Injuries Prove Fatal To Girl, 17

**Saugatuck Man Injured;
Two Autos, Truck
Collide on Highway**

A Saugatuck high school girl was killed and a Saugatuck man was injured in an accident involving two cars and a semi-trailer truck Monday at 9:30 a.m. on US-31 at Center St. near Douglas.

June Ann Barrow, 17, of 203 Grand St. was killed instantly in the crash, according to Dr. Don DeWitt of Saugatuck, first on the scene. Medical Examiner Dr. Kenneth Miller, arriving after Dr. DeWitt, confirmed the verdict.

Ned Roberts, 31, of Saugatuck, is reported in good condition at Holland Hospital, where he was treated for scalp lacerations, according to hospital authorities.

The driver of the semi, William A. Gotham, 44, of 666 Saunders Ave., Holland, was not injured.

Miss Barrow, a senior at Saugatuck High School, is the daughter of Mr. and Mrs. Elvies Barrow. She was driving alone in a car owned by Bobbie Joe Shanks, of Saugatuck, a friend of the Barrow family.

State police from the South Haven post, investigating the accident, said Miss Barrow, headed east on Center St., stopped for the red blinker light at US-31 and then pulled out into the road in front of the semi, going south on US-31.

Gotham told State Police he swerved to the left in an unsuccessful effort to avoid the crash. He then collided with Robert's car, headed north on US-31.

Robert's car was hurled off the road to the left, police said. The car driven by Miss Barrow was caught under the trailer of the truck and dragged 134 feet off to the left side of the road.

Both cars, the 1957 model driven by Miss Barrow and Robert's 1956 model, were demolished. The owners of the semi, empty at the time, estimated damage to the tractor at several thousand dollars.

Sentenced To Prison

GRAND HAVEN (Special) — Luther Austin George, 25, of 330 West 13th St., Holland, who pleaded guilty Nov. 13 to nighttime breaking and entering at Holland Meat Co., was sentenced to serve 18 months to 15 years at Southern Michigan Prison at Jackson when he appeared before Circuit Judge Raymond L. Smith Tuesday. The minimum was recommended.

His companion, Myrtle Phillips, 19, of 88½ East Eighth St., was placed on probation for two years and ordered to make restitution of \$50 as well as making restitution in a case in Berrien county. He also must pay \$50 costs, \$5 a month oversight fees and may not leave the state without permission of the court.

The two men allegedly broke into the Holland Meat Co., in Holland township Oct. 17.

Donald R. Miller, 38, Spring Lake, who pleaded guilty Nov. 4 to non-support and abandoning his wife and six small children, was placed on probation for three years. He was assessed no costs other than expenses of the officers who returned him from Wisconsin where he had been picked up. Miller had left Grand Haven Municipal Airport last April 23 to make a deal on his 1948 plane in Goshen, Ind. He was picked up in Appleton, Wis., in July and was returned here to face desertion charges.

Holland Sees Sputnik Pass

The glowing rocket accompanying Sputnik I is due over Holland tonight at 6:48 p.m., according to Assistant Professor William Liller of the University of Michigan.

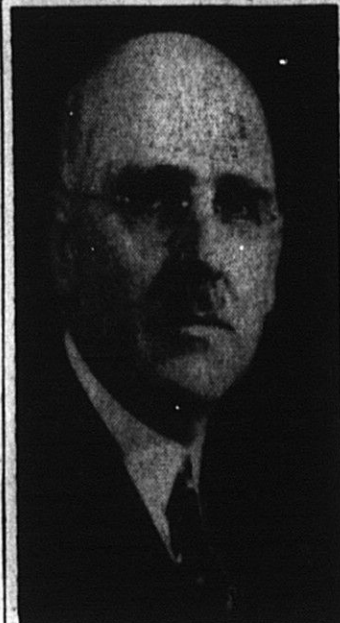

Liller said the rocket, which looks like a very high-flying airplane or a moving light about as bright as the North Star, will be visible, if the skies are clear, for a minute or two. It will be nearly directly overhead, moving north-west to southeast.

Mr. and Mrs. Stanley Curtis, 170 College Ave., reported seeing the rocket through an opening in the clouds at 6:24 p.m. Tuesday.

Tom Lohr and his son, Tommy, of 1086 Lynden Rd., both saw the rocket streak by, but it was gone before they could call Mrs. Lohr to see it. Bill Hamlin of 563 West 22nd St., called the police station to tell them that he also had seen the dying rocket, at 6:24 "on the button." Sentinel employees reported seeing the rocket, too, which has only a few days of "life" left in the heavens.

Police said the offense occurred Monday night.

Ottawa Drivers Seek License Restoration

GRAND HAVEN (Special) — Two Ottawa county residents appeared before the State License Appeal Board in Grand Haven Tuesday for restoration of driving privileges. These hearings are usually held in Muskegon but were changed to Ottawa county for the convenience of persons involved.

The request of John J. Slag, 85, route 2, Holland, was denied. He had applied Sept. 28 but his license was rejected Nov. 5 because he failed his hearing and vision tests.

Leroy F. Munn, 43, Spring Lake, was given six months' probation. His license was suspended to Jan. 1, 1958, for habitual negligence. Last April 25 he appeared before a field examiner of the Secretary of State's office and was placed on probation for six months. On Oct. 5 he was arrested in Spring Lake on charges of running a stop sign and an order for suspension was issued the same day.

