Ordinances Approved By Council

Two ordinances were passed by City Council Wednesday night, one providing a parking violations bureau in the police department and the other a city personnel ordinance which sets forth guidelines in an equitable manner for all employees of the city.

City Attorney Gordon Cunningham explained that the work of the parking violations bureau at police headquarters is no different from before, but is encompassed in an ordinance since the city's municipal court will be replaced Jan. 1 by a new district court, one of three authorized for Ottawa county.

Cunningham explained that overtime parking fines have been processed by the police department for several years, following an established pattern of schedules. Metered parking violations call for a 50-cent fine if paid within 24 hours of issuance, and \$1 thereafter.

City Personnel Director Jack Leenhouts who also serves as city treasurer explained the personnel ordinance designed to treat all city employees in an equitable manner. He said City Council would promulgate rules and regulations for employees of boards as well as the general city and that the administration will implement the program.

The personnel ordinance will serve as a base for rules for regular procedures to be set forth later. Generally it provides descriptions of job duties of each class, compensation supplements, evaluation, etc. Leenhouts said meetings have been held with all city boards on the personnel ordinance and all have approved the new arrangement.

In other business, Council approved proposed construction of a water main in 33rd, 34th, and 35th Sts. west from Pioneer Ave. to ends of the streets and in Pioneer Ave. from 32nd St. to 35th St., known as Melbourne subdivision. No objections were voiced at a public hearing.

Council granted permission to the Downtown Merchants Association of the Chamber of Commerce to place a mobile home in front of 7 West Eighth St. for Santa Claus for the period Nov. 24 through Dec. 26.

City Attorney Cunningham was reappointed legislative contact man for Holland city. The request for an appointment came from the Michigan Municipal League.

A public hearing was scheduled Dec. 4 on an application of Kenneth Beelen for a variance from fire district requirements in connection with an addition to his building at 816 Maple Ave.

Council approved bid of Shively Associates for a BPW contract on extending the interceptor sewer in the Hedcor area to serve Home Furnace Co. and eventually others on the east side of Brooks Ave. The bid listed \$15,075. The only other bid was lower but was incomplete.

Council also approved a BPW joint use agreement with Michigan Bell covering joint use of electric and telephone poles in the Holland service area.

Delayed until next meeting was Library Board report submitting renewal contracts with Ottawa and Allegan county library boards for extension of library services. The agreements provide for return of penal fine monies amounting to some \$60,000.

Council confirmed certifications for Councilman Dyk, Holland Litho, engineering department, \$1,44; Councilman Lamb, Lamb, Inc., various departments, \$755.50; Councilman Smith, Wade Drug Co., police and health departments, \$52.42.

Council approved a recommendation of Adrian Koert, traffic consultant, restoring parking between 3:30 to 5:30 p.m. in front of the post office but prohibiting left turns onto River Ave. for westbound traffic on 10th St. The latter would be in keeping with the pattern for one-way traffic north on River Ave. a few years in the future.

Council approved a transfer of the 1968 SDM licensed business at 220 West Eighth St. from Carl Jordan to Mini-Stores Inc., and new SDM licenses for Harry C. Graham at 102 South River Ave. and Ward Hansen at 20 West Eighth St. The city manager's reports on the three requests were accompanied by reports from the sanitarian, chief of police and treasurer, none listing objections.

Answering questions of Councilman Robert Dykstra, City Manager Herb Holt said construction on South Shore Dr. at Azalea has had delays in delivery of some materials but is scheduled for completion Dec. 31, and that construction by the Telephone Co. at 19th St. and River Ave. is expected to be completed this week. As for another possible bridge over Black River, Holt felt this is under study by the Area Transportation Committee of which Councilman Morris Perbolt is a member.

Brower Heads New Association For Assessors

GRAND HAVEN — James Brower, supervisor from Holland township, was elected president of a newly organized Ottawa County Assessors' association, which held its first meeting at the county building Monday night.

Clarence Reenders, supervisor from Grand Haven township, was elected vice president and Gerald De Windt, supervisor from Georgetown, was named secretary-treasurer.

The meeting was arranged by Fritz Guldswag, county equalization director, and the purpose of the organization is to retain communications between the assessing officers in the cities and townships after Jan. 1.

Starting in January the present board of supervisors will be replaced by a new 21-member board and the supervisors of the townships and assessing officers will no longer be members of the county board.

The new association will meet again in January and quarterly meetings are planned. A constitution and by-laws will be presented to the group at its next meeting.

Area Soldiers Provide End To Search

Mrs. Robert R. Graham's search for two young soldiers who risked their lives to pull her husband from a pool of blazing gasoline the evening of Oct. 27 has ended with a response to her "Letter to the Editor" which appeared in Thursday's Sentinel.

The three-week search ended Friday at the Holland National Guard Armory with Sp/4 Russell Geerts, 21, of 7310 Sunset Ave., Jenison, and Pfc. Kenneth Haveman, 20, of route 1, Zeeland, both members of Holland's Co. B 126th Inf.

According to Sgt. Ray Naber, who identified the men, Sp/4 Geerts and Pfc. Haveman were returning home from a weekend drill at Ft. Custer near Battle Creek when they came upon the accident at M21 and 12th Ave. and pulled Graham from the burning gasoline.

Using an aerosol fire extinguisher, which Pfc. Haveman carried in his car but never thought he'd use, the two extinguished the gasoline and the flames which had engulfed the Graham automobile.

According to Sgt. Naber, the men of the company return to Holland to clean their equipment following a drill and are then dismissed around 4:30 p.m. This particular evening, however, the men had to prepare for an inspection and were not dismissed until 6:45. The accident occurred at 6:59.

Driver Is Ticketed After 3-Car Crash

Gertrude Houseward, 49, of 1496 West 32nd St., was cited by Holland police for failure to stop for a stop sign after the car she was driving slid into a car driven by Frances Douma, 45, of 943 Grandridge Ct., at the intersection of 32nd St. and Central Ave. at 8 a.m. Wednesday.

Police said the Houseward car, headed north on Central Ave., was then struck by a car, eastbound on 32nd St., driven by John Parker Sharpe, 21, of 1653 South Shore Dr.

The Douma car was traveling east on 32nd St. when the accident occurred. Police reported no one was injured.

Careless Driving

Ottawa county sheriff's deputies cited Marvin H. Ver Hoeven, 21, of route 1, West Olive, for careless driving after the car he was driving north on Sand Dr., left the road 200 feet south of Van Buren St., and hit two trees at 4 a.m. Saturday. Ver Hoeven told deputies he must have fallen asleep and the car went off the road.

Completed this week. As for another possible bridge over Black River, Holt felt this is under study by the Area Transportation Committee of which Councilman Morris Perbolt is a member.

Earlier in the meeting, Perbolt reported having attended a meeting of the transportation group covering Holland and Zeeland cities and four townships, operating under the Michigan State Highway Department which is conducting a long-range study on highways.

In answer to a query by Councilman Jack Smith, City Manager Holt said no more paving will be done on South Shore Dr. this year but the road will be maintained during the winter season.

