It is as true of newspapers as of  
churches, that those who contribute  
the least to their support criticise and  
find the most fault with the manage-  
ment.

After many years of delay, John  
Spoon, of Crookery, has obtained a  
judgment against the C. & W. M. rail-

cluding also a spur to his saw-mill at

Holland, Mich., Nov. 13, 1890.

Pronounced Hopeless, Yet  
Saved.

From a letter written by Mrs. Ada  
E. Hurd of Groton, S. D., we quote:  
"Was taken with a bad cold, which  
settled on my Lungs, cough set in and  
finally terminated in Consumption. Four  
doctors gave me up saying I could  
live but a short time. I gave myself  
up to my Saviour, determined if I could  
not stay with my friends on earth, I  
would meet my absent ones above. My  
husband was advised to get Dr. King's  
New Discovery for Consumption, Coughs  
and Colds. I gave it a trial, took in  
all and thank God it has cured me  
and I am now a well and hearty woman."

Yours truly,  
L. P. HUSEN.

led the Boers in their struggle for lib-

made President of the Republic and

moved to Grand Haven in 1861. Of

this fall in Michigan is largely in excess  
of one year ago, amounting to 1,500,-  
000 acres, which is an increase of  
about 64,000 acres. The average condi-  
tion is much better than at the corre-  
sponding date for a number of years.  
This is attributed to the very favorable  
weather conditions continuing through  
the entire fall.

Rev. S. H. Woodford, a reporter on  
one of the Grand Rapids dailies, but  
formerly pastor of the Episcopal church  
at Grand Haven and of Trinity Epis-  
copal church at Grand Rapids, created a  
scene in the latter church, Sunday  
morning, when Rev. H. H. Johnson was  
ordained as his successor, by Bishop  
Gillespie. At that point in the  
ritual of the Episc. church where the  
Bishop challenges the people to declare  
whatever moral impediment may be in  
the way of the candidate, the Rev. H.  
S. Woodford stepped into the chancel  
and said: "In the name of God I come  
forward to protest against the continu-  
ance of this ceremony on the ground  
of the habitual untruthfulness of the  
candidate." He was asked for proof,  
and quickly wrote the names of Bishop  
Gillespie, Sidney H. Woodford, Rev.  
Dr. Campbell Fair and others as wit-  
nesses. These names were read off,  
but no one responded, until Woodford  
was reached. He replied that he was  
not then prepared to give his testimo-  
ny. Bishop Gillespie declared, when  
his own name was read, that before  
God he knew nothing detrimental to  
Mr. Johnson's character. After some

and Mr. Woodford the services were  
resumed and the candidate installed.

### TENANTS DRIVEN OUT.

Irish Evictions One More Under Way—Sixteen Families Homeless.

DISPATRIES from the scene of the evictions at Ardsberg, on the Olphert estates, in County Donegal, describe many pitiful occurrences. Sixteen families, comprising 100 persons, were evicted, and the process will go on until about fifty families are dispossessed. There was a squabble during the proceedings, caused by the activity of J. G. S. MacNeill, M. P. for South Donegal, in championing the interests of the tenants. Mr. MacNeill chalked the sleeves of policemen who were particularly rough in handling the tenants, and warned them that he would cause them to be prosecuted for misbehavior. The marking was done in order to identify the officers, as the authorities refused to make them wear badges. The numerous English visitors who were present to witness the evictions held a meeting afterward at which resolutions were adopted expressing their indignation over the affair. The London Times correspondent in his account of the proceedings alleges that, though in the houses where evictions were anticipated no food was found, two tons of excellent potatoes were discovered in one dwelling whose occupants had not expected to be disturbed.

### IN MEMORY OF SPIES, ET. AL.

The Anarchists Hold a Demonstration to Keep Alive the Memory of the Hangings.

"TAKE that inscription down; you can't keep it up here," exclaimed Police Capt. McCullough at the anarchistic demonstration at Cooper Union, New York. The Captain pointed with his club to a red banner under the speaker's desk, on which in white letters was inscribed, "If you assault us with gatling guns we will use dynamite on you." A number of anarchists protested against the order and made some hisses, but the Captain remained firm and the banner came down. The meeting was to keep fresh the memory of the Chicago Anarchists. It was the largest ever held in New York. Ten sergeants and 100 policemen were on hand. The platform was crowded with the leading red lights of anarchy. Lucy Parsons was introduced and made her usual speech. John Most gave one of his characteristic yawns, which was widely applauded.

### "Rushed" Their Way in a Jail.

FIVE students and one town boy spent the night in jail at Ann Arbor, Mich., instead of at their boarding places on account of a "rush" at the post office in the evening. The students were in line waiting to receive their mail when they began "rushing." An officer standing by arrested one of the leaders and hustled him off to jail, followed by a howling crowd of several hundred. Had the students then gone away the prisoner would probably have been released, but in that they hung around until five others were locked up, and only left when Mayor Manly ordered the streets cleared and instructed his officers to arrest all who were there in five minutes. The boys concluded the Mayor meant business, and left before the time expired.

### Found the Jew in the Dress.

A TRAVELING saleslady named Hughes created a flurry in the Carter house in Champaign, Ill. The lady fainting while at breakfast and fell to the floor. A gentleman went to her assistance and she was taken to her room. When she recovered, the proprietor of the hotel was sent for, and the lady informed him that while unconscious she had been robbed of a valuable diamond earring. She was on the point of having everybody in the house arrested when she found the jewel in a fold of her dress.

