It is not altogether pleasant to learn that Allegan county has decreased a few hundred in population, but really, who would be at all the happier were it otherwise? It is a good thing to have plenty of room. Besides, think what philanthropists we have been in sending so many good people into other counties.—Allegan Gazette.

Grand Junction has no banking facilities, but two of the young ladies of the town started a bank of their own recently, using the ashpan of their coal stove for the strong box. When it came time to start the fire, however, they forgot about their \$42 in greenbacks and silver in the pan, and four or five hours later when they thought of it and started to the rescue, they found the paper currency burned and coals ruining the silver. They will not put any more money in stoves for safe keeping.

Bert Cyrus Tibbetts, a Georgetown young man was arrested Tuesday and brought before Justice Pagelson of Grand Haven charged with perjury. It appears that Tibbetts is but 20 years and eight months of age. He was anxious to vote however at the recent election and had his vote sworn in, he swearing before Inspector George Hubbard, that he was 21 years of age. Tibbetts voted and it was learned shortly afterward by looking up the township record that he was not 21 years of age. His arrest followed. Before Judge Pagelson he demanded examination, which was set for next Monday, and in default of \$500 bail, Tibbetts went to jail.

The creamery at Agnew, which was built by a stock company composed mostly of farmers in that locality, has been closed until spring, when another effort will be made to operate it successfully. Prof. Armstrong is very busy these days making arrangements for the band concert to be given at the Lyceum Opera house Thursday evening December 6. He is putting the members of the band through a thorough course of practicing and their showing that night will be an agreeable surprise to the citizens of Holland. Besides the musical part of the program an acrobatic specialty will be given by the famous midgeta, George and Charles Brownell, formerly with Ringling Bros., Circus.

It has been demonstrated that the theatre going masses find greater satisfaction in original up to date melodramas than in other plays. Among the elements that contribute to the success of these dramas are heart interest (including, of course a good love story) natural characters well impersonated and picturesque scenic realism. All these and more are happily blended in "The Convict's Daughter" announced at the Opera House Friday, November 24. It depicts the rich and the poor, the vicious and virtuous with graphic delineations and commends itself to fathers and mothers—in fact all classes.

The Oakdale Park Christian Reformed church of Grand Rapids has decided on a pastor to succeed the Rev. F. M. Tenhoor, who recently accepted the chair of systematic theology in the G. R. Theological seminary. Out of a list of three pastors—J. Keizer of Pella, Ia., Henry Vanderwerf of Cincinnati, O., and K. Van Goor of Holland—the latter was chosen on the first ballot, receiving 129 out of 155 votes. This is a fine compliment to Rev. Van Goor. He has the matter under advisement but will not make known his decision for some days. He is one of the best pulpit orators in this part of the country. He has met with the greatest success in Holland and his friends, knowing that his absence would be a serious loss to the community, earnestly hope that he will decline the proffered call and remain with his congregation in this city.

For some time past property has been maliciously destroyed at Vriesland. The shovels and tools of the section men were hidden away, telephone poles were destroyed and other property was injured. Finally it was discovered that thirty of the glass insulators on the telegraph poles of the Pere Marquette R'y company were destroyed. Then Detective Johnson was put on the trail and upon information furnished by him a warrant was issued by Justice Van Duren for the arrest of Otto Van Zanden. Deputy Sheriff Ford made the arrest and Friday Mr. Van Zanden was arraigned in Justice court charged with malicious destruction of property. He pleaded guilty but offered no excuse for his actions. In fact he did not seem to realize the seriousness of the offense. He was sentenced to pay fine and costs amounting to \$23.60 or to spend sixty days in the county jail. He paid the fine.

The strange four legged fish of Braam Van Vuren is found to be nothing more nor less than a mud puppy. Prof. Mast has a specimen a little larger in his laboratory, which was caught last winter by a prominent fisherman. It is not such a very strange freak after all.

Twenty-three members of the Merchants association attended the meeting held last evening in De Grandwet Hall. The early closing question was discussed considerably and the prevailing sentiment seemed to be in favor of closing all stores at 6 o'clock every evening after the holidays, excepting Tuesday and Saturday evenings.

A. rooms next Tuesday afternoon from 2 to 5 o'clock to receive donations and offerings of merchandise, flour, clothing and money to be distributed among the poor of the city as Thanksgiving gifts. Mrs. Gilmore and a committee of ladies of the Y. W. C. A. will be at the rooms to take care of all donations.

Brower; recitation, "Touch It Not," Miss Mary Edwards; reading, "A Woman's Prayer," Miss Anna Floyd. Short addresses were also made by the leader, Miss Jennie Bannings and by Bert Niemeyer.

Sam A. Miller's restaurant at Waverly was destroyed by fire early Saturday morning. The origin of the fire is a mystery. The girl in charge left the restaurant at midnight and there was no fire in the building at that time. When the railroad employees discovered the fire it was too late to save the building. They saved some of the stock and a few articles of furniture but most of the furniture and stock was destroyed. The restaurant was situated a few feet north of the Waverly depot and if it were not for the fact that the wind was from the south the flames would have spread to the depot. The loss is estimated at \$700 with no insurance.

Great preparations are being made for the annual session of the state grange, to be held in Lansing in December. The past year has been the most prosperous in the history of the Michigan grange, 100 new subordinate granges having been organized. Forty-eight more delegates will be entitled to seats in the state grange than last year, and several questions of grave state importance will be discussed and acted upon. The annual meeting of the State Association of Farmers' clubs will be held at the same time the state grange is in session, and on one evening of the week the two organizations will hold a joint meeting to discuss state affairs. The farmer's club will renew their agitation in favor of the enactment of the country salaries and the Torrens' system of land transfer bills, and other legislation will doubtless be endorsed.

Farmers Club.

The farmers interested in the farmer's Club will do well to watch for the announcement of the next meeting of Club in next week's paper.

