TB Tests Slated In Maplewood

Tuberculin skin tests will be given in Maplewood Christian School and Maplewood Public School Monday, Nov. 27, in a program sponsored by the Allegan Health Department, the Michigan Department of Health and Michigan Tuberculosis Association.

The skin tests are a county-wide program offered free to children in first, fifth and 10th grades in Allegan County. The public health team will be in Maplewood Christian School Monday morning for tests for first and fifth graders and will be in Maplewood Public School in the afternoon. Since no tests had been given in the latter school last year, the tests will be for all grades. Parents must sign a consent slip for the tests.

The simple skin test reveals whether a child is free from tuberculosis. In most cases, the results are negative. Even when a test is positive it does not mean the child has tuberculosis, but such children are encouraged to have x-rays. The team also is arranging for x-rays.

He was a sophomore at Saugatuck high school last spring when he shot Carol Gee, 11, and Margaret Chambers, 12, to death.

Captains Named For Hope Teams

Jim Bultman, Fremont junior, was named captain of the 1962 Hope College football team and Vern Sterk, Holland sophomore and Bruce Welmers, Los Angeles, Calif., sophomore were elected 1962 cross-country co-captains at the annual football-cross country team banquet Friday night in Durfee Hall.

Bultman was the Hope quarterback this season and led the Flying Dutchmen in passing while Sterk and Welmers were key members on the fourth place MIAA cross-country team. Sterk was

Welmers Sterk

hampered with injuries while Welmers ran his best race in finishing 13th in the MIAA meet.

Coach Russ De Vette announced the football captain and coach Daryl Siedentop revealed the cross-country co-captains. De Vette, Line coach Gord Brewer and End coach Ken Weller introduced members of the Hope squad and Siedentop introduced the cross-country team.

Dr. James Harvey, Dean of Students, spoke to the group on "Which Way, Hope?" He said "values of American society is in a moral decay and the values have affected athletics with distorted values and 'athletic bums'."

He felt that in the next decade

Jim Bultman ... leads '62 football team

or two, Hope College students must decide "if they will stand for values and climates in college that is unique or the values of society." The dean pointed out that athletes have the most influence of anyone on the campus because "they get the publicity." "Because of this it becomes important in the value of colleges for athletes to use publicity to witness for positive values," Dean Harvey said.

He lauded the Hope coaching staff for "holding athletics in its proper perspective" and challenged the athletes "with the tremendous responsibility to be a positive influence to shape and mold a philosophy on the campus that is outstanding and Christian." Dr. Harvey illustrated his talk with how misconceived values have entered athletics, pointing to heavy recruiting and gambling in schools and also gave illustrations from his experience of athletes who have used their example to provide a good influence.

De Vette, in commenting on Hope's winless season, said he thought the team "had learned about putting out even through loss. In many ways I was not totally discouraged about this season," De Vette said, "and we'll try to impress on you for next year that the challenge never has been greater."

He said the first challenge was in the classroom. De Vette said each person should put forth the effort because everyone was capable of doing the classroom work. The Hope coach said "we'll have the highest percentage of players we've ever had returning, we should have a good team next season and it will be a challenge to be eligible."

Zeeland Won 5 Games This Year

ZEELAND — Zeeland High's football team gained 2,202 yards this season in eight games but the foes gained almost as much with 2,035 yards, team statistics compiled by Dave Grissen showed today.

The Chix rushed for 1,562 yards while the opponents made 1,656 yards. Zeeland had a total of 640 yards passing while the foes made 379 yards through the air.

Rich Miyamoto completed 39 of the 46 aeri-als and accounted for 637 of the yards. But Miyamoto missed the final two games at quarterback because of a finger injury. He averaged more than 100 yards a game.

In winning five of eight games, the Chix made 85 first downs to 84 for the foes. The Chix ran a total of 380 plays while the foes had 400 plays.

Zeeland had 15 punts for 384 yards and a 25-yard average while the opponents punted 21 times for 641 yards and a 30-yard average. The Chix returned 28 kickoffs for 352 yards while the foes had 335 yards in 27 returns.

The Chix gained 139 yards in passing against Godwin Heights for the best single game in the air while the 335 yards gained on the ground against Fremont was the best rushing effort. Zeeland completed nine of 15 passes against Fremont for its best effort.

Junior Jim Elenbaas led the Zeeland backs with 755 yards in 76 carries for a seven-yard-plus average. He caught three passes for 158 yards and scored 30 points. Dick Welch, who broke his leg in the fourth game, had 214 yards in 39 carries and 18 points along with three passes for 61 yards.

John Van Kley rushed for 482 yards in 67 tries and led the team in scoring with 36 points. Gary Lamer gained 204 yards in 42 tries. Capt. Tom Posma caught 22 passes for 135 yards and scored 24 points while Rog Kroodsma caught 17 passes for 219 yards and scored 20 points. He also kicked off for the Chix. Miyamoto punted in the first six games and Vander Meulen the rest of the season.

Zeeland scored 136 points while the foes tallied 151. The Chix were 2-2 in their first year of Grand Valley play.

Singling out some of his squad Coach Jarold Groeters pointed to Posma as the best blocker on the line and a good pass receiver. Posma, at 157 and 5'11" was the smallest lineman. He caught three touchdown passes against Fremont.

Miyamoto, 5'7", 145-pound quarterback, did an excellent job of ballhandling and was deceptive in his faking. Groeters said. He developed into a good signal caller and emerged as a good passer and could break games open with his aeri-als.

