## Grand Haven High Follows Holland, Quits Conference

### Past Records Cited By Athletic Board Making Recommendation

Grand Haven (Special)—Grand Haven high school athletic officials notified the Southwest conference Tuesday that the local school, smallest in the conference, will withdraw from the league at the end of the 1952-53 school year.

The Board of Education last night unanimously voted to accept the recommendation of the board in control of athletics in the public schools, which held a meeting last Thursday.

At that time the athletic board unanimously voted to forward three recommendations to the Board of Education Monday and a committee from the athletic board composed of Principal Glenn H. Olsen, Athletic Director Steven Sluka and Faculty Manager Ernest Swanson, presented the recommendations at a regular meeting of the school board.

The first recommendation was that the school withdraw from the conference. The second was that the withdrawal date be at the close of the 1953 school year and the third was that local officials attempt to form a new conference with small class A and large class B schools.

Supt. E. H. Babcock said Tuesday that the main reason for withdrawing from the conference is that in 22 football seasons, Grand Haven has won 77.22 conference games and lost 77.22. They were tied. Holland high school, which withdrew last week, has won 22 games and lost 78. Nine were tied.

In basketball, Grand Haven, which up to this year was a class B school playing in a class A conference, has won only 73 out of 207 league basketball games.

Holland last week notified the league that it will pull out at the end of the 1951-52 school year and will not play Muskegon, Muskegon Heights and Kalamazoo next year in football. Conference officials were meeting again Tuesday in Holland to rearrange the football schedule for 1952.

Local officials said today that after the 1952-53 school year, football games definitely will be sought with Holland and Benton Harbor either independently or in a league other than the southwest group.

Action by the board Monday applies to all athletics but it is possible that competition may be continued with all Southwest conference schools in sports other than football.

Sluka proposes to meet with Holland high school officials soon to discuss the formation of a new league. Several weeks ago, Holland and Grand Haven officials were invited to a meeting of officials of the Big Seven class B league which now has only four schools—Niles, St. Joseph, Buchanan and Dowagiac.

## Guess What Brings Santa This Year ...

Santa Claus is arriving in Holland a new way this year.

Not by airplane, helicopter, sleigh or motorcycle.

No sire, this year he's coming with ponies!

The Holland Retail Merchants' division today completed arrangements with the Holland Furnace Co. for the world-famous pony hitch consisting of four pairs of tiny ponies, to carry Santa downtown from the Holland depot Friday, Dec. 7.

If weather conditions permit, the ponies may even do one of their famous demonstrations downtown.

Santa will arrive at 6:45 p.m. and set up shop in his tiny house in front of Chamber of Commerce headquarters where he will hand out treats. Some treats will contain clues to the Hidden Treasure contest sponsored by local merchants. The latter group also is arranging a series of Christmas radio programs in which local schools and churches will participate.

## Welcome Sunshine Thaws Icy Roads

Motorists relaxed a bit Monday when bright sunshine thawed icy streets and highways in and around Holland, the result of a 24-inch snowfall during the weekend.

Although the temperature was only 27 degrees at 11 a.m., the welcome sunshine bit deeply into the fluffy snow and icy deposits. The sand and chloride mixture spread on city streets helped a lot too.

Local motorists used considerable caution in driving after snow descended early Saturday afternoon, but as in many instances last year the snow seemed to be confined mostly to this area. It remained clear in Grand Rapids and M-21 was icy from Grandville to Holland.

## Holland Families Will Give Thanks Tomorrow

"For all these things, O Lord, we are truly thankful..."

That prayer will be duplicated in one form or another tomorrow when families gather for their traditional Thanksgiving dinners, a custom observed in this country ever since the Mayflower Pilgrims staged the first such celebration in November of 1621.

Thus, for 336 years, America has set aside this one special Thursday, late in November to count her blessings and renew family ties.

Of the first Thanksgiving more than three centuries ago at Plymouth, Mass., Edward Winslow wrote that the Pilgrims had had a fair harvest, the ship Fortune had arrived with provisions, and they had "a great store of wild turkeys, besides venison."

So the Pilgrims invited Massachusetts and 90 Indians to join in a feast. Forty-seven years later, in 1668, an annual day of thanksgiving was established at Plymouth. In later years New England families observed a day with feasting and prayer after the harvest was in.

Days of thanksgiving were observed during the Revolutionary war, and a special one was proclaimed when peace was signed in 1784, and again when the Constitution was ratified in 1789. The Protestant Episcopal church recognized the latter with religious service. In 1795 President Washington proclaimed a general day of thanksgiving.

It was President Lincoln who named the fourth or last Thursday of November as Thanksgiving day in 1863. In 1939, 1940 and 1941, observance was divided when President Roosevelt proclaimed the preceding Thursday for observance. In December, 1941, Congress designated the fourth Thursday, making it a legal holiday for all intents and purposes.

A snowy Thanksgiving was forecast for parts of Michigan and the northern Midwest, but the rest of the nation will celebrate the day in warm or rainy weather. A maximum of 45 was predicted for Thursday with colder weather Thursday night.

Local, county and state law enforcement officers today renewed their plea for motorists to drive safely over the holiday week-end. Nine persons were killed in Thanksgiving Day traffic accidents last year.

### Fire Destroys House In Process of Remodeling

Allegan (Special)—The Milford Tayer family had worked hard the past month remodeling an eight-room house across the road from their Alamo township farm in order to move by Jan. 1. But at midnight Saturday, chimney sparks caught the old wooden shingles over the wood shed. Within an hour the Tayer's new home was burned to the ground.

Passersby on the Ravine road woke the Tayer family by blowing auto horns. Alamo and Otsego fire departments prevented flames from spreading to the barn nearby and the house in which the Taylers were living.

They sold the farm recently and had been working to replaster the downstairs rooms of their prospective home. Some tools and a few pieces of furniture were lost.

### Ottawa Apples Shipped To Different States

Grand Haven (Special)—Apple growers in Ottawa county produced a large crop of fine apples in 1951. However, prices are not quite satisfactory so growers will not make a satisfactory profit on this big yield. Government buying is helping to a limited extent. Eleven carloads have been loaded by the PMA and shipped to Kentucky, Iowa, Arkansas, Texas, Louisiana, Minnesota and northern Michigan.

## Allegan Taxpayers May Save Interest By Paying Cash

### Council Approves Plan; After Due Date Six Per Cent Added

Allegan (Special)—Allegan taxpayers on special assessment rolls may save themselves some interest payments by paying their full tax in a lump sum, the city has decided.

By an official motion, the council agreed that assessments, usually spread over five annual payments, may be paid before the first due date without interest. After the due date, six per cent interest is charged to the time of payment, and delinquent payments are penalized another two per cent.

Heretofore, interest charges applied on all payments.

The council turned down a proposal for advertising on parking meters after a two week informal poll of public opinion. Members said they heard objections to the signs as a hazard of pedestrians, to the city's entering the advertising business, and that while one sign might be acceptable, a streetful would be unattractive.

A sum of \$14,295 can be expected for the city's maintenance of state highways next year, City Manager Philip Beauvais reported. A first quarterly payment of \$3,805 from the motor vehicle highway fund will be adjusted upwards when the city's new mileage is approved, he said.

Civilian Defense Director John Axe asked the council to appoint a ground observer and ground corps director.