Mayor Nelson Bosman presided at the meeting which lasted 40 minutes. All Councilmen were present except L. W. Lamb Jr. The invocation was given by the Rev. Bob Nelson of Pilgrim Holiness Church.

New 6-7-8 Plan Given Priority

The concept of 6-7-8 grade grouping is receiving top priority at West Ottawa these days in seeking solutions to overcrowding in schools on both elementary and secondary levels.

The building committee has set this course after reports from two subcommittees investigating curriculum and organizations since April. The subcommittee members have visited schools with such grouping in Michigan and Ohio.

In the report drawn up by Raymond Lamb, Edward Roberts and Fred Meppelink, consideration was given to the educational, sociological and economic advantages of programs found to be practical. Sixth graders could well benefit from improved facilities not possible when they are housed in seven different locations. Academically, better educational tools can be feasible for the larger numbers of students and grouping for music and sports can be more easily accomplished.

Fifth graders also were considered but were eliminated for insufficient evidence for overall advantages. It was felt that larger elementary service areas could be established by combining Waukazoo with Lakewood and Beechwood and Glerum for a better answer.

Subcommittees emphasized the potential educational advantages that could arise for seventh and eighth graders in a facility designed for the 6-7-8 grouping. While the current junior-senior building has served the district well, it is better suited to upper grades. Changes since the building went into operations now align ninth graders closely with higher grades making evident a wide divergence. Conflicts arise in needed rules of dress, noon hour supervision etc.

The central library cannot serve so large a group of wide age span as effectively as separated specially organized facilities could. A main advantage receiving emphasis was the need to alleviate pressures on seventh and eighth graders who tend to grow up too fast in close contact with 12th graders.

April has been mentioned as a target date for possible bonding election to provide new facilities. Early opinions by interested citizens to the committee, staff and board will provide guidance.

3-Vehicle Crash Injures Driver

One driver was injured in an accident on M-21 about one-fifth mile west of 12th Ave. at 2:11 p.m. Tuesday involving two cars and a semi.

Terry A. Geurink, 16, of 6084 96th Ave., Zeeland, was taken to Zeeland Community Hospital and released after x-rays and treatment of a shoulder injury.

The other drivers, Reka Hui-zenga, 57, of 320 West Mc Kinley St., Zeeland, driving a car, and Thomas Robinson, 54, of New-waygo, driving the tractor trailer, were not injured.

Geurink was cited by Ottawa county sheriff's deputies for failing to stop in an assured clear distance.

Careless Driving

Holland police cited Donald Ray Hield, 18, of 1265 Marlene, for careless driving after the car he was driving crossed the center lane on 24th St. 875 feet east of Ottawa Ave. at 1:09 p.m. Wednesday and hit the parked car of Nannie Lou Collins, 29, of route 3, Fennville.

Fails to Yield Way

Cars driven by Jay Jager, 52, of West Olive, and Henry Baron, 76, of 57 Lawrence St., Zeeland, collided at River Ave. and Eighth St. at 4:24 p.m. Saturday, according to Holland police who cited Baron for failing to yield the right of way. Neither driver was reported injured.