Elenbaas developed into a much better runner at the end of the season with some long runs but his best asset was catching long passes. This was his third year on the varsity.

Kroodsma was the top defensive linebacker and in two games was credited with 17 tackles and made more than 10 tackles in each game. "He was our best tackler," Groeters said, "and did a good job of pulling and blocking from his right end spots to lead Elenbaas on the criss-cross plays."

John Van Kley was a halfback

West Ottawa Football Team Made 1,463 Yards This Year

West Ottawa's team statistics are basically comparable to their season's record of 3-5.

The Panthers were outscored in the season 113-141. The opponents were outscored 33-32 in the first quarter and 26-25 in the fourth quarter, but just the opposite was true in the other quarters as the Panthers were outscored 35-46 in the second quarter and 19-38 in the third quarter.

Vande Water, senior fullback and most valuable player, led the runners with 378 yards in 91 tries for a 4.15 average. Vande Water carried the ball almost twice as often as G. Donze, the Panthers' second leading rusher. Donze carried the ball 46 times for 291 yards and a fine 6.35 average. Schaftenaar rushed 196 yards in 36 carries for a 5.44 average. Bruce Johns 126 yards in 28 tries for a 4.85 average; and Bill De Graaf 26 yards in 17 tries for a 1.53 average. The other runners ran only a few times.

Bill De Graaf was the main passer for the Panthers as he completed 25 passes out of 71 good for six touchdowns. G. Donze, completed three of eight passes good for one touchdown and Dave Vanden Bosch completed three of seven passes.

George Donze was the leading receiver as he grabbed 11 passes good for 229 yards and two touchdowns, while his brother, Marinus, caught seven passes for 95 yards and three touchdowns. Vande Water caught six passes for 49 yards and Schaftenaar 4 passes for 33 yards.

The longest pass of the season was a 67 yard pass from De Graaf to G. Donze. The most unusual pass was a touchdown pass to Bareman on the tackle-eligible play.

The longest run was a 69 yard punt return by G. Donze, and the longest run from scrimmage was 54 yards by G. Donze. De Vries, junior defensive halfback, intercepted four passes to lead his club in that department.

Although the Panthers are losing a long list of 15 seniors, coach Ron Wetherbee feels that the Panthers should be about as strong next year as they were this year.

Christian Ready To Open Season

Six senior lettermen will be leading the Holland Christian basketball squad next Friday night when it opens season's play on the Civic Center court against Hudsonville Unity Christian.

Coach Art Tuls has been stepping up the tempo of the practices nightly emphasizing more phases of the game as the Maroons prepare for the opener. So far Tuls says he has been satisfied with the progress of the squad, although much work still remains to be done.

Heading the list of returnees are four experienced performers, all of whom played much of the state finals game against River Rouge last March. Three of the four started the championship contest.

These four have the starting spots clinched for the opener. They include Paul Steigenga, "rugged 6'3" front line performer, who played both forward and center last season; Clare Van Wieren, a lean 6'3" forward who started for the locals last season and was one of the top scorers; Paul Tuls, a 5'10" guard and steady performer who worked his way into a starting berth soon after the season started; Jim Fredricks, another 5'11" guard and one of the best shooters on the squad. Fredricks played considerably in the season although not in a starting role. These four boys will give the Maroons valuable experience to open the season.

The other two veterans are Jim Langeland, a 6'5" center and Don Klaasen, a 5'10" converted guard this season. Tuls said he was pleased with the play of Langeland so far and said, "he is going to do us good this season if he continues to show this fine improvement."

Newcomers to the squad are four juniors, one senior and one sophomore. Up from last year's reserve squad are Ron Lubbers, 6'2" forward; Dave Tuls, 6'1" center or forward; John Vander Veen, 5'11" forward and Cal Bder, 5'11" guard. The new senior to the squad is Jim Newhouse, a 5'10" guard who didn't come out last season, although he played on the reserve squad as a sophomore. The lone sophomore on the team is Jim Otte, a big 6'2" forward from Zeeland Christian. He is the brother of Warren Otte, who played for Christian and now performs at Calvin.

Tuls reported that Lubbers, Tuls, Vander Veen, Otte and Langeland are all fighting hard for the last front-line starting berth.

In looking at this year's squad at this early date, Tuls feels that some of its strong points will be its experienced front line performers, its rebounding strength and scoring potential. Elaborating, he said that the rebounding might approach last year's as the season wears on. He also feels that the squad has fine shooting ability and should be able to score if the performances of last year are any indication.

The one big weakness at this stage Tuls feels is the lack of experienced depth. "We may be hurting with our bench strength for awhile, but we hope that as the season progresses, several of these newcomers will be giving us this added strength," Tuls said.

Christian to use its allotted one pre season scrimmage Thursday with a workout against Grand Rapids South Christian in the Armory. The Maroons defeated South Christian last season in the regional semifinals.

YOUR GRANDCHILDREN'S FORESTS

Despite the appearance of a great many so called "new" materials, wood is used in 90 per cent of the nation's homes. But as a result of a research, there's a great deal more to be found in a tree than boards.

It is estimated that more than 5,000 different products are made from forest materials. Wood has many hidden faces which are yet only partially known. Shredded, cooked and reformed, it is made into countless paper products - useful for everything from handkerchiefs to packaging grand pianos. It is treated chemically to produce such things as imitation leather, alcohol, plastics, lacquers, synthetic rubber, acetic acid and glycerine for medicines.