ALLEGAN (Special) — Allegan County deputies reported Tuesday that a three-room cabin at Hemlock Point near New Richmond, owned by Rep. Clare Hoffman, burned to the ground sometime during the past 48 hours.

The cabin is located in a heavily wooded and swampy area, and no one reported seeing the fire. Allegan County Deputy Robert Whitcomb, investigating the fire, said he suspects arson and theft.

A metal box is known to be missing. The cabin contained deers and other hunting equipment, Deputy Whitcomb said, but no estimate of the total damage has been made.

Farm-to-Prosper Policies Decided at Recent Meeting

A program of entertainment and fellowship for the Round-Up of the 1957 West Michigan Farm-to-Prosper Contest was decided on as the five-county board of trustees which develops overall policies met Monday night at the Marymax Motel north of Muskegon.

It was decided to forego speakers except for the presentation of awards by Governor Williams in keeping with custom since the first Round-Up. This will be the 18th. A committee to plan details of the program was named, and will act on suggestions of the board. The committee consists of C. D. McNamee, board president; John T. Hay, treasurer; John A. Chisholm, secretary; Don Hearn, Muskegon county agricultural agent; Carl H. Knopf, former Muskegon County agent, and Edward F. Allen, chairman of the Chamber of Commerce Farm-to-Prosper Contest committee.

Edwin O. Bankert, Shelby businessman, and vice president for Oceana County on the board of trustees, will act as master of ceremonies.

The program will be held in Senior High School auditorium, Muskegon, Monday, Dec. 30, starting at 1 p.m. Following the program luncheon will be served in the cafeteria by businessmen of the five counties. The afternoon again will close with a square dance. A feature of the square dance this year will be a contest, with prizes for the best couples. State leaders of rural life again are being invited to attend.

All members of competing organizations, their families, and any one they wish to invite are eligible to attend the event, everything in connection with which is free. The same eligibility applies to members of business organizations.

Club Hears Oosterbaan

Don Oosterbaan, who is in charge of the Holland High School's driver education program, said at the Optimist Noon Club meeting Monday at the Eten House that the driver education has cut teenager accidents 50 per cent.

He explained the program consists of three parts: law, classroom, and behind the wheel. The driver education course is now compulsory at Holland High School.

The students spend 40 hours classroom time against the required state law of 30 hours, Oosterbaan said. More specifically, the students spend nine weeks in the classroom and nine weeks in the automobile. The Holland driver education has four automobiles kept at the Civic Center, reported Oosterbaan.

Michigan law states that a teenager must be 18 years old and must have driver education to receive a license, Oosterbaan said. The club also talked about plans for the Christmas party and the plans for the Optimist Convention in Holland next May.

Examination Set In Assault Case

GRAND HAVEN (Special) — Graham Estill, 26, Grand Haven, demanded examination when arraigned Monday before Justice Lawrence De Witt on a charge of felonious assault. Examination was set Dec. 4 at 10 a.m. Bond of \$1,000 was not furnished.

Estill was picked up early Sunday morning by sheriff's deputies following a quarrel in the home of Wesley Cottrell, route 1, Grand Haven. Cottrell, a taxidermist, told officers he was struck with a large pair of shears which he uses in his work.

Cottrell was hit on the forehead above the right eye and Estill received a cut on the arm. Both were treated in Municipal Hospital.

Sheriff Says County Needs New Jail Badly

The last shakedown of the Ottawa County Jail at Grand Haven revealed an assortment of smuggled articles including a small meat cleaver, a file and a broken hacksaw blade, according to Sheriff Gerald Vanderbeek.

The east wall of the building is cracked from the ground level to the second floor ceiling level, and both situations point up the need for a new jail, Vanderbeek said.

A window in the east wall was bricked up to provide the jail with more security, but the whole building, according to Vanderbeek, is generally deteriorating.

Edwin O. Bankert

which contribute the \$125 prize money in each county — Mason, Muskegon, Newaygo, Oceana, and Ottawa.

Tickets for the Round-Up now are in the hands of county agricultural agents for distribution to organizations before their December meetings. The tickets are merely for drawing for door prizes and are not required for admission. Other tickets are available, and also can be obtained at the door.

One hundred one rural community organizations are competing this year, the same number as in 1956.

Organizations are to have their reports into county agricultural agents offices for judging by Monday.

The board of trustees is made up of representatives of agriculture, business, the press, and schools of the five counties, with county agricultural agents as ex-officio members. The contest is carried on through the county agricultural agents.

Hope Student in Hospital Following Accident

Peter Besimer, 19, of Grosse Pointe, Mich., a student at Hope College, was in fairly good condition Tuesday at Holland Hospital with lacerations of the face, incurred when he lost control of his car and smashed into a tree on River Ave. between 18th and 19th St. Monday at 10:20 p.m.

Holland police said Besimer, headed north on Michigan Ave., missed the curve at 19th St. and ran into a tree on the east side of the road, shearing it off completely. His car then continued on and came to rest against a second tree. Police, investigating the accident, said the sheared-off tree was eight to ten inches in diameter, and Besimer's 1957 model car was damaged in excess of its value.

Two Crashes Occur Near Grand Haven

GRAND HAVEN (Special) — Two persons were treated in Municipal Hospital following a crash on US-31 near the south approach to the viaduct in Ferrysburg at 8:05 p.m. Monday.