Lieut. C. H. McLellan of the United States life saving service is in Marquette, Mich., to conduct another series of tests of the regulation 34-foot life boat which has been equipped with a 12 horse power gas engine manufactured in Marquette. The craft has already been tried in all weathers and under all conditions and now it is the intention to operate it during the progress of the rough fall weather to determine finally what, if any, are its deficiencies. To date all tests have been uniformly successful and there is no reason to expect anything but a similar result from those now projected. Lieut. McLellan is satisfied that the gas propelled lifeboat is entirely practicable and that it will be an innovation of inestimable value to the service, while his superiors are also about convinced of this point. The lieutenant comes to settle definitely some questions about the stability of the new craft. The situation is this: The service has available 18 34-foot lifeboats similar to that which is now being tested here. It is desired to equip all these with gas engines, but it is also desired that no mistakes be made in installing the new motive power. The 12-horse power engine in use in the Marquette boat is located right in the stern of the craft. Of course, its considerable weight completely changes the conditions which obtained when the boat was driven by oars. It is Lieut. McLellan's mission to ascertain the exact extent and nature of these changes and their effect on the stability of the boat in all conditions of weather. Experiments to date have gone to show that the craft is more stable in heavy seas and heading into heavy winds with the power equipment than it was when driven by oars. If the lieutenant's observation on his present trip bears this fact out his report will doubtless be entirely favorable to the proposed change and there is no reason to believe that what has proved true through the past several months will be contradicted during the next few weeks. Lieut. McLellan's stay at Marquette will be indefinite. He will not depart until he is thoroughly satisfied, one way or the other, with the results of his tests. It is believed by all who are following the matter that the new boat will shortly be adopted in the service.

BURNED AT THE STAKE.

Negro Murderer of a Little White Girl Meets with an Awful Fate in Eastern Colorado.
Limon, Col., Nov. 17.—On the exact spot where ten days ago Louise Frost, 11 years of age, was assaulted and murdered, Preston Porter, her negro murderer, was Friday evening chained to a railroad rail and burned to death by neighbors of the little girl. Richard Frost, the father of the little victim, directed the cremation and applied the match.
The executioners, who numbered about 300 citizens of Lincoln county, had not the least semblance of the ordinary mob. Their every act was deliberate and during all the preparations as well as throughout the sufferings of the negro hardly an unnecessary word was spoken. Grimly they stood in a circle about the fire until the body was entirely consumed, and then quietly took their way back to Limon, from which they departed for their homes shortly afterward.

WANTS LARGER ARMY.

Lieut. Gen. Miles Says Permanent Force Should Be One Man for Each Thousand of Population.
Washington, Nov. 17.—The feature of the annual report of Lieut. Gen. Miles, commanding the army, is a chapter dealing with the need for a general reorganization of the military service. In regard to this question, he says:
"The events of the past two years and a half have resulted in a condition that the nation must prepare to meet. The need for an efficient and well-organized land force for an indefinite period in the future is most obvious, and the organization of such a force cannot be wisely avoided. There are weighty reasons why such a service as is now demanded of the army cannot be performed by a temporary organization. The permanent force of the army should be one man for each thousand of population of the United States."

Our maximum tonnage was 5,539,813 tons in 1861.

Gentlemen: some personal experience enables me to heartily recommend the use of Henry & Johnson's Anicura and Oil Liniment. For external application in cases of sprains and bruises it is unquestionably excellent. It takes hold and gives relief. This is not a guess, but a word of testimony.
EDWARD HAWES, D. D.
Dr. Hawes was for many years pastor of the First Church, Burlington, Vt. His testimony is the testimony of all who use the Anicura and Oil Liniment. It never fails to give satisfaction. Sold by all druggists at 25 and 50 cents a bottle.

Dr. J. Mastenbroek
A BOTANIC PHYSICIAN
and Specialist of all Chronic and lingering diseases, female complaints and secret diseases presents his new system of medical treatment for the weak and those suffering from wasting diseases or inflammatory conditions of the heart, lungs, liver, stomach, kidneys, nervous system or any part of the body. The awful result of neglecting those complaints, and to have them arrested in due time is the great trouble, and they do not know how soon they may fall in a dangerous condition. But do not be like the hundreds of others who have neglected to heed the warnings and die in their prime as a consequence, but come to the doctor without delay and he will examine you free of charge. If the curable time is passed he will give you the best advice for treatment and relieve you from pain and distress as much as nature will allow. No Mercury or poisonous minerals given to his patients but the treatment is strictly botanical and satisfaction is guaranteed in all cases.

TO INSURE PURE BLOOD

Keep the Kidneys and Liver Healthy, Active and Vigorous by Using

DR. A. W. CHASE'S KIDNEY-LIVER PILLS.

Nature makes an extra effort in the spring to rid the blood of its impurities, and the filters of the blood—the kidneys and liver—are called upon to perform an enormous amount of labor.

As a result, they become tired and exhausted, and there are backaches, side-aches, headaches, and pains in the shoulders and limbs. Digestion is deranged, and the languid, exhausted feelings of spring cause misery to the body.

There is only one means of making the blood pure, and that is through the kidneys and liver—the filters of the blood. By acting directly on these delicate organs, Dr. Chase's Kidney-Liver Pills purify the blood as no other preparation was ever known to do.

Mr. Wm. L. Maurey, Scottsville, N. Y., writes: "Liver complaint and impure blood were the bane of my life for years. My face was covered with pimples and blotches, and I could get nothing to help me until I tried Dr. A. W. Chase's Kidney-Liver Pills. My skin is now clear, and I consider these pills invaluable as a remedy for constipation, liver complaint and impure blood. As a kidney medicine they are par excellence, and I shall recommend them to my friends."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or by mail on receipt of price, by Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Legal Fight.

What promises to be a long legal fight was before a jury in Justice Van Duren's court yesterday. It is the case of the City vs. the property holders, lessees and mortgages, of the land in Block 31 between College avenue and Central avenue.

Some time ago the common council passed a resolution providing for an alley extending east and west through the center of the block. As owners, mortgages or lessees there are 59 people interested in the aforesaid property and the suit is brought for the purpose of determining the damage suffered by each and the compensation, if any, that should be awarded to each.