## Allegan 4-H'er Awarded Trip To National Meet

Allegan (Special) — Michigan's delegates to the national 4-H club congress in Chicago, Nov. 25 to 30, were announced this week by A. G. Kettunen, state 4-H club leader at Michigan State college.

Among the 28 delegates was Lois Ann Anderson of Allegan county who won the award on the basis of her outstanding 4-H club program in food preparation.

Lois Ann is 19 years old and is a member of the North Otsego club of which Mrs. Thelma Bullard is the local leader.

"Being selected as a member of the Michigan delegates is one of the top achievements a 4-H club member can attain," William J. MacLean, county 4-H club agent commented. Lois was selected as one of less than 30 delegates from the 60,000 Michigan 4-H club members.

At Chicago she will be the guest of some of the nation's top industrial and business concerns at breakfasts, dinners, luncheons, special entertainment, educational tours and at the International Livestock exposition. All expenses are being paid for the trip.

The national congress is sponsored by the national committee on boys and girls club work, a foundation established by leading individual firms and individuals to provide educational trips, scholarships and other incentive awards for 4-H members. These awards encourage the youth to continue with 4-H club work, gaining practical knowledge while endeavoring to attain state or national recognition. Projects and selection of winners are handled through state 4-H club administrators and the USDA.

## LOOKING AT THE MILITARY BUDGET

There has been a tendency in recent years to assume that we the people should keep our hands off the military budget. No matter how we gripe about civilian spending, the moment we say a word against supplying the army, navy, and air force with all the funds they ask for we are supposed to be "unpatriotic." A congressman or senator who refuses to vote every cent that is demanded is likely to lose votes.

But now the senate's preparedness subcommittee has come up with figures that should make the citizen think again. After all, it is that citizen who has to raise the money. He should not be against raising all the money needed for national defense, but there is no reason why he should foot the bill for military extravagance any more than for waste in civilian services.

The subcommittee reports that there are almost as many high brass officers stationed in and around Washington as there were at the peak of our war effort in 1945. A survey showed that as of today there are 361 general and flag officers and 91,081 defense department civilians centered in Washington. When the war was ending in 1945 there were 379 general and flag officers and 98,071 civilians. Yet today there are only three and a half million men under arms, while in 1945 there were 12 million.

Those statistics seem to show that there is a gross overlapping of services. Why is all that high brass needed? How many hundreds of millions of the dollars of the military appropriations that President Truman annually demands are used up maintaining those hundreds of generals and flag officers and those thousands of civilians? The American people are not in the least averse to providing all the money that may be needed, but some of them at least can see no reason why more men should be maintained in military splendor than are necessary for the defense of the nation.

Because of the various emergencies the military department has come to be regarded by many as somehow sacred, as a department that should be above criticism. It is a happy sign that at least one senatorial subcommittee wants to be shown and insists on knowing the reason why. Any amount of tax money for real defense, not a cent for military extravagance. One of these days the American people will stop being sentimental about military expenditures. If we are ever going to even come close to a balance of the enormous waste of our tax dollars. Cooperation and sound, hard-headed thinking as well as acting is needed. Keep on writing your congressman or Senators.

## Sunday School Lesson

November 25, 1951  
The People at Worship  
Exodus 29:43-46; 35:24-29  
By Henry Geertlings

The laws for the new nation of Israel would have little meaning for the nation unless those laws could be implemented in the every day life of the people. That is why God instructed Moses to construct the tabernacle and to give such careful attention to the minute appointments of worship. It was necessary for the people to be surrounded with materials of worship that would serve to remind them continually of the presence of God and of His holy purposes for their lives. Wandering in the wilderness it would not be easy for them to be loyal to the God of Israel when the faint-hearted would be forever harking back to the gods of Egypt and the customs of a heathen people. In truth, the people for the most part would have to be led by the hand, even as a father a child. And even then there would be seasons of rebellion.

The call to worship is the call of deity. It is not that God would have His people regard Him as a demanding autocrat who desires forever to be placated by his humble subjects. It is for the sake of man that worship and prayers are required; that man be made better, that he may be confirmed in a proper sense of his dependent state, and acquire those pious and virtuous dispositions in which his highest improvement consists.

The giving of the moral, civil and ceremonial law constituted a notable event in the life of Israel. In a relatively brief compass, God laid down a system of commandments road enough to scope, and yet specific enough, to regulate the moral conduct of the whole nation. To the end that these divine ordinances might find fulfillment in the life of the Israelites, God led them to accept these laws as authoritative and to enter into a solemn covenant to observe.

The purpose of the tabernacle, however, was not that it might become a sort of fetish for the people, not an instrument of magic, but rather a moving symbol that would serve forever during the days of their wanderings as an instrument to link them up in a vital program of worship with Jehovah. It would provide their simple, childlike minds with a symbol of God's relationship to them and of His continuous presence. What is more, it would provide them an opportunity to manifest their own love and devotion to the purposes of God through their gifts of self and substance. After all, the tabernacle was to be built by them and adorned with gifts of their own hands. That would be a glorious achievement along the tedious pathway of their religious development.

In the closing chapter of our lesson we have what may be regarded as a lofty commentary on the stewardship of life. Following the instructions with regard to the keeping of the Sabbath, Moses enjoined the people to bring with willing hearts their bountiful offerings to the tabernacle. The matter of giving should always rest upon a voluntary basis. Only such giving can be of any possible spiritual value to the giver. Man is never to give grudgingly or of necessity. God loves a cheerful giver. The Israelites did not give because they were commanded to give but rather because of desires of the heart. For more important than the gifts they brought was the spirit that prompted the giving—the consecration of self.

Wherever there is the genuine consecration of self, there follows inevitably the consequent dedication of substance. One cannot help but wonder what would happen in our churches today if every person whose name is on the church roll could be induced to bring just once during the year, a generous, cheerful offering unto the Lord. There would doubtless be such a revival as Christianity has not known since the first century.

The call to worship still comes, but few there be that hear it. Actually, less than half of the membership of the churches get together for worship from Sunday to Sunday. Perhaps a more conservative estimate would be less than 40 per cent. This is a tragic admission, but it is nevertheless true.

One of the reasons why so-called Christians are not happy in their faith is because of their hearts of disobedience. The obedient heart becomes, sooner or later, the happy heart. Disobedience leads to sin after sin with all of the attendant sorrows.

Spiritual nurture is far more important than physical nurture. We feed our bodies with the meat and drink which they require day by day, but we neglect to feed our souls. As a result, the cheeks of our souls have lost their spiritual roses. Many of them are as pale as the cheek of death. And the color will hardly be revived in the cheek until there is a more vital program of worship.

The most of us are but babes in our understanding of the divine mind concerning the stewardship of life. We are responsible to God not only for the stewardship of self but also for the stewardship of substance. When we solve this problem acceptably before God, we will have largely solved every other problem that man faces in organized society.

A former Holland man has gained distinction in the field of painting. He is Richard Mouw, Jr., of route 3, Waukesha, Wis. Mouw, shown with a portrait of his late father, Richard Mouw, Sr., showed 28 oil paintings in a recent one-man show in Wagon Wheel Lodge, Rockford, Ill. His paintings include "Springtime in Wisconsin" which won him

the bronze award in the national amateur painter's competition, sponsored by Art News magazine last winter. Many paintings exhibited were landscapes of Holland and vicinity and one was of the old homestead on East 27th St. Another shows his brother Harold's two girls picking strawberries. His father was a lifelong resident of Holland.