### The President Will Not Be There.

THOMAS WALSH, President of the Emerald Club at Washington, says that he did not think the President would be invited to the Dillon-O'Brien reception if one should be held. As a matter of fact, he says Messrs. Dillon and O'Brien, while members of Parliament, and as such entitled to due courtesy, are also British outlaws, just as the Comte de Paris was during his recent visit, and no more official consideration can be shown the Irish statesmen by the President than was shown the French nobleman.

### Koch's Cure of Consumption.

PROFESSOR KOCH, the German scientist, will shortly publish an account of his discovery for the cure of consumption. The lymph used in inoculation will be so cheap as to be placed within the reach of all. The success of the treatment for tubercular affections of the skin, joints, and bones, and also in the early stages of pulmonary complaints is assured. The lymph destroys the tubercular bacilli, and throws them off.

### Iowa High School Statistics.

The high school statistics of Iowa, as compared by Superintendent Sablin, show the total number of girls graduated in 1890 to have been 1,290, and of boys 594. The total number of girls in attendance during the year was 10,885 and of boys 4,855.

### 24th and 25th School Year.

THE schooner Eastern Queen, of Gloucester, was seized at Soria, P. E. I., on the charge of violating the customs act. The offense is alleged to have been committed last year, when the vessel was under a different captain and owned by another man.

### Fifty-five Pigs Drowned.

A FERRYBOAT overloaded with men, wagons and horses capsized while crossing the river near Britz, Hungary, and fifty-five pigs were drowned.

## EVENTS OF THE WEEK.

### EASTERN OCCURRENCES.

A WEEK ago Saenger Hall, at Newark, N. J., was hired by people representing the International Workingmen's Society. The proprietor of the hall did not know that the people were anarchists until the bills were posted throughout the city announcing the celebration of the third anniversary of the hanging of the Chicago anarchists. Lucy Parsons, Herr Most, and Hugh O. Pentecost were advertised as speakers. When the speakers appeared the proprietor refused to allow them to enter the hall. A big crowd had congregated in the street. Mrs. Parsons mounted the hall steps and began to harangue the crowd. Police Captain Glori stepped upon and warned her to desist. She defied him with strong language, and several anarchists urged her to continue. The Captain gave a signal and the officers and detectives grabbed the ringleaders in short order and marched them to the Fourth Precinct Station. Those arrested are Jacob Dick, John Schmidt, Edward L. Klump, Englebert Hummer, Simeon Gortman, Charles Yager, Adam Dasing, Sebastian Mohr, and Mrs. Parsons. Herr Most escaped in the crowd.

A GLARING sign which hangs in front of Koster & Bial's, New York, informs the public that Sig. Jean Succi, formerly of Boulogne, France, will starve himself for forty-five days and try to beat the record of Dr. Tanner, which was only forty days of continuous fasting. The fast will be conducted under the surveillance of Drs. Frank H. Ingram, Matthew D. Field, Edwin Gaillard, Mason N. W. Synde, Hugh Hogan, and N. S. Bauer. All these are physicians of good standing in the city. In addition relays of newspaper men will be continually on watch. Sig. Succi began his fast at 8 o'clock in the evening. At 7 o'clock he sat down to a most bountiful meal. When he began his last meal for forty-five days he weighed 134 1/2 pounds. When he arose from the table he weighed 137 1/2 pounds, showing that he had eaten three pounds at a single sitting. Then he smoked a cigar. At 8:10 o'clock he drank a parting glass of brandy and was off on his starving feat well filled and with his thirst properly quenched. During his fast Sig. Succi will swim, fence, ride horseback, and perform other feats when the humor strikes him. He smokes freely and can do anything he chooses except eat. The object of the fast is said to be purely scientific.

MR. ALEX. HEXTER, senior member of the firm of Hexter & Bros., clothing manufacturers, No. 432 Market street, Philadelphia, met death in a horrible manner. While in the elevator, passing from the second to the third floor, he stooped over to speak to an employee, and before he could escape his head was caught between the elevator and the ceiling. Complete decapitation followed.

### WESTERN HAPPENINGS.

BENJAMIN HOPKINS, the father of James Hopkins, who shot and killed Adrian McCracken ten miles southeast of Columbus, Ind., has lost his reason through grief.

THE Iowa Butter, Egg, and Cheese Association has closed its fourteenth annual convention at Fort Dodge. It endorsed the Conger lard bill and promised to contribute its share towards the World's Fair. O. L. Dennison, of Mason City, was elected President. The association represents an industry whose revenues in the State amount to \$50,000,000 yearly.

A PEARL-HUNTING craze has been started along the banks of the Mackinaw River, an affluent of the Illinois which flows through Woodford, McLean and Tazewell Counties in Illinois. Recently two boys obtained forty pearls from mussels taken from the Mackinaw near Karpis. They took two of the gems to Peoria, where they were offered \$2 for them. The river-bed is full of mussels, and it is believed that they contain countless pearls of value.

THE Kansas City packers will follow the example of their Chicago brothers and will raise the price of canned meats on account of the increased price of tin plate. They will also raise the price of tinned lard one-fourth of a cent a pound. The increased price will go into effect immediately.

CYRUS GALL, a saw-filer living at Bay City, Mich., was handling a 38-caliber revolver at his residence, when a cartridge was discharged accidentally. The bullet struck his daughter Gertrude, aged 18 years, in the left hip, causing a fatal wound.

ANNIE MADRILE, aged 18, walked off the Light street bridge, at Oshkosh, Wis., while the draw was open early one morning and was drowned.