When the case was called by Justice Van Duren yesterday it was found that his office was too small to accommodate the crowd and the Grand Jury Hall was selected as the court room.

An array of legal talent was present and it looked as if a spicy and spirited trial would result. G. J. Diekema and Geo. E. Farr represented H. Boone, Sr., owner of the Hotel Holland property; P. H. McBride represented Mrs. M. Bertsch, and Geo. E. Kollen appeared for the city.

A little difficulty was experienced in getting a jury as no one but property holders were competent to act.

From the first venire A. B. Bowman was excused on account of sickness producing a doctors certificate in proof of his physical condition; B. Steketee and W. H. Wing were excused on account of press of business. Talsmen were then summoned and all qualified except John Elferdink, who was excused because he is not a freeholder. The jury as impaneled consisted of Frank W. Hadden, Albert H. Meyer, Jas. A. Brouwer, G. J. Schurman, Henry D. Werkman, P. De Spelder, Wm. A. Holley, Peter Boot, L. E. Van Drezer, Jacob Kulte, Sr., P. H. Wilms, John A. Van der Veer.

Attorney Kollen opened the case to the jury. He read the petition for the alley, the resolution of the common council and quoted from the reports of the proceedings of that body. He explained that it was the intention of the city to open the alley for the use and benefit of the property holders and the city. He said that it was within the province of the jury to determine whether or not the alley was necessary, and if it was a necessity, to fix the damages and agree upon the compensation to be granted to the respective property owners, mortgagees and lessees. He said that the alley would increase the efficiency of the work of the fire department, rendering it possible to get in the rear of the buildings fronting on Eighth street in case there was a fire in that locality, that it would render it easier, cheaper and less inconvenient to lay sewer pipes to the main sewer line; that coal, wood, merchandise, etc. could be unloaded in the alley instead of on Eighth street, thus relieving the sidewalk of the congested condition that sometimes exists.

Witnesses were then sworn and testimony introduced to show that the alley was a necessity and would prove a benefit to the city and freeholders. It was thought that Mr. Boone's attorneys would fight the case at every stage, that they would introduce testimony showing that the taking of Mr. Boone's property for alley purposes was unjust, that they would prove damages to a large amount, but they did not contest the case at all.

The jury then viewed the premises and upon returning to the court room listened to the charge of Justice Van Duren. It was one of the clearest, most concise, fair, able and impartial charges ever delivered in a local court and was listened attentively to by the jury and attorneys.

The jury retired for deliberation and at 6 o'clock in the evening brought in the following verdict:

"We the jury find that it is necessary to take the private property described in the petition in this cause for the use and benefit of the public for the proposed public improvement. We also decide that the property owners be allowed the amounts stated in the attached lists."

The amount awarded to each property holder follows:

Attorneys Diekema and Farr did not contest the case for the reason that they expect to appeal it to the circuit court on a special appeal attacking the mode of procedure and the constitutionality of the act under which the alley is being planned. They take this course to save the costs of Justice court as it would be appealed to the circuit no matter what the outcome would be in the local court. It looks as if the case will be a long drawn legal battle as it may be taken to the supreme court before a final decision is reached.

Holland Must Do Something Quickly.

The time has come for Holland to take definite action in regard to the matter of raising money to induce manufacturing institutions to come to this city.

Today one of the largest shoe manufacturers in the west is in the city looking for a location. Within the past week four different firms have made propositions to come here. They realize that Holland is the best city in the state to locate their business institutions and would be glad to come; but something tangible in the way of inducements must be offered them. What will the citizens of Holland do in the matter?

Holland City Republican Club.

At a meeting held in De Grondt hall last Wednesday evening the republican club, known as the McKinley-Smith club, which was organized for campaign purposes, was made permanent and the name changed to the Holland City Republican club.

The meeting was called for the purpose of listening to the treasurers report and closing up the affairs of the club. The report of Treasurer Van Duren showed that the financial affairs of the club are in excellent condition.

Sopaeased were the members with the excellent work done during the campaign that a strong desire was manifested to make the organization permanent. Remarks to this effect were made by J. Lokker, Harry Doerly, J. B. Mulder, A. Van Duren, Henry Klekentveld, Charles McBride.

It was then unanimously resolved to make the club permanent and change its name to the Holland City Republican Club.

The officers of the McKinley-Smith Club were then unanimously elected as follows: President—N. J. Whelan; secretary—Henry Winter, treasurer—Arthur Van Duren; vice-presidents—1st ward, J. B. Mulder; 2nd ward, Arthur Drinkwater; 3rd ward, Chas. McBride; 4th ward, A. P. Stephen; 5th ward, Benj. F. Dalman.

The executive committee of the old organization was reappointed as the executive committee of the new organization as follows: A. C. Keppel, Marten Van der Poel, Jerry Leapple, Otto Kramer, John Kooyers, Mat Witvliet, Arthur Drinkwater, Henry Klekentveld, E. P. Stephen, Benjamin F. Dalman.

Upon motion of Mr. Van Duren, the meeting was adjourned subject to the call of the president.

Banquetted at the Morton.

Dr. G. J. Kollen, president of Hope College, never misses an opportunity to cultivate a feeling of friendliness and fraternity in the members of the alumni of that institution. To foster this feeling he arranged for a reunion of the graduates of the College living in Grand Rapids to take place last Tuesday evening.

Invitations reading as follows were sent:

"I have long desired to meet, in different locations the graduates of our College and those that were at any time connected with us as students, for conference and social intercourse. I am very desirous to have something of a family reunion with the 'boys' and 'girls' of Hope now residing in Grand Rapids.

"You are therefore cordially invited to a luncheon at the Morton House on Tuesday evening, Nov. 20th, at 8 o'clock.

"Let us lay aside our professional or business cares, for a few hours and once more revive and enjoy the college spirit of years gone by.