## GRANDSTANDING...

By Dick Milliman

The same teams that made up the 1951 Hope college football schedule—heralded as one of the toughest in the school's history—all will appear again on the 1952 grid menu.

Beloit college comes to Holland, while Hope will travel to De Pauw and Carroll. Other opponents will be all five MIAA schools and Michigan Normal.

However, the order of appearance will be somewhat different next year. Beloit will play here in the second game of the season.

Saturday's game at Beloit was played on a frozen turf in below-freezing weather. The cold accounted for the small crowd present, but didn't affect the enthusiasm of about 20 Hope alumni who flocked to the game from several Illinois and Wisconsin towns.

Hope officials were pleased with the generous hospitality that the Beloit staff offered to the Michigan visitors.

"They treated us real well," Coach Al Vanderbush said. "And the game was a clean contest all the way through."

Hope was the victim of an honest mistake by game officials that might have had something to do with the final score of the game. In the closing minutes of the first half, the official timekeeper—who was on the sidelines and taking his cues from the field official—misinterpreted some signals from the field and stopped the clock when there was no time out.

During this period, Beloit was close to the Hope goal and scored its second touchdown with just 20 seconds remaining on the scoreboard clock, which was the official time. The half ended right after the ensuing kickoff.

"It was an honest mistake," Vanderbush said, "and could have happened for us as well as against us."

Beloit has a long and honored football past since the first Buc game in 1890. High point of the long career came in 1925 when Beloit led a vaunted Notre Dame team at the half, 3-0. But lack of reserves told on the Buc forces and the Irish finally won, 19-3.

In 1903, Beloit scheduled "Purdue, Minnesota, Wisconsin and Michigan—followed by Beloit high school."

Saturday's contest was the last for nine Hope seniors. In the graduating class are Jack van der Velde, Fred Yonkman, Gene Nyehuis, Neil Droppers, Bill Books, Ron Schippers, Tom Ritter, Don Hondorp and Howard Meyer.

The team arrived back in Holland at 3 a.m. Sunday. The bus faced bad driving conditions most of the way.

Coach Al Vanderbush is in Marshall today attending the annual MIAA meeting at which the all-conference team will be named. The choices probably will be made public later this week.

De Pauw university, one of Hope's earlier opponents, almost had an undefeated season. De Pauw was dropped from the unbeaten ranks Saturday by Wabash, 41-12.

In case you're wondering just who won the Northwestern conference football championship since the first one in 1930, here's a complete list:

1930-31, Muskegon; 1932 Kalamazoo; 1933-34-35, Muskegon Heights; 1936-37, Muskegon; 1938, Kalamazoo; 1939, Muskegon Heights; 1940, Benton Harbor; 1941, Muskegon Heights; 1942, Muskegon; 1943, Benton Harbor; 1944, Muskegon; 1945-46-47-48, Muskegon Heights; 1949, Muskegon and Kalamazoo, tied; 1950, Muskegon Heights; 1951, Muskegon.

On the all-time record for the past 22 seasons, Holland ends up in last place with 22 wins, 78 losses and nine ties in 109 games. Grand Haven is a fraction ahead of Holland with 22 wins, 77 losses and 10 ties in 109 games.

Just notes:

Grand Haven has a new basketball scoreboard, donated by the H-Y club. The Buc will try something different in basketball this year. They have sched-

ed a game for New Year's day afternoon with Holland Christian as the foe. Both varsity and reserve teams will play. Grand Haven's 1951-52 cage schedule includes all the Northwestern teams plus Holland Christian, South Haven, Whitehall, Coopersville, and Saginaw Arthur Hill.

Athletic director Edward (Moose) Krause was guest speaker at the annual Elks football banquet at Allegan this week.

The Allegan Jaycees will again sponsor a boxing team this winter. A boxing show will be held Dec. 28, and the team will point toward the Golden Gloves meet early next year.

St. Joseph filled in its 1952 football schedule by scheduling Grand Rapids South and Elkart, Ind. The Bears also play three Big Four teams and South Haven, Godwin Heights and Holland.

Dowagiac, member of the Big Four, has applied for membership in the Twin Valley league, the same southern Michigan conference that Three Rivers quit the Big Seven to join. The application was received and filed.

Raymond Mulder of Holland earned a varsity football letter at Ferris Institute this season. Basketball officials from Holland registered with the Michigan High School Athletic association this season include Harve and Herk Butler, Lee Kleis, Ed Scheerhooren, John Visser, Ed Damsen, Norm Japenga, Clare Van Liere and Ken Zuerkrum from Zeeland. Ray Lokers, Vern Lokers and Earl Lanning are registered.

Tackle Ed Foster and back Bob Dahlgren of Cadillac were named to the Northern Michigan all-conference team. Notre Dame's 35-0 defeat by Michigan State was the first time that a fighting Irish team had been held scoreless in 48 games.

## Zeeland Cagers Aim to Improve Last Year's Third Place Finish

Zeeland (Special) — Zeeland high school started its third week of basketball practice today in preparation for the coming season, which will be the last of the Tri-County conference. The league is folding after this school year.

Coaches Joe Newell and Mel Bouma are working with about 50 boys on the varsity and reserve squads, with an eye to improving last year's third place finish in the league.

Gone from last year's club that pushed Allegan and Otsego for the title are three regulars—Bernie Raterink and Ray Wagner, all-conference players, and Woody Wyngarden. All-conference guard Glenn Schrottenboer is back again to lead competition for starting berths.

First game for the Chix will be against Grand Rapids Lee at the Holland Armory on Nov. 27. First conference tilt is Dec. 7 against Otsego.

Under the watchful eye of Coach Newell, the battle for the guard posts involves Schrottenboer, Milt Lubbers, Bill Tibbitts, Howard Geertlings and John Van den Bosch. Del Komejan, Dave Kuysers, Allen Kraai, Roger Van Omen and Wendell Kollen are competing for the two forward positions. Either Roger Smallgan and Jason Redder probably will be the starting center.

Of these varsity candidates, only Schrottenboer and Lubbers were regulars last season. However, Tibbitts, Smallgan, Komejan and Geertlings saw a good deal of action.

Kuysers and Van den Bosch

Zeeland has two games at the Holland Armory this year. Besides Lee, the Chix also will entertain Grandville in Holland on Dec. 11.

The 1951-52 Chix schedule: Nov. 27—Lee, at Holland; Dec. 4—Wyoming Park, here; Dec. 7—Otsego, there; Dec. 11—Grandville, at Holland; Dec. 14—Paw Paw, here; Dec. 21—Comstock Park, there; Jan. 4—Banzon, there; Jan. 11—Plainwell, here; Jan. 15—Wyoming Park, here; Jan. 25—Allegan, here; Jan. 29—Comstock Park, here; Feb. 1—Otsego, here; Feb. 8—Paw Paw, there; Feb. 15—Banzon, here; Feb. 22—Plainwell, there; Feb. 29—Allegan, there.

## Train Drags Car Three-Quarters of Mile After Impact

### Kalamazoo Man Was Former Local Resident; 21st County Fatality

A former Holland man was killed instantly when his car was struck by a westbound freight at the Waverly road crossing east of Holland at 7:13 p.m. Friday.

Richard Wiersma, 58, of 927 Russell St., Kalamazoo, became Ottawa county's 21st highway fatality of 1951. He was headed north on Waverly Rd., when his light car was hit broadside by the train. Death was attributed to a skull fracture and multiple fractures.

