HOLLAND, MICH., SATURDAY, DECEMBER 5, 1885.

WHOLE NO. 693.

LOCAL ITEMS.

READ the notice of the City Treasurer in our Special Notices.

TAX-PAYING time approaches and the growling will commence.

WORK on the life saving station at this place is progressing rapidly.

A HOUSE and lot on Land street is for sale cheap. See special notice.

LAMBERT's band will furnish music at the rink this Saturday evening.

OUR city "lockup" had nine occupants last Thursday night. Tramps.

HERE it is in black and white. When the snow comes down, coal goes up.

If you want a set of dishes or anything in the crockery line see Peter Stiekete & Co.

THE prospects are that strangers will be numerous and loafers few in the city this winter.

It is time our merchants were planting their Holiday "ads" in the columns of the News.

THERE is nothing being done about starting a creamery here yet. But there is plenty of time.

THE game law prohibits the killing of deer after December 1 and of partridges and quail after January 1.

THE weather has behaved remarkably well the past week and hopes for an open winter have been strengthened.

A PARTY of hunters, with Chas. Odell's hounds, killed a large deer weighing 180 pounds dressed on Monday last.

B. VAN RAALTE has a lot of nice new cutters. He is waiting for a snow storm and will then "boom" the business.

DIED:—Johnny L., infant son of Mr. and Mrs. P. De Spelder, of Douglas, on last Sunday, Nov. 29, aged 11 months and 6 days.

It is a good time now to subscribe for the News. Only \$1.50 per year. We shall try to give you the worth of your money.

THE schooners R. Kanter, Scud, D. A. Wells, and Norma, arrived in this port last Saturday and are "laid up" for the winter.

SERMON to young men by Rev. T. W. Jones next Sunday evening in Hope Church. Subject: "The secret of a prosperous life."

It is wonderful how much solid and interesting reading can be given for one dollar, the price of the *Chicago Weekly Herald* for one year.

THE Grand Haven *Herald* acknowledges a call from the "mule kicked broken armed editor of the HOLLAND CITY NEWS." That must be us.

A CHANGE in "car time" necessitated a change in our time table. Look at the corrected time in this issue and don't get left away from home.

REV. J. H. KARSTEN, editor of *De Hope*, went to Coopersville last Tuesday to preach a funeral sermon. There is variety in the life of some editors.

Those residents of Holland and vicinity who contemplate marriage will recollect that we print wedding invitations as reasonable as any printer in the state.

THE steambarge R. C. Brittain came in to this port last Thursday for refuge from the storm. The captain reports this an easy harbor to make in a heavy sea.

BRO. PLATT, of the *Fremont Indicator*, wants us to send him our shot gun by express or registered letter. We can't do that, we shall have to bring it in person.

THE holiday trade this year promises to be unusually good. At this early day it is observable that our merchants are making preparations for much larger sales than ever before.

In the absence of Dr. Steffens the pulpit of the First Reformed Church will be occupied next Sunday morning by Mr. D. Scholten, and in the afternoon by Mr. G. H. Hoopers.

THE many stoves that R. Kanter & Sons are selling cannot certainly be said to be a sign of an open winter. They have a large stock still on hand and are selling at low figures. Give them a call.

DURING the high winds of Wednesday and Thursday several chimnies burned out and caused some excitement. Too much care cannot be exercised with your stoves and chimnies at this season of the year.

THERE is a gang of young boys in this city who are possessed with vigorous lung power that succeed in making the evenings on Eighth street hideous with their howls. Parents, are your boys in the gang?

W. W. HOWBETT, formerly cashier at the freight house of the Chicago and West Mich. R'y at this station, has been appointed Post Master at Hamilton. Mr. John Kollen has received the appointment as the P. M. of Overisel.

NEXT Wednesday evening the members of Van Raalte Post G. A. R. are requested to be at the Post room promptly at 7:30 o'clock. The election of officers for the coming year and other business is to be transacted. Let every comrade be present.

THERE is some talk among the State press of an extra session of the legislature to amend the tax law. The law needs fixin', but an extra session of that body lasts too long and accomplishes nothing. The Supreme court should be called on to fix the law.