"If circumstances should not allow you to give me the pleasure and benefit of your genial presence, you will please notify Mr. G. H. Albers, Houseman Block, not later than Monday noon.

"Hoping that we shall not hear from you, but that at the appointed time, we shall meet you, I am,

Cordially Yours,

G. J. KOLLEN.

In response to the above invitations 50 of the graduates gathered at the

Morton House last Tuesday evening. The banquet was held in the dining room and in every way the affair was a success. The banquet tables were arranged in the form of a cross and were prettily trimmed with smilax and candelabra. Chrysanthemums adorned the center of the tables and a fine effect was secured by a number of lighted candles.

Dr. Kollen, in the capacity of toastmaster, spoke in part as follows: "I bring you the warm greetings of our Alma Mater. These reunions serve to bring us closer together and I am never happier than on these occasions when facing Hope college men and women. The institution was founded in 1866 and every graduate has been either a fellow student or a pupil of mine. Last June we had graduated the 300th alumnus. About 60 per cent of these have entered the ministry, but the school is not a theological seminary. We are fitting men and women to be teachers and to fill with honor the various vocations of life. Things are moving along harmoniously at the school. Character building is never lost sight of in our courses. Our institution is growing. When most of you were there, we had six professors and only one course of study. Now we have 12 or more professors and a variety of courses. There has been a steady increase in our buildings and equipment until they represent \$100,000 in value. Our endowment amounts to a quarter of a million. This seems large but it is not. We must grow. Forward is the watchword.

The council has decided that a memorial building shall be erected known as Van Rialte memorial hall, and this is the burden now resting upon me. When three-quarters of the amount necessary to erect the building is assured we will go ahead, and I am encouraged to believe that the amount will be reached by spring. The school has been too exclusively classical, and the first two stories of this new building will be devoted to sciences and laboratory work, the upper story to a working museum.

"There should be some union or club of Hope college graduates in Grand Rapids, and I shall be happy if as a result of this meeting some such organization shall be formed."

Speakers who responded to toasts were Attorney Geimer Kulper on "The Influence of Hope College," the Rev. John Van der Meulen, "The Ladies;" Peter Volmari, "Early History;" the Rev. A. Bursma, "Small Beginnings." Other speakers were, Prof. Van Den Bosch, Prof. Rooks the Rev. Van De Erve, G. H. Albers, John Siltzeler, Herman N. Dosker and others.

Fadettes Orchestra The Best.

The entertainment at Winants Chapel last Tuesday night was undoubtedly the best of the kind ever given in Holland. The orchestra consists of twenty-one ladies under the leadership of Mrs. Nichols. They are all musicians of a high order and are perfect masters of the several musical instruments. It was indeed a rare musical treat to the large audience that gathered at the Chapel and all vowed that it was the most pleasing musical entertainment they ever attended in Holland.

The program for the evening was as follows:

"Coronation March,".....Meyerbeer
Overture to "Der Freischutz,".....Von Weber
"Andante Cantabile," String Quartet, Op. 11.....Tchaikowski
"Falterrochen,".....Rug
String Orchestra
"Requiem and Aria," "Farewell, Ye Hills," from "The Maid of Orleans,".....Tchaikowski
Miss Lynn.
"The Dance of the Hours" (La Gioconda) Ponchielli
Romance and Allegro (a la Zingara) from 2nd Concerto.....Wieniawski
Miss Webb
Grand Selection from "Lohengrin".....Wagner
Two Songs.....Tosti
"a" "Mattiasta,".....Tosti
"b" "Maid of Oudis,".....Delibes
Miss Lynn
"Ozardus," from the Ballet Music to "Coppelia".....Delibes
Descriptive—"Charge of the Bough Riders".....Lawrenceau

Every number was received with enthusiastic expressions of approval and the ladies had to respond to many encores.

The playing of Miss Bertha Webb, the viola soloist, was particularly good. She is one of the most charming and engaging personalities appearing before the American public and her mastery of the viola is marvelous. She played with grace and skill that was simply captivating and received the hearty plaudits of the audience.

From the character of the performance last Tuesday night it is apparent that the members of the lecture committee made no idle boast when they said that the course for this season would be the best ever given. Too much cannot be said in their praise. They took considerable risk when they arranged for the course, but the support accorded them by the literary portion of Holland and the large audiences attending the performances shows that their efforts are appreciated and that the people are pleased with their enterprise in going about the work on a large scale.

Last Friday evening Miss Grace Yates entertained a few of her friends. The evening was very happily spent. Each person received a nom de plume which was known only to himself. Those guessing the greatest number of nom de plume were J. Keider and Miss Broek, who accordingly received the prizes.

Death of Wlepke Diekema.

Gradually the ranks of the old settlers of this vicinity are being thinned. The latest of the honored residents of this city to join the silent majority was Wlepke Diekema, who passed away at his home on West Sixteenth street last Sunday morning at 7:30 o'clock. The cause of his death was nervous prostration from which he had suffered for several years.

Mr. Diekema was born in the year of 1830 in the province of Groningen, the Netherlands, where his parents, Peter and Bouwena Diekema, had a large farm. The family came to America and settled in their Michigan home in 1848.

In 1852 Wlepke Diekema married Miss Hendrikje Stegeman a member of another family of early pioneers. Eight children were born to them, and of this number six are now living, Mrs. J. Ten Cate, Hon. G. J. Diekema, Aldert Diekema, Mrs. C. J. Lokker, Mrs. Geo. E. Kollen of this city, and Albert Diekema of Holland township.

Deceased was a man of sterling honesty, great strength of character and sound judgement. Honored and esteemed by all who knew him, he enjoyed the confidence and regard of a large circle of friends.

His fellow townsmen honored him with political preference many times. In the early history of Holland township he was highway commissioner for several years. From 1870 to 1887 he was supervisor of Holland town and from 1888 to 1897 he was a member of the county poor commission. During the days following the fire that devastated Holland he was chairman of the relief committee of the township and performed good service in that capacity.