Involved were a 1956 station wagon driven by Edward Elnick, 41, Muskegon, and a Jensen Co. semi driven by Donald H. Allen, 40, Hesperia.

Elnick told officers his car went off the pavement as he rounded a curve and in getting back onto the highway he lost control, crossed the centerline and hit the semi which had gone off onto the shoulder in an attempt to avoid an accident. The station wagon was demolished. Damage to the semi was estimated at \$400.

Elnick was treated for multiple contusions on the face and his passenger, Honore Jones, 55, Muskegon, was treated for face and neck lacerations. Both were taken to the hospital in an ambulance. Allen was not injured.

Elnick received a ticket for excessive speed for existing conditions. State police and sheriff's officers investigated.

In another two-car accident Monday night, one vehicle was a 1957 state police cruiser driven by Trooper William Hassinger and the other a 1956 car driven by Mrs. Olivia Lack, 33, Muskegon Heights. The crash occurred on US-16 in Crookery township at 6:15 p.m.

The highway was slippery at the time and Mrs. Lack's car had gone off the highway. In returning to the road the car crossed the centerline and hit the left front of the cruiser, causing \$300 damage to both vehicles. No one was injured.

Driving with Trooper Hassinger was Trooper Robert Flaughter. With Mrs. Lack was her husband, Gustave. Trooper Donald Thorenson investigated and ticketed Mrs. Lack for excessive speed due to existing conditions.

Dairies Qualify For 'A' Milk

Four dairies in Holland area have qualified for the sale of grade A milk, Health Inspector James Hensley said today. The grade A law which was brought into existence last July 1 by the Michigan Department of Agriculture lists rigid standards which must be met before dairies may label their products Grade A.

Hensley pointed out that the law is not compulsory and only state requirements needed for the grade A designation. He emphasized that milk supply is rated second only to the water supply as a factor in the health of the state, and it is impossible for the milk consumer to have the knowledge concerning conditions under which his milk supply is produced. He said it also is evident that only a few would be able to determine for themselves the wholesomeness of the milk.

Man Faces 25 Days And Fine of \$175

GRAND HAVEN (Special) — Lawrence McRae, 35, Muskegon, father of four children, was sentenced to serve at least 25 days in the county jail when he was arraigned on two counts before Justice Eva Workman Tuesday night.

On a drunk driving charge, he must serve 20 days, pay \$100 fine and \$14.90 or serve an additional 35 days. For driving with a revoked license, he was sentenced to serve five days, \$75 fine and \$4.90 costs or an additional 25 days.

His companion, Delbert Davis, 35, Muskegon, paid \$20 fine and \$4.30 costs on a drunk and disorderly charge. The two men were arrested by Spring Lake village police Monday night after the Davis car, driven by McRae, struck a parked car belonging to Charles F. Maizten of Grand Haven while the latter was bowling.

Three More Deputies
The recently approved county budget for 1958 includes provision for three new deputies and a clerk for the soon-to-be constructed Holland substation. One of the new deputies will work out of Grand Haven, and the other two will operate from Holland. Sheriff Gerald Vanderbeek said it is impossible to give the county 24-hour cruiser coverage at the present time, but hopes this goal may be reached in the near future.

Santa Claus Coming Here On Saturday

**Downtown Area Being
Decorated With
Lights, Festoons**

Holland children again will greet Santa Claus this year when he comes to town Saturday night through the efforts of the retail merchants division of the Holland Chamber of Commerce.

Santa Claus will ride atop the biggest ladder truck of the Holland Fire Department, and he will be escorted by police and firemen through the city. The route starts at Civic Center at 6:30 p.m. and will proceed to River and Eighth, south to City Hall, and then return to Eighth St. and proceed east to the city limits. There, the truck will turn around and again parade down Eighth St. to a little booth in front of First National Bank where Santa Claus and his helpers will distribute bags of candy to all children accompanied by an adult.

Children who receive lucky numbers in their bags of candy should search for similar numbers in down town windows. When numbers are matched, the merchant in said store will present a prize to the holder of the lucky slip.

Santa's appearance revives a custom in Holland of former years. For the last two years, the city pursued a religious festival under the theme, "Keeping Christ in Christmas" featuring a parade of religious floats, followed by a caroling in Civic Center. The Holland Ministerial Association cooperated with the Chamber of Commerce during the two-year period.

The downtown section already is showing signs of Christmas. Festoons and hanging baskets are being placed on boulevard light poles and colored lights are being strung much as in former years. The basket design this year was suggested by the wife of a local merchant who worked out details with Park Supt. Dick Smallenburg.

HHS Sets Up Hot Lunches

Principal Jay Formisma of Holland High School announced today that with the coming of winter weather Holland High School is doing all it can to try and provide places for those students who must remain at school during the lunch hour.

In view of the large enrollment in Holland High School and that classes are in session during all hours of the day, it becomes increasingly difficult to find a place for these boys and girls.

In order to provide them with a clean and adequate place, the Board of Education has rented the Bosman store on River Ave. This facility is being used for high school classes on a temporary basis during all hours of the day.

During a two-hour period from 11:30 a.m. to 1:30 p.m., this building is set up as a place for students to eat their noon lunches. One of the immediate problems that presented itself to Holland High School was providing some kind of a hot lunch program. Because the cafeteria facilities at Junior High School are already overcrowded and limited in the number of people that can be served, it was necessary for the high school to provide its own facilities.