We're a long way from knowing the full potential of wood. Some 25 per cent of the contents of a log is composed of a substance called lignin - a kind of cement that binds the cells of a tree together. How to use it is still largely unknown.

The forest industries, through broad use of their products, touch every part of the country. The central fact about this industry is that it is based upon our only renewable natural resource - our forests. Timber companies, both large and small, are vitally concerned with conservation practices which run the gamut from full utilization of the log once it is cut, to reforestation programs on the broadest scale.

Sustained yield logging, developed on private timberlands, involves cutting no more trees on an average than can be replaced by new growth each year. It has been highly successful so that we are now taking some 25 per cent less wood than we are growing each year.

The goals of perpetual forests, offering both commercial and recreational values, a full utilization of each tree cut, are being well met. Barring government or other outside interference, your grandchildren will know the beauties of wild tree-covered lands as well as the wonders of the thousands of products coming from them.

Wood is the base of our newspaper, the paper your Sentinel is printed on. That comes from our forests of the Americas. Conservation and reforestation is all a part of the program.

Sunday School Lesson

Keep on Growing
2 Timothy 1:3-14
By C. P. Dame

The Christian life of some people is marked by ups and downs, by going forward for a time and then going backwards again. There are also believers whose lives speak of steady growth. Every Christian ought to keep on growing year after year.

I. Some people suggest pleasant memories. Timothy was a spiritual son of Paul. Every Christian ought to have a spiritual son or daughter. Paul was much interested in young Timothy and remembered him in his prayers. All through his life Paul was conscientious. Even when he was a Pharisee he sought to keep a pure conscience.

After becoming a Christian Paul had an uneasy conscience about the time he persecuted Christians. It is good to have a pure conscience but it is well to remember that a man may be conscientious and wrong. This Paul learned.

As Paul thought of Timothy he recalled the tears which he shed when the two parted which revealed his affection for Paul. In addition he also remembered Timothy's "unfeigned faith", his sincere, genuine faith, which was a family treasure. The grandmother and the mother of Timothy were women of faith. Timothy was brought up in a home where faith was real.

In many homes today, social standing, prestige, financial standing count but faith is discounted. God is a God of generations. Parents who serve the Lord usually have the joy of seeing their children dedicating themselves to the Lord. The transmission of faith from one generation to another does not just happen.

II. Christians can stir each other up. Paul told Timothy "to stir up the gift of God which is in thee by the putting on of my hands." The church had ordained Timothy and evidently Paul had a share in this event. God had conferred upon Timothy the gift of "the spirit of power, and of love, and of a sound mind," by nature Timothy was somewhat shy. Paul urged him to be confident and brave and unashamed of the gospel or of Paul who was a prisoner because of preaching the gospel. Timothy was urged to take his share of the suffering for the gospel.

This gospel is worth suffering for since it tells us of salvation which God wrought through Jesus Christ. Salvation originated in the mind of God and it was accomplished by him and therefore all honor belongs to him. Those who have been saved look to the future with joy. It was by his resurrection that Jesus destroyed death and brought life and immortality to light. Paul felt honored that he had been appointed "a preacher, and an apostle, and a teacher of the Gentiles." Timothy could also rejoice in this honor.

III. Confidence is a valuable possession. Paul had strong convictions and unshakable confidence in his mission and in his gospel. Note the words, "I know whom I have believed." He knew what he believed and whom he believed - many today know neither. The certainty this man had is revealed in the words, "I am sure that he is able to guard until that Day what has been entrusted to me."

What had God entrusted to Paul? It seems to me that Paul in these words refers to the gospel which is in God's safe keeping regardless of how some may abuse it or mishandle it. What Paul told Timothy was that he should not only hold fast the doctrine which he learned but also see to it that he keep the very form of expression in which it was stated. Words are important when great truths are involved.

Ottawa County Farm News

By Richard Machiele
County Extension
Agent, Agriculture

Recently we received the census figures for 1960 and we were real interested in one particular item which gives the high township in the state of Michigan in dairy cattle population. Two of our townships rank third and fourth in numbers, with Polkton having slightly more cattle than Jamestown township. The two townships that exceed Polkton and Jamestown were in Sanilac County in the eastern part of the state.

We are sorry to hear that Paul Stata, our D. H. I. A. supervisor for Ottawa County No. 1 Dairy Herd Improvement Association, is leaving his job the first of the year. We're happy for Paul as he plans to continue his schooling at Northwestern Academy in Iowa and we wish him every success in his venture. However, it leaves us without a supervisor. If any of our readers are interested in this type of position we would appreciate hearing from them. Just drop us a line, or stop in at the office.

Some interesting figures appear in the annual DHIA summary for Michigan. One is that the average Michigan cow produces 7,270 pounds of milk and 265 pounds of butterfat and that the average DHIA cow produces 11,178 pounds of milk and 420 pounds of butterfat. This is one indication that DHIA testing pays. Other interesting figures are the effect on production as to month of calving on a senior 2-year-old, those freshening in June produced 9,083 pounds of milk and 352 butterfat while those freshening in December produced 9,324 milk and 360 butterfat. Also that in the Junior 3-year-olds class those freshening in June produced 9,302 milk and 364 butterfat while those freshening in December produced 9,324 milk and 360 butterfat. Also that in the Junior 3-year-olds class those freshening in June produced 9,302 milk and 364 butterfat, while those freshening in November produced 10,146 milk and 392 fat. In fact, in all of the classes with no exception the cows freshening in November had better production records than those freshening in June.