Wiersma lived in Holland for about 10 years prior to 1935, when he went to Kalamazoo. He has many cousins still living here.

The car in which he was riding alone was dragged about 3/4 of a mile before the train stopped. The body was thrown out of the car about 450 feet west of the Waverly crossing, and was found about eight feet north of the tracks.

The 1940 model coupe—so badly mangled that no parts were salvageable—finally came to rest about 100 yards west of the US-31 viaduct.

Arnold Petch of Grand Rapids, engineer of the long freight, told officers that he didn't see the Wiersma car on the crossing and didn't know the train had hit a car until fireman Conrad Misner and brakeman J. Koryto, both of Grand Rapids, told him of the accident.

Harold Van Voorst, who lives near the scene of the tragedy at 694 Gordon St., told officers that the train whistle was blowing. Trainmen pointed out that the train whistled for the Gordon St. crossing, just east of the scene of the crash, and again whistled for the Waverly crossing.

Petch, Misner and Koryto were riding in the cab of the engine, while conductor A. F. Cronheim and brakeman R. Posthumis, both of Grand Rapids, were riding in the caboose.

Wiersma's body was found about eight feet north of the tracks.

The Chicago-bound freight held up traffic at the Waverly crossing until it was allowed to move off the road. After the preliminary investigation, it continued to Chicago about 10 p.m.

Wiersma, who was born in the Netherlands, came to Holland with his wife from Wisconsin in about 1925 and lived here for about 10 years. While in Holland, he was employed in local factories. The family moved to Kalamazoo in about 1935. The Wiersmas lived on 10th St. and in Borculo while here.

Relatives guessed that Wiersma was on his way to Borculo when the accident happened. The body was identified by a cousin, Nick Wiersma, of 252 Fairbanks Ave.

Survivors include the wife, Jennie; one son, Martin, of Huntington Woods; two grandchildren; and several cousins. Wiersma was employed at the Miller Lumber Co. in Kalamazoo.

## Padnos Supplies Basic Industry

There is a local firm equipped to handle your complete salvage operation. The Louis Padnos Iron and Metal Co., whose offices are located at 120 River Ave., is your scrap headquarters. Through the use of a fast, efficient fleet of trucks and mobile cranes, coordinated with the finest type of yard and plant equipment, this company offers unequalled service plus the highest market prices.

Knowing that the only metals that can be used to make iron and steel are iron ore (pig iron) and scrap it is significant to recognize that the supply of high grade ore is diminishing and consumers are reaching out to Labrador, Liberia, Venezuela, and other overseas sources. As this nation grows older and it depletes its resources of primary metals it must become increasingly conservation conscious. It is more important now because it is so far to reach to other countries for ore needed in a crisis.

By operating its facilities in its present location in Holland the Louis Padnos Iron and Metal Co. offers the citizens of this community the opportunity of processing its complete salvage out through to the ultimate advantage of both the vendor and consumer. This means that the vendor can depend on receiving the highest prices for his salvage and the public in general has the assurance that there is no wanton waste of its previous natural resources.

Salvage can no longer be considered the step-child of industry and relegated to the back alleys and dumps. It is an industry grown to manhood and must be so considered in our present day civic planning and thinking and uses for defense equipment.

In some way their clothing caught fire and both boys were taken to the hospital. Glenn was treated and later discharged. The Saugatuck fire department was called and quickly put out the fire, before much damage was done to the building.

During the severe electrical storm of last week the chimney of the Saugatuck school building was struck by lightning; the corner of the chimney was struck and a long crack was made, also minor damage was done to the roof. The chimney was built in 1926 or 1927. The amount of damage has not been determined but it is estimated to be between \$1,200 and \$1,500 and is covered by insurance.

## Watson Phone Co. Has Mortgage Plan To Keep Service

### Farmer-Owned Utility Will Have Meeting To Talk Improvement

Allegan (Special)—Since no one wants to take over the 135 subscribers to the Watson Telephone company, the little farmer-owned utility is going to try rising by its bootstraps.

Jesse Stone, secretary, said a stockholders' meeting will be called soon to vote on mortgaging the company's building for "at least \$5,000" to metalize the 75 miles of telephone lines. About 100 of the telephone users are stockholders.

Stone said there was no rush on the part of Michigan Bell company or the Union Telephone company to take over after the Michigan Public Service commission issued a final order last summer. Under that order, the territory would have been split up by the larger companies.

As soon as the stockholders approve the financing, the officers of the company would prepare the new plan for the commission's okay, Stone said. It will provide for stringing double wire throughout the system, replacing the present single wire that causes interference and line static.

"Last summer we replaced some phones that dated back to 1906," the secretary commented. "And lately we haven't had any complaints from subscribers at all."

The annual meeting comes up in February, but Stone said he expected a special session would be called soon. Actual work should start this winter if all goes well, he added.

Wire-stringing has had to wait while the telephone company copes with another problem recently. The state highway department moved the telephone office back from M-118 about 50 feet to prepare for improving the highway.

"We've got to get the building settled and painted the first thing. Then we'll mortgage it," he predicted.

## Former Local Man Dies

Word has been received here of the death of Raymond West Tuttle, 56, former Holland resident, which occurred Monday following a heart attack in his home in Tawas City. He was born in Belding May 12, 1894, and spent his boyhood in Holland, remaining here until after he was married. He was a son of the late Dr. and Mrs. L. N. Tuttle of Holland. Surviving are the wife, Jean; a son, George E. Tuttle and a granddaughter, all of Tawas City, and a sister, Mrs. Olive L. Lindley, of Greenville.

Visible evidence of some of the damage done along the Lake Michigan shoreline near Holland by high water and strong wind and waves can be seen in these two pictures, taken in the area between Macatawa and Castle Park. The large house in the top photo now is on the brink of a steep sand cliff when erosion ate away the beach in front of the cottage. The far corner of the porch hangs unsupported over the cliff's side. Large trees brought down by the shifting sand lay along the shoreline. Just south of the cottage

In the top photo, another building was moved about 100 feet back from the shore to save it from toppling over the bank. The bottom photo, taken about a half-mile south of Macatawa, shows another house that is on the brink of a smaller cliff. Water pipes and other utility apparatus have been ruined by the erosion and are scattered along the beach. The thick concrete wall in the foreground has been broken up and now dangles over the edge. Cement walks in this section also have been destroyed. (Sentinel photos)

## Erosion Damage Great On Holland Shoreline

### Grace Church Group Hears James W. Curtis

James W. Curtis of Saugatuck told members of Grace Episcopal church his convictions that "a return to religion was necessary to bring us back to some of the good things in life" prompted him to enter study for the priesthood. He spoke at a parish supper Thursday night in the parish house.

After graduation from Dartmouth and service in the Navy in World War II, Curtis worked his father's farm near Ganges. He told the meeting that it was during the war years that he realized his generation needed something to sink its teeth into. He is studying under the Rev. William C. Warner while he is serving All Saints' Episcopal church in Saugatuck.

Preceding the featured talk, the budget for the coming year was read and a discussion on the new church was held.

Supper was served by the St. Anne's guild assisted by St. Agnes' guild. Mrs. Jack Sawle was general chairman.

## Engaged

Miss Gertrude Rozeboom.

Mr. and Mrs. Martinus Rozeboom of route 6, Holland, announce the engagement of their daughter, Gertrude, to Pvt. Raymond J. Mokma, son of Mr. and Mrs. Jerald Mokma of 109 Centennial St., Zeeland. Pvt. Mokma, now home on leave, will leave Sunday for Seattle, Wash., en route for overseas. He had been stationed at Fort Riley, Kan.

