attractions. The salvi, the harpist, is worth the season's price alone, as those who heard him last winter can testify. The soprano and accompanist fill out a group of artists that is not bettered on the Lyceum platform.

COMMON COUNCIL

Holland, Michigan, Nov. 1, 1916

The common council met in regular session and was called to order by the Mayor.

Present: Mayor Vandersluis, Alds. Prins, Verschuere, Brink, Drinkwater, Congleton, Kammeraad, Lawrence, Postma, Dobben, Vander Hill, Wiersma, and Clerk.

The minutes of the last meeting were approved.

Petitions and Accounts
Belhuis & Mfg. Co., petitioned for a street light on 17th street at the Pere Marquette railway.

Referred to the Committee on Public Lighting, with power to act.

Ald. Brink here appeared and took his seat.

The Clerk presented a communication from Attorney Van Duren addressed to the City attorney, relative to the claim of J. A. VanderVein against the City of Holland for money paid for axes.

Filed.

Gerrit Vander Hill petitioned to come under the compulsory sewer ordinance, and presented agreement waiving service of notice and everything else necessary to come under the said ordinance, and have his premises connected with a sanitary sewer.

Accepted and granted.

No. 400 and 404 Columbia Avenue, which said properties have been ordered connected with a sanitary sewer, reported having tried to reach an agreement with adjacent property owner for the crossing of his premises, but without result, and asked advice of the council as to how to further proceed in the matter.

Referred to the Committee on Sewers and Water Courses.

Owners of Property on 24th Street, between Central and College Avenues petitioned the Council to include that part of 24th street in the proposed improvement of said street, between College and Lincoln Avenues.

That improvement to be the same as of that part of said street, both as to the nature of the improvement and the manner of payment for same.

Referred to the Committee on Streets and Crosswalks.

Twenty members were present and more are expected to hand in their names as members.

NOTED WORKER IS HEARD AT W. L. C.

MISS GARDNER, SEC. GRAND RAPIDS ASSOCIATION, TOLD OF SOCIAL WELFARE.

Tuesday afternoon the program at the Woman's club was in charge of Mrs. Browning and the Charity Committee. Mrs. Ogden reported for the Civic Circle that a large class of little girls had been added to the work this year. About a hundred and thirty-five of these girls meet on Saturday afternoons from 3 to 5, and there is need of more teachers.

Mrs. Browning gave an interesting report of the county infirmary. Everything possible is done for comfort and an effort is made by the matron, Mrs. Cook, to surround the inmates with all the home atmosphere possible. Mrs. Browning appealed for small donations, that a Thanksgiving gift of fruit and candy might be sent to the infirmary from our club.

The speaker of the afternoon was Miss Evelyn Gardner, secretary of the Social Welfare Association of Grand Rapids, who held the large audience in close attention for over an hour. Social Welfare, Miss Gardner said, sought to combine the old time, ill-judged charity of the heart with the second step, cold, scientific, charity of the mind; and not by mechanical "investigation" but by tactful conversation and real interest, led to knowledge that would bring about permanent betterment, and raise the unfortunate from dependence to independence. The poor are not a class by themselves but just common individuals suffering from unusual circumstances. Social Welfare is an effort to bring about more effective service through combining all the different organizations. A very important part of the work is legislative; and by their investigations to see how far social conditions were responsible for poverty, the Grand Rapids workers had succeeded in having the 54-hour law for women amended to include restaurants and cafes, and in securing for their city the best housing code in the U. S. Another feature is "Family Rehabilitation" and through this work, in very many cases, husbands and wives, fathers and children have been reconciled, and thus many families brought up from poverty and degradation to good and loyal citizenship.

As to the question whether a good part of every dollar given doesn't go into workers' salaries, Miss Gardner says it does, because the poor deserve the very best service they can get; and by employing that service and paying for it a fair salary, more food and fuel can be obtained by other means than charity. The workers, however, in cases of pressing need, always give immediate relief pending investigation.

With a very charming personal touch Miss Gardner illustrated each phase of the work with appealing incidents and quite won the hearts of her hearers. She will always be a welcome speaker in Holland.

The closing number on the program was a fine rendering of "The Cry of Rachel," by Mrs. Milton Hoffman.

CHURCH HONOR MISSIONARIES; LEAVE TODAY

REV. AND MRS. W. HOEKJE BANGQUETED ON EVE OF LEAVING FOR JAPAN.