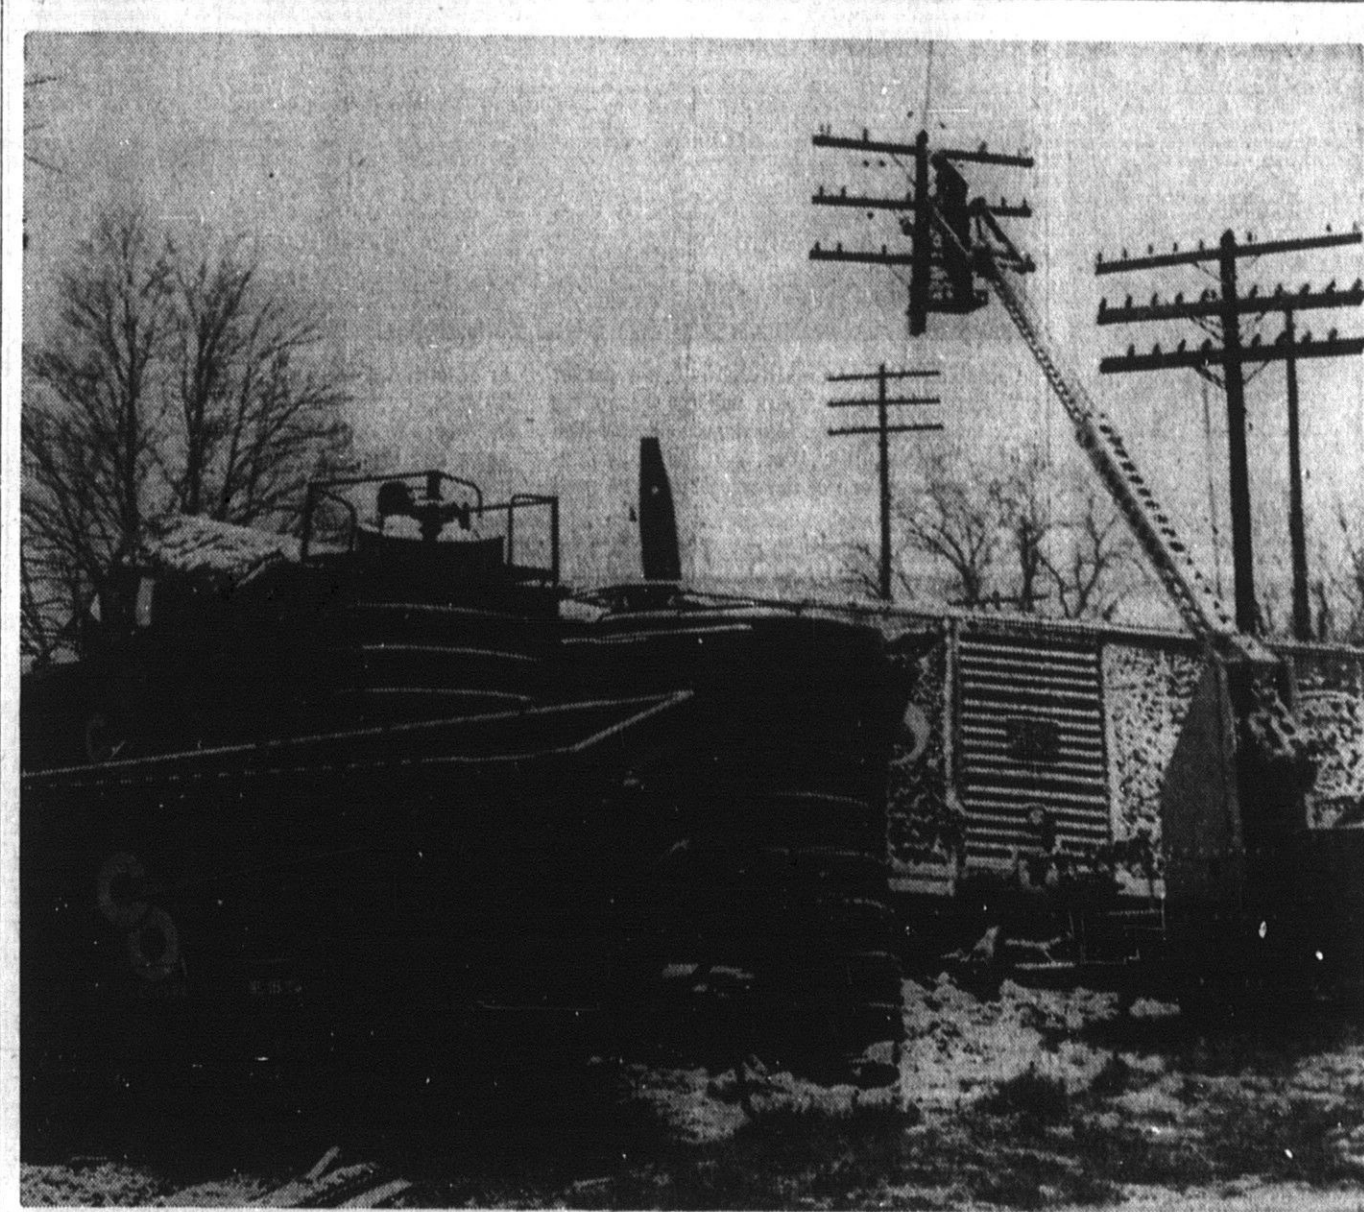

SEMI ROLLS OVER—A Grand Rapids man, John Foss, 57, escaped serious injury when this semi truck he was driving north on the I-196 expressway rolled over into the median south of Douglas shortly after 8:30 a.m. Tuesday. South Haven State Police reported the tandem semi loaded with miscellaneous freight and the truck rolled over when

strong winds apparently caused the load to shift. Foss complained of back pain and was taken to Douglas Community Hospital where he was released after treatment of a minor laceration to the left foot. Officers said the truck spun around and landed facing the south.

17 Freight Cars Derailed In Spectacular Wreck

SURVEYS WRECKAGE—Workmen surveys wreckage of the 17-car freight train derailed Monday night that snapped telephone and power poles but caused no damage to the

wires. C and O officials in Detroit put first rough estimates of the damage at \$75,000. Workers say it may take two to three days to clear the entire area. (Sentinel photo)

Seventeen cars of a 94-car Chesapeake and Ohio freight train derailed Monday night at the 14th St. crossing, causing damage tentatively estimated at \$75,000.

The 27th through 44th cars of the northbound freight spilled off the tracks about 8:45 p.m. Monday, causing a pileup that blocked an area from 13th through 15th Sts.

Officials termed the damage comparatively minor in that no injuries were reported. Local police and fire officials pointed out the incident could have been worse and could have required evacuation of the area had one of the upended cars, a chlorine gas tanker, been filled. The tanker was empty.

Twelve of the 17 spilled cars were loaded. Eight of them, according to a C and O official in Detroit, were filled with coke. One car contained celery, another lemons, a third oats and one was loaded with lumber.

The other five derailed cars were empty.

Cause of the derailment is unknown, although there were indications it could have been mechanical, according to C. M. Krieve, assistant superintendent of the C and O Grand Rapids district.

C and O officials and railroad detectives from Grand Rapids are continuing their investigation. Two residents living near the tracks reported to police they had been hearing a new sound when a train passed by. They said the sound resembled a clanking noise and this information was turned over to the C and O detectives.

Several telephone and power poles were snapped in the incident but no damage was reported to the wiring. The pavement at the crossing was dug up and rails were torn up. Railroad property and a flasher was also damaged.

The Holland Fire Department responded with fire trucks for stand-by duty and set up emergency power and portable lighting. Holland National Guardsmen were also at the scene with equipment and assisted in sealing off the area.

The freight was pulled by three diesel locomotives and carried one caboose. Engineer was Calvin Strong of 487 136th Ave., Holland, and conductor was David Carpenter of Grandville. Charles Attala was front brakeman and Walter Barnes was rear brakeman.

The diesel on the head end of the freight train moved the front standing cars to Grand Rapids. The cars on the rear of the train that had not derailed were returned to East Saugatuck by a locomotive that had been stopped near Fennville.

C and O held all trains Tuesday as close to 50 men worked in blustery weather to clear the wreckage and lay a new track. C and O crewmen say it may take two to three days to clear the entire area due to limited movement. The 14th St. crossing was the only one blocked by the wreckage.

Traffic at the crossings up to 20th St. had been tied up and re-routed until the locomotive from near Fennville could pull the remaining standing cars to East Saugatuck.

Today's derailment recalls others that have occurred in the area during the past year. On Jan. 3, two Chesapeake and Ohio employees were injured when the caboose of a 33-car, Chicago - to - Grand Rapids freight train derailed at the 141st St. Crossing in New Richmond.

One day later, Jan. 4, three cars of a Pennsylvania Railroad freight train of more than 50 cars left the tracks in the north of Kalamazoo and tipped over and seven Grand Trunk Railroad cars were derailed at Muskegon, rerouting factory area traffic for 12 hours.

Eight cars of an eastbound 50-car C and O freight train derailed Feb. 9 at the train was crossing a bridge of the Black River just west of the Waverly yards in Holland. The incident caused a "roughly estimated" \$50,000 to \$75,000 damage and led to the death of a wrecking crew foreman. John Kozar of Grand Rapids was crushed to death Feb. 12 when a boxcar being raised by a crane gave way.

6-Cent Stamps Needed on All Yule Greetings

The Post Office department today advised persons sending Christmas cards that all cards weighing one ounce or less must carry six cents postage.

In previous years, unsealed cards without a written message (only the signature of the sender) could be sent one cent less than first class postage. These would be delivered as third-class mail, without the provision for forwarding or return if undeliverable.

The postage rate legislation which went into effect last January raised the single rate third class postage to six cents for the first two ounces.

Since virtually all greeting cards weigh less than an ounce, the first class and third-class rates are, in effect, the same.

Thus, the post office notes, all greeting cards bearing six cents postage which are undeliverable as addressed shall be forwarded if a new address is available.

The department stressed the importance of a return address to assure that undeliverable cards will be returned. This allows mailers to keep their address lists up to date.

Neither driver was reported injured.

Hunting Party Finally Gets A 4-Point Buck

What a way to finally bag a deer and before the season opened!

Don Brookhouse of route 1, West Olive, and his hunting party have been hunting now for several years and they finally got their first deer — a 4-point buck — when they hit it accidentally with the car they were in Thursday night.

Brookhouse, his father Ben Brookhouse of 220 Leisure Lane, Ralph Brookhouse of 12983 James St., Bill Bos of Holland and Jim Van Norder of 132 Walnut Ave., were driving on M-46 near Ravenna when the deer darted in front of the car around 7 p.m. Thursday.

They had left Holland around 5:30 p.m. on a hunting trip to Baldwin.

The car was damaged in the accident that was investigated by Michigan State Police, but the wives, Mrs. Ben Brookhouse, Mrs. Don Brookhouse and Mrs. Ralph Brookhouse, took another car to the men so they could continue on the trip.

And the buck? The men took it along to hang on their cabin at Baldwin!

Allegan Moving Cautiously on Liquor Licenses

ALLEGAN — City council members will "make haste slowly" to implement voters' approval of a proposal for the sale of liquor by the glass.