Early cut hay pays off for the dairy farmer. Cows who eat it produce more milk, eat more hay and require less protein supplement than cows fed late-cut hay. Both farmer experience and research support these conclusions, according to a new Michigan State University extension bulletin call "Mechanical Hay Driers."

The bulletin which we mentioned in the column last week, tells what happens in hay drying. It also describes various types of mechanical driers - storage - type and batch-type, heated air and unheated-air.

"A mechanical drier: makes it possible to chop or bale hay and haul it from the field while it's still damp." "You can harvest in cool, cloudy weather, so more days become harvesting days."

Drying helps reduce hay exposure to weather hazards. Shortening the field drying period also means less dust and fewer leaves lost.

County extension offices have free copies of the new publication. They are also available from the Bulletin Room, Agricultural Hall, MSU, East Lansing.

Oilers Defeat 'Stars, 109-101

ZEELAND — Cook's Oilers basketball team gained revenge over the Terre Haute All-Stars Saturday night in the Zeeland High gym with a 109-101 victory before 1,100 fans.

It was the Oilers second straight win and evened their season's mark at 2-2 and also evened their mark with the All-Stars who had broken the Oilers 27-game win streak on Sept. 30.

Henry Hughes paced the Oilers with 27 points and was followed by George Duncan and Mike Graney with 16 each. Willie Merriweather led the visitors with 31 points and Don Goldstein chipped in 26.

Hughes led the Oilers to a 36-22 first quarter margin and was aided by Gary Lee's six points while Graney and Ron Robinson handled the boards.

Graney, the ex-Notre Dame player, awed the fans with his "hooks" in the second quarter and also pushed his 6'6", 240-pound frame around the boards with authority. The Oilers held a 56-50 halftime lead.

The All-Stars took the play away from the Oilers in the third quarter but it was Graney's hook shot from the center of the court as the buzzer sounded that had the crowd roaring its approval.

The shot gave the Oilers a one-point, 79-78 third period lead after the All-Stars had outscored the Oilers, 28-23.

In the final quarter, the famed Oiler fast break led by Hughes and Duncan went into smooth operation and the winners outscored the All-Stars, 30-23. Duncan had 11 points and Hughes added eight.

But with 7:21 remaining and the Oilers in front, 90-82, the Stars made a final sprint and tied the game, 90-90 with 5:31 left. Merriweather led the All-Stars in the drive.

Hughes and Duncan again assumed command and the Oilers broke out to a 97-92 lead and then coasted to the win. Robinson and Lee each made 14 points in the game while Bill Fox had 10; Paul Benes, seven; Pete Tillotson, three and Webster Kirksey, two.

Bill Scott had 14 for the losers and Frank Hampton added 13 while Bob Hickman had 10. Arley Andrews added seven to the attack.

Zeeland Lumber and Supply defeated H. E. Morse, 59-37 in the preliminary game. Ron Maat paced the Lumbermen with 13 while Jack Korr had 15 for the losers.

The Oilers will play the Harlem Diplomats twice this week. The two teams tangle Friday in the L. C. Walker Arena in Muskegon with the Detroit Tigers basketball team playing the prelim against the Muskegon All-Stars.

Saturday night, the Oilers entertain the Diplomats in the Civic Center at 8:30 p.m. and the Tigers will play Zeeland Lumber in the 7 p.m. prelim. The Tigers will have Paul Foytack, Charlie Maxwell, Reno Bertioia, Hank Aguirre, Terry Fox, Phil Regan and Pili Hoelt.

GRANDSTANDING . . . Duffy's Comments

By Randy Vande Water
EAST LANSING — Duffy Daugherty, resigned to the fact that a national championship, Big Ten crown and Rose Bowl invitation will be distributed this season among his coaching fraternity friends, confided Saturday "you have to have a great team and you have to be lucky" to win the honors.

Seated on an equipment room table after guiding the Spartans to a 21-13 win over Northwestern, the Michigan State mentor said "we were lucky early in the year and we got the breaks in our first five games."

"We got the breaks early in the game against Michigan or it might have been different. We had the breaks against Notre Dame and we got them (breaks) against Indiana to turn the game into a rout," Daugherty said.

Not referring to his two losses as such, Daugherty drew the conclusion that the Spartans didn't get the breaks in the Minnesota and Purdue games which bumped MSU from the "great team" class into the "good team" bracket.

"Today we played over the breaks," Daugherty said. "Our fumbling hurt us, it gave them a touchdown, but we played over the bad breaks and made some good breaks for ourselves."

Red-faced from an afternoon in 39-degree temperature on the Spartan Stadium sidelines, Daugherty related how MSU ran its halfbacks from the formations that the fullbacks have been running from in earlier games.

This gave Sherman Lewis and Dewey Lincoln their best days of the season and continually surprised the Northwestern defense with their sideline scoots and change-of-pace thrusts off the tackles.

Lewis, a 5'8", 154-pound sophomore from Louisville, Ky., picked up 121 yards in 11 carries. He was awarded the game ball, Daugherty reported.

"We deliberately used our fullbacks as decoys," Daugherty said, "and our plan was to run wide and off tackle and throw the ball."