Mr. Diekema was well known in church circles. He was one of the founders of the Third Reformed church and served the congregation for many years as deacon. He took a great interest in Sunday school work and up to the time that illness interfered was in charge of one of the largest classes. He was particularly interested in the instruction of young men and many of the ministers of the gospel of this vicinity received instruction from him.

Belonging to that sturdy race of Hollanders that has done so much to conquer the early wilderness of Michigan, Mr. Diekema will be remembered as one of the foremost men of this section of the country. The funeral services were held Wednesday afternoon in the Third Reformed church, Rev. G. H. Dubbink and Rev. H. Dosker and Rev. J. T. Bergen officiating. The pall bearers were I. Cappon, P. Gunst, G. Van Schelven, Prof. H. Boers, A. Visscher and G. J. Van Duren.

Death of Mrs. J. Van Putten.

Mrs. J. Van Putten, another of Holland's prominent residents, is dead. She passed away last Tuesday evening. By her death the community loses one of its most estimable ladies and the ranks of the early settlers is thinned by one more, for Mrs. Van Putten was among the first to come to this part of the country from the Netherlands.

She was born in the province of Zeeland, Netherlands, December 17, 1822. Her maiden name was Jaentje Krijgeman. She came to this country in 1849, and was married to Jacob Van Putten the same year.

The name of her husband is linked closely with the history of this city. He came to this country in the spring of 1849. He soon started in the lumber business and with his brother Gabriel invested in the pine lands of Point Superior. The venture was a success and the profits of the enterprise formed the foundation for future successful business enterprises.

Later Mr. Van Putten purchased from the Plugger four and lumber mills and as a member of the firm of Panels, Van Putten & Co., carried on the business until 1887. In 1877 he bought out the private banking office of N. Kenyon and laid the foundation of the banking business which is known as the Holland City State Bank. He was president of this bank until his death.

Mrs. Van Putten is mourned by a

large number of relatives and a large circle of friends who held her in the highest esteem for her kindly Christian character.

She is survived by four sons and two daughters, Jacob, Adrian, Leindert and Marinus Van Putten, and Mrs. C. Ver Schure of this city, and Mrs. C. Nyland of Grand Haven.

The funeral services will be held this afternoon at 2 o'clock at the Central avenue Christian Reformed church, Rev. J. Van Hoogen officiating.

PUNY CHILDREN

TOO MANY OF THEM DIE.

Their Little Bodies Unable to Stand the Ordeal of Development.

WE THINK EVERY MOTHER IN THIS TOWN SHOULD KNOW ABOUT VINOL.

It is the Delicious Tonic We Advise for Growing Children.

Is your boy or girl pale and listless? Do they not differ from other children? Do they sleep poorly and eat poorly? Does your boy avoid the sports and games of other boys? Does your girl complain of headache and find her studies a hardship?

If so, you may make up your mind they are growing too fast. They need something to help nature in her great work of furnishing the necessary elements for creating flesh and muscle tissue, bone structure and rich, pure, red blood.

They need a tonic in the full sense of the word and we can tell you what to get.

It is Vinol Wine of Cod-Liver Oil, the great modern reconstructer. Children like it, it is so delicious to the taste, in spite of the fact that it contains a highly concentrated extract of the medicinal principles that are found in cod-liver oil.

But because the vile-smelling and tasting grease has been discarded and all of the other disagreeable features eliminated, the benefits of Vinol are easily understood.

Vinol acts favorably on the stomach, creates an appetite and enables the food that is eaten to do the greatest possible amount of good.

Following is a letter that bears directly on this subject:

"I was all run down and took Vinol. It did me so much good and it was so pleasant to take that I gave it to my children. They were growing fast and needed something in the way of a tonic and I found it to be just the thing for them."—SARAH PICKERING, 1932 Fall River, Mass.

We cordially invite mothers interested in the welfare of their children, as well as any one else needing a safe and delicious tonic, re-builder and rejuvenator, to call on us. We will gladly tell any one all we know about Vinol and why we so highly endorse it.

Inasmuch as we are always ready and pleased to refund the cost of Vinol to those who don't find it exactly what we claim it to be, it will be seen that we are prepared to substantially endorse our claims for the excellence of this marvelous preparation.

TROOPS BECOMING ACTIVE FEAR GEN. TUNG FUH SIANG

End of the Rainy Season Causes a Resumption of Hostilities in the Philippines.

MANY SKIRMISHES AND ENGAGEMENTS.

Americans Plan a Vigorous Campaign on the Island of Samar. Rebels Continually Shoot into Garrisoned Towns—Grant's Troops Capture a Fort Near Manila.

Manila, Nov. 19.—(First uncensored news by cablegram since the American occupation).—Last week witnessed a very considerable increase in rebel and American activity in the field. Many skirmishes occurred and several engagements in northern and southern Luzon. The termination of the rains permits a resumption of operations on both sides.

Aggressive Movements.
The Americans are undertaking a series of aggressive movements against the insurgents, notably upon the island of Samar, against Gen. Lukban, whose forces hold the entire island with the exception of three coast towns, each of which is garrisoned by two companies of the Twenty-ninth infantry and a platoon of artillery.

Continually Shooting.
The rebels are continually shooting into the garrisoned towns, and our forces have not been sufficient to retaliate effectively. Commerce in Samar has been at a standstill and most of the influential inhabitants have departed. Gen. Hare has arrived there with 250 men. He will bring eight companies of the Second infantry from the island of Marinduque as they may be needed and will proceed energetically to crush Gen. Lukban. Meanwhile United States gunboats will patrol the coast to prevent the escape of the insurgent leader. Lukban still holds three members of the Forty-third regiment prisoners.

A Fort Captured.
Notable among the week's engagements was Gen. Grant's advance with Macabebe and American scouts upon a rebel stronghold 35 miles north of Manila, which was defended by 200 insurgents armed with rifles. After skirmishing and fighting for the greater part of a day and night the enemy was dislodged from the mountain fastness and immense quantities of rice and stores, with ammunition, were destroyed. Fifty Filipinos were killed and many others wounded. The insurgents carried off their dead. The American losses were 11 privates and one officer wounded and one Macabebe killed.