For the purposes of a hot lunch program, the administrative staff of Holland High School is cooperating with the Fifth Wheel in bringing in hot food during this period. All students who find it necessary to remain at school during the noon hour are expected to be in this building for the purpose of eating a lunch brought from home or purchasing one from the facilities provided.

Traffic Counts Are Processed

Persons arraigned before Municipal Judge Cornelius van der Meulen the last few days included the following:

Ervin J. Koterling, of 130 East 24th St., speeding, \$13; John Volkers, of 77 West 21st St., interfering with traffic, \$12; Julius Slager, route 1, red light, \$7; Lillian May Knoll, Phoenix, Ariz., right of way, \$47 suspended after attending traffic school; James Eli Williams, Grand Haven, disorderly drunk, \$20.90 or 10 days; Carol Lee Ten Brink, route 1, Hamilton, stop sign, \$12.

Negligent Homicide Case Opens

**Girl Who Admitted
Driving Car Called
To Testify First**

GRAND HAVEN (Special) — A jury trial in which Leon Washington Moore, 17, route 1, Holland is charged with negligent homicide, opened today in Circuit Court.

Moore was charged following a two-car crash Aug. 13 on US-31 and New Holland Rd. in which Robert Hoffman, 18, of 37 Manley Ave., Holland, was fatally injured. First witness called was Bonnie Wierda, 16, of 196 Mae Rose Ave., Holland, confessed driver of Moore's car at the time of the crash. She testified Hoffman had said he would show her how to drive, but she was unable to stop the car when she came to the stop sign. She said she accelerated the speed in an attempt to avoid the other car.

On cross examination, Defense Attorney Louis J. Stempley became impatient with the witness and finally established she had never applied for or taken a state license examination and had no right to drive. Miss Wierda told Stempley she could have turned left to avoid the accident.

Next called was Dr. William Rottschaefer of Holland who testified the youth was dead when he arrived. He said the car had rolled over the youth.

Rose Nyland of Holland, who was sitting in the back seat of the Moore car, testified Bonnie did not know how to drive that car and Bobbie Hoffman had said, "I'll show you."

Deputy Sheriff John Hempel testified that Moore first told him he had been driving but later in jail the next morning Moore said Hoffman was driving. That same day Bonnie Wierda admitted she was driving, Hempel said. Deputy Peter Meuwissen also testified. Edward Slack, ambulance driver, said en route to the hospital Moore said, "I wish I had had those brakes fixed."

Neal Van Zanten of Grand Rapids, driver of the other car, testified he was driving between 45 and 50 miles an hour. He said he saw

6 Directors Elected to Chest Board

Less Than \$3,000 Needed to Meet This Year's Goal

Six new directors were elected to the board of directors of the Holland Community Chest at an annual meeting Thursday night in Cumerford restaurant. Close to 50 persons attended, the largest number to attend an annual meeting in many years.

Elected to three-year terms were John Fonger, David Hanson, Frank D. Kleinheksel and Donald Thomas; two-year term, Mayo A. Hadden; to one-year term, Robert Wolbrink. Members whose terms did not expire are Bruce Mikula, the Rev. W. C. Warner, James Taylor, Mrs. Vernon D. Ten Cate, Mrs. Walter Scott and Paul Danielson.

After the meeting the board met briefly to elect officers and named Taylor president; Hanson, vice president and Fonger, secretary-treasurer. Hanson and Fonger will continue as campaign chairman and co-chairman next year.

Riemer Van Til, executive chairman of this year's drive, announced that \$70,370 has been subscribed to date, leaving less than \$3,000 to go to reach the campaign goal of close to \$73,000. He said the goal should be met within the next few days.

Van Til explained that the Single Solicitation Plan, in which contributions by employees of 55 firms in Holland are matched by management, accounts for \$40,000 this year, or 6 per cent over last year. All other divisions to date have accounted for \$30,000 which is a 10 per cent gain over last year. The goal itself is 10 per cent over last year.

He added that non-SSP industrial division has raised 40 per cent more than last year; business and professional, 6 per cent more; national gifts, a 57 per cent gain; schools, an 11 per cent gain; public employees, 8 per cent. He said business and professional gifts were rather low and that home solicitation experienced a loss but this was natural in view of the fact that as other divisions gain they partially cut down home contributions. The special gifts division was new this year.

In order to make the program as efficient as possible, Van Til recommended more organization on solicitation and extending efforts on the fringe, and possibly eventually organizing the program on a larger scale to include both Holland and Zeeland. "There are many fine people living in the fringe areas, but they're not all fine enough to walk into our office voluntarily and make contributions," Van Til quipped.

Bernard P. Donnelly, retiring president, outlined functions of the Council of Social Agencies which handles and investigates all requests for the Holland Community Chest and also spoke briefly on the social welfare survey conducted in Holland by the Michigan Welfare League, results of which were made public at a meeting last week.

The main address was given by Earl Prosser of Lansing, executive vice president of the Michigan United Fund, who used for his subject, "United Campaigns, Your Community and You."

"United campaigns are efficient, economical and conserve time, allowing the staff to work on program instead of using all the time to raise funds. United campaigns build community unity, and it always gives me a great thrill as well as a feeling of humility to see the magnificence of a campaign which brings together people from all walks of life to work on community welfare."