"If we completed our first three passes I had feltas stationed in the stands who were going to stand up and say 'who said the Spartans can't pass,' but then we fumbled and lost the ball on third down," Duffy quipped. The Spartans had completed their first two

Those Chinese documentary stamps that led some people to think they were receiving letters from the orient have an interesting history.

Carl Andreasen dug up some material on Dr. Sun Yat-sen, father of the Chinese Republic who is pictured on the stamp. Dr. Sun Yat-sen was kindly disposed toward Communism back in 1922-24. Early in 1924 he contracted cancer and knew he had not much longer to live. His last will and testament would be a series of lectures laying down the philosophy by which he thought the Chinese people should live. Since his political idol was Lenin and his economic idol Karl Marx, the first 12 lectures, one a week, were on principles of socialism.

Suddenly, with six lectures still to go, the series was suspended without explanation.

Into Dr. Sun's hand had come a book, "The Social Interpretation of History," by Dr. Maurice Williams, a New York dentist who had published the book at his own expense. Dr. Sun was intrigued and spent three months reading and re-reading the book. Then he resumed his lectures and the new series was a complete reversal of his thinking. American democracy, not Marxism, he now declared, was the philosophy of hope and progress.

Angry and embittered Communists walked out and started a civil war. But Chiang Kai-shek, who succeeded Dr. Sun Yat-sen, set up the Nanking government and by 1927 was in control of China. He held off the Communist hordes for more than two decades.

The author of the book, Dr. Williams, lived for four years in ignorance of the fact that his book had converted Dr. Sun. At the Chinese embassy, he was told his book had been translated into Chinese, and was a standard reference book on American democracy.

Thot for the day: "I place economy among the first and 'most important virtues, and public debt as the greatest of dangers to be feared. To preserve our independence, we must not let our rulers load us with perpetual debt. If we run into such debts, we must be taxed in our meat and drink, in our amusements. If we can prevent the government from wasting the labor of the people, under the pretense of caring for them, they will be happy."

The presentations were a highlight of the county unit's annual meeting in Allegan Saturday attended by a record 110 persons.

The speaker was Dr. Norman F. Miller, head of the University of Michigan's Department of Obstetrics and Gynecology and director of University Hospital's cancer research efforts.

Summarizing the successful 1961 cancer crusade, Executive Secretary Mrs. Raymond Meshkin reported contributions totaling \$15,704.22, an amount equal to 165.2 percent of the county's quota. She said 599 volunteer workers were active in the campaign which reached 10,132 county homes and resulted in 7,010 individual contributions. Loots Station, Burns Records

DOUGLAS — A small fire at Jefferson's service station in Douglas Sunday morning led state police to the discovery of a break-in at the station earlier.

A pile of papers and records apparently had been set afire in an opened safe to cover up the break-in in which five cartons of cigarettes and \$10 in change were taken, troopers said.

The fire was discovered at 1:05 a.m. Sunday by James Boyce, part time Douglas policeman. Boyce called the Saugatuck Fire Department.

Troopers said the burglar entered the station by breaking out a window in a large overhead garage door and unlocking the door. The only damage caused by the fire was the damage done to the station's records, troopers said.

Outdoor Writer Scheduled Here on Thanksgiving Day

"Sunshine—and South America" is the newest lecture film which Jack Van Coevering, nationally known outdoor writer, photographer, lecturer and world traveler will present on Thanksgiving Day evening at 8 p.m. in the Holland Civic Center. Van Coevering, who will be here in person, will be sponsored by the Holland Young Calvinist League.

Jack Van Coevering

Van Coevering will begin his lecture with the story of "shell house" on Sea Grape Island in Florida. This unique house was built by one of Michigan's own artists, Phil De Graff of Trout Lake. He laid every shell in cement with his own hands, much after the manner of the ancient Caloosa Indians. They lived on the island two thousand years ago and left great mounds of these shells, discarded after eating the meat. The shells became De Graff's "building blocks."

The second portion of the Van Coevering lecture deals with Grand Bahama Island. This island is British-ruled, with a decidedly foreign flavor. Fishing is a high spot there, with catches of reef fish up to 50 pounds an everyday occurrence.

The South American portion involves a jungle safari in Colombia. Van Coevering photographed the "still village" where Indian fishermen live above the water in houses built on poles, sailed up the "Rio Frio," a jungle stream inhabited by millions of white egrets and with rare red monkeys, all of which will be seen in his pictures.

Hoffman Still Hospitalized

ALLEGAN — Predictions made last week that Rep. Clare E. Hoffman, R-Mich., would be released from the Allegan Medical Center early this week were apparently too optimistic.

Attorney Leo Hoffman, son of the 86-year-old congressman, who originally predicted the early release, said today it would probably be next week before his father is on his feet again.

The state's senior representative, who outranks all but two other Republican House members in longevity, was stricken with what was described as a "mild stroke" Nov. 9, while driving to a favorite deer-hunting spot.

The younger Hoffman said today, "He's improving slowly but there is nothing definite we can say on his discharge yet. It won't be before next week, I would say."

The attack, which caused a partial paralysis, may have a big effect on next year's congressional election in the 4th District. It could cause the veteran vote getter, who was first sent to Washington in 1935 and who has been returned with sizeable majorities in each succeeding election, to retire.

Bible Class Sponsor Evening Mission Program

The Men's Adult Bible Class of the Fourteenth Street Christian Reformed Church sponsored a mission program in the church auditorium last Friday evening.