Lake Michigan water that is 1.7 feet higher than last year is playing havoc with the shoreline around Holland.

Besides washing away beaches, the high water and strong waves have toppled many large trees and threaten several cottages both south and north of Holland along the lake.

Some cottages have been moved back from the shore by as much as 100 feet as the relentless erosion continues and their foundations are undercut. Other buildings now are on the edge of a sandy cliff that drops as much as 50 feet in some spots to the water level.

In one stretch between Macatawa and Castle Park, the beach has all but disappeared; for about a quarter of a mile, a steep sandy cliff at an angle of about 60 degrees stretches about 150 feet in the air.

Damage also is extensive south to Saugatuck and north to Grand Haven.

Many retaining walls, cement walks and other beach developments have been destroyed. Trees that have toppled over from the higher banks strewn the shoreline.

Land owners at both Macatawa and Castle Park have banded together to construct wooden jetties to try to stem the damage. Efforts have proved successful to some degree.

A study by the Water Resources commission says that the Macatawa resort association has spent \$100,000 and the Castle Park association \$22,000 in construction of preventive measures.

### Canadian Geese Like Allegan Sanctuaries

Allegan (Special)—Population of Canadian geese in the Allegan area is building up these days with an estimated 13,500 birds, according to Orland Haugen, manager of Swan Creek Wildlife Experiment station.

About 10,000 geese are at the Todd farm sanctuary near Fennville, and the remainder in the Swan Creek marsh.

The number still doesn't reach the amount of last year's high count of 16,000 birds. Altogether, an estimated 60,000 to 80,000 geese passed through the sanctuaries last year. Haugen said his staff found two swans which had been shot by hunters near Round Lake.

## Maroon Squad Cut To Workable Group As Season Nears

With just two weeks remaining before the season basketball opener against Muskegon Christian, Coach Arthur Tuls at Holland Christian has finally pared his varsity squad to a workable group, and full scale drill will now be the order of business.

A total of 50 boys turned out for basketball this year, and it has taken almost two weeks of "looking over" by Tuls and Reserve Coach John Ham to form the first and second teams. Tuls hinted, however, that a further cut of one or two may be in the offing for the varsity in the next few weeks.

Of the 12 men now composing the varsity, only five are letter winners and two were regulars on last year's squad. The remaining members were all promoted from the reserve team. The two regulars returning are Tony Diekema and Jim Kok. Other letter winners are Earl Schipper, Dave Schreur and Jack Borr.

On the basis of experience, Kok and Diekema have the inside track at their positions—Kok at center and Diekema at one of the forward posts. Others plugging for the center slot are Ken Scholten and Jim Prins. Other forwards vying for a starting berth are Earl Schipper, Jack Borr and Rich Sharda. Guard prospects include Merle Van Dyke, Dave Schreur, Ken Volkema, Karl Esenburg and Paul Vander Leek.

Of the 12 players, only three—Kok, Borr and Diekema—are seniors. Seven juniors and two sophomores round out the present squad.

Although not making any predictions this early in the year, Tuls said, "The squad looks better now than last year's squad did at the same time. We should have a better balanced team, man for man, and certainly will be stronger in the height department." The overall height of the squad is a good six feet.

Once again the Maroons have a tough independent 18 game schedule, including three class A schools, several outstanding B clubs and three class C schools. Two of the three C schools are "sister" schools, Muskegon and Kalamazoo Christian. Fremont has been added to the schedule in place of Zeeland.

The complete schedule: Nov. 30—Muskegon Christian, here; Dec. 4—Grand Rapids Christian, here; Dec. 7—Muskegon Christian, there; Dec. 14—Kalamazoo St. Augustine, here; Dec. 21—St. Joseph, there; Dec. 28—Grand Rapids Christian, there; Jan. 1—Grand Haven, there; Jan. 4—Kalamazoo Christian, there; Jan. 10—Grand Rapids Catholic, here; Jan. 15—Grand Rapids Creston, here; Jan. 18—Allegan, there; Jan. 25—St. Joseph, here; Feb. 1—Fremont, there; Feb. 5—Allegan, here; Feb. 8—Alma, there; Feb. 15—Fremont, here; Feb. 19—Grand Rapids Catholic, there; Feb. 29—Grand Haven, here.

## Rosendahl, Kool To Lead Calvin

Grand Rapids (Special)—Two basketball stars from Holland are expected to be in the front line as Calvin college embarks on a 19-game schedule against Aquinas college on Nov. 27.

High scoring Duane Rosendahl will hold down the pivot post and rebound ace Preston (Butts) Kool will start at one forward spot. Both are graduates of Holland Christian high school.

The Knights will be trying to improve on last year's impressive record of 13 wins and three losses. One of the defeats was at the hands of Hope college.

Rosendahl holds the record for the most points scored in one game by a Calvin player with a 38-point effort against Kalamazoo college last year.

Coach Chuck Buit expects to send an experienced quintet through the campaign. Kool and Mel De Stigter are in the front running for the forward spots, with Rosendahl a pinch at center. At guard will be Stuart Sisco and Roger Postmus. All but Postmus are returning lettermen.

The Knight schedule includes all MIAA teams except Adrian, as well as Aquinas, Grand Rapids JC, Detroit Tech, Ferris, Wheaton and Olivet.

Calvin will travel to Holland to play Hope on Feb. 26 and will entertain the Dutchmen at the Civic Auditorium on Jan. 11. All the rest of the Knights' home games will be at Burton gym.

Mrs. Ellis was found on the bathroom floor clad only in her night gown. She said she fell about midnight Tuesday. She was taken to the hospital in an ambulance and x-rays showed no broken bones.

## Garden Club Features Christmas Suggestions

Mrs. Hugh W. Garnett of Columbus, Ohio, presented a wealth of ideas for Christmas decorations to the Holland Tulip Garden club Thursday afternoon in the Hope church parish hall. She was assisted by Mrs. Fred Stanton and Mrs. Paul Fredrickson of Holland. Informality, an abundance of Christmas novelties and a variety of containers characterized the program.

As general suggestions, Mrs. Garnett emphasized "Choose a theme for the household; begin outside the house and work in, and scale ideas to one's budget and home limits." Specifically she suggested daytime trimmings for outdoor trees for the enjoyment of young children. She illustrated various doorway trim: The New England door basket, red and white candy stick cane and swags with flower pot bells, red shoes and gilded stirofoam balls.

As conversational pieces within the house, Mrs. Garnett suggested a white wire snow man surrounding a lighted candle, madonnas with appropriate bough backgrounds and on fitting bases, arrangements of fresh flowers and green boughs in heirloom containers and mantel arrangements using unusual deer, angels and snow-sprayed branches.

Table suggestions included crystal pieces set off by use of green boughs, lighted candles in red tumblers and use of a musical turntable for a tea table centerpiece.

Mrs. Fred Coleman, club president, announced three December dates for the club, including an all-day Christmas workshop on Dec. 6 from 9:30 a.m. to 4 p.m. in the Woman's Literary club tea room; Dec. 12, Christmas tea from 2 to 5 p.m. at the home of Mrs. William Winter, and Dec. 16, meeting of horticulture department on the subject of African violets and other house plants at the home of Mrs. Jerena Rooks.