THERE is imminent danger of a great grain blockade in the Red River Valley. The railroads are making extraordinary efforts to meet the demands of the shippers with a daily freight movement of 350 loaded cars on the Great Northern and Northern Pacific Railroads. But with the rapid increase of farmers' deliveries during this month and December it is feared that the elevators and railroads will prove unequal to the movement of the wheat crop of 35,000,000 bushels in the twelve counties of the valley. It will take 58,000 cars of 600 bushels each to move the wheat crop of the valley alone, irrespective of the demands for tonnage of the other parts of Northern Minnesota and North Dakota. The formation of a company with \$500,000 capital is being agitated for the purpose of erecting an elevator at Grand Forks, N. D., with a storage capacity of 5,000,000 bushels to store a part of the enormous surplus of the valley.

THE body of John Ivelt, one of the oldest residents and wealthiest citizens of California, was found near his home on Mercer River horribly bruised and mangled. His head had been beaten to a jelly. He ate his supper in his farm house and started for his private residence, which was upon a hill about 100 feet distant. The assassin must have done his bloody work just as Mr. Ivelt stepped upon the porch.

### SOUTHERN INCIDENTS.

A STRANGER giving his name as William Fontaine, accompanied by a young woman whom he introduced as his wife, visited all the public houses in Birmingham, Ala., and announced that he would give a show at Erskine's Hall at 4 o'clock. A present was to be given every pupil who attended. Twelve hundred children paid 10 cents admission, but in the hall they found no show and no presents. Fontaine told them to

pass out the back way and they would receive the presents there. They refused. Then he went into a dark corner, lighted a match and shouted: "Fire!" In a moment there was a panic and many children were trampled under foot and injured in getting out. Policemen sent up to arrest the swindlers found them locked in a room. The door was broken down and Fontaine and his wife are in prison. They refuse to make any statement or give any account of themselves.

TWO night trains on the Georgia Railroad, one leaving Atlanta for Augusta at 11:30 and the other leaving Augusta for Atlanta at the same hour, were robbed by masked men. The Southern Express Company takes no way packages, it being a through run, and the messengers sleep on couches in the express car. The train leaving Augusta was robbed of about \$40. Messenger Ficklen is a heavy loser, as a telegram from Atlanta says his packages amounted to \$12,000. Both robberies were evidently the work of the same men, who probably knew the run of the road. The trains were not stopped, the robbers mounting them at a station quietly and doing their work, and getting off at the next. Messenger Smith, on the up train, loses about \$100.

THE Superintendent of the Silver Valley Mine in David County, North Carolina, reports the discovery of the richest deposits of silver ore found in the South. A large vein of carbonate of lead has been discovered carrying 70 to 100 ounces of silver and 30 per cent. of lead to the ton or more.

### POLITICAL PORRIDGE.

COMPLETE returns from 111 precincts in Washington give Wilson, Republican for Congress, 1,100 majority. If the present rate continues Wilson's majority will reach the neighborhood of 6,000.

RETURNS are coming in slowly from remote precincts in Montana. The Republican committee claim that Carter will have a small majority, but Dixon's election is generally conceded by 200 to 400. The Democrats claim two majority in the State Senate.

LATEST returns show that the Democratic State ticket was elected in Illinois. The returns from Chicago were unusually late, and materially changed the totals. They show a surprising plurality in Cook County against Amborg of 5,600 votes, and a plurality of 16,500 against Edwards. The figures insure the defeat of both the Republican candidates for State offices, Wilson having more than 1,800 plurality over Amborg in the State outside of Cook, while in the outside counties Raab has about 19,000 over Edwards. Returns from 100 out of the 102 counties in Illinois on State Treasurer, nine-tenths of which are official and the remainder carefully estimated, show a plurality for Wilson, D., over Amborg, R., of 8,400. The counties from which no returns have been received will not affect the general result materially. Returns and estimates from the same counties on Superintendent of Public Instruction indicate the election of Raab, D., over Edwards, R., by a plurality of 35,443.

IT is thought the whole Democratic State ticket in Michigan is elected by from 6,000 to 15,000 plurality. The Legislature is also Democratic, the Senate by about three majority and the House by some fifteen on a fusion vote with Patrons of Industry, who hold the balance of power. The First, Second, Fifth, Sixth, Seventh, Eighth, and Tenth Congressional Districts have gone Democratic, and the Third, Fourth, Ninth and Eleventh Republican.

COMPLETE returns have been received from more than one-half the precincts in California outside of San Francisco and from about two-thirds the precincts in that city. These returns give Markham, R., for Governor more than 10,000 plurality over Pond, D., and also show that the Republican ticket has elected the entire State ticket by a similar plurality. The entire Republican ticket in that city, with the exception of one minor office, is undoubtedly elected by pluralities ranging from a few hundred to 4,000. There seems to be no doubt that the Republicans have elected five out of six Congressmen in the State and indications are the entire Congressional delegation will be Republican, though the contest in the First District is close. Returns from a little less than half the precincts in the First District show that Barham, R., is leading by 106 votes. The Legislature, which will elect a United States Senator, will have a large Republican majority in both branches.

THE official canvass of the votes cast at the late election in Kansas has progressed far enough to show that the entire Republican State ticket has been elected with the exception of A. R. Kellogg, who is defeated for re-election as Attorney General by Ives, the Farmers' Alliance candidate. The Republican majority is placed at about 10,000. The vote on Congressmen is not changed by the official count. The Kansas delegation will stand two Republicans and five Farmers' Alliance. The Legislature is still believed to be controlled by the Farmers' Alliance. The People's party managers still claim the election of John F. Willits, their candidate for Governor, although they freely express the opinion that the Republicans will count him out. They claim that they have elected eighty-five members of the Legislature, two more than a majority on joint ballot, and that with the Democrats they will have ninety-five members.

At a meeting of the leaders it was decided to make Mr. Willits their candidate for United States Senator to succeed John J. Ingalls in the event of Mr. Willits being defeated for Governor.