Prosser outlined the history of the United Fund which raised \$8,000,000 the first year in 1947, compared with \$26,000,000 this year. "This experiment in philanthropy which began in Michigan is now accepted through the nation," he said.

Miss Wells was charged following an auto accident last March 9 on Harbor Ave., in which her companion, Ralph E. Smith, 23, was so seriously injured he still remains unconscious in St. Mary's Hospital.

Bussard in his opening statement claimed that Miss Wells was driving at an excessive speed and after her car left the road it traveled in the sand approximately 132 feet before hitting a double trunk tree approximately 10 inches in diameter. He further charged that Miss Wells had had intoxicating liquor and was under the influence of intoxicating liquor at the time the accident occurred, resulting in crippling injuries to Ralph E. Smith who is still unconscious in Grand Rapids.

New Allegan High School Ready for Students Jan. 1

ALLEGAN (Special) — Members of the Allegan Public School Citizens' Committee got a "sneak preview" over the weekend of the million-dollar high school for which they worked so hard two years ago.

Although the school is not yet complete, Superintendent L. E. White told committee members that it would be ready for occupancy by January 1, five months later than originally scheduled.

The school, located at Allegan's western city limits on M-40, will provide space for the top three grades. The present high school will become a three-grade junior high.

Some features of the new building which attracted the attention of committee members who toured it:

The huge gym, more than twice as large as the one now in use, which will seat 1,900.

The combination cafeteria and study hall — which can feed 150 at a sitting and shares a small stage with the adjoining visual aids room. The latter has a slanting floor to aid in showing films.

Two class rooms adjoining the library which can become a "little theater" by opening a folding curtain wall between them.

The snack bar located near the main entrance to the gymnasium. The home-like lobby in an expanded corridor opposite the library. Superintendent White said this area would be the school's first means of expansion, should the need arise, and could be converted into two classrooms very easily.

Other items commented on by the "tourists" included the flower boxes in many of the classrooms, the broad use of color (some 62 different shades were used), the public address system at which it

is possible to speak to individual class rooms, to all members of a single class, or to the entire student body.

Speaking to the committee, White said the school might be accused of having "frills," but pointed out that the cost — \$125.50 per square foot or \$14.40 per student — was well under the national average. Throughout the nation, he said, school construction costs ranged from \$13 to \$30 per square foot. He pointed out that no auditorium had been built because the community already had an excellent one in the Griswold Memorial building. He said halls were as narrow as state regulations permit and that ceiling were lower, resulting in additional savings.

In answer to an inquiry from the committee, White said that construction delays did not result in any increase in costs — "only in inconvenience."

The absence of a central study hall was explained by White who pointed out that students would attend 90 minute classes, half of which would be devoted to study. They will attend regular classes four days a week, on a rotating schedule, with the fifth hour each week open for special activities.

School Board Treasurer John Katherer told the committee that the original \$990,000 bond issue had grown to more than \$1,026,000 as a result of interest from short term investments during the construction period. Katherer also revealed that the elementary school bond issue might be paid off in 1960, two years earlier than scheduled.

White said a formal open house was being planned for after the first of the year, when all equipment is in place and the building is in use.

The Rev. Jhr. Medendorp of the Christian Reformed Church chose as his sermon subjects Sunday "A Call to Consecration" and "Builders of Towers." The Rev. Clarence Greiving of the Reformed church had as his subject Sunday morning, "What, Just One." The choir sang the Anthem "The Lord is My Shepherd." In the evening the Rev. Norman Van Heukekom of Hamilton and Rev. Greiving exchanged pulpits. The special musical number was a trumpet duet by Douglas and Rodney Folkert. They played "If Your Heart Keeps Right." THE COBBLER AND HIS LAST

For several weeks now Evangelist Billy Graham has been giving interviews about the world war tensions. Thus, to quote but one statement, at Minneapolis recently, he said that "the world is closer to war now than it has been at any time in the past decade."

Like all the rest of us, Billy Graham is a free-born American citizen. Such a person has the full right to express an opinion on any subject under the sun. An expression of opinion may be right, or it may be wrong. Even if completely wrong, the right to be wrong is of course one of any citizen's freedoms.

But believing any statement, for no other reason than that it is made by a celebrated evangelist, is quite another matter. Billy Graham is a specialist in evangelism, and it is quite proper to receive with respect any statements he may make in the field in which he has contact with professional fans.

But there is no reason to suppose that Billy Graham knows any more about the imminence of war than any other reasonably intelligent newspaper reader. In the Minneapolis interview Billy Graham said a lot of other things about the international situation, things that were so obviously merely a reflection of newspaper print or radio broadcasts, that they added nothing to the reader's information.

Yet such statements impress a great many people simply because they are uttered by a man famous in a field that has no connection with the subject under discussion. Sometimes they cause large masses of people to yield to panic and ill-considered action.

The Billy Graham interviews are samples of a well known pattern of alleged public information by famous people. Almost any day you can read or hear statements by all sorts of specialists about things that are completely alien to their fields of activity. A Nobel Prize winner in science who does not read a single word of creative literature a year has very positive conviction about the deterioration of today's books compared with those of an earlier age. A great many people sound off repeatedly about all sorts of subjects about which they know less than the cracker-barrel philosopher in the corner grocery store.