Andrew Knoll, president of the class, presided. Mrs. Edward Koops played the organ prelude and accompanied the group singing. The opening prayer was offered by Dr. Clarence De Graaf. Special musical numbers were given by Thomas Lindsay and Milton Van Putten who sang two vocal duets. Mrs. Dick Geenen accompanied them on the piano.

The speaker for the evening, the Rev. Edward Van Baak, gave a slide and tape recorded lecture about his work in Japan. He formerly worked in Suwa, Japan; but before his return last July he had been stationed in the Egota precinct of Tokyo.

Mr. and Mrs. Van Baak with their four children are living in Grand Rapids during their furlough.

Ben Ten Cate closed the meeting with prayer.

Fire Damages Local Home

Fire early Monday caused an estimated \$1,500 damage to the home of Mrs. Ramona Sandusky at 183 East 10th St.

Mrs. Sandusky and another woman, identified by Holland firemen as a Mrs. Borgman, together with their five children, who were in the home when the fire broke out, escaped injury.

Firemen said the blaze apparently was caused by an overheated furnace.

The fire was discovered by a Holland policeman at 3:10 a.m. A neighbor of the Sanduskys also noticed smoke coming from the house and called firemen at approximately the same time.

Firemen said the blaze burned inside two partitions from the basement of the home into the attic. Firemen arrived at the scene before the fire could break through the roof.

Firemen were at the scene of the blaze for about two hours.

The Seventh Day Adventist Health and Welfare Center at 950 South Lincoln Ave. has offered to supply clothing for the family.

Officials said the loss was covered by insurance.

Blaze Causes Heavy Damage

ZEELAND — Fire of undetermined origin Monday caused heavy damage at the home of Arthur Gillstedt at 124 Roosevelt Rd., just north of the Zeeland city limits.

Wilfred Heyboer, Captain of Holland Township Fire Station No. 3, said the fire apparently started in the basement of the home and worked up through a partition into the kitchen.

Heyboer said smoke damage was extensive, and several kitchen cupboards were heavily damaged.

Mrs. Gillstedt's mother was home when the fire broke out. She called firemen at 10:10 a.m.

Firemen were at the scene of the blaze for about two hours.

Nab Escapee From Allegan

ALLEGAN — A 20-year-old parole violator who saved his way out of the Allegan County jail 10 days ago was back in custody Monday after being picked up at a motel near Comstock, Mich. Sunday night.

Brian Sharp of Rural Doster, who escaped on Nov. 11, was picked up at 9:30 p.m. Sunday by Allegan and Kalamazoo County authorities at the motel where he had been hiding since his escape.

Allegan County detective Harry Smith said Sharp was alone in the motel unit when he was apprehended. Sharp was using a fictitious name and had dyed his hair red-blond, Smith said.

The search for Sharp started when Kalamazoo authorities received an anonymous phone tip that the escapee was in the Kalamazoo area. Comstock is a Kalamazoo suburb.

Sharp, who was paroled from Southern Michigan Prison at Jackson last April, was being held in connection with a nighttime break-in at a Doster grocery store.

A benefit coffee in Terkeurst auditorium of Trinity Reformed Church Thursday morning resulted in \$211 towards cutting down the \$1,300 debt on the new Christian Friendship Center of the Migrant Ministry located north of Holland off old US-31 on the site of the Harlem school.

The coffee, sponsored by guilds of Trinity Church, attracted women from many churches throughout the city.

The migrant ministry program, a project of the Holland Council of Church Women, has been in operation for several years. It is carried on for migrants in this locality who work mainly on harvesting crops. Mrs. Walter W. Scott is president of the council.

Active in plans for the Trinity Church coffee were Mrs. James Hoeksema, Mrs. John H. Van Dyke and Mrs. Lincoln Sennett. The coffee was one of the first projects in a community-wide program to pay off debt on the mission center which was dedicated last summer.

World Vision Korean Orphan Choir

Korean Orphan Choir to Give Program in Holland Nov. 30

A special treat is in store for Holland residents on Thursday, Nov. 30, when the World Vision Korean Orphan Choir will present a program in the Holland Civic Center.

The choir which arrived in October to tour the United States has been booked through Dec. 31. The group of 27 girls and seven boys has been singing as an organized choir for more than a year. They were trained at the World Vision Musical Institute in Seoul where they now reside. They perform under the direction of Soo Chul Chang, professor of music at Union Christian College in Seoul.

The program here is sponsored by Ebenezer Reformed Church which also sponsored the Tulip Time hymn sings during the summer. The program begins at 8 p.m. and the free-will offering, after expenses, will be used to complete the World Vision Children's Hospital near Seoul. This medical enterprise will provide free medical care for any orphan or destitute child in Korea.

The choir plans to visit 40 cities in the United States and Canada. Their performance consists of thrilling folk and contemporary songs from their native Korea and hymns and other music for which they have learned English translations. Members of the choir were selected from more than 13,000 orphans in 151 orphanages throughout South Korea.

World Vision, Inc. is an inter-denominational missionary service organization whose major work is providing subsistence for orphans in 15 different nations. It currently is observing its 11th anniversary of missionary endeavor in Korea.

Krause Speaks At Football Fete

Edward (Moose) Krause, genial Notre Dame athletic director, entertained senior members of the Holland and West Ottawa high school and Hope College football teams and Exchangeites at the annual Exchange Club football banquet in Hope Church.

More than 125 persons attended the event and heard Krause tell some football stories, interspersed with a "pitch" for youngsters playing football and the importance of concentrating on studies.