A Severe Fight.
Manila, Nov. 19.—Two hundred bolomen, with 50 rifles, attacked Buzon, island of Panay, on October 30. The Americans lost three men killed—Lieut. H. M. Koonitz, Sergt. Kitchen and Corp. Burns—all of company F, Forty-fourth infantry. The enemy lost 100 killed, 21 wounded and 20 prisoners.

On Aguinaldo's Trail.
Manila, Nov. 21.—Gen. Macabalon, the former Filipino chief, is prepared to start in pursuit of Aguinaldo with 100 picked natives, supported by American troops. Other former rebel Filipinos will be used in campaigning in the country. Their offers have not been formally made yet, but they are ready if the authorities will accept their services. Aguinaldo, it is supposed, is in northern Luzon, according to statements made by former rebel leaders now in Manila and confirmed from other sources.

Growth of Two States.
Washington, Nov. 21.—The population of the state of Rhode Island, as announced officially by the census bureau, is 425,556, as against 345,506 in 1890. This is an increase of 23,050, or 6.7 per cent. The population of the state of Florida is 525,542, as against 391,422 in 1890. This shows an increase of 137,120, or 35 per cent.

Lee Quits Cuba.
New York, Nov. 21.—Gen. Fitzhugh Lee arrived from Havana on the new West India liner Morro Castle. For the first time since April 13, 1896, Gen. Lee is without official relations with Cuba, for he is now en route to Omaha to take command of the department of the Missouri.

Illinois Shows Big Growth.
Washington, Nov. 21.—The census bureau officially announced Tuesday that the population of the state of Illinois was 4,821,550, as against 3,826,351 in 1890; an increase of 995,199, or 26 per cent.

Minnesota's Population.
Washington, Nov. 20.—The population of the state of Minnesota, as announced by the census bureau, is 1,751,394, against 1,302,826 in 1890. This is an increase of 448,568, or 34.5 per cent.

TUAN ARRESTED AND STRIPPED OF POWER

Expedition of Allies Stopped by Admiral Ho, Who Occupies Strong Position at Hsueh-Hwa—Afraid to Attack Him—Rumor of Advance of Boxers on Tientsin.

Berlin, Nov. 21.—A special dispatch from Peking says that Prince Tuan has been arrested and stripped of power by order of the emperor and emperor dowager; but that fears are felt of Gen. Tung Fuh Siang, who, with 16,000 regulars, is in Hu-Jang-Pu.

Allies Afraid to Attack.
London, Nov. 21.—A special dispatch from Peking, dated November 19, says the Kalgan expedition found Admiral Ho occupying a strong position at Hsueh-Hwa and the commanders of the allied forces decided they were not strong enough to attack him and sent to Peking for reinforcements.

Chinese in Strong Force.
Berlin, Nov. 21.—Count von Waldersee cables from Peking that he will return the viceroy's visit. He has advices from Col. Yorek's

SOLDIERS CAN RETURN HOME.

Volunteers to Be Brought Back from Philippines as Soon as They Desire.

Washington, Nov. 21.—Adj. Gen. Corbin authorizes the statement that it is the intention of the war department to bring home from the Philippines to the United States everyone of the volunteers who cares to come, and discharge them here, on or before the 1st of July next, when, under the law, the volunteers must be mustered out. It is the expectation and the hope of the war department that the coming congress will, at an early period in its session, enact legislation which will enable the department to replace the present volunteer force by a permanent force of soldiers. In that case, such of the men in the ranks as care to continue in the service will be reenlisted as regulars, and any vacancies that may exist through the muster out of the volunteers will be supplied by original enlistments in the United States. It is believed that these enlistments can be made to replace all the retired Philippine volunteers before the first of the next fiscal year, without causing any hiatus.

corps, showing that the Chinese Admiral Ho, with 10,000 regular troops and much artillery, is near Kalgan, prepared to resist energetically a further advance of the expedition.

Col. Yorek, therefore, will await reinforcements before attempting to proceed.

Germans Fear Attack.

Tientsin, Nov. 20 (via Shanghai, Nov. 21).—There has been considerable firing recently in the neighborhood of Tientsin, and, owing to a report that the German quarter of the city would be attacked last night, the German sentries were doubled, a regiment patrolled the opposite bank of the river, and the remainder of the German troops were ordered to hold themselves in readiness for action at an instant's notice.

Nothing happened, however, to show cause for the alarm, although to-day all the Chinese servants of the Bengal lancers' officers and men left, saying they had been informed that the Boxers were marching in a large body on Tientsin and Peking.

Neither Gen. Lorne Campbell, of the British troops, nor Col. Moale, of the Americans, believe there is any truth in the rumor; but the natives evidently believe it, and many of them are leaving the service of the foreigners.

Ohio's Official Vote.

Columbus, O., Nov. 21.—The secretary of state Wednesday completed the official count of the ballot for presidential electors. Four years ago McKinley received a plurality of 51,109 out of a total vote of 1,020,109. The increase in the total vote this year was 29,012.

AWARD PAID AT LAST.

Final Settlement in the Delagoa Bay Railroad Award—Americans Get Their Share.

London, Nov. 21.—The Delagoa Bay railroad award was paid Wednesday. The Americans received their share through the Seligman.

The Delagoa Bay railroad award of \$3,062,800, with interest at five per cent from June 25, 1889, is the result of the seizure of the Delagoa Bay railroad by Portugal. The facts in the case have been told many times during the last few years. Besides the principal of the award and the interest, totaling about \$5,000,000, Portugal paid on account \$140,000 in 1890. The Americans interested are the heirs of Col. McMurdo, who, with a number of English capitalists, built the road and ran it until seized by the Portuguese officials.

Sensational Trial Begun.