MR. FRED FAY and wife, of Battle Creek, were visiting friends in this city this week. Mr. Fay is one of the most popular passenger conductors on the Michigan and Ohio R. R. and is a brother of Conductor Ed Fay of the Chicago and West Mich. R'y.

THE members and friends of the Ladies' Aid Society of the Methodist Church are requested to meet in the lecture room of the church next Wednesday afternoon at three o'clock. Business of importance to the society is to be transacted and a large attendance is requested.

THE next Church Social of the ladies of Hope Reformed Church will occur next week Friday evening, Dec. 11th, at the Parsonage of the Church. The programme of the Music Committee will add interest to the occasion. A pleasant time is expected and a general invitation extended.

LIST of letters remaining in the post-office at Holland, Mich., Dec. 3rd, 1885: Samuel Habing 2, Bert Harper, Thomas Harper, Mary J. Heertan, Mrs. Jennie Keller, W. J. Miller, Peter Naber, Miss Katie Naber, E. Takken and Dora Williams. WM. VERBEEK, P. M.

LAST Tuesday evening Rev. Dr. Steffens was surprised by many of the members of the First Reformed Church who called in a body at his spacious residence on the corner of Tenth and Cedar streets and presented him with in the neighborhood of sixty-five yards of Brussels carpet. Mr. A. M. Kanter made the presentation speech which was happily responded to by the reverend gentleman.

MR. GEO. H. SOUTER is at work excavating and ditching for a pond for German carp. Mr. Souter shows great enterprise in introducing new and valuable acquisitions to our city. Last year he commenced the raising of celery in considerable quantity and we predict that in another season we will see others embarking in this profitable business. We hope he will be successful in his new venture.

THE front of our office building has been painted this week. The color, black, has excited the comment of nearly every one passing by. We answered the query: "Are you going in mourning for Vice President Hendricks?" just nine hundred and ninety-nine times and would have been at it yet had our good nature held out. We finally got *wiply* when the query was changed to "do you keep an undertaker's establishment?"

WE gladly contradict the item in our last issue which stated that the Butter Tub Factory of J. Van Putten & Co., had shut down. Instead of that they will run "full blast" through the winter and they have added new machinery and will manufacture, in addition to butter tubs, candy and tobacco pails. The firm have a good reputation for furnishing first-class tubs and pails and their products find a ready market.

A LARGE number of names are yet necessary to make our lecture course a success, as the course proposed is a better one than we have ever had here, it is hoped that a lack of support may not prevent its being carried through. The names of the gentlemen comprising the lecture committee are a sufficient guarantee that the course will be one of considerable merit, and one that our citizens may well take pride in during the coming entertainment season.

LAST Wednesday evening the freight house of the Chicago & West Mich. R'y was broken into and an attempt made to "crack" the safe. Several attempts were made to drill holes through the plates of the doors but without success. The parties were apparently amateurs at the business. They left a brace, marked H. De Wit, and a coal chisel. The entrance into the building was affected by breaking out a pane of glass from one of the windows, lifting the catch, and opening the window.

AMONG the recent changes in the Chicago and West Michigan R'y officers in this city, Mr. P. Conley, Train Master, now has charge of the supplying of empty cars to patrons of the road. We also notice another Western Union office has been placed in the room adjoining the Train Dispatcher's office. This new telegraph department is presided over by the genial dispatcher, Mr. John McLane. These changes we presume have become necessary on account of the increasing business of the road.

"GATES AJAR" may be a very beautiful thought when connected with Heavenly things, but when a person is hurrying home on a dark evening and runs against one of the many gates left ajar, his thoughts runs counter with his feelings and he gets sentiments badly confused. "Keep your blank old gates shut, or unhinge them." Would not an ordinance making it the duty of every property holder in Holland to swing his gate inward, be a desirable thing and save many broken shins and much profanity.

MR. HENRY TE ROLLER, our local architect, is gaining an enviable reputation, not alone in this city, but abroad, for being a first-class designer. He has furnished the plans and specifications for nearly all the large buildings which have been erected here during the past year, and many that are now in course of erection, among which is the residence for the president of Hope College, and the edifice for the First Reformed Church. Mr. Te Roller is also the architect of the residence that Prosecuting Attorney McBride contemplates building in Grand Haven next season. The people of this city are to be congratulated on having in their midst so competent an architect as Mr. H. Te Roller.