Mayor James Rolfe told interested parties at Monday night's council meeting that "we're not going to be in a hurry on this" in response to questions on how soon the council could be expected to act on applications for licenses.

All six Allegan taverns, plus one restaurant, filed written applications for licenses following the Nov. 5 election at which liquor - by - the - drink was approved by a margin of two-to-one.

Under state regulations which limit bar licenses to one per 2,000 residents, Allegan would be allowed three.

Council members indicated it was their desire to hold at least one license for a restaurant, but an ordinance now under consideration would require licensees to gross at least 50 per cent of their income from sales other than beer and wine to qualify for one of the new bar licenses.

City Attorney Edward Barton said the ordinance he had drafted for council consideration was based on recommendations of the Michigan Municipal League. Basically, it does not differ greatly from Michigan Liquor Control Commission regulations except for the provision requiring 50 per cent food sales.

Council members emphasized that the ordinance under consideration was only a "first draft" and that suggestions would be welcomed from all interested parties.

A SYMBOL OF THINGS TO COME

There has been some talk that President - Elect Richard Nixon might forego the pomp of a long inaugural parade. This might be a good idea and an excellent way to demonstrate that the new administration is aware of the gravity of the nation's problems.

War, potential war, and a divided country ought to be enough of a reason to begin a new era with a bit of humility and even austerity. There has been a close division in the country and there is no necessity to parade any great triumph.

What the nation needs more than anything else is some moments of quiet. We need a good deal of discussion to understand one another.

We already have a great deal of legislation. Now we need to take a good look at what we have, and an answer to the question whether we are doing a good job with what we have. Are we doing the job efficiently? Are we working toward a solution to our problems or setting roadblocks in the path of a solution? Have we thrown together administrative organizations without regard to the purpose of the programs they are called upon to administer? None of these questions are easy to answer. But all of them are worthy of some good study and it might be well to do some careful study before we decide to move on to other legislation.

In every organization there is the point of diminishing returns. With scores of programs enacted in the last years, we may find it the height of wisdom to retrace all our steps to note where we have been and where we are going. And if the cancellation of a huge inauguration can be a symbol of what must be done, let's do just that.

It is long past time to reduce government duplication and waste of our tax dollars.

Love One Another
I John 2:7-11; 3:11-18
By C. P. Dame

The apostle John was a fine pastor. He was concerned about the spiritual health of his converts who lived in a pagan world. He taught them to live a life of love in a hard world.

I. Christ commands believers to love each other. The early Christians often called each other "brethren." This word occurs many times in the New Testament and is applied to Christians. The word implies a common parentage. Christians are members of God's redeemed family. God is Father, Jesus, the Elder brother.

John writes about an old commandment which they had heard from the very beginning of their Christian life. The commandment is to love each other. Leviticus 19:18 teaches love to neighbors. Jesus brought Deuteronomy 6:5 and Leviticus 19:18 together and said that the whole teaching of the law and the prophets hung upon them, (Mark 12:28-31).

John calls the old commandment new, Jesus did this, see John 13:34, new because it now has a deeper meaning. Disciples should love each other as Jesus loved them, giving Himself as a sacrifice for them. Jesus said that His disciples should love their enemies and pray for them. How much the more then should they love each other! This love should be shown in practical ways in daily life.

If Love and hate do not belong together. John says that a believer who says he is in the light and hates his brother is still in darkness, that is he lives in sin. Love excludes hate. The Christian who hates deceives himself. He does not know where he is going. Hate blinds his vision, dulls his understanding and causes misjudgment.

On the other hand, the Christian who loves his brother, abides in the light, walks in the light and hence is kept stumbling. By loving we bless ourselves and others too.

III. Love and hate are both active. The lesson text name: Cain "who was of that wicked one and slew his brother." The wicked one is the devil in whom some moderns do not believe. Cain showed his kinship to the devil by his wicked deed. Cain felt rebuked by his brother's godly life.

"Marvel not, my brethren, if the world hate you." John is thinking of the world that is in opposition to God. When we stand up for Christ in today's world we can expect the world's hatred. If we win the constant approval of the world there is something wrong about our Christian life.

Love manifests itself. Christians know that they have passed out of death into life because they love the brethren. Love is a proof of conversion. Christ showed us what love does. "Greater love hath no man than this, that a man lay down his life for his friends" (John 15:13).

Today some put a lot of emphasis upon showing concern and love for needy people which is very good. The old saying that charity begins at home is still true. As Christians it is our task to manifest love first of all to our fellow believers and from there on love the whole world.

The prize was announced in the Sunday Journal Nov. 10. Jack West, pharmacist at Holland Hospital, was pictured among 50 winners of the "Bowl of Hygieia" awards in the Oct. 11 issue of Time. The awards were given, one in each state, not only for dedication to the profession but also to the ideal of community service.

The national election is over (thank goodness) but Pat Loomis of Waukazoo relived some adventures back in 1952 when she was aboard the Eisenhower train hitting the campaign trail. As one of a staff of 52, Pat checked schedules, distributed mail, entertained VIPs who boarded the 14-car train at each stop, and walked 14 miles a day. She checked the mileage with a pedometer. David Eisenhower who worked hard on the Nixon election this year was an engaging little boy of four at the time.

Ike's birthday on Oct. 14 was quite an occasion. At one stop a few days in advance two handsome cowboys carried a huge cake to the steps of the

plane (they were flying that day since Texas is a big state) and Ike and the staff promptly demolished it. One newsman remarked it was the biggest cake he had ever seen and said so in his story, and this set off the usual Texas race for "the biggest." There were so many cakes in San Antonio that trucks were used to take them to old peoples homes, hospitals and veterans facilities.

This year, Ike's birthday again was celebrated at Republican headquarters. DuMond's designed a huge cake and women brought in home baked cakes for a cake and coffee treat for all who stopped.

Local Author Writes His First Book at 81

At 81, Fred B. Duncan of Waukazoo has written his first book.

And it's been accepted and will be out in the spring.

The book, "Deep Water Family," is a story of the interesting home life Duncan had as a boy on the downeast sailing ship Florence of Bath, Maine, a ship of which his father was captain.

Back in those days, a few captains carried their families with them as they went about the world. The large three-masted vessel was Duncan's only home until he was 12 and because such living was unusual he said, "I felt I owed it to my children to leave a record how we children played, went to school under the tutelage of our parents, and lived normal lives under abnormal conditions."

The Alfred A. Knopf Co. is publishing the book as a Knopf juvenile. The Knopf editor calls it "an invaluable document as well as an absorbing story whose characters are so real that one is left with the impression of having met them all before in some sea novel."

Perhaps the greatest compliment from the editor was that he had no suggestions for changes. This seldom happens even to the best of writers, and almost never for a first book — particularly a first book by a man in his 80's. The editor said such a situation is "quite frustrating" to an editor.

Somewhat like Grandma Moses whose art talent was discovered late in life, Duncan is realizing the rewards of an interesting avocation. In reliving an unusual childhood, his descriptive style has an immediacy that puts youngster and oldster alike on an oldtime ship on the rolling seas viewing life as an adventure.