### FOREIGN GOSSIP.

THE police precautions at all the imperial palaces at St. Petersburg have been increased. No loiterers are permitted in the vicinity of the Anitchkoff Winter Palace. The railway stations between St. Petersburg and Gatchina are doubly guarded, and the minutest examinations are made of every route traversed by the Czar.

MAURICE BERNHARDT, son of Sarah Bernhardt, has challenged M. Mourey, dramatic critic, to fight a duel. The challenge has been accepted and the duel will take place near Paris. The affair is the result of M. Mourey's comments on Mme. Bernhardt's performance in "Cleopatra."

THE London Times, commenting on the results of the elections in the United States, says it will not be easy for the Democrats to find a more able Presidential candidate than Mr. Cleveland, or one better fitted to follow up their present success.

THE exports from England to America for October, as given in the Board of

Trade returns, have been mistakenly quoted as showing that the decline in trade under the McKinley law is small. Those returns include part of the heavy shipments of September. The November returns will be the first reliable data showing the action of the new law.

ADVICES from Santiago de Cuba say that the famous bandit Velasquez has been killed by Government troops and that his whole band, numbering thirty-four men, with their arms and ammunition, have surrendered to the authorities.

### FRESH AND NEWSY.

SEVERAL leading leather and hide dealers of the United States met at Indianapolis and entered into an agreement as to the future grading of leather. It is understood that they will also attempt to advance prices if conditions are favorable a few weeks hence.

IT is reported that W. H. Smith, the Government leader in the English House of Commons and First Lord of the Treasury, has purchased a large portion of the estate of the Earl of Devon, in Canada, which offers special facilities for suitable emigrants from Great Britain. Mr. Smith, it is said, promises certain bonuses after six months' settlement in the new region and intends to offer as great inducements as possible for the best class of tenant-farmers who find England too crowded for them.

AND now the question is, "What is to be done with Birchall's body after the execution?" Mrs. Birchall wants it, and the Dominion of Canada wants it, and it is a serious question whether the latter will give it up. The law says that it shall be buried in quick-lime in the jail yard, but there have been cases, both in England and in Canada, where the Attorney General has waived the right of the Government to the body of an executed criminal. Mrs. Birchall asks this last favor of the Dominion Government, and it may be granted, although no promises have been made.

THE loss of six men from the whaler Charles W. Morgan, which has just arrived at San Francisco from the Okhotsk Sea, has just been made public. The men left the vessel in a small boat Sept. 1 in pursuit of a whale. The whale was harpooned and started off at a rapid rate, towing after him the boat, which contained Second Mate H. A. Martin and five seamen. A fog set in and nothing was ever seen of the boat again. It is believed the whale smashed the boat, killing the occupants.

R. G. DEN & Co.'s weekly review of trade says:

THE volume of business, both domestic and foreign, continues large beyond precedent, and in character prosperous. The elections interrupted business but little, and the result has no perceptible effect as yet upon trade, though some fear that the extension of manufactures may be checked by uncertainty. The monetary situation is substantially unchanged. The reports from all parts of the country show that business is large and healthy. Boston notes wool more quiet but firm; a good movement of heavy-weight goods expected at better prices. Philadelphia finds the wool trade less active, the demand being checked by what manufacturers consider extreme prices; the iron trade a shade weaker, but rolling-mills full of orders; and the coal trade hardly up to expectations, with October prices actually ruling. At Chicago grain receipts equal last year's, cured meats, butter, and hides show decrease, but dressed beef, lard, cheese, and especially wool increase, and trade in dry goods, clothing, and shoes exceeds last year's.

THE following is the Thanksgiving proclamation by the President of the United States:

A PROCLAIMATION.—By the grace and favor of Almighty God the people of this nation have been led to the closing days of the twelfth year, which has been full of the blessings of peace and the comforts of plenty. Bountiful compensation has come to us for the work of our minds and of our hands in every department of human industry.

NOW, therefore, I, Benjamin Harrison, President of the United States of America, do hereby appoint Thursday, the 30th day of the present month of November, to be observed as a day of prayer and thanksgiving; and I enjoin the people upon that day to cease from their labors to meet in their accustomed houses of worship and to join in rendering gratitude and praise to our beneficent Creator for the rich blessings He has granted us as a nation, and invoking the continuance of His protection and grace for the future. I earnestly pray for the civilization, the peace, the prosperity, the honor, the glory, and the well-being of the people of the United States, the one hundred and fifteenth year of the Republic.

Done at the city of Washington this eighth day of November in the year of our Lord one thousand eight hundred and ninety-eight, and of the Independence of the United States the one hundred and fifteenth year.

B. the President, BENJAMIN HARRISON.

JAMES G. BLAINE, Secretary of State.

## TRUE TO THE RED FLAG.

### ANARCHISTS AT THE TOMB OF THE "MARTYRS."

Spies, Parsons, Engel, et al., Not Forgotten by Their Old-Time Companions—Speeches Made at the Graves of the Executed Men—A Red Flag Waves Over Mrs. Parsons' House.

(Chicago dispatch.)  
"Weep not for us when gone, but on with the fight!" These last words of one of the executed anarchists are typical of the sentiments expressed by the speakers at the anniversary exercises held at Waldheim Cemetery over the graves of the "martyrs."

The demonstration, while orderly, proved that the feeling of discontent is by no means dead. At each reference to the "innocent boys lying yonder," or to "our brothers done to death," the 1,600 listeners expressed their feelings audibly. In addition to an express wagon load of floral pieces, many of the women carried wreaths, lyres, and other designs. No crosses, however, were to be seen. A handsome wreath of immortelles was the tribute of the socialists of Vienna, Austria.