"PRICES talk." Recognizing this fact Mr. E. J. Harrington has made a new departure at his store. He has lately added a large and most complete stock of dress goods, flannels, ladies underwear and in fact everything pertaining to a first class dry goods store for which he has paid cash and has secured the lowest manufacturers' prices and will sell at correspondingly low rates. In the clothing department of his establishment he has several bargains and we recommend all to call and see him. He also has a very fine line of Boots and Shoes which he sells for, well, almost gives them away. Step in his business place and if you don't hear something drop in his prices we will give up all claims to a reputation for truth and veracity.

BELOW we give a statement of the vote on the "Court House Question." The statement is compiled from a canvass of the votes by the Board of Supervisors.

Lecture Course.

THE following has been prepared and will be submitted to our citizens in the interest of our lecture course:

"The lecture association of this city take pleasure in placing before the citizens of Holland and vicinage the following attractions for the season of '85 and '86 lectures by Col. Geo. W. Bain, the noted Kentucky orator. Prof. Alexander Winchell, of our own state university, Senator Van Wyck, of Nebraska, and either Burdette the "Burlington Hawkeye" man or Hon. Geo. R. Wendling, who is considered by many to be one of the finest orators in America, and also a first class musical entertainment. It has been our aim to secure the very best talent available, and at the same time bring the price within the reach of every citizen as follows: single season ticket, \$1.50; two or more, \$1.25 each; children under 15, 75 cts; single tickets for each entertainment, 50 cts. Reserved seats for all the season tickets without extra charge."

Prof. Chas. Scott, Prof. Geo. P. Hummer, Chas. L. Waring, A. M. Kanter, Committee.

Funeral of Vice President Hendricks.

THE funeral of Vice President Hendricks in Indianapolis last Tuesday was a national demonstration worthy of a great man. Delegations from all parts of the country were in attendance. Upwards of two hundred citizens from Michigan were present. Messrs. F. G. Churchill, M. W. Rose and L. T. Kanter of this city attended and report seeing a large crowd and very impressive ceremonies. The day was raw, overcast and damp, but not otherwise unfavorable. People thronged the streets, balconies, windows and house tops and seemed to be eager to do homage to the dead Vice President. In this respect the obsequies were as marked as any that ever took place in the republic. In the record of the life of Mr. Hendricks, as well as in that of his death and burial, there is much that is instructive. From the humble cabin in Ohio to the flower-strewn tomb in which he rests, stretches a career that has been marked by honor integrity and honesty. He will be affectionately remembered by the admirers of his sturdy character long after the mistakes which he may have made shall have been forgotten.

Not so Mutual as it Might Be.

IN 1883 there was organized in this part of the State a mutual fire insurance company, under the name of The Michigan Mutual Fire Insurance Company, with headquarters at Grand Rapids. Jacob O. Doesburg was appointed local agent to represent the interests of the company at this place. This new company, being organized upon the mutual plan in opposition to the regular stock companies, seemed to take well among the friends of the local agent. The mutual plan was considered so open and frank, nothing secret about it, you know! Within a short time some forty or fifty individuals, or firms, took out policies in this new concern. After a brief existence of about a year the management of the concern developed a shortage of about \$10,000. You see there was nothing secret about this either. The next thing was a "kick all along the line," and much anxiety was displayed by our mutual friends, who in turn were gently quieted down by the local agent. The rascality on the part of the officers of this company forced the concern into bankruptcy and Mr. A. L. Skinner was appointed receiver, and began to remind the victims of their arrears, varying in amounts up to \$150. There was a "slowness" in the responses to such an extent that Mr. receiver has requested the following parties, by summons, to appear in our local courts and contest his claims: C. Stiekete, S. Bos, P. Winter, E. Winter, B. Wynhoff, John Smith, Jacob Smith, R. De Maat, F. Sloeter, C. Dok, L. De Kraker, Simon Spruietsema, L. Spruietsema, John Kiektinfelt, Fannie Den Uyl, Mrs. E. Kruisenga, John Kruisenga, John Helder, John Stroop, George Naute, Peter Kleys, and others. It is said that this list will be followed up next week by another and a larger one.