C. M. McLean Acts As Host in the Parlor of Hope Church Tuesday Night

Tuesday night in the church parlors Hope Church gave a farewell dinner for their missionary pastor and his wife, Rev. and Mrs. Willis Hoekje, who leave Thursday for their return to Japan. Besides the guests of honor there were present the consistory and their wives, the presidents of the college and seminary, the missionary committee, and the officers of the church organizations. The parlors presented a scene of great beauty. The color scheme was yellow and white. The front part of the large room was transformed into a most attractive reception parlor by means of rugs, draperies, pillows and great clusters of splendid yellow and white chrysanthemums. Behind this were set tables in a hollow square, with snowy linen and shining silver, dainty baskets of yellow and white asters, and yellow shaded candles.

The delicious four-course dinner was marked throughout by friendliness and good cheer. At its close, Mr. McLean who, with his usual graciousness of manner, acted the part of host, made a little informal speech, dwelling chiefly on the closeness of feeling that had grown in this year of furlough, between the people of Hope church and their missionary pastor. He then introduced Mrs. Hoekje, who told most charmingly some amusing incidents of Japanese life, and from what was evidently a full heart, expressed her gratitude for the warmth of kindness and friendliness that had been shown her, who came among them a stranger. Mr. Hoekje was the last speaker. With that straightforward sincerity and earnestness that has won for him so high a place in their regard, he struck, as the key-note of his little talk, that he and Mrs. Hoekje would take back with them, as the greatest inspiration for their renewed work in Japan, the assurance that the people of Hope church would stay by them to the end.

After the dinner, the guests crowded around them to bid God-speed and seven short years of happy work to the loved missionary and his charming wife.

Benton Harbor Milk Dealers Raise Price

Benton Harbor, Mich., Nov. 4.—The milk dealers of the Twin cities have been forced to raise their prices an average of from one to two cents per quart on milk, cream and dairy products. Increased cost of milk and in operating expense is given as the cause. This is the first time in local history that milk has sold for over seven cents per quart. Eight cents is the new quotation.

WIFE OF MARQUETTE WARDEN IS A GUEST

TALKS TO MEMBERS OF O. E. S.; MRS. EDNA BERTSCH RECEIVES A TOKEN.

Mrs. J. L. Deagon, wife of Warden Deagon of the Marquette prison, was Thursday evening a guest of honor at the meeting of the Star of Bethlehem Chapter, O. E. S. She is a Past Worthy Matron of the Order, spending a short visit here with her son, R. Deagon, 325 First Avenue. In the course of the evening she addressed the members of the Chapter.

In appreciation of Mrs. Edna Bertsch, Past Worthy Matron, Worthy Patron Paul R. Coster presented her with an Eastern Star ring in behalf of the Order. Mrs. Bertsch accepted the gift with a few grateful words.

Reports of the meeting of the Grand Chapter at Grand Rapids two weeks ago were heard. Refreshments were served and a social time with several out-of-town guests was enjoyed.

and contents after death or recovery of patient.

Erysipelas—

1. Cases must be reported.
2. Isolation of patient.
3. Disinfection of all materials coming into contact with erysipelas areas, required.

Impetigo Contagiosa—

1. Cases must be reported.
2. Isolation of patient. (The disease is contagious and spreads by scratching as well as by common towels and other articles.)
3. Children having the disease must not attend school until all sores are healed and skin is smooth.
4. Disinfection of all contaminated articles.

Measles—

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Isolation of patient two weeks. Exclude from school children in the household who have not had measles. No restriction on heads of families. Period of invasion and eruption most dangerous, hence necessity of early recognition and isolation.

Mumps—

1. Cases must be reported. Is an epidemic action and is transmitted almost exclusively by direct contact from person to person, but cases have been traced to indirect infection through third persons or objects, hence the person afflicted should be isolated and kept out of school until entirely free from the disease or its complications or sequelae. Contagious before symptoms appear.
2. The duration of the contagiousness is from two to six weeks, but, by fumigation of clothing, by disinfecting baths and antiseptic gargles and mouth washes, return to school might be permitted sooner, upon the advice of the attending physician. Exposed persons should be kept under supervision until danger period is past.

Pneumonia (Croupous or Lobar)

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Isolation of patients and disinfection of the sputum and excretions from nose and throat absolutely necessary. Every case is a focus for the spread of infection. Fumigation not required if precautions are taken during progress of disease. (See pamphlet.)

Polio-myelitis—Acute Anterior (Infantile Paralysis).

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Isolation of patients and disinfection of the sputum and excretions from nose and throat absolutely necessary. Every case is a focus for the spread of infection. Fumigation not required if precautions are taken during progress of disease. (See pamphlet.)

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Quarantine of household four weeks, minimum. Head of family and other adults may be released from quarantine after antiseptic bath and in disinfected clothing. Discharges from nose and mouth should be disinfected.
4. Complete disinfection of rooms and clothing after death or recovery of patient.