"I'm sure all of you would like the captain and his wife, my parents," Duncan says. "They were people who never let a few thousand miles of rolling ocean be used as an excuse for lack of cleanliness and good manners. I cannot remember seeing my father come up on deck unshaven and without a necktie."

Proofs already have been corrected and illustrators are now busy incorporating old family pictures into the book's artwork. The progress is such that the book may be issued earlier than originally expected.

The Pantheon - Knopf Books for Young Readers is a division of Random House.

One incident in the book recalls the presence of Mark Twain aboard the ship of Duncan's grandfather, also a sea captain. This trip was to the Far East and is described in Mark Twain's "Innocents Abroad."

Duncan was born in San Francisco while his father's ship was tied up to the Third St. wharf.

Acceptance of the book was an occasion for a social gathering of the Holland Writers Club honoring the author and his wife Olive who has had some of her work published earlier. The buffet party was given by Mrs. Vincent Martineau, 4627 Lakeshore Dr.

Attending were Mrs. Marvin De Vries, Lavina Cappon, Mr. and Mrs. Robert McPadden, Mr. and Mrs. Bernard Donnelly, Mr. and Mrs. Tom Leonard, Mrs. Phyllis Engelsman and Mrs. John Bouman, all of Holland; Mr. and Mrs. Milton Johnston of Saugatuck; Mr. and Mrs. John Lacey, Mr. and Mrs. Alan Macdonald and Mr. and Mrs. Richard Kleeman of Chicago, Mrs. John Haas, now of Utah, and Mrs. Mary Leonard of Grand Rapids.

For several years, the Duncans have been making their home at 422 Beech St. near Chippewa Point at Waukazoo. Duncan retired in 1953 from his sales position with the Chicago Packard Electric division of General Motors. They spent winters in the south.

Rev. Williams Describes 'Upward Bound Project'

Plans for the new Upward Bound project at Hope College were revealed Monday night by Rev. Sam Williams, assistant chaplain, at the Kiwanis Club meeting at the Warm Friend Hotel.

Williams has been named director of the program which is supervised on a national basis by the Federal Office of Economic Opportunity.

Objective of the program is to provide students who have completed the 9th, 10th and 11th grades, who have poverty backgrounds or are under-achievers, with an incentive to do better school work and to seek a college education.

Approximately 50 high school students are to be selected from an area comprising Ottawa, Kent, Muskegon and Berrien Counties.

Students who are below the scholastic norm will be screened and recommended by teachers for enrollment in the program. Also assisting will be counselors, juvenile authorities, welfare agencies and others interested in youth.

Plans call for the eight-week course to be held on the Hope College campus next June, with board, room, travel and certain other expenses to be provided for the students by the government.

Close personal attention will be given each student with a faculty ratio of six pupils per teacher. The teaching staff will be composed of college and high school instructors. Two trained counselors will be available supplemented by four college student counselors.

Besides academic subjects to be studied, the students will be taken on field trips and will participate in other activities to broaden their horizons.

More than 25,000 students are enrolled in the Upward Bound program which began on a national scale in 1966. Approximately 80 per cent of the youth who have completed the program have chosen to go on to college.

Wayne Alumni
Dinner Fetes
Dr. Z. Veldhuis

Dr. Zachary Veldhuis

A tribute to Dr. Zachary Veldhuis of Hamilton will highlight a regional Wayne State University alumni dinner for Southwestern Michigan Thursday night, at the Ramada Inn in Kalamazoo.

Dr. Veldhuis, who will be 99 next month, is Wayne's oldest alumnus and the only living graduate of the veterinary department of the old Detroit College of Medicine, a forerunner of the University. He received his degree in 1896.

Born in Overisel on Dec. 19, 1869, he entered the Detroit College of Medicine at 26 and took basic studies in chemistry, histology, physiology, bacteriology and did clinical work with medical professors — a veterinary training nearly unheard of in those days.

When he graduated he was one of very few veterinarians in the country to possess a degree of Doctor of Veterinary Surgery.

Working with his preceptor, Dr. Samuel Brenton, who had a veterinary practice in Detroit, the young Veldhuis ate in the doctor's home and slept in the barn.

At 90-going-on-99 he continues to live a robust life. He enjoys fishing and other outdoor activities, and passersby often find him working in his yard. He also sings regularly in the choir of the Haven Reformed Church in Hamilton.

Dr. Veldhuis spent most of this career in government work inspecting meat animals, working at various times in Kansas City, St. Louis and the prairie states. He spent the last 20 years of his career in Detroit doing field work on bovine tuberculosis. He settled in Hamilton in 1945 and still does veterinary surgery.

When Dr. Veldhuis married, he took a bride nearly 17 years his junior. She is Josie Lucy, now a spritely 82. They have no children.

To advance study of the disease, MDA has built a research center, the Institute for Muscle Disease in New York City, the only facility of its kind in the world. MDA maintains a nationwide network of clinics and provides numerous patient service through its more than 360 chapter affiliates.

City's Alert
Siren System
Test Scheduled

Holland Police Leslie Van Beveren today said plans are being made to test the city's alert siren system which can be activated in the event of nuclear attack or a tornado approaching the city.

The test will be made Friday at 11 a.m. with the sirens, located in five spots in the city, whaling for a 3-minute period at maximum power.

Last April 12, a similar test of the network was made with the sirens sounding at half their strength.

Residents are reminded this will be only a test to check the operating status of the alert siren system and not an actual warning to cause confusion or comparative concern.

Van Beveren said should there be an actual threat of a national disaster such as a possible nuclear attack or an indication of a possible tornado approaching the city, the test will be postponed.

The Holiday Square Dance Club held their Thanksgiving Dance, Saturday at the Apple Avenue School. Jay Bruschat, the club caller, kept the five sets moving at a fast pace by using many new and old singing and patter calls.

Small Pilgrims stood watch over the entire scene. Thanksgiving napkins completed the table. Dancing stopped at 10:30 p.m. so that guests and members could enjoy the pie smorgasboard.

Guests from Holland were Mr. and Mrs. Jack Nieboer, Mr. and Mrs. Roger Brunzell, Mr. and Mrs. Glenn Wiersma, Mr. and Mrs. Marty Miller, Mr. and Mrs. John Schripsema and Mrs. Bill Blank. Hope Selects Top Fall Athletes

Hope College held its annual fall sports banquet in Phelps Hall on the Hope campus Thursday night honoring the cross country, soccer and football teams.

Guest speaker for the evening was Larry Osterman, Sports Director of WKZO-TV and better known for his telecasts of Detroit Tiger baseball.

Osterman remarked, "I think the key word in athletics is participation, at whatever level. If you believe in yourself, if you believe in something, then try it. No one ever won without a positive approach."

He went on to note, "Every-

Tom Thomas

... named captain for 1969

one involved in athletics have a responsibility to the young. Kids respect athletes."

Osterman cited the calm in Detroit this summer and felt the interest in the Tigers was a major reason for the relative peace as compared to last summer.

Gordon Brewer, athletic director at Hope, introduced several coaches and players representing Holland area high schools and Phil Rauwerdink, acting as master of ceremonies introduced the college's respective coaches for some final thoughts on the past season.