Annual Meeting of the S. O. and W. A. Agricultural Society.

THE Articles of Association of the South Ottawa and West Allegan Agricultural Society provides for the holding of an annual meeting of the members of the Society to elect officers and to hear the annual report of the Secretary of the business affairs of the Society. Last Tuesday being the day and due notice having been

given that the meeting would be held in Mr. A. Vlascher's, the secretary, office, some twenty-five members, mostly from the country, responded and were present. It is to be regretted that no greater interest was shown by the people, and especially the business men of the city, in the affairs of the Society. The farmers in the immediate vicinity "turned out" well. The meeting was called to order by the President, O. E. Yates. The election of officers resulted as follows: President, Dr. O. E. Yates; Vice President, John Albers, Overisel; Secretary, A. Vlascher; Treasurer, O. Breyman; Directors, H. Boone, W. Diekema, A. M. Kanter, B. Van Raalte, R. Van Zwaluwenburg, Drenthe, J. W. Garvelink, Fillmore, and Jas. G. Boyen. The report of the secretary, which we print below, was read. A vote of thanks was given all the officers. The Secretary and Treasurer were each presented with a life membership ticket. The salary of the Secretary was left for the executive committee to fix. The meeting then adjourned.

SECRETARY'S REPORT.

Mr. President and members of the S. O. & W. A. Agricultural Society:

Herewith we beg leave to report to you the doings of your Executive Committee pursuant to instructions received and the general powers conferred upon them. Your Committee would first respectfully report that they found in the course of their negotiations with the Council of Hope College, for the purpose of obtaining from it a lease for a term of years of the premises which we now own, that no lease could be obtained upon satisfactory terms, since the Council was willing to lease only subject to the privilege of selling at any time, we, however, to have the privilege of the first refusal. Under these circumstances we did not feel justified to lease the grounds and make material improvements upon them. Thereupon your committee, upon a satisfactory offer being obtained, have agreed to purchase and did purchase the premises we first were instructed to lease, to-wit: forty-one and sixteen one hundredths acres at \$100 per acre, the terms of payment being \$500 at date of executing deed and the balance in installments of \$500 a year to commence in October, 1887, interest at 7 per cent per annum. The papers have been drawn and executed to this effect and the first \$500 payment has been made. Your committee would further report that they have caused said premises to be enclosed by a good substantial board fence 7 feet high, at a cost of about \$500, and that they have caused a Floral Hall and Grand Stand to be erected on said grounds at a cost of \$740, including the painting thereof, and that they have caused sheds and stalls to be constructed at a cost of \$300 exclusive of much volunteer labor; and further that they have caused a race track to be surveyed and graded according to the most approved style and for the greater part have covered it with clay all at a cost of about \$625 exclusive of much volunteer labor. All of the above, including volunteer labor, is about \$3,000 and is a permanent investment and improvement on the grounds of the Society. In addition to the above the Society has expended in payment of premiums, \$535, and \$325 for printing, music, and other running and incidental expenses. Your committee would further report that they have sold:

14 honorary life membership tickets @ \$50, \$ 700
24 life membership tickets @ \$25, 600
4 life membership tickets @ \$15, 60
40 ten year tickets @ \$10, 400
110 five year tickets @ \$5, 550
123 annual tickets @ \$1, 123

Total amount for membership tickets sold, \$2,493

Of this there is still unpaid \$117.50; and your Committee further reports that all the other receipts in addition to membership fees are \$1,279.13. The first annual fair was held on the 6, 7, 8, and 9th days of October, 1885. The number of entries made was about 1800. Five races were had on the track which was in a fair condition. The weather was unfavorable, yet the large number of people in attendance, the general satisfaction expressed, and the good order and management gave evidence that our efforts were crowned with success. Your committee congratulates itself and the Society that it is able to say that notwithstanding its heavy expenditures for the acquisition of property and permanent improvements it has been able to meet all its obligations as fast as they became due and has promptly paid in full every premium awarded as soon as called upon, and is now able to close its first fiscal year, after paying every obligation, with a small net balance, \$110.17, in its favor.

THE EAST.