After circling Market Square twice to get in good marching order the procession moved across Lake street, the bands playing the Marseillaise and other favorite airs of the would-be social reformers. Men wearing crimson "committee" badges sold round-trip tickets printed on crimson cardboard for 50 cents.

At the cemetery a table, a bench, and two chairs had been surrounded by a rope alongside the graves of the "apostles of freedom." The graves were covered with flowers and the table taken possession of by George Schmiedinger, who opened the ceremonies by referring to the occasion as "the third anniversary of the murder of our brothers by capitalists."

He then introduced L. S. Oliver, a long-drawn-out individual, who aroused great enthusiasm by heaping abuse upon the Government, the law, its officers, and other signs of civilization now existing in the United States.

"We have no regrets to offer for the buried," he continued. "From their ashes in those graves comes the rebuke to the perpetrators of this heinous crime. It is sounding louder and louder from one end of the land to the other, and across the briny deep. When it culminates it will shake the earth from pole to pole. Remember that those boys stood there and sacrificed their lives for the freedom of those left behind. They faced the hangman with a fortitude that knows no equal. They had no regrets. Their silence has more force than any words spoken here to-day. Our children will wonder at the stupidity or villainy of the people who applauded the work of that horrible sacrifice. Though they build scaffolds at every cross-road we must go on. Courage, friends, onward! Onward! These religious and legal superstitions that ruin our men and women must be swept away. Let us say with Emmett, 'If this be treason, by the eternal gods make me the most of it.' Those who drove our boys to death manufactured the law. They were convicted before tried; indicted for murder and convicted of anarchy."

After a brief intermission, during which the singing societies sang and Mauritz Schultz repeated a good deal of Oliver's speech in German, H. E. Bartholmy, the orator of the day, was introduced.

Mr. Bartholmy was formerly a lawyer, but gave up practice for the bench. He is now a tailor. He made a deep impression, his delivery being striking and his diction admirable.

"Emerson once said," he began, "it is not the fact so much as what you think of it. To thoroughly understand a fact, an event, or a circumstance, it is necessary to have a clear conception of the preliminary causes, coexisting conditions, and succeeding effects. A minute and accurate knowledge of every battle fought in the late rebellion would necessarily be superficial, chaotic, and incomplete unless it were supplemented by a careful and candid review of the intellectual struggle and political activity which was going on prior to its culmination in a fraternal war. There are no isolated events in the history of the world. The most obscure phenomenon bears an intimate relation to the luminous epoch, and apparently insignificant details often an important factor in the consummation of a stupendous scheme. This principle of mutual dependence of one fact upon another permeates all nature, the inanimate world as the social organism, with its beauty and life-giving power, and is the foundation of all institutions, social and anti-social, which have thus far been the scorn and pride of the world."

"I prefaced my address with these preliminary observations in order that you might better understand the position I occupy, or at least endeavor to occupy, in considering what I regard no ordinary, insignificant event, but, on the other hand, the most stirring, significant and pregnant occurrence since the hanging of John Brown—the hanging of the Chicago anarchists."

"I believe that the execution of these apostles of a new and higher civilization was a historical necessity, and by this expression I do not mean that it was necessary to destroy them in order that society might live, to hang them in order that law and order might triumph and the stability of our institutions be preserved. I mean that truth comes into the world through pain and struggle; that the blood of the martyr is the seed of the church; that the gallows is more eloquent in its silence than the orator with his lips or the philosopher with his pen."

"Who can fathom the psychological effect of that wonderful event? Who can measure the momentum it gave to the thinking world? Who can number the hearts that were moved, the minds that were affected, and the converts that were made? At no time in the history of the world did the execution of a man or number of men create such a profound impression. The thinking world shook from center to circumference Nov. 11, 1887. I do not believe that any of the men whose bodies lie molding in peaceful calm yonder or those in Joliet to-day were guilty of any graver crime than that serious offense in antagonizing public opinion in the cause of freedom, progress, and humanity. Did I believe that a fiendish appetite to destroy life and property without regard for law, either human or divine, had captured their souls, and that with wanton recklessness they advocated the use of force to ameliorate social conditions, I would not say one word here to-day. But I do not believe this charge is true. The explosion of the bomb temporarily stupefied the public mind, and henceforth no logic, however potent, could eliminate the false

impression which the shock created. They cried, 'That settles it. Hang 'em, hang 'em. These Anarchists are bomb-throwers, and if you insist on trying to defend them we'll have you arrested as a suspect.' Reason was temporarily suspended and fear and terror ruled."

"The propagators of Christianity were equally as much despoiled and persecuted 2,000 years ago as are the Anarchists to-day. The term Protestant in its day was as odious and repulsive as the term anarchy is to-day. The idea of abolition was received with the same criticism, censure and condemnation."

"Now anarchy on its negative side is a protest against the exercise of human authority over the natural and minute liberty of many. It exists the individual above collective society, and holds that man as an individual is superior to the institutions he has created, that the right of the individual is supreme, and denies to Government the authority to interfere with that right. It would abolish private property in land."

### THE NEXT CONGRESS.

The Result of the Recent Elections Shown at a Glance.

(From the Chicago Tribune.)  
The latest returns indicate that the Democrats, including the Farmers' Alliance men, will have 235 members in the next House, while the Republicans will have but 93. This will give the Democrats a majority of 145, and even if some of the Alliance men should vote with the Republicans the Democrats would still have nearly, if not quite, a two-thirds majority.

The Democratic majority is 145. There are 121 votes from the South. Hence it appears that without a vote from the South the Democrats would still have a majority of 24. This more fully appears from the following summary:

## Election Echoes.

The county canvass was held Tuesday, and sustains the estimates of the results given last week.