Cross country coach Barry Werkman remarked, "one problem that faced us this year was essentially a little lack of depth. However, we did gain experience and we were lucky to have an individual who won every race we ran."

That individual, Rick Bruggers, was selected by his teammates, as Hope's most valuable runner for 1968. Junior Bruce Geelhoed was named next year's captain.

"We started out with 14 players and ended with 24," noted soccer coach William Vander-Bilt, who added "we tried to become more offense minded, to get other teams to play our game."

Hope obviously succeeded by leading the MII in scoring and also by posting their most successful season in history, 6-4.

Selected by their teammates as co-most valuable players were seniors Fred Schutmaat and Jim Knott. Named as co-captains for next year's squad were Art Hudak and Dave Clark.

Despite Hope's 4-5 football record coach Russ De Vette, who was aided by George Kraft, Jim Bekkering, Ken Weller and trainer Dr. Lawrence Green, felt there was a uniqueness about this year's squad.

"I think this year was better than last year. There was a uniqueness about the squad this year. As far as I was concerned I felt everyone had a good time, generally speaking. Even last week we were enjoying this and maybe this is almost as important as winning. I think this says something for the kind of guys we had."

Named as most valuable player for the past season was senior Gary Frens from Fremont. Tom Thomas, from Holland, was elected captain for next season.

Hope placed three players on the All-MIAA football team.

They were, Bill Bekkering, offensive end, Ted Rycenga, offensive tackle and Frens, defensive back.

Hope also had four individuals receive honorable mention. Groy Kaper, sophomore from Hamilton, was given honorable mention as quarterback. Walt Reed was honored as defensive back. Rycenga at defensive interior line and Frens received honorable mention as an offensive back.

The MIAA offensive team consisted of two seniors, eight juniors and two sophomores. The seniors were Karl Wilson, Olivet back, and Bruce Gilbert Albion guard.

Sophomores were Rycenga and Jack Prince, Alma back.

The rest of the offensive team consisted of Bekkering and John Fuzak of Alma at the ends, John Hadley, Alma tackle, Dann Peacock, Alma guard and Bill Schueller, Albion center.

The backfield consisted of the league's most valuable player and three time selection, junior quarterback Tom Jakovac of Alma, Jim Bell of Albion and Chris Clark of Alma.

Alma dominated the offensive team with six players while Albion placed three, Hope two and Olivet one.

Defensively Alma and Albion placed three, Adrian and Olivet two and Hope one.

Six seniors, four juniors and one sophomore composed the defensive squad.

The seniors are Dave Ward, Adrian interior lineman, Jim Dobbins, Albion interior lineman, Haydon Moorman, Olivet linebacker, Jim Knoblet, Albion linebacker, Frens, Hope back, and Doug Moss, Adrian back.

Juniors are Jesse Bobo, Olivet end, Dale Dillingham, Alma interior lineman, Ken Mitchell, Alma end and Rick Bensinger, Albion back. The lone sophomore is Rob Zins, Alma linebacker.

The Fish That Got Away Came Back to Jim

Jim De Ridder has a fish story to top most other fish stories.

He was fishing last Thursday near the Blue Star Highway bridge between Saugatuck and Douglas when he hooked a fine 21-inch Northern Pike.

He attached his chain stringer to the fish and anchored the other end on shore with a rock. The fighting fish dislodged the chain from the rock and swam to freedom.

Jim returned to the area Saturday in hopes of catching another Pike. It was too windy to cast so he baited his line with a live chub and let it drift. When he checked it later he found it had snagged a chain.

The fish that got away Thursday was back in custody Saturday.

The De Ridders had it for dinner Sunday.

That area of Kalamazoo River has been good Pike territory this season attracting Izaak Walton fans from all over this part of Michigan.

DAR Chapter Hears Talk On Alewives

Miss Marcia V. Boyles, professor of biology at Grand Valley State College, spoke on the history and biological aspects of alewives at the meeting of the Elizabeth Schuyler Hamilton Chapter, Daughters of the American Revolution Thursday at the home of Mrs. John C. La Barge.

Regent Mrs. R. F. Keeler pre-

sided with devotions led by Mrs. Clarence Becker, who also read a passage from a Sunday Evening Talk given by W. J. Cameron entitled "Thanks and Discontent," pertaining to general spiritual development.

Mrs. D. W. Yntema read an article "The Right to Keep and Bear Arms," by Lt. Gen. Julian S. Smith, U. S. Marine Corps.

In speaking about alewives, Professor Boyles said that each female lays between 10,000 and 25,000 eggs and that more than 90 per cent of commercial fishing catch is alewives. Death in great numbers can be attributed to man causes including lack of iodine in fresh waters and rapid fluctuating temperature of water, she said. The Bureau of Fisheries says that the mortality rate next year will not be as great as the first year.

Serving refreshments were the business committee Mrs. C. N.

Danielson, Mrs. Martha Robbins, Mrs. John Daniels and Mrs. William C. Vandenberg.

Zick Reaches Midpoint in Polar Flight

Leonard O. Zick, a resident of Holland, has reached the half-way point on a pioneering trans-polar flight around the world.

Zick is a member of an expedition that left Boston Nov. 8 to open up the first commercial route around the earth longitudinally, crossing both the North and South Poles. Their plane is a chartered Convair 440 jet, named "Polar Byrd I."

The 36-day journey covers 10 countries and all seven continents, including Antarctica. It is sponsored by the Admiral Richard E. Byrd Polar Center, Boston, of which Zick is a trustee.

Today the group of 60 U.S. business and professional leaders is in Wellington, New Zealand, taking part in a civic ceremony honoring Admiral Byrd. From there they will go to the U.S. Naval Base on McMurdo Sound, Antarctica, and fly over the South Pole on Friday.

The route of the flight is from Boston to Greenland, over the North Pole to Anchorage, Tokyo, Manila, Darwin and Sydney (Australia), Auckland, Wellington and Christchurch (New Zealand), McMurdo Sound (Antarctica), and over the South Pole to Rio de Janeiro, Dakar (Senegal), Rome and London, returning to Boston on Dec. 3.

The Admiral Richard E. Byrd Polar Center was established to conduct Antarctic research studies and maintain a central library of information. It will furnish technical assistance to government, universities and business organizations, and serve as headquarters for future investigation into the scientific and commercial development of the polar regions.

Zick is associated with the Corporate Finance Department of Manley, Bennett, McDonald and Co. of Grand Rapids.

Trains Resume Runs Through Holland

Railroad traffic through Holland was resumed Tuesday night as Chesapeake and Ohio employees finished laying a temporary track in the area of the 17-car derailment that blocked an area between 13th and 15th Sts. Monday night.

Workers completed the work on the temporary track around 9:30 p.m. just over 24 hours from the time the 12 loaded and five unloaded cars broke away from the 94-car northbound freight train and spilled off the tracks, totally blocking the 14th St. crossing.

Railroad personnel at the Waverly Yards office here said all passenger trains were running on schedule today as were the freight trains.

At least six of the delayed freight trains continued their runs after the temporary track was opened and officials said there were a few more to pass through.