## Hudsonville Joins City Cage League

Despite insistent rumors of its imminent death, plus shuffling of members of the inner family, the Holland City Basketball league is all set to begin another year in action.

With teams dropping out and others joining up, the city loop has been uncertain about its eventual lineup. But a squad from Hudsonville has joined the family circle this year to round out the five-team league.

Other members will include defending champion Allen Radio, Fox Jewelers, Kole Auto of Zeeland and Washington Square. Pete's Place, champion two years ago, was the latest league casualty.

The 1951-52 season is set to begin Dec. 5.

The final league meeting before the season gets underway has been scheduled for Monday evening. League secretary Russ Vander Poel hinted that one more team might join at that time.

At any rate, Monday is the deadline for any team to enter the league.

### Girls' League Elects Officers at Meeting

Officers were elected at a meeting of the Girls' league of Beechwood Reformed church Monday evening. Elected were Beverly Isaacs, president; Sherrill Visser, vice president; Lavina Brown, treasurer; Barbara Rolse, assistant secretary and treasurer.

Mrs. Donald Prins was in charge of devotions and Annabell Hamstra read an article on the Apache Indians. The group spent the evening sewing on a blanket for the missionary of Beechwood church.

Hostesses for the evening were La Verle Aldrink and Annabell Hamstra. Sponsors are Mrs. Donald Prins and Mrs. Peter Meurer.

Ben Bruins of North Blendon doesn't have to go up north for deer hunting. In fact, he doesn't even go far from home. The first to report a kill this year, Bruins shot this 10-point 225-pound buck after hunting about five minutes Thursday with four others a mile north of M-50 and 1 1/2 miles west of US-31. Two shots from his 12-gauge single barrel shotgun brought down the buck. Others in the hunting party were his son, Ben, Jr.,

Gordon Klomparens, James Van Norden and H. H. Vander Molen. It makes three years in succession that somebody in this hunting party was successful. Other successful hunters included Ben Lente and his son, Donald, route 4, who returned home from Free Soil with two bucks, one a spikehorn and the other an eight-point. Both were bagged before noon Thursday.

## Five Lettermen Return to Form Nucleus of Team

With the second cut scheduled this week, Holland High Coach Fred Weiss plans to have his 1951-52 varsity basketball squad down to manageable size in a few days for intensive drills before the high school opener at Ottawa Hills Nov. 30.

Twenty boys reported for practice, and the first cut took off five candidates. Three more are due to be trimmed to make up a season-long 12 man outfit.

Back from last year's third place finisher is only one regular starter. Tall Tom Maentz, regular guard last year, will be at center this season. But big Frank Van Dyke, who saw plenty of service last year, is back again along with letterwinners Tom Carey, Gordon Hulst and Alden Klomprens.

The rest of the candidates are up from last year's reserve squad which tied for first place in the Southwestern conference.

Leading the list is Dean Vander Wal, 6-3 forward, who was high scorer for Coach Bob Connell's junior Dutchmen last season.

Others are center Dave Moran, forwards Carl Vischer and Roger Israels, guards Jack Kempker, Terry Burns and Orville Tien, and Ron Overway, Ken Armstrong and Dave Bos.

In recent drills, the squad has been lining up like this:

On the first team, Maentz plays center, Van Dyke and Van-

Coach Fred Weiss  
... second year at helm ...

der Wal forwards and Hulst and Kempker at guards. Carey has been alternating with Kempker of late.

On the second five, Moran has been working at center, Tien and Burns at guards and Vischer and Klomprens at forwards. Israels, only a sophomore, also works in with the two quintets, as do Overway, Armstrong and Bos.

Weiss has expressed a guarded optimism about his team's prospects. He pointed out that little has been lost in height, and the team has gained in ball handling abilities over last year.

Graduating last June were five front-liners who bore the brunt of the Dutch attack. These included high-scorer Roger Eggers, now at Western Michigan, huge Bob Armstrong, now at Michigan State, scrappy Bob Tasma, now at Western Colorado, and Max Doolittle and Ron Bekius.

Last year's season record was 12 wins and six losses including tournament play, with a 6-4 mark for conference play. Kalamazoo won the league title, with Muskegon second and Holland third.

Meanwhile, Connell is working with a group of 20 boys to form a team for defense of last year's reserve title shared with Muskegon. Since most of the players have moved up to the first team, the job will be a tough one.

This year's Holland high school schedule:

Nov. 30—Ottawa Hills there; Dec. 7—Benton Harbor here; Dec. 13—Grand Haven there; Dec. 21—Grand Rapids Central here; Jan. 5—Kalamazoo there; Jan. 11—Muskegon Heights there; Jan. 18—Muskegon here; Jan. 22—Lansing Sexton here; Jan. 25—Benton Harbor there; Feb. 1—Grand Haven here; Feb. 8—Kalamazoo here; Feb. 15—Muskegon Heights there; Feb. 22—Muskegon there; Feb. 26—GR Central there; March 4—Ottawa Hills here.

## Scott Addresses Exchange Club

Superintendent of Schools Walter W. Scott spoke to members of the Exchange club at the luncheon meeting Monday at the Warm Friend Tavern. He spoke on "Trends in Education."

Scott said that although a small group believes that schools should teach only the three R's without all the "frills," a much larger number believes the educational system should change to meet the demands of a rapidly changing world.

He enumerated some of the things which have been emphasized in later years, including closer co-ordination and participation between the schools and the people.

Schools certainly should continue to teach the basic subjects, he said, however, schools should prepare pupils for closer communication with people of different backgrounds and languages.

Education cannot be accomplished by means of mass production, he said. Each boy or girl must be considered separately, in small classes, to make it possible to teach and find better ways to help individuals find and keep jobs.

He explained the importance of the field of teaching family living, with new emphasis on moral responsibility, honesty, integrity and faithfulness and closer co-operation between home, school and church.

There must also be education for international understanding, with better knowledge of our own country and backgrounds and respect for other countries and peoples, he said.

Preceding the program, a new member, Riemer Van Til, was inducted into the club by the Rev. Paul Hinkamp. Dr. John R. Mulder, president, conducted the meeting.

Raising this rare orchid is a hobby of Mrs. Ed Morlock, 141 West 19th St., who reports the four blooms in fine condition this week. She received the plant in 1946 from her brother who raises 400 varieties of orchids in Seattle, Wash. Known as the Odontoglossum Grande, the blooms are chartreuse with mahogany markings and about six inches across. The centers look like tiny dolls with arms and legs outstretched and even have markings for eyes. This year the plant has four blossoms. It had seven last year and the year before. Mrs. Morlock also has a night blooming cereus which blossoms every August. (Sentinel photo)

## Obedience and Discipline Important To Children and Both Begin at Home

The following article was prepared by Mrs. George Damson in connection with American Education Week which has as its theme this year, "United for Freedom."

In it she discusses the necessity of a good balance of home, school and church in having the children assume a well-adjusted role in society.

By Mrs. George Damson  
When a teacher carefully states that some students take just enough credits to permit them to graduate or appear not to take any forward look to the future and a vocation, with a subsequent lack of faith and hope in the ultimate rightness of things in another year period of their own time—one reluctantly feels there is something lacking somewhere.

Perhaps it is the motivation that includes a desire to make a worthy contribution to his generation. Are we interested enough beyond our own busy, adult lives to instill in our young people some of the eternal truths? With all their "getting" are they getting understanding?