The footings show a stay-at-home vote of 18 per cent of the vote of 1888. The following comparative tables will show the effect thereof, politically, throughout the county and by towns:

	1888.	1890.
Democratic,	3191	3078
Republican,	4302	3043
Prohibition,	298	276
United Labor,	57	...
Industrial,	...	16

The Democratic vote of this year includes also the P. of I. vote.

Decrease in Republican vote, 1259.

Increase in Fusion vote, 13.

The average fusion plurality in the county is 35, as taken from the vote on secretary of state. Winans, for governor, leads his ticket and has a majority of 144.

As their share in the great landslide the Prohibition vote has increased by 3. Whatever the "third party" may contribute to a Republican defeat, the net results do not appear to accrue to their benefit, or further the cause of temperance. Of the 276 votes cast by them, their candidate for congress received only 243. Most any inspector of election can inform you for whom the others were cast. The ways of the saints are inexplicable.

The vote on congressman and for members of the legislature was as follows:

" " Diekema,				162

Geo. F. Porter, fusion, has a plurality in this county over Den Herder, rep., for state senator, of 189. Mr. Porter's plurality in Muskegon county is 444, making 633 in all.

The pluralities for county officers are as follows:

Sheriff, Vaupel, rep.,	308
Clerk, White, fus.,	55
Treasurer, Blakeney, fus.,	137
Register, Ingraham, fus.,	170
Pros. Atty, Danhof, fus.,	218
Circuit court com'r, Angel, fus.,	177
" " Pagelson, fus.,	143
Surveyor, Peck, rep.,	687
Coroner, Baert, fus.,	120
" " Stuvellink, fus.,	127

The Democratic candidate for surveyor, G. J. Hesselink, was not endorsed by the P. of I's., but Mr. Peck, the republican candidate, was; which accounts for his election and large majority; and also to a certain extent gives the key to the result in this county, and the lessons to be drawn therefrom for the future.

On the question of the constitutional convention the vote was very light. In total vote of 974 the majority against the proposition was 108:

	For.	Against.
Allendale,	9	6
Blendon,	...	72
Chester,	8	140
Crockery,	5	6

Jamestown,	10
Oliver,	7
Polkton,	3
Robinson,	1
Spring Lake,	6
Talmadge,	12

	433

If our recollection serves us right the adverse vote on the above proposition in some if not in all the towns, is in harmony with the vote a few years ago, whether or not Ottawa county should erect a decent poor house. They were "agin it."

On congressmen of this state the vote is that close, in some of the districts, and so many irregularities are alleged, that the result in all has not been officially ascertained. From present indications it appears, however, that of the eleven congressmen the Republicans have elected four: O'Donnell, Burrows, Bliss and Stevenson.

Ex-candidate Watkins took his defeat very gracefully. He sent his successful opponent a very courteous congratulatory note with a personal call. Mr. W. also issued a card in the G. R. Telegram-Herald, expressing his sincere appreciation of the kind and loyal support given him by the Republicans of the Fifth district. It must be said to the credit of both candidates that the canvass, as conducted by them respectively, was a clean and honorable one.

The official returns of Allegan county did not sustain the claim that Mr. Kolvoord, dem., of Hamilton, was elected to the legislature from that district of Allegan county. He was defeated by 1 vote. LATER.—Owing to irregularities in the returns and the closeness of the vote on pros. att'y, there will be a re-count of all the votes in Allegan county, under the law of '87.

From all the counties the official returns have not been received. It is safe to say however that Winans' plurality for governor will be between 10 and 12 thousand, and that the other candidates on the fusion state ticket will have majorities ranging from 2,500 down to 1,000.

The contest for the speakership of the House, in this state, has already brought out the following names: F. W. Cook, of Muskegon; Judge Miner, of Detroit; Geo. F. Richardson, of Ottawa; Philip B. Wachtel, of Emmett; R. Connor, of Saginaw.

## The Public Schools.

A pleasant and instructive hour was spent Friday evening by those that attended the opening exercises of the monthly meeting of the South Ottawa Teachers' Association. There was a large attendance of the membership, and on the part of our citizens the interest manifested was sufficient to more than fill the spacious room on the second floor of the High School building. Miss Josephine Cook presided and the programme, as given in the News, was carried out in its entirety.

In replying to the several toasts Mr. Diekema gave a condensed review of the several state institutions, which are the pride of this commonwealth, the University leading off. Speaking in behalf of the denominational schools President Scott wished it distinctly understood that however much he might claim for them in the great work of the intellectual development of the youth of the land, he had no desire to do so as in opposition or contra-distinction of the public schools or other state institutions, but rather view them as forming a part of all the educational forces engaged in this great and noble work.

Mr. Van Loo, of Zeeland, responded to the toast of "Our Public Schools." The result of the recent election in Wisconsin undoubtedly must have added to the earnestness with which the speaker plead for the common schools. His remarks fell upon an appreciative and approving ear. We give a few extracts, regretting that we cannot publish the whole:

"The Public Schools are democratic. They are the schools of the common people. The editor of a leading British Magazine said that in twenty-five years of observation he had never known a mere farm-laborer in England to rise above his class. In the Old World the belief is almost universal that mankind are born into permanent classes and that they must live, work and die in the fixed class or condition in which they were born. But here we believe in the doctrine of the equality of all, and our common school illustrates, inculcates and practically applies the doctrine.