A speed limit of 10 miles an hour is in effect for all trains passing through the area.

C and O crews continued repair work on the tracks today, leaving further cleanup work until later. They were also putting in a new switch to replace the one that was torn up in the wreck.

It was not estimated how long it will take to complete the entire operation as plans are hindered by the weather. Cause of the derailment remains under investigation.

The entire crew that was in Holland remained here. They were not needed to assist in clearing wreckage from the derailment in New Buffalo late Monday.

Dutch Seeking Repeat of Title

Coach Don Piersma fully expects his 1968 - 69 Holland High School basketball team to be as tough as last year's squad which posted a 13-1 VCC record to earn a co-championship with Muskegon Heights and a 15-4 season record while also capturing the District tournament.

When asked who was going to win the crown this year Piersma stated emphatically, "Holland." He went on to add, "we should be right in there as contenders. So should the Heights (Muskegon). Two teams coming up strong are Mona Shores and East Grand Rapids. And Grandville is a big question mark."

In order to repeat as co-champions Piersma is going to have to fill the shoes of high scoring Dan Shinabarger and starting forward Bob Pete. Also absent from last year's team are forwards Max Bush and Dave Hoekstra.

Piersma is building his team around returnees Dave De Witt, senior guard, and All-Conference center Dave Gosselaar, who led the team in rebounds last year and was second in scoring.

Piersma noted the Dutch would run as much as possible and would press much the same way as they have in the past. He also remarked that "in order to use our kids to the best advantage we will use Hope's offense, the swing and go."

This involves placing two big men low at the base line. These players will be Gosselaar and senior Rick Zweeping or Dick Boeve who is pushing Zweeping hard for this strong side post position.

The Dutch will work a forward off these two big low men. This position is being contested for by juniors Fritz Steininger and Max Glupker.

The guards will be De Witt and Paul Overbeek. De Witt will play the strong side guard and work three-man plays with Zweeping and the forwards

while Overbeek will play weak side and work with Gosselaar in an attempt to isolate Gosselaar on the weak side.

Steininger will also be used to spell Gosselaar when need be. Other players contesting for positions on the 14-man squad are Tom Pete, currently first reserve guard, Jim Leenhouts, second reserve guard and Ted Boeve and Ken De Boer, also vying for guard positions.

Forward candidates behind Steininger and Glupker are Bill Essenberg, Darris Schuurman and Ray Munson.

Piersma noted the Dutch were a little slow at this stage but added only five or six practices have been held up to this point.

The Dutch were to travel to Grand Rapids for a scrimmage with East Grand Rapids Tuesday night.

Holland's season opener will be Nov. 29 against defending Class A State Champions, Ottawa Hills. Ottawa Hills has three starters returning from last year's team.

The complete 1968-69 basketball schedule is: Nov. 29, at Ottawa Hills; Dec. 6, at Muskegon Heights; Dec. 13, Grand Haven; Dec. 20, East Grand Rapids; Dec. 27, Kentwood; Jan. 10, at Orchard View; Jan. 14, Grandville; Jan. 17, at Mona Shores; Jan. 21, Godwin.

The remainder of the schedule: Jan. 24, Muskegon Heights; Jan. 31, at Grand Haven; Feb. 7, at East Grand Rapids; Feb. 14, Orchard View; Feb. 21, at Grandville; Feb. 28, Mona Shores, and March 1, Benton Harbor.

All varsity games are scheduled for 7:45 p.m. with the reserve games beginning at 6:15 p.m.

Hope Basketball Has New Look

Hope College's basketball team coached by Russ De Vette is in earnest preparation for the Nov. 30 lidt against Lake Forest, Ill. in the Holland Civic Center.

De Vette is beginning his 16th year at the helm of the Hope basketball squad and has led his teams to nine MIAA championships, six outright crowns and three co-championships. In his previous 15 years Hope teams have compiled a 214-110 record, a winning percentage of .660.

Last season's squad compiled a 17-6 record overall and a fine 10-2 league mark to win the title by three games.

However, the Flying Dutchmen face a major rebuilding job this season with a present roster consisting of four lettermen, and including one senior, three juniors, five sophomores and three freshmen.

De Vette has indicated that he may still add some players but that as of now the roster is set at 12.

Hope lost four lettermen from last years squad. They were Tom Pelon, Gary Rypma, Dave Utzinger and Floyd Brady.

It is the loss of Brady and Rypma, Hope's two leading scorers, that has dropped Hope from the ranks of a major title contender for the first time in many years.

The biggest loss was in forward Brady who rewrote the Hope basketball record books during a brilliant four year career that included three MIAA championships.

In four years Brady accumulated 2,004 points to become the highest scorer in Hope history and the fifth leading scorer in Michigan collegiate basketball history.

However, concerning this season De Vette is "basically working the return kids pretty much."

This includes senior center and captain Bruce Van Huis, from Holland who is the team's leading returning scorer with an 11.7 point per game average last season and who was runner-up to Brady in rebounds with 319 in 23 games.

Other returning veterans include junior Ted Zwart, a backup center for Van Huis last year, and sophomores Barry Schreiber and Randy Adolphs.

Two letterman from last season, juniors John Leenhouts and Bill Bekkering will not be competing this season. Both decided not to play.

Newcomers to the varsity who competed for the junior varsity team last season include Keith Crossland, 5' 11" guard from Rockford, Ill., Mike Brown, 6' 3" forward from Batavia, Ill., and Rie Scott 6' 3" guard-forward from Rockford, Ill.

Two junior college transfer students are expected to bolster Hope's attack this season. They are Tom Dykstra a 5' 10" guard from Wyoming and Dan Oegema, 6' 5" forward from Muskegon.

The three freshmen who apparently have won spots on the varsity include Marty Snoop, 6' 2" forward from Wyoming, Ken Hendrix, 6' 5" forward from Benton Harbor and Dan Sinabarger, a 6' 1" guard from Holland High School.

De Vette has indicated that

Hope "could possibly have Hendrix, Dykstra and Sinabarger (all newcomers) in the first group."

It will certainly be a young, inexperienced Hope team this year, one which may throw some new wrinkles at opponents now that the likes of Brady and Rypma have graduated.

De Vette noted at this early stage that "Calvin and Kalamazoo have the most guys back and Alma is next." He rated these teams as Hope's toughest competition for the coming season.

The Hope schedule includes: Nov. 30, Lake Forest, Dec. 4, Aquinas, Dec. 7, at Concordia, Dec. 11, at Olivet, Dec. 14, Spring Arbor, Dec. 18, at Albion, Dec. 27, 28, Holiday Tourney with Ohio Wesleyan, Union College of Schenectady, New York, Wabash, Ind. and Hope, Jan. 8, Adrian, Jan. 11, at Calvin, Jan. 15, Alma.

The rest of the schedule: Jan. 18, Kalamazoo, Jan. 25, at Wooster, Feb. 1, at Lake Forest, Feb. 5, at Denison, Feb. 8, Olivet, Feb. 12, at Kalamazoo, Feb. 15, Albion, Feb. 19 at Adrian, Feb. 22, Calvin and Feb. 26, at Alma.