Obedience and discipline are important in any concept of life—and let us face it—they do begin at home. Frederick M. Meek says, "No parent is willing to wait till see if the child 'wants' to go to school—to learn manners—or to be personally hygienic." Nor can he wait for adulthood to automatically assume a well-adjusted role in society without first being undergirded at home with certain principles which will enable him to become a mature person.

The responsibility cannot be vested entirely in the school or the church. Much of it depends upon us at home and might even make us "unpopular" with our sons and daughters temporarily. Some day "mom" and "dad" will be thanked for not being indifferent and for maintaining their

youthful respect. We are examples for good or bad. It seems to me as we go through the visitation process in the schools we find the teachers interested in presenting to our sons and daughters as much knowledge as they will absorb—we find, for the most part, the facilities are adequate—yet we ponder the question of the seeming starvation of mind and soul in the midst of plenty. Could it be that more of us ought to do some self-searching and ask: "Are we measuring up as parents?"

Let's consider thoughtfully this statement by the Danish philosopher, Skovgaard Peterson. "The child must learn to know the will of God in the will of his parents and superiors." The will of God for us is to live an abundant life in the spiritual sense of the word "abundant." In fact, through the United Nations, we desire that life throughout the world for all nations and races. It does begin at home though, doesn't it?

William Miller, 160 West Ninth St. (left) and Ed Dabrowski, River Hills Dr., each shot his buck early last Thursday morning. The two animals were bagged about 15 minutes apart. One is a spikehorn and the other a seven-point buck, and each weighs about 125 pounds. The local men camped at Tippe Dam, between Manistee and Cadillac. Also in the party were Lee De Ruyter, August Delsing and Henry Dozeman from Holland and Frank Brock from Grand Rapids. However, Miller and Dabrowski were the only ones to get their bucks. ## VOLLEYS FROM AMBUSH

How come you missed Knooi-huizen?  
Or Jongekrijg?  
Or Joostberens?  
Or Tjepkema?  
Or Beewukes?

That was the reaction to the little item in the Volleys column Nov. 6 listing a spell-down of Dutch names for the benefit of the new BPW superintendent, George H. Rendleman. George was quite fascinated by the list and the other day wouldn't even guess at the spelling of a name so simple as Bulthuis.

City Manager "Mac" McClintock after six months here said he is getting used to some names and can even spell Greengood. City Clerk Clarence Greengood quite soberly says he can't understand the fuss about his name. He never had any trouble spelling it or pronouncing it. But he admitted he had some name cards printed after he was elected city clerk because he got tired spelling it for outsiders at meetings away from home.

Wilson Diekema advanced the best one when he addressed the city manager this week as Van McClintocksmas.

Municipal Judge Cornelius vander Meulen says Dutch names are very simple too. He recalls an incident many years ago about 1888 (we wouldn't expect a woman to name dates like that) when he got a free pass to the circus.

In those days money was scarce and young Neal was willing to water elephants or feed animals for admittance. En route, he saw a circus man near 16th and River in front of a store with a big sign with two jaw-breaking Dutch names.

"Hey bub, I'll give you a free pass if you can pronounce those names," the man said.

Neal read them easily and got the pass.

The store name: "Van Zwaluwenberg-Michmershuizen" and it spread over the whole front of the building.

When Rendleman gets used to some of the complicated names, he'll find the second phase of mastering Dutch names even more difficult. That's the matter of spelling each name right. Some names have capitals, some small letters, some extra letters, others dropped, and when families start changing names, nobody can keep up.

Take Vandenberg, for instance. It can be Vandenberg, Vanden Berge, Vander Berg, Vande Burg, Berge, Vander Berg, and Burg... and that's only the beginning.

Even the town's most common name, Van Dyke, can get scotched up. It can be spelled Van Dyk, Van Dyke, Vandyke, Van Dyck or maybe Van Dyken.

And there are plenty more, particularly those with double letters. We still think Van Eenennaam is the toughest and welcome the new spelling which goes Van Eenaam.

Hurray, we got one of those welcome letters from Junius Wood who is hanging out at the National Press club at Washington.

He enclosed a clipping from the Washington Star which reminded him of a subject which has aroused surprisingly little comment in Ottawa county.

Q. Why are voting machines not used more extensively?

A. The chief reason is the high cost of these machines.

He added: "The only voting precinct which I know is my own in Park township. Officials there often have so much time on their hands that a voter is welcomed like the prodigal son. Counting the votes is a welcome relief. Why the expense of voting machines and the continued cost of maintenance?"

C. J. De Koster of the Board of Education who has worked as a printer for a long time came up this week with a novel marriage announcement printed way back in 1888. Names of the principals appeared in two tiny envelopes pasted onto the announcement. We considered reproducing it, but the fine script on yellow nixed our efforts.

This comes from the Detroit, weekly publication of the Detroit Board of Commerce:

"Did you know that the same Denny Den Uyl (this follows an article about Den Uyl's Bohn Albumin 'American Forum of the Air') owns the Hotel Macatawa over near Holland, Mich. where he is a local patron saint—sort of 'home-boy-makes-good' character? Through his machinations, inspired by Lt. Governor Bill Vandenberg and local editor Bill Butler, we are the proud possessors of 1 pr. wooden shoes, all embellished up yet, mit windmills and shellac. They were sent as a tribute, but slept as admonishment to one who has a way of getting in Dutch without half trying... anyhow, we promised to print any material they send us about their amazing Tulip Festival that magnetizes hundreds of thousands of visitors to Holland every spring, provided publicity is held to one paragraph, for bullet purposes."

That nasty snowstorm last week brought some choice comments too.

A former Holland man met his death in the mangled remains of the light car pictured above. Richard Wiersma, 58, of Kalamazoo, was killed instantly when his car was struck by a Chicago-bound freight train at the Waverly crossing Friday evening. The top photo shows the side of the car that the train did not hit, while the bottom picture shows the point where the engine struck the car. The 1940 model coupe was dragged ¼ of a mile west of the Waverly crossing before the

train stopped. The motor was thrown out of the car about 100 feet east of where the mangled auto ended up. Wiersma's body was found beside the tracks about 450 feet west of the scene of the crash. Parts of the car and pieces of egg crates, clothing and other items that were in the auto were strewn along the tracks from the accident scene to where the car landed. The point of impact was almost dead broadside on the right side of the car. (Sentinel photos)

least one person on the premises of such an incident several years ago when the Sentinel carried this remarkable headline in small type, "All Hell's Froze Over." An enterprising newspaperboy took advantage of the shocking headline to shout it at Eighth and River, and sold 40 extra copies.

City Manager McClintock was blamed for the early snowfall. His city hall pals said he wanted to see Holland's snazzy snow loader in operation.

"I could have waited a month, though," Mac said.

Persons paying those 50-cent fines for overtime parking shouldn't feel too badly.

The city manager and most of the town's aldermen contributed to the parking fund Oct. 26 on paying assessments.

### Longfellow School Marks American Education Week

On Thursday morning the children of the third, fourth, fifth and sixth grades of Longfellow school assembled to celebrate American Education Week. Devotions were in charge of the sixth graders: Patty Hower, Bill Stryker, Keith Bosch, Jane Penna, Bruce Stegenga and Judy Poll under the direction of their student teacher Miss M. Mulder.