Eldorado, Kan., Nov. 21.—Miss Jessie Morrison, charged with killing Mrs. G. Olin Castle last June, by cutting her throat with a razor, was placed on trial here Wednesday. The case is one of the most remarkable in the history of Kansas crimes. Miss Morrison's alleged motive for the murder was jealousy, she having been a former sweetheart of Castle, who is a clerk in a local "racket" store.

SEARCH FOR THE TILE FISH.

Efforts of Government Agents to Locate the Much-Wanted Species.

The United States fish commission is about to make an effort to determine as precisely as possible the area of sea bottom occupied by the tilefish—that strange and interesting finny species which was first discovered in 1879, only to be rendered almost extinct soon afterward by a marine cataclysm wholly unprecedented, says the Saturday Evening Post.

The fish commission thinks that an important and lucrative fishery for the tilefish may be created, when once the fishermen are informed as to where they should go to look for the species, which is excellently adapted for the table. Hitherto it has remained almost unknown simply because its home is in the depths. There is reason to believe that it has again become very numerous, and a reference to the history of the famous catastrophe of 1882 shows that in March and April of that year 7,500 square miles of ocean were found profusely sprinkled with tilefish, the number being estimated at one thousand millions.

The eastern edge of the North American continent is overflowed by the sea, and that is why the water near the coast is so shallow. To find the true edge of the great continental land mass one would have to travel about 80 miles due eastward from New York. There begins a sudden descent to the true floor of the ocean, which is 2½ miles deep. A narrow belt of this declivity, running north and south, is bathed by the warm waters of the Gulf Stream, and here is found the tilefish. The catastrophe above mentioned, which so nearly wiped out the entire species, was undoubtedly due to an invasion of the belt by the arctic current.

FLIRTS WITH WAX WOMEN.

Cattleman from Wyoming Throws Kisses to Figures in Store Windows.

A voracious policeman on a beat that takes in the swell department stores of State street tells a queer story of a cattleman from the plains of Wyoming, says the Chicago Chronicle. According to the officer's story the ranchman fairly fell head and ears in love with one wax figure of a beautiful female in a prominent show window of Chicago's great shopping thoroughfare.

"When I first saw the cowboy throwing kisses at the pretty woman of wax," said the policeman, "I at first thought he must be drunk or crazy. But he was neither. The real truth was that he had never in his life before seen a dummy figure of a woman of the perfect type then standing before him in the glare of the show lights at night, and his explanation was that before he realized the exquisitely attired grand dame was nothing but a cold and lifeless figure he found himself throwing kisses at her in pure gallantry and exuberance of spirit.

"I did not believe him at first, and started to take him in tow as a possibly dangerous lunatic. However, before I reached the patrol box with him I concluded that although he may have been imbibing freely while seeing the town, he was in no way affected in his upper story. So I turned him loose, with a warning that he would frighten people badly and get locked up should he renew his ardent and demonstrative wooing of the wax figures in State street windows."

A TELEGRAPH LINE.

In Chili That Was Preserved from Molestation of Indians by a Clever Trick.

When the electric telegraph was first introduced into Chili a stratagem was resorted to in order to guard the posts and wires against damage on the part of the natives and to maintain the connection between the strongholds on the frontier. There were at the time between 40 and 50 captive Indians in the Chilian camp. Gen. Pinto—in command of the operations—called them together, and, pointing to the telegraph wires, said: "Do you see those wires?"

"Yes, general."

"I want you to remember not to go near or touch them, for if you do your hands will be held, and you will be unable to get away."

The Indians smiled incredulously. Then the general made them each in succession take hold of the wire at both ends of an electric battery in full operation, after which he exclaimed:

"I command you to let go the wire!"

"I can't; my hands are benumbed!" cried each Indian.

The battery was then stopped. Not long after the general restored them to liberty, giving them strict instructions to keep the secret. This had the desired effect, for, as might be expected, the experience was related in the strictest confidence to every man in the tribe, and the telegraph has ever since remained unmolested.

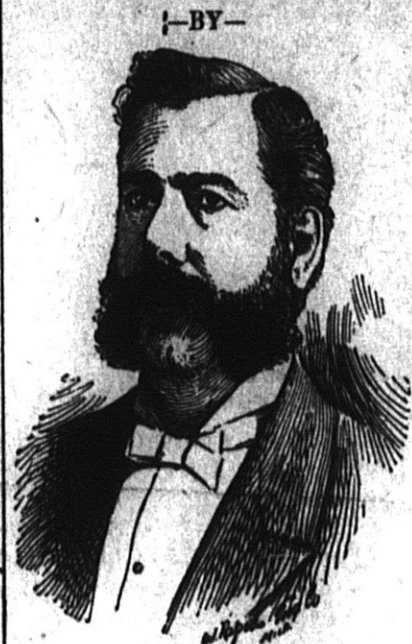

Cucumbers in Siberia.

Cucumbers largely take the place of fruit in Siberia. They are raised in profusion and when nearly ripe they are put down for a few days in a brine made from salt and oak leaves and then are eaten both in connection with regular meals and by themselves as one eats apples.

Young Women for South Africa.

According to Gen. Baden-Powell, there is a future for girls in South Africa. The situation is realized by practical Germans, who have already started a regular emigration bureau for young women, most of whom are engaged or married almost as soon as they land.

If I caught cold or strained myself from doing any unusually heavy work I was sure to be laid up for a time. The attacks came on at intervals and were very severe so that it was almost impossible for me to bend over and if in a stooped position I could scarcely straighten again. I tried a great many different remedies and wore plasters but could get nothing to remove the trouble until I saw Doan's Kidney Pills highly recommended and went to J. O. SENTENCES ARE NOT SEVERE ENOUGH.

Germany Disclaims Any Intention of Profiting by the Present Troubles—Policy of the Kaiser. Defined by Von Buelow in an Address Before the Reichstag.

London, Nov. 20.—The Morning Post's Peking correspondent, wiring Saturday, says: "The edict inflicting punishment is milder than the first reports suggested. Prince Tuan and Prince Chwang are only banished, and not imprisoned. Duke Lan is merely dismissed. The foreign envoys cannot accept the edict, owing to the inadequacy of the punishments."