Centuries ago someone coined the aphorism, "Cobbler, stick to your last." That saying still holds good; it is probably more needed today than ever before. The "specialists" will not pay any more attention to it than they have ever done. But the common citizen has at least one defense: pay no attention to the extra-curricular pronouncements of the "specialists."

Paul's Triumphant Witness
Philippians 1:1-2; 12-21

By C. P. Dame

(Based on copyrighted outlines produced by the Division of Christian Education, National Council of the Churches of Christ in the U.S.A. and used by permission.)

Some people are very self-centered. They only think of themselves, their problems, aims, desires, hopes and longings. There are also some Christ-centered people in the world. They live not for self but for Jesus Christ. Paul lived for Christ and His kingdom—this lesson shows that plainly.

I, Christians can witness everywhere. Paul witnessed for his Lord while a prisoner in his own hired room in Rome. The church at Philippi had sent Paul a gift. Paul had founded this church. In Acts 16 the story of the founding of the church is recorded. Paul had no plan to go to Europe but the call of the Macedonian man which came to him in Troas made him go. He landed in Philippi and won a number of people to Christ and a church was established there. While Paul was a prisoner he sent this letter to the Philippians.

Sometimes Paul called himself an apostle but in this letter he calls himself Timothy, servant, that is, slaves of Jesus Christ. Paul felt that he was owned by Christ and that he was here to witness for Him and serve Him. The members of the church he addressed as saints. All Christians are saints—set apart for the service of the Lord. The church at Philippi had some kind of government for Paul mentions "bishops and deacons." The bishops were overseers, elders who were in charge of the spiritual work of the church while the deacons ministered in material matters.

II. Advancing the gospel is important. Paul made every situation count for the gospel. He was guarded day and night by soldiers to whom he was chained. To these men he spoke about Jesus and some were converted, and they converted others. Paul became a well-known prisoner among the soldiers. The imprisonment of Paul was not a calamity. The Christians in Rome were benefitted by Paul's imprisonment—they became more confident. Paul exerted a dynamic influence among them. One Christian of strong parts can do much for other Christians and for the cause of the Lord.

III. The motives of Christian workers differ. Some preached Christ "even of envy and strife; and some also of good will." Well, today there are those who preach Christ from selfish motives and some are prompted by love. What attitude did Paul take? Even though some were prompted by selfish motives Paul rejoiced in the fact that the gospel was preached, whether the motive was good or bad. And that is the position we all ought to take today. There is denominational rivalry in communities, there are churches organized where they are not needed and this does not seem Pauline. However it is Pauline to rejoice in the fact that the gospel is preached and people may be reached who otherwise would not be influenced by the gospel.

Paul was facing a trial before Nero. And he did not know what the outcome would be. He was determined to witness faithfully before the emperor. Paul was sure of the prayers of his Christian friends in Philippi. He was also confident that he would not bring disgrace upon the cause of Christ. The great desire of the Apostle was that he might be used of God to magnify Jesus Christ whether by his life or by his death. One passion filled the heart of Paul and that was to live for Christ. The church of today needs more members whose sole passion is to magnify Jesus Christ, everywhere and always.

Ottawa County Farm News

By Richard Machiele
County Agriculture Agent

Did you ever wonder if it would pay to feed more grain to your milk cows? Well, here's an easy way to find out. The best way to find the most profitable level of grain feeding is to make changes in the amount you are feeding each cow and see if the move pays.

The first step is to weigh each cow's milk to see how much she is producing per day at your present level of feeding. Next, increase the amount of grain to each cow by two to four pounds a day. In about two days you'll see any difference in production.

Then weigh the milk again. If the extra milk each cow is turning out is worth more than the extra grain she is getting, then it is profitable to feed her that much or possibly more.

You may find some cows in your herd that will pay their way with extra grain, while others won't. Cows that make little or no increase in production when you boost their grain feed may already be getting more grain than they need. You can check whether cutting the amount of grain these cows get will pay, with the same method in reverse.

Cut the amount of grain you are giving each of them. If the drop in production costs you more than the grain you have saved it would be poor business to cut. If the saving in grain is worth more than the drop in production you may well save the feed, or give it to some other cow that is willing to pay her way.

You can reduce calf feeding costs if: 1. You use good judgment in the amounts of milk and grain fed to produce healthy, thrifty calves that grow well but are not fat. 2. You watch the market and the milk check, and take advantage of surplus milk when you have it available. 3. You get calves on far grain or the herd ration at an early age. 4. If you use a milk replacer, follow the manufacturers' recommendations. 5. You follow the milk, starter and grain feeding plans outlined in "Calf Management Practices in Michigan" available at your county agricultural agent's office.

Feeding live yeast to dairy cows to increase milk production or feed efficiency is a waste of time and money. Tests at Michigan State University this past year show that feeding live yeast under controlled conditions has no effect on milk production, butterfat test or feed efficiency. Work at seven other experiment stations in the country and Germany supports the M.S.U. results.

Don Hillman, M.S.U. extension dairy specialist, says that some farmers have claimed better results when they fed live yeast to their cows. Hillman says it's difficult to tell how much of the reported increase can be attributed to the psychological influence of good salesmanship or how much to other changes in the herd such as fresh cows, nearly dry cows or different feeds.