Krause, who arrived an hour late because of an engagement in Chicago, sprinkled his well-known humor through his talk and was well received by the group.

He said in defense of the charges leveled against football fatalities this year that the equipment is better and the coaching is better now than in years past. "Boys today have the best protection possible," Krause said.

Krause used statistics to back his argument and indicated the number of youngsters of comparable age who have been killed in automobile accidents during the same time as the hours used for football practice.

The former All-American football player warned of the "fleeting glory of athletics" and told the youngsters the importance of concentrating on studies.

He said only one-half of one per cent of all of the Notre Dame graduates are in the unskilled labor class. Krause used Jim Thorpe's pauper death as example of athletics "fleeting glory."

Krause said "discipline was the best lesson learned from participation in sports along with teamwork and cooperation. He backed the development of more physical training in the United States and participation in sports.

He told the group "the game isn't over until the last whistle." "In fact as Notre Dame saw last Saturday it isn't over until one play over the last whistle," Krause quipped. Notre Dame won the game on a field goal. The Irish missed the kick but Syracuse was penalized and Notre Dame got a second chance.

Explaining a scheduling philosophy started when Knute Rockne was at Notre Dame of playing an intersectional schedule, the Irish will play four West Coast teams in future years. They are Stanford, California, UCLA and Southern California. Plans also call for playing five Big Ten teams. The Irish play four Big Ten teams this year.

Krause announced that the Irish would play Army in the East in 1965 and at Notre Dame in 1966 and two-year pact with Army had also been signed for 1969-70.

The Notre Dame athletic director couldn't give any definite information on the progress of freshman Tom Williams, former Holland fullback. James Brown introduced Krause. Dell Koop, Holland official who has officiated the Notre Dame Old Timers-Varsity game for the past few years, arranged for Krause's appearance.

The Exchange Club's entry in the Legion Junior baseball program was also honored. They are managed by Chuck and Ed Atwood.

Coaches Bill Hinga of Holland High, Ron Weatherbee of West Ottawa and Russ De Vette of Hope College introduced their senior players.

Exchange Club president Vern Schipper presided and introduced guests. The Rev. William Hillegonds gave the invocation.

Swan Creek Reports Geese

SWAN CREEK — There are now more than 6,000 geese in the Swan Creek-Fennville game area along with about 4,000 ducks, Swan Creek officials have reported.

Since duck season has ended, the hunters will be concentrating on the goose season that runs until Monday, Dec. 11. The 6,000 total of geese is a season peak in the controlled hunting area and could grow larger.

There are a number of geese at Seney, the national wildlife refuge located in the Upper Peninsula, and Swan Creek officials report that Swan Creek is usually a stopping-off place for southward-bound geese after laying over at Seney.

As of Sunday a total of 2,428 permit hunters at Swan Creek have taken 966 geese. The duck kill was just 68 at Swan Creek this year.

Last week's shooting at Swan Creek was the best so far this season. The daily bag last week was reported from 20 to 57 geese, including one blue and one Hutehens.

Three deer were also reported at Swan Creek last week. One of the deer was taken by a woman archer, Mrs. Alma Lundell of Muskegon. It was her ninth deer and second taken in Allegan County.

Spring Lake School Merger Recommended

GRAND HAVEN — Spring Lake residents were buzzing today on the future of their school system following an open meeting Monday night in which the Spring Lake board of Education recommended that the Spring Lake system annex to the Grand Haven school district.

The board pointed out that the recommendation was prompted from the financial viewpoint and the fact that a broader curriculum would be possible. However, if Spring Lake voters do not approve the merger, the board made it clear that it would work diligently to expand the local system. At present, high school students of Spring Lake attend Grand Haven High School.

Spring Lake Supt. Richard Fonger presented facts and figures compiled by the board. The open discussion was particularly lively with considerable opposition to the merger evident. The merger would have to be approved by the Grand Haven board and the State Department of Education before it is submitted to Spring Lake voters.

Monday's public meeting was the climax of three discussion periods scheduled by the board. The program was first explained to the teachers and then to the committees which have been working on solving school programs.

Catholic Deanery Hears Talk by Former Pastor

DOUGLAS — The second quarterly meeting of the Holland Deanery, Diocesan Council of Catholic Women, was held Sunday at 2 p.m. at St. Peter's Church.

Principal speaker was Father Edwin Thome formerly of Holland who recently was appointed the Grand Rapids Diocesan director of PAVLA (Papal Volunteers for Latin America). This is a program calling for Catholic lay volunteers to enlist their help in Latin America by giving leadership guidance to the Latin people in helping them to combat Communism. The term of enlistment will be three years.

The second backbone of the PAVLA program is the sponsors — people who cannot give their time, but are willing to cover the expenses of the Volunteer's term of service. Individuals, groups or parishes may sponsor, Rev. Thome said.

The speaker was introduced by Miss Gertrude Horgan of Aquinas College in Grand Rapids who spoke of the work of the Catholic Church in the field of international relations — providing homes for Mexican and Latin American students; The Madonna Plan, clinics for needy mothers and their children all over the world, and the "Feed a Family" program.

Miss Horgan has been appointed chairman of PAVLA for the Diocesan Council of Catholic Women and Dr. C. J. Maternowski for the Diocesan Council of Catholic Men. Mrs. William La Barge is the Deanery chairman and Mrs. Frank Kroll the St. Francis de Sales parish chairman.