We start the children of the Nation with equal privileges, chances and prospects as far as primary education is concerned. Difference in outcome or results is not because one was the occupant of a bare crib, the other of gilded cradle; one born to poverty and toil, the other rocked in the lap of luxury; but because of greater or lesser native ability, application and determination to succeed. The son of the poor man sits side by side with the son of a Governor or a President. Here we have the true common level. To inculcate the real equality of all

before the law, the brotherhood of man, the falsity of all artificial differences and distinctions, which result from circumstances and not from innate qualities, this is the glorious privilege of our common schools. And I am glad, that, though there be now and then a teacher that may forget the democratic character of our schools and may favor a pupil because the parent has wealth or influence, yet as far as my observation goes, the mass of our teachers are imbued with the true American spirit, and if they seem to favor some child beyond others, it is either because of its unusual brightness or because its condition at its home excites their sympathy. \* \* \*

O, it cannot but stir the heart of any true man or woman with the most lively feelings of pride and satisfaction to see our children sitting together on the same seat, standing side by side in the same class, playing together on the same playground all unconscious of the artificial distinctions or unnatural condition society has created.

Our children are thus taught to pity those whose home life is full of neglect and hardships. Into their young lives the daily associations and attentions and experiences of the school room and playground are injected as a bright, healthful, living oasis that gives new life to the child of penury or sorrow and sends a daily thrill of gladness through the young heart, that helps to forget its untoward circumstances and to bear the troubles and hardships of ill-favored conditions.

We talk of christian schools, but I say, that a school, teacher and pupils, that will do this, is a christian school, actuated by the spirit of Christ, while a school that fails here is unchristian, even though they read Scripture and spend half of the time in teaching doctrine and catechism.

I believe in the Public School because of its results. It has taken the child of the unlettered foreigner and put him at the helm of state, in legislative hall, in collegiate chair and in the pulpit. It has given a citizenship to Michigan, notwithstanding its 400,000 people of foreign birth with their offspring, with less than 3 per cent of illiteracy, surpassed by no other community on the broad earth, except Dakota. The American spelling book made a Lincoln and a Garfield and is the glory of America.

I believe in them, further, because they are the schools of a christian people. They are christian schools,—the schools of a nation conceived in efforts to escape persecution for conscience's sake, and to establish the right of free thought and free speech. Brought forth in prayer and dedicated to God, its very swaddling cloths perfumed with the fervency of pious devotion, it can never be otherwise than christian in the spirit of all its institutions. The highest character of every faculty of man is developed only when directed by a real christian spirit and sympathy. And this spirit and sympathy should be instilled and fed in our Public Schools. And I believe this is done, more and more, from year to year.

Bald infidelity is not given a certificate of character to walk into our schools. Good moral character is required in the teacher, and that is christian, even if it be not religious in the narrow sense of that word.

The best product of our families are the teachers of our children. These teachers are largely females, especially in the primary grades. The school-master with his birch rod has had his day, and the women of the land are coming to their own and are taking up the work for which God intended them. They are naturally the teachers of the young, and being more sympathetic and generally more religious than men, the christian character of our schools will not suffer at their hands. They will stand by the good, old Bible and maintain its rights and place in our public schools when men might trim and compromise for the sake of peace.

I believe in our public schools further because though christian, they are unsectarian. They belong to no party or sect, and constantly tend to a broader christianity. Having walked hand in hand to the same school, together repeated that sweet Psalm, "The Lord is my shepherd, I shall not want", and reverently bowed the head while in unison the "Our Father", laid

on the lips by the blessed Son, was uttered and rose heavenward from infant lips, they will be apt to reach hands over sectarian walls, in after-life, and gladly acknowledge a Christianity, though not of our Church or Creed.

The influx of foreign elements seems, of late years, to have become greater than the Nation's capacity of absorption and assimilation. The imperfect distribution of these elements, their tendency to localize, and consequent retention of national distinctions and prejudices, make them dangerous, and have now led them into open attack upon our school system. The hour is not only coming, but is now fully come, when it becomes every true patriot to stand guard for his country, and defend its common schools. Impious hands are laid upon them and the Americanism of our schools on the one hand, and their integrity and unsectarian character upon the other is not only threatened, but attacked. This involves their very existence, for it would destroy their nature.

While it may be part of a finished education to speak other than the English language, yet we must insist, that this being an English speaking people, the instruction in its schools shall be in the language of the Constitution, of the Declaration of Independence, of the prayer made at the opening of the Continental Congress, of the heroic philippic of Patrick Henry and in that of its grandest masterpiece, Lincoln's Gettysburg Address. That is the language of the two nations that have given birth and character to the best civilization the world has seen, and that is destined to be the language of the world. He that would supplant it or engraft upon it the tongue of any other people is un-American in spirit and has no business in this country. That language is rich in song and story of high endeavor, lofty patriotism, grandest sacrifice for freedom and highest achievements in behalf of man. In the name of all we hold dear, let us insist upon the Americanism of our schools and the language of the charters of our freedom.

An attack of a Church upon our Common Schools or the system of free government must be met as we meet the attack of socialists and anarchists. Both are enemies. Both aim at the destruction of our civil fabric. Both are enemies of our common schools and would wipe them out. Out with any spirit and any system that would set our face toward the setting sun, toward the dark ages, toward ignorance, superstition and slavery of mind or body. Let us eschew the system that curses Ireland with 65 per cent of illiteracy, Spain and France with 70 per cent, Italy with 80 and South America with 85 per cent; and which in our own country, in North Carolina, produces 317 out of every 1,000 white latives above the age of 10 years who cannot read. Let us defend and guard well the system that gives but 3 per cent of illiteracy in Michigan and less than 2 in Dakota.