Many market areas are going through the process of having producers and plants surveyed with the objective of using the Grade A label. It has been my observation that producers are consistently losing a number of points on two or three items. All of the items are in the area of sanitation involving milk, and score on the equipment and improper cleaning of the pulsator and air hoses. To avoid a reduction in score on these items, go over the surfaces of all equipment with the milk stone remover to restore a clean shiny surface. Perhaps the use of an acid cleaner every three or four days for your washing solution will avoid a future milk stone deposit on the equipment. Also, make it a practice to brush-wash the pulsator and air hoses every day to insure their cleanliness at all times.

Good housekeeping in general about the milk-house, milking parlor or dairy barn will help your score. This is not only important from the standpoint of inspection but also makes for more enjoyable working conditions.

Here is a brief summary of the past month's production records of the top herds and top individual dams in the W.A.D.A.M. testing

MIAA Coaches Pick Hope To Win League Cage Crown

MIAA coaches have given the pre-season nod for the basketball championship to Hope College, a check through the eight-team circuit showed today.

The rival coaches feel that Coach Russ De Vette's defending co-champions are the team to beat because Hope has its entire starting lineup back.

Rated right behind the Dutch are Calvin and Alma, both with complete teams returning. These two schools will square off Tuesday, Dec. 3 in one of the MIAA curtain-raiser.

Adrian and Hillsdale open the MIAA season at Adrian, Dec. 2 and Albion will play at Hope Dec. 4. The Britons, who tied the Dutch for the championship last season, open Dec. 2 at Tri-State.

In picking Hope to win, the MIAA coaches were thinking of junior center 6' 10" Paul Benes and sophomore guard 6' 1" Warren Vander Hill, both first team MIAA selections last season. Ray Ritsma, 6' 5" second team all-MIAA choice, captain and senior Dwayne Teusink, 5' 10" and 6' junior Jun Buursma round out the Hope first group. The Dutch have 10 lettermen back.

Calvin will have all five of its starters of late season games back. Senior center 6' 8" center Tom Newhof will lead the group with 6' 2" sophomore guard Bill Morgan, the playmaker. The Knights have seven lettermen.

Dave Vander Hill, 6' 4" sophomore forward and former Holland Christian star; Ed Start, 6' 2"

senior forward and John Vandenberg, 5' 9" junior guard are the other starters returning. Calvin finished with an 8-6 MIAA record. "We will be improved over last year but only time will tell if we can develop a floor leader and a well-functioning unit," Coach Barney Steen said.

Alma will be coached by Wayne Hintz, who coached Whitworth College last season. Four of the Scot starters are back led by 6' 11" senior guard George Carter. Ron Lude, 6' 5" senior, Stan Stolz, 5' 11" junior and Bob Postma, 6' 3" junior, are returning along with 6' 5" senior center George Arrick. Alma had a 6-8 league record and have nine lettermen.

Adrian, with Coach Greg Arbaugh calling the shots, must replace high-scoring Henry Hughes, who has graduated. Leon Harper 6' 4" senior, is expected to lead the Bulldogs who finished tied for third with a 9-5 league mark last season. Adrian has eight lettermen.

Albion will have seven lettermen, including three starters from its 10-4 co-championship team. Coach Elkin Isaac has senior guard 5' 9" Virgil Hall, 6' 5" sophomore center Conrad Stover and 6' 3" senior forward John Scott back. Gone are George Vivamore, the MIAA's most valuable player and high-scoring John Han-net.

Hillsdale has four lettermen on hand and Coach John Williams plans a rebuilding job. Former prep all-star 6' 1" sophomore Jim Reynolds will lead the Dales at center while three seniors, 5' 11" Ken Sippell, 5' 11" Tom Tate and 6' 1" Doug Edwards are other lettermen. The Dales compiled a 3-11 MIAA record last year.

Kalamazoo will be a definite darkhorse following its tie for third place last season with a 9-5 record. The Hornets have six lettermen and four of the boys who played regularly last season are back. They are 6' 2" sophomore forward Casey Clark, 6' 2" junior guard Bob Fletcher, 6' sophomore guard John Thompson and 6' 4" junior guard Walt Maser. Bob Ellis, 6' 3" senior, ineligible last season is also back. The problem is finding a replacement for Gary Morrison, who holds the school scoring record, and 6' 7" Doug Steward, who both graduated.

Olivet ended with a 1-13 mark last season and things do not look

Kenneth E. Scripsma of Holland was elected chairman of the Ottawa County Republican committee Friday night to succeed George Van Koevoering of Zeeland who has moved to East Lansing for a new position as executive secretary and director of public relations of the Michigan Railroad Association. Christian Seconds Drill

Holland Christian High School's reserve cage squad is rounding into shape this week in preparation for their first game of the season next Friday on the Civic Center Court against the University High reserves. The Little Maroons will play the identical 18 game schedule of the varsity.

Coach Clare Pott at present has 20 boys on the squad, made up of 10 sophomores and 10 freshmen. This represents about half the number of hopefuls who turned out for the reserve team when practice drills opened. Pott said he will wait a few games before determining whether another cut will be made. Not all 20 men practice each day, however, operating somewhat on a rotating schedule.

From early season workouts, it appears as if the Little Maroons will start with an exceptionally tall squad. No lineup has been named but the starting center will be either Ron Goodkye, sophomore, or Frank Visser, a freshman, both over 6'5" tall. Henry Sterken, a rugged 6'4" boy has the inside track for one of the forward spots.