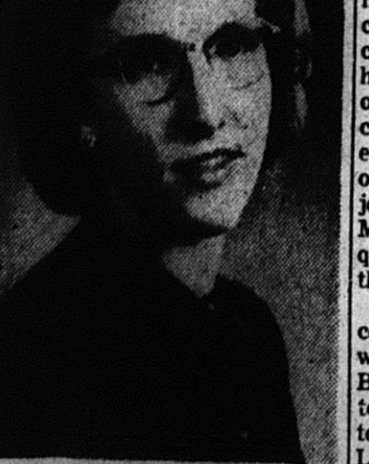

Keith Miller led the flag salute and Karen Ende introduced Mrs. John Van Oss who spoke to the boys and girls on the theme for the day, "Teaching the Fundamentals." She told the children of her experiences in teaching in a rural school 50 years ago and compared it with school experiences today.

A skit, "School Days," was presented by Herbert Harrington, Robert Essenburgh, Margo Meengs, Linda Nyhoff, Jean Vande Vusse and Sharon Huff. They were accompanied on the piano by Miss Bolthouse, student teacher.

## School Board Service Aired by AAUW Panel

In observance of American Education Week, members of Holland branch, American Association of University Women, Thursday evening heard a highly informative panel discussion on "Our School Board in Action." Members of the branch education group presented the program in the Juliana room of Durfee hall on Hope college campus.

Mrs. E. W. Saunders, chairman of the education group, acted as moderator. Members of the panel were Mrs. Kenneth De Pree, member of the Holland school board, and Miss Nella Meyer, Mrs. J. Dyke Van Putten, Miss Wilhelmina Haberland and Mrs. Louise Krum.

They emphasized that there is no greater power in the world today than education. Increasing populations resulting in larger school enrollments have made the school board's work "big business" with finances coming from local taxes, state aid and non-residents' tuition. The United States is the only country in the world in which the school system is operated on a local level.

Discussion centered on membership, duties and functions of the local board, with Mrs. De Pree giving much of the first-hand information. Miss Meyer outlined the local board membership which includes four businessmen, one college professor, a doctor of divinity, a lawyer and two women, both former teachers, now housewives and mothers and both members of the local AAUW.

Procedure of election and staggering of the three-year terms were carefully explained before panel members launched on a complete discussion of actual functions and activities of the board.

Mrs. De Pree reported on the one formal and one informal meeting each month besides informal sessions with specific groups. She said although formal meetings are public, not many individuals attend. However, she said, the public is well-informed on board doings through complete and accurate reports in The Sentinel.

The part the superintendent of schools plays in the administrative set-up was well-defined. As top man, it is his duty to carry out policies suggested by the board, to prepare a budget, recommend teachers for hire and keep the board well-informed on all school phases.

It was brought out that in Holland it costs \$207 per year to educate each elementary school child and \$259 per student on the secondary level. These totals are higher than the average amount spent per student in the state.

Many school services to the community other than children's education were enumerated, including cultural clinics, adult education, help to new Americans and cooperative training. Questions of curriculum, a proper philosophy of education and many other phases of school and board work were injected into the concise program. Members of the panel answered questions of the audience after their formal discussion.

Mrs. Henry Steffens, president, conducted the business meeting which followed. Mrs. Donald Brown, of the fellowship committee, reported that \$197.9 was netted from the used book sale. Mrs. Leon Moody introduced new members present.

The group decided to supply cookies next month for veterans at Percy Jones hospital. The president also read a letter of invitation to a seminar on women in the armed forces to be held at the University of Michigan Friday, Nov. 30. The December meeting will be a musical program by the

### Fire Destroys Barn During Lightning Storm

Burnips (Special)—During an electrical storm Tuesday evening a bolt of lightning struck a barn on the farm of Mr. and Mrs. George Pater, southwest of Forest Grove. The fire spread quickly throughout the barn, which was completely destroyed.

The Salem township, Burnips and Jamestown volunteer fire departments and the Drenthe fire department answered the call. They remained on the scene for about three hours.

Also destroyed were four steers, a new corn picker, a grain drill, drag and a new plow. The loss was estimated at approximately \$10,000, which was partially covered by insurance.

The house was unoccupied at the time.

## Junior League Presents Gay Holiday Style Show

A galaxy of beautiful fashions and a variety of gift suggestions were shown in a lovely Christmas setting Friday in "Christmas Gifts Walking," a style show sponsored by the Junior Welfare league.

The Woman's Literary club house was packed for two performances of the fashion showing, which was the league's initial project to raise funds for a children's wading pool in Holland.

Gay Christmas decorations, and a homey holiday scene with lighted tree and trimmed mantel set the stage for the event. Models, all members of the league and other local women, appeared first on stage, then on a ramp, built out the length of the club house auditorium. Another ramp was set up in the downstairs tea room. Mrs. Jack Reichardt was narrator in the auditorium and Mrs. Thomas Newman described the fashions to the tea room audience.

Gift ideas were cleverly worked into the scheme as models appeared carrying a toy doll, a decorative piece or other items appropriate as gifts. Accessories and jewelry were pointed up as excellent gift ideas.

Men's fashions were shown by Oscar Anderson, who first appeared on stage "in leisure" and intermittently traversed the ramp showing sports, lounging, "at home" and outdoor fashions for men.

The show embraced gift ideas for everyone from "the little angel" to children, teen-agers and adults.

Mrs. Joseph Borgman, Jr., was general chairman of the show. She welcomed the audience, announced league committee chairmen and introduced Mrs. Reichardt. Miss Beth Marcus presided at the show opening in the tea room.

After the show, punch and cookies were served in the tea room.

## Building Limited To Smaller Units

Construction work in Holland during the next year will consist mostly of smaller buildings, according to Harold Vander Bie, member of the public affairs committee of the National Retail Lumber Dealers association.

"Larger homes and commercial buildings cannot be put up without securing permission in Washington unless they are designed to require at minimum of steel and copper, and few permits are being approved," Vander Bie said.

"On the other hand, no permit is needed to build a single-family home if it uses no structural steel and not more than 1,800 pounds of other steel and 35 pounds of copper or 1,450 pounds of other steel and 160 pounds of copper, not counting fabricated building products, such as heating and plumbing fixtures, whose weights need not be considered."

"In the case of stores, garages, warehouses and other commercial and institutional buildings, construction can go ahead without a permit if no more than 4,000 pounds of steel and 200 pounds of copper are to be used in any calendar quarter." The same provision applies in the case of farm buildings.

In other words, the size of a new building, except one intended for amusement or recreational purposes is limited only by the quantity of critical materials it requires.

## Opportunities of American Citizen To Study and Develop Are Unlimited

The following article on "Schools Keep Us Free" was prepared by Mrs. Henry Steffens in connection with the observance of American Education Week which is observed this week in Holland under the theme, "Unite for Freedom."

By Mrs. Henry Steffens

Our American way of life was conceived in liberty, and liberty is our most priceless possession. It cannot be ignored, neglected or forgotten. In order to continue in our land liberty and free government must be watched, guided and preserved with human wisdom.

One of the clearly marked signs of a free government is the education of an individual within the state. The opportunities of a citizen in our land to study and develop are unlimited. There are few places in the world where learning is offered to all the people.

How do the people profit by their learning? How do we reflect our American way of life? How do we show and demonstrate that we are members of our republic created in the 18th century? Through the maintenance of good schools within our community.

In an observance of American education week, we pay tribute to the founders of a free educational system whereby we as individuals have been taught to use our wisdom and our skills. We have established great institutions of learning for the benefit of mankind. We must continue to teach, through our schools citizenship, peace, happiness and security. This is our responsibility.