In the language of John Adams, let it be settled that "the whole people take upon themselves the education of the whole people", and let us hold to the doctrine expressed by Mr. Bristol, "millions for the common schools, but not one cent for sectarian substitutes." Let the star of Empire go Westward far as it may, but in the matter of education let us eastward face the rising sun and follow it to its noonday splendor. Let the beams of that sun, as they are reflected from the burnished shields of those who do battle for our common school, strike blind and confuse its enemies.

The issue has been joined and we welcome the impending struggle, full of faith in the stability and permanence of our institutions. It is time for us to insist, with emphasis measured by the pressing need, that our Public Schools shall provide the training absolutely necessary to good citizenship and the maintenance in our courts of justice, of the rights of property, and character, and life.

To all this our love of liberty constrains; all this self-preservation dictates; to all this, the memory of a bloody and heroic past adjures!

#### The Great American Magazine

THE SUCCESS OF "THE CENTURY" AND ITS PLANS FOR 1891.

The Century Magazine is now so well-known that to tell of its past success seems almost an old story. The N. Y. Tribune has said that it and its companion, St. Nicholas for Young Folks, issued by the same house, "are read by every one person in thirty of the country's population", and large editions of both are sent beyond the seas. It is an interesting fact that a few years ago it was found that seven thousand copies of The Century went to Scotland,—quite a respectable edition in itself. The question in England is no longer "Who reads an American book?" but "Who does not see the American magazines?" A few years ago The Century about doubled its circulation with the famous War Papers, by General Grant and others, adding many more readers later with the Lincoln History and Kenan's thrilling articles on the Siberian Exile System. One great feature of 1891 is to be "THE GOLD HUNTERS OF CALIFORNIA", describing that remarkable movement to the gold fields in '49, in a series of richly illustrated articles written by survivors, including the narratives of men who went to California by the different

routes, accounts of the gold discoveries, life in the vigilance committees (by the chairman of the committees) etc., etc. General Fremont's last writing was done for this series. In November appears the opening article, "The First Emigrant Train to California"—crossing the Rockies in 1841,—by General Bidwell, a pioneer of pioneers. Thousands of American families who had some relative or friend among "the Argonauts of '49" will be interested in these papers.

MANY OTHER GOOD THINGS ARE COMING,—

the narrative of an American's travels through that unknown land Tibet (for 700 miles over ground never before trod by a white man); the experiences of escaping War-Prisoners, American Newspapers described by well-known journalists; accounts of the great Indian Fighters, Custer and others; personal anecdotes of Lincoln, by his private secretaries; "The Faith Doctor," a novel by Edward Eggleston, with a wonderfully rich programme of novelettes and stories by most of the leading writers, etc., etc.

It is also announced that The Century has purchased the right to print, before its appearance in France or any other country, extracts from advance sheets of the famous Talleyrand Memoirs, which have been secretly preserved for half a century—to be first given to the world through the pages of an American magazine. All Europe is eagerly awaiting the publication of this personal history of Talleyrand—greatest of intriguers and diplomats.

The November Century begins the volume, and new subscribers should commence with that issue. The subscription price (\$4.00) may be remitted directly to the publishers, The Century Co., 33 East 17th St., New York, or single copies may be purchased of any newsdealer. The publishers offer to send a free sample copy—a recent back number—to any one desiring it.

The only non-Alcoholic Vegetable medicine put up in liquid form ever discovered.

It is not a vile fancy drink made of rum, poor whisky, or refuse liquors, spiced and sweetened to please the taste, but a purely vegetable preparation, made from native California herbs. Twenty-five years' use have demonstrated to millions of sufferers throughout the civilized world, that of all the medicines ever discovered Vinegar Bitters only possesses perfect and wonderful curative effects upon those troubled with the following diseases, viz:

Dyspepsia, Rheumatism, Catarrh, Neuralgia, Headache, Bile, Scrofula, Skin Diseases, Jaundice, Gout, Piles, Biliousness, and all other diseases arising from blood impurities, and as a Vermifuge it is the best in the world, being death to all worms that infest the human system.

It is always safe to take at any time, or under any condition of the system, for old or young or for either sex. It is put up in two styles. The old is slightly bitter, and is the stronger in cathartic effect. The new style is very pleasant to the taste and a perfect medicine for delicate women or children. Each kind is distinctly marked on top of atom.

Many families keep both kinds on hand, as they form a complete medicine chest.

As a Family Medicine, for the use of ladies, children and men of sedentary habits, the New Style Vinegar Bitters has no equal in the world. It is invaluable for curing the ill's that beset childhood, and gently regulates the diseases to which women at every period of life are subject.

Ladies, get a bottle from your druggist and try it. If your druggist has not the New Style Vinegar Bitters, ask him to send for it. If you once try it you will never be without this priceless remedy in the house.

VINEGAR BITTERS.  
The only Temperance Bitters known. It stimulates the Brain and quiets the Nerves, regulates the Bowels and renders a perfect blood circulation through the human veins, which is sure to restore perfect health.

GEO. W. DAVIS, of 169 Barronne St., New Orleans, La., writes under date May 26th, 1888, as follows: "I have been going to the Hot Springs Ark., for fifteen years for an itching humor in my blood. I have just used three bottles of Vinegar Bitters, and it has done me more good than the springs. It is the best medicine made."

JOSEPH J. EGAN, of No. 75 West St., New York, says: "Have not been without Vinegar Bitters for the past twelve years, and consider it a whole medicine chest in our family."

MRS. MATTIE PURGUSON, of Dryden, N. Y., says: "Vinegar Bitters is the best medicine I ever tried; it saved my life."

T. F. BAILEY, of Humboldt, Iowa, says: "Vinegar Bitters cured me of paralysis ten years ago, and recently it cured me of rheumatism."