Says Germany Is to Blame.

Berlin, Nov. 20.—In the reichstag Monday, on the occasion of the presentation of the supplementary credit for China, Count von Buelow, the imperial chancellor, emphatically denied the assertion frequently made abroad that the China imbroglio was traceable to the German occupation of Kiao-Chow. This statement was greeted by the social democrats with loud cries of "It is quite true!"

Count von Buelow expressed keen regret that such a cry was heard in the German parliament. The chancellor further declared he did not wish at present to say anything which might be prejudicial to the common objects of the powers in China, but he felt the need of placing himself in touch with the nation. Germany, he explained, had adhered to the aims and policy outlined in the circular to the allied governments. The allegation that the government had not foreseen the Chinese crisis was true. But, most of the other nations likewise failed to anticipate that the storm in the far east would burst so violently or so soon.

No War of Conquest.

The count said further: "What Germans desire is, not a political adventure, but the assertion of our interests, our rights, and our honor as a great people. We are waging no war of conquest on China. We only wish for atonement for Chinese misdeeds and a guaranty of reforms. We especially desire atonement, since, otherwise, such things might occur again. We desire that the influence accruing to Germany in the present movement shall be preserved to her. We desire our share in what is to be won from China. We will not overreach anyone and we will not let anyone overreach us. We have nothing to gain by a partition of China, and do not desire it. We shall fare best if China recovers herself, so far as possible, under the best-ordered administration obtainable, and remains solvent."

Talk About China.

Washington, Nov. 21.—The Chinese situation was the main topic under consideration at Tuesday's cabinet meeting. The administration is not disposed to join with the other governments in making demands upon the Chinese imperial authorities which the Chinese government cannot comply with.

London, Nov. 21.—"It is credibly reported," says the Shanghai correspondent of the Daily Telegraph, under Monday's date, "that the empress dowager has telegraphed a secret decree warning all governors and viceroys to prepare for immediate war against the allies everywhere."

Boers Are Active.

Pretoria, Nov. 19.—The Boers are active. It is alleged that Commandant Louis Botha has established a government at Rosendal, north of Middelburg, and that with the £150,000 which he has available he is paying the fighting burghers a crown per day. Commandant Abel Erasmus is said to be at Olyphant's river with 2,000 men, 1,000 wagons and 12,000 cattle. From Heidelberg it is reported that the Boers are compelling the burghers who had surrendered to take up arms again under pain of death.

THE POSTAL SERVICE.

First Assistant Postmaster Johnson Makes Some Important Recommendations.

Washington, Nov. 21.—An enthusiastic plea for a wide expansion of rural free delivery is made in the annual report of W. M. Johnson, first assistant postmaster general. He says:

The extraordinary development of this system during the past 12 months under the stimulus of appropriations of \$450,000 for the fiscal year 1890-1900, and \$1,750,000 for the fiscal year 1900-1901, is conclusive as showing that hereafter it must be a permanent and expanding feature of the postal administration.

An appropriation of \$18,000,000 is asked for compensation for postmasters for the next fiscal year. The regular free delivery service was established in 62 cities, necessitating the appointment of 170 carriers, making the total number of free delivery offices in operation June 30, last, 786. Four free delivery offices have been established in Porto Rico and Hawaii.

During the last fiscal year postal money orders issued amounted to \$355,670,228, an increase of almost \$31,000,000. The number of offices has now finally exceeded 30,000. International money order business is now being transacted with 40 foreign countries.

Examiner Tucker also announced unofficially that Frank M. Brown, the individual bookkeeper and assistant cashier, was missing and that a partial investigation showed that Brown's alleged shortage was about \$201,000. Brown had been with the bank 18 years, was one of the most trusted men ever connected with this old bank, and it is stated by the experts that his operations extended back as far as ten years.

LARGEST FOR YEARS.

Collections of Internal Revenue in the Past Fiscal Year Have Only Been Exceeded Once.

Washington, Nov. 17.—The annual report of the commissioner of internal revenue for the fiscal year ended June 30, 1900, shows a collection exceeded but once in the history of the bureau. The receipts were \$295,316,107, being \$10,316,107 in excess of the estimated amount and \$21,831,534 more than during the previous year. The percentage of cost of collection was 1.58, as against 1.68 for last year, being the smallest in the history of the internal revenue service.

Commissioner Wilson estimates that the receipts from all sources of internal revenue for the current fiscal year will approximate \$295,000,000.

Quincy, Ill., Nov. 19.—With nitroglycerine, the vault of the Bank of Bluff, Scott county, was blown open early in the day. It is reported the robbers secured \$2,000 in currency and a lot of securities, the value of which is not stated. This examination offers an excellent opportunity for entering the Federal service to bright, energetic young persons who are not afraid of hard work, and the Commission hopes that a sufficient number of intelligent, active persons will present themselves for this examination. It may be stated that there is a wider field for advancement upon merit in the Federal service than in many private employments, not only by promotion in the same office, but by transfer to other part of the service.

The nature of the examination is a test of practical, general intelligence, and of adaptability in post office work. The age limitations for this examination are as follows: clerk, not less than 18 years, carrier between 21 and 40 years.

Applicants for male clerk and carrier must have the medical certificate in Form 101 executed. Applicants for carrier must be at least 5 ft 4 in. in height, and weigh not less than 125 pounds. Female applicants are not required to have this certificate executed.

This examination is open to all citizens of the United States who may desire to enter the service, and who comply with the requirements. All such persons are invited to apply, but attention is invited to the fact that from those certified the Department usually selects for appointment eligibles who are residents of the district in which the vacancies exist. Applicants will be examined, graded, and certified with entire impartiality and wholly without regard to any consideration save their ability as shown by the grade attained in the examination.

For application blank (Form 101), full instructions, specimen examination questions, and information relative to the duties and salaries of the different positions, application should be made to the undersigned.

Applications must be on file with the secretary of the local board before the hour of closing business on December 7, 1900.