Also fighting for this forward berth is John Voss, another sophomore and Harold Diepenhorst, a freshman also well over the 6' mark. Battling for the other forward berth are Ben Bonselar, a 6' boy and Jim Smith at 6'2". Both are sophomores. The guard spots are still wide open. Pott reports. Any one of five sophs could get the starting nod here. They are Bob Kapenga, Allen Disselkoen, Paul Brink, Ken Walters and Ed De Vries. All but De Vries hover just above or below the 6' mark.

Regardless of who starts, the entire starting lineup will be entirely new from last year. Two sophomores, Jack Bouman and Vern Wedeven, who played reserve ball as freshmen last year, have moved up to the varsity.

Other freshmen on the squad are Doug Windemuller, Ned Meurer, Alvin Compaan, Tom Broom, Dick Valk, Ken Pothoven, Ivan Volkers and Glen Wedeven.

Holland Reserve Grid Team Has Turkey Dinner

Forty-five Holland High reserve football players were treated to a turkey dinner and then awarded reserve football letters at a team banquet Thursday night in Lincoln School.

The Rev. John Hagans of the First Methodist Church gave the invocation. Athletic Director Joe Moran spoke on the value of athletics and Coach Loy Lovitt spoke on the life of the late George Gipp. Notre Dame All-American, and assistant coach Carl Selover gave a few remarks. Movies of this year's Michigan - Georgia game were shown by Russ Hornbaker.

GRANDSTANDING Sports Splinters

By Randy VandeWater

Talk has been started during the past football season to take steps to get a new scoreboard for Riverview Park.

Lee Kleis, official timer for the past several years, is the man behind the plan and he has been checking into the cost of a modern scoreboard.

According to Kleis, the latest type scoreboard with lighted minutes and seconds, similar to the Civic Center scoreboards, could be obtained for about \$2,000.

The installation could be done by city employees since Riverview Park is city-owned.

But contributions for such a scoreboard could come from the participating schools such as Hope College and Holland High School and possibly interested service clubs.

The clock in service at present was installed 10 years ago and at the time was one of the best types of scoreboards. But it has had to

Malcolm Mackay ... knows secrets of pep

weather every storm and this year the electric downfalls refused to work most of the time.

This desk is glad to see Kleis look into the project and hopes he is successful in the venture.

Malcolm Mackay, former Holland High athletic coach, popped into the news and on to the front pages of the Benton Harbor News Palladium and St. Joseph Herald-Press this week for his methods of obtaining school spirit at St. Joe.

Mackay, St. Joe High School principal, cancelled a pep meeting "because of lack of school spirit." It was before the Holland game and the Bears lost, 20-19. But a week later, according to the St. Joe prep paper, and quoted in the two dailies, Mackay called his own pep meeting and delivered his own pep talk. He told the student body how ashamed he was of the lack of school spirit and support of the team.

His talk helped. St. Joe won its final two games and the "raffers rang" during the pep meetings.

Mackay's style of pep talk is well-known in Holland. He took a group of Holland High basketball players who had compiled a 9-6 regular season record during the 1945-46 season and convinced them they could be state champions. And they were.

Muskegon Reeths-Puffer, Greater Muskegon's youngest high school, has applied to get into the Kenewa League and the West Michigan League.

It wants to get a good athletic start when the school adds the 12th grade next year.

Reeths-Puffer is Class D now but probably will be Class C next year and Class B by the 1959-60 school year.

Unanimous approval is needed to get into the Kenewa League. If admitted, Reeths-Puffer would succeed Hudsonville which is dropping its ties at the end of the school year to join the Ottawa-Kent (OK) league.

The Muskegon school has already scheduled football games with Fremont and Coopersville of the

Kenewa and Hart and Scottville of the West Michigan League for 1958.

The lighted football field and track are now being built and the football field will be ready by next season and the track will be finished by 1958. It will have an eight-lane 440-yard oval with a 220-yard straightaway. The new gym was opened last year and seats 1,000.

Holland eighth and ninth grade teams have been playing Reeths-Puffer teams for the past four years.

As for the Kenewa, this desk doesn't believe all of the schools will go along with the Reeths-Puffer proposal. The main reason we believe is because the school is located in a rapidly growing area and it soon may be bigger than the Kenewa schools.

Possibly Holland could look into scheduling Reeths-Puffer on a varsity level in a few years.

It's All-American time again and during the next few weeks, the names of this year's greats will be appearing in every publication.

Several All-American check lists have been received as players shined during the season and the initial teams have been announced.

It looks like a prerequisite this year might be to have a name that starts with K.

Just look. Oscar Fraley and Steve Snider of the United Press have picked teams and five boys with names starting with K are listed.

Dave Kaiser, Alex Karras, Charley Krueger, Bill Krisher, Walt Kowalczyk are all choices and throw in with that just for good measure, Dan Currie and John Crow, not a K but close.

The nine opponents netted a total of 815 yards for an average of 2.04 yards per carry. They made 95 first downs.

Through the air, the foes gained 1,032 yards on 54 completions in 164 attempts for an average of 32.9 yards per game.

The opponents scored eight touchdowns and made six extra points for a total of 54 points. The foes punted 46 times and had a punting average of 28.6 yards per kick.

Less than 100 yards per game should qualify Hope for one of the spots in the top 10 in the NAIA and NCAA small-college defensive statistics. Only Hillsdale, in Michigan, has a better average than Hope.