All Hope games will begin at 8 p.m. with the exception of the Dec. 7 Concordia game which will begin at 3:30 p.m., the Jan. 11 Calvin game scheduled to start at 3 p.m. and the Holiday Tourney which gets underway at 7 p.m.

West Ottawa Board Studies New Grouping

The West Ottawa Board of Education Monday night tentatively endorsed a recommendation calling for a 6-7-8 grade grouping, and charged the committee headed by Ed Roberts, Ray Lamb and Fred Meppelink to proceed with plans pointing to April as a target for the necessary bonding election.

The subcommittee which has been working since April has given extensive consideration to educational, sociological and economic advantages of the concept which is in practice in several school districts in Michigan.

The junior-senior high school built in 1958 to house 1,500 students, currently houses 1,800 and by 1972 will have over 2,000. All elementary class rooms are filled and some emergency rooms are in use. A 6-7-8 school would remove the seventh and eighth graders from the high school and relieve pressure on all elementary schools.

Also occupying the board Monday night was a report of the adult education program.

The program encompasses adult recreation and self improvement headed by Ed Roberts with 10 classes and 121 students. Peter Roon heads the adult credit program for 42 adults, and 14 classes for the high school completion program with 101 students. The board is studying a new state policy on equivalency certificates in lieu of a high school diploma.

On the transportation front, the board approved purchase of a new unit from R. E. Barber at a cost of \$3,955.34. This bus is designed to transport four wheelchairs. Transportation Director Thomas Reimink also recommended immediate purchase of an additional bus to relieve current overcrowding.

The board also authorized purchase of 210 Republic Steel lockers for temporary installation in the junior-senior high school. Currently as many as three students share one locker. The bid of Grand Rapids Screen Co. for \$3,825 was accepted with delivery in six weeks.

Board members James Corwin and Louis Van Slooten were appointed to represent the board on a new Athletic Council. This new council also will have as members the superintendent, high school principal, athletic director and a student to be named by the high school principal.

John MacQueen was appointed by President Louis Van Slooten to represent West Ottawa at a hearing on transferring two parcels on 120th Ave. south of Black River from Holland school district to West Ottawa.

Carl Schaftenaar reported on the progress of the vocational-technical junior college calling for an election Aug. 19, 1969, in the district which takes in Ottawa county and a good share of Allegan county. Schaftenaar said no site has been selected and there is no legal way to guarantee geographic representation on the new board.

The board approved borrowing \$200,000 from First National Bank at an interest rate of 3 1/4 per cent, the lowest bid submitted.

ROADS WIND THROUGH SITE WHERE 200 NEW TRAILER AND TENT SITES ARE BEING LAID OUT.

Holland State Park Area Is Developed

Work on developing the 89-acre addition to Holland State Park began the day after Labor Day and progress is reported on the section referred to as the "Michielsens property" as it was purchased about three years ago from the Martin Michielsens of 2212 Ottawa Beach Rd.

Under general contractors, D. J. Mc Question and Sons from Dearborn Heights, the area has been graded and roads put in for access to the 200 new camp sites.

The camp sites, each 50-feet square with electrical outlets, will be used to accommodate both trailer and tent campers.

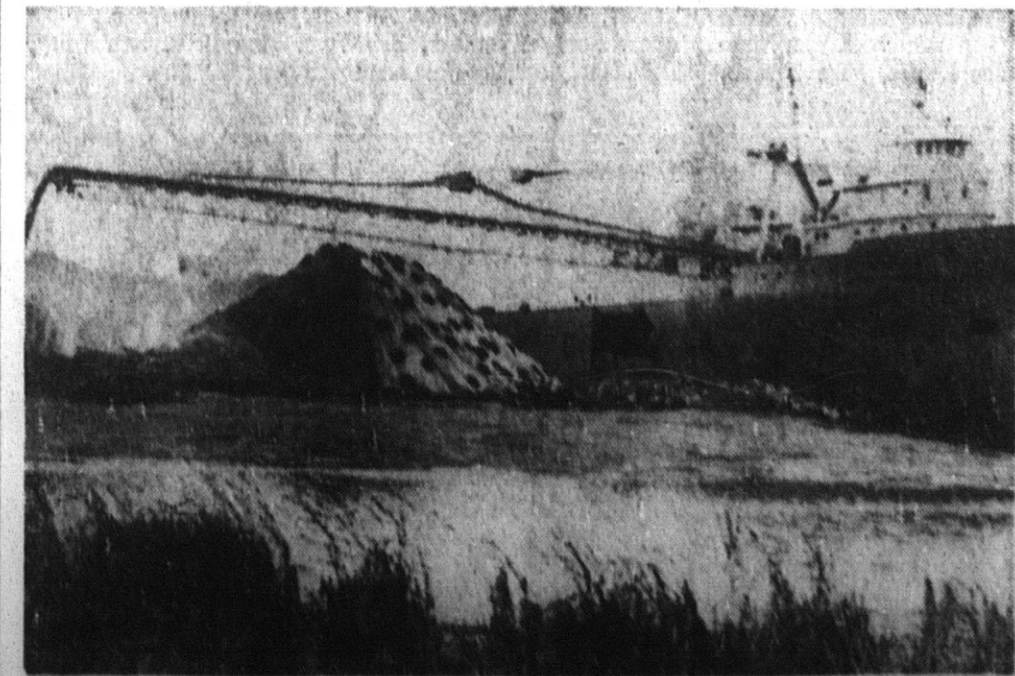

Also under construction under sub-contractors Martin Dyke and Sons of Holland are two toilet buildings and a contact building in the camp development.

It is expected work on the section located about one-eighth mile northeast of the present park will be completed by July 1, 1969. The area is tentatively being referred to as the Lake Macatawa site of Holland State Park.

Cost of developing the area with the camp sites, the two toilet buildings designed to service 100 camps each, the contact station and providing materials for a new residence for the supervisor and a combination office-garage-shop building is running around \$200,000, according to Donald Ike, State Park Manager.

Funds are made on a matching basis from the state and federal level under the Bureau of Outdoor Recreation. Ike said entrance fee to the new section which is strictly a camping area will remain the same: \$3 resident annual permit and \$5 non-resident annual permit. Daily permits are \$1 resident and \$2 non-resident. Camping fees also remain the same \$2 a night which includes electricity.

Ike said the new supervisor's residence is being constructed on the southwest end of the new property with the park employees doing a larger share of the work. The basement has been dug and the footings have

Christmas Card Lane Planned For Alice Street

ZEELAND—Alice Street residents in Zeeland are again making plans for Christmas Card Lane. This will be the eighth year that the neighbors on this street will display 4 x 5-foot plywood boards painted to look like large Christmas cards.

As in past years, most of the residents on Alice Street will paint their own cards, and the majority of pictures painted are new each year. These Christmas cards are effectively spot-lighted each evening from 6 to about 11 p.m., beginning on Dec. 7.

In addition, many homes are decorated with Christmas lights. Approximately 30 homes are involved in this project, and although several of the original home-owners have moved away, the new residents are all joining in this project.

Plans have been made for progressive dinners for the residents on the evening the displays are first illuminated.

Alice Street is located just two blocks north of the corner of M-21 and 104th St.