Rabies (Hydrophobia)—

1. Cases must be reported.
2. Isolation of patient and proper restraint.
3. Patient should be given Pasteur treatment as soon as possible after diagnosis has been made or if Rabies is suspected.

Rubella (German Measles)—

1. Cases must be reported.
2. Conspicuous placard on the house.

Persons having this disease must be isolated until fully recovered. Children who have not had the disease, but are living in the same house, if not exposed, may attend school. It has no relation to other Measles or Scarlet Fever, and protects only against after attacks of the same infection.

Scarlet Fever (Scarlet Rash; Scarlatina)—

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Quarantine minimum 35 days, or longer, until cure is complete. Head of family may be disinfecting and released. Children not ill in the household should be disinfecting and quarantined elsewhere for 10 days and then allowed to go to school. Patient may enter school and other public assemblies two weeks after release from quarantine.
4. Complete disinfection of rooms and clothing after death or recovery of patient. Milk from a dairy or farm where disease exists cannot be sold.

Smallpox—

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Absolute quarantine. Wage-earners who have been successfully vaccinated may, upon revaccination be disinfecting and allowed to reside elsewhere, but should be under observation of health officer for 16 days. Other exposed persons, who have been successfully vaccinated, may be revaccinated, disinfecting and kept under observation 16 days. Exposed persons who have not been successfully vaccinated should be vaccinated and quarantined 16 days. Children from infected households should be barred from school until two

weeks after release from quarantine. Smallpox may be acquired any time during progress of the disease.

4. Complete disinfection of rooms and clothing after death or recovery of the patient required.

Spinal Meningitis (Acute Cerebro)—

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Isolation of patient and attendance.

Tuberculosis—

1. Cases must be reported.
2. Careful instructions regarding disinfection of sputum must be given.
3. Complete disinfection of room and clothing, after death, recovery or removal of patient, required. (See Tuberculosis law and special pamphlet.)

Typhoid Fever—

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Isolation of patient. No restriction on other members of family. Excreta from patient must be thoroughly disinfecting. Marketing of dairy products is forbidden by law.
4. Complete disinfection of rooms and clothing, after death or recovery of patient, required.

Whooping Cough—

1. Cases must be reported.
2. Conspicuous placard on the house.
3. Isolation of patient until after whooping stage. Exclude from school, children in the household who have not had Whooping Cough.
4. Children should be permitted to go out every day; but must not come in contact with others who have not had the disease. If possible, an attendant should always accompany them. Fresh air, but not vigorous exercise, is necessary in the treatment of Whooping cough.

GUARDED WITHOUT AND WITHIN

Tiburon is an island lying in the Gulf of California, and it belongs to Mexico. It is very small, only thirty miles long and twenty miles wide and is worthless even for keeping goats, yet it is a center of attraction for men who make a study of savages.

Its name explains the outer guard, for it is the Spanish for "shark" and the island is well named surrounded as it always is by swarms of the fierce

fish. Within is only a handful of Indians known as Seris, yet they are none the less to be feared, for they are cannibals and possess the secret for making deadly poison for their arrows, so that the mainland tribe of Mexican Indians dare not venture there.

Now Lookout.

When a cold hangs on as often happens or when you have hardly gotten over one cold before you contract another, lookout for you are liable to contract some very serious disease. This succession of colds weakens the system and lowers the vitality so that you are much more liable to contract chronic catarrh, pneumonia or consumption. Cure your cold while you can. Chamberlain's Cough Remedy has a great reputation. It is relied upon by thousands of people and never disappoints them. Try it. It only costs a quarter.

MRS. MELTON'S LETTER

To Tired Worn-Out Mothers

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have.

"I have a family of five, sew, cook and do my housework and I became very much run-down in health. A friend asked me to try Vinol. I did so and now I am well and strong and my old-time energy has been restored. Vinol has no superior as a tonic for worn-out, run-down, tired mothers or housekeepers."—Mrs. J. N. Melton, Jackson, Miss.

Vaupell & Aldworth, druggists, Holland. Vinol is sold in Zealand by A. De Kruif. Also at the leading drug store in all Michigan towns.

Her Son Subject to Croup

"My son Edwin is subject to croup," writes Mrs. E. O. Erwin, New Kensington, Pa. "I put in many sleepless hours at night before I learned of Chamberlain's Cough Remedy. Mothers need not fear this disease if they keep a bottle of Chamberlain's Cough Remedy in the house and use it as directed. It always gave my boy relief. Obtainable everywhere. Adv.