The meeting was opened with the Benediction of the Blessed Sacrament by Father W. Hoogterp, pastor of St. Peter's Church. Mrs. Frank Schwarz, president of the Holland Deanery, called the meeting to order and conducted a short business meeting. Refreshments were served by members from St. Peter's Church.

The next meeting will be held Jan. 21 at Holland.

Schooling for Retarded Children Outlined Here

Functions of the special education department of Holland public schools were outlined at an informational meeting of the Board of Education and other interested persons Monday night in Thomas Jefferson School. The meeting was one of a series of monthly meetings on curriculum and other aspects of the school system.

Four rooms are devoted to special education in Thomas Jefferson School which cares for children from all elementary schools including some from other districts. Three rooms are for retarded children and one for the physically handicapped. Junior High School has two rooms and Holland High School has one room.

School Psychologist Eugene Scholten does the testing for all children and he said if a "slow" child is happy in a regular classroom and gets along with other children, the child usually is kept in the regular classroom. In general, in the lower grades more emphasis is put on good social and behavior habits than on academic achievement. As the "slow" child advances to the higher grades, more emphasis is put on job training in an effort to make retarded children self-supporting.

Russell Welch who worked with retarded children in years past outlined the early history of special education as it is known in Holland today. He paid tribute to Miss Mattie Decker, the first teacher to work with retarded children in Holland. When Washington School was erected in the early 20's, special quarters including an open air room were in the plans. The department moved to Thomas Jefferson School in 1935.

Slides of children at work in special education were shown. On certain occasions, some children are returned to regular classrooms (usually physically handicapped) attend certain classes elsewhere in Jefferson building.

Kenneth Heuvelman, in charge of special education on the county

level, was high in his praise for Holland's accomplishments in the special education field. He said the half mill for special education, approved by voters in the last general election, will provide approximately \$140,000 a year and will be used to subsidize the work of special education in the county, improving programs in schools rather than establishing a new program as such.

School Supt. Walter W. Scott pointed out that too much emphasis on special education is placed on the retarded or handicapped children whereas more attention should be given the gifted or highly talented children whose numbers are almost identical to the retarded. He said the local system should not feel complacent over its achievements since there is much yet to be done such as visiting teachers, teachers for housebound children as well as some in hospitals for long stays.

He said the attitude toward children with special needs is not "Can we afford it?" but "Can we afford not to do it?" emphasizing again that educators cannot afford to waste talent.

Principal Carroll Norlin of Thomas Jefferson School presided. Special education teachers including the speech correctionist participated in the general discussion. About 40 were present.

Scheduling Techniques Explained to Parents

Holland High Principal Jay W. Formosa addressed approximately 90 parents Thursday night on new scheduling techniques for the new high school.

Afterwards, parents who had not previously conferred with their children's teachers met in various classrooms. This brought to 73 per cent the number of parents attending conferences this year.

The E. E. Fell Junior High School also held parent-teacher conferences Thursday night, bringing attendance this year to 80 per cent.

Sorority Plans December Dinner For Husbands

At a brief business meeting Monday night the Eta Gamma Chapter of Beta Sigma Phi was told by Mrs. Henry Mast of plans for an old fashioned Christmas dinner on Dec. 9 for members and their husbands.

Mrs. Frank Bronson, ways and means chairman, requested materials to be brought for the Dec. 4 meeting for net trees and plastic bag wreaths.

Mrs. William Kurth opened her home for the Monday evening meeting.

Mrs. Ralph Stolp assisted by Mrs. Kurth presented a program on health and beauty.

Mrs. Stolp speaking on the historical background said that warriors returning with battle scars were considered heroes and the scars marks of beauty. Thus evolved self inflicted scars and tattooing. Mummies have been found with such markings.

Buried with these mummies have been found jars of oils and creams much needed in the dry climate of Egypt. In the 18th century women turned to wine and milk baths for skin conditioning. "Our pioneer women," said Mrs. Stolp, "made themselves beautiful by such aids as mutton tallow, lard, flour, and beet dye."

A noted beauty expert in the 18th century was quoted as saying: "Wash hands often, feet daily, and hair never."

Today cleanliness is of great importance in caring for the skin. Mrs. Kurth assisted in determining skin types and the correct way to apply cosmetics.

Guests and members present were the Mesdames Ronald Apple-dorn, John Chalmers, Edward Ped-dick, Walter Kroll, Robert Lackey, Robert Sova, John Stark, Robert Underhill, Wayne Van Eenennaam, Frank Zwearing, John B a b j a r, John Berry, Frank Bronson, Douglas DuMont, Jerome Hurtgen, Ronald Kobes, James Kraus, William Lang, Henry Mast, Drew Miles, Hubert Overholt, Howard Poll, John Snively, and Misses Rosalie Taylor and Audrey Johnson.

City Extends Fire Service

ZEELAND — The Zeeland City Council Monday night voted to extend the city's fire protection services to residents of Zeeland Township until March 21, 1962.

Earlier the council had voted to terminate city fire fighting service as of Dec. 1, 1961.

The fight between city and township for fire protection developed when the city asked a two-mill rate for its services instead of the present flat \$1,000 and \$360 hydrant rental paid annually.

The new plan calls for a payment of \$1,400 out of the two-mill charge to the Drenthe Fire Department.

Township representatives were present at the meeting of City Council Monday night. The Township Board is expected to act on the proposal at a meeting slated for Nov. 28.