RAIL to the amount of \$60,000 each has been given by William S. Warner and J. Henry Work, indicted for complicity with Ferdinand Ward in defrauding the Marine Bank of New York of \$70,336.75. The penalty for the offense is a term of from five to ten years in the Penitentiary. The West Shore Road was sold at Newburg to J. Pierpont Morgan, Chauncey M. Depew, and Ashbel Green for \$23,000,000. The residence of Jay Cooke at Chelton Hills, Pa., was robbed of diamonds and jewelry valued at \$2,300. The exports of product from New York for the week were valued at nearly \$5,700,000.

CYRUS W. FIELD resigned a Directorship in the New York and New England Road and flung his stock upon the market because the bid made by himself and Russell Sage for \$1,800,000 of second-mortgage bonds was rejected by the State of Massachusetts. The protest made by Field was answered by an excoiation by Governor Robinson. Four children were killed and several wounded in Jersey City by the fall of a condemned four-story building at No. 44 Morris street.

At a meeting of the Fenian Brotherhood in New York the Chief Executive was exonerated from censure for contributing \$100 to the destroyer of the Andre monument by a vote of 197 to 6. The imports of general merchandise at New York for the week aggregated \$6,700,492, exclusive of dry goods. Three men were instantly killed and another received a fracture of the skull by an accident on the aqueduct now under construction above New York.

THE WEST.

TELEGRAPHIC reports from the winter-wheat region to the Chicago Times show a lessened acreage in Illinois, but the prospects are regarded as the best for several years. Michigan has sown the usual breadth, and in the main has a thrifty crop. Indiana reports a larger acreage and generally excellent condition, although the fly has done some damage. Kansas has a greater acreage in wheat, and pronounces the chances better than at the same time last year. In Nebraska, with about the same acreage, the plant looks well, but does not gain in favor. From the limited area in Ohio the crop is reported in better condition than usual.

THE militia, police, and municipal officers of Indianapolis, on Sunday, the 29th ult., escorted the remains of Vice-President Hendricks from his residence to the Court House. Every building on the line of march was draped in mourning. The body lay in state Sunday and Monday, and was viewed by thousands of people. Mrs. Hendricks sent a message to President Cleveland urging him to remain at Washington, owing to the weighty public reasons that exist against his coming West to attend her late husband's funeral. Many public men, both Republicans and Democrats, called upon the President and urged him not to make the trip, and he received many letters and telegrams on the subject, opposing his going. The Executive finally decided to heed the advice and remain at the capital. He said:

"In the first moment of the shock of Mr. Hendricks' death I yielded to my inclination, and declared my intention to be present at the funeral. Of course, in reaching that conclusion I did not put out of view a peremptory press of public business or what I deemed a sufficient consideration of my duty to the people. The public business I thought I could dispose of by additional application and more hours of work, and I considered it to be my duty to the people to answer a tender sentiment of respect and affection to the dead Vice President which they great honor. I am satisfied now that I was at fault in considering the question, and that I did not take as comprehensive a view of the duty I owe the public as I should—that is, I did not look at every phase of it, and I am afraid my strong personal desire somewhat clouded my judgment. I am now reminded by some of the best and most patriotic and thoughtful of our citizens that the real and solemn duties of my office are at the National Capital, and that in the present peculiar and delicate situation I ought not to take even the remote chance of accident incident to travel to gratify a sentiment so general and so characteristic as that involved in this subject. I have been profoundly impressed by these considerations, but most of all influenced by their strong and unanimous presentation by the devoted friends of the late Vice President living in his State and city, and their indorsement by the noble and patriotic woman who, in the infinite sorrow of her widowhood, reflects the spirit and character of her honored husband in her solicitude for the public good. I am now certain that neither my desire, nor the sentiment referred to, nor the difficulty that attends in this case a change of design, nor any stubborn idea of heroism, will justify me in subjecting the country to any greater chance of disaster than attends my performance of strict duty here, and that I ought not to inflict upon my countrymen even the unrest and anxiety attending my departure, absence, and return in attendance upon the funeral ceremonies."

THE municipal ordinance of Salt Lake against lewd conduct was declared void by Chief Justice Zane on the ground that the Council had no right to pass it. The Mormons express deep indignation, and threaten to make further arrests of Gentiles under an old ordinance. The Mayors of the various cities in Iowa having a population of more than 4,000 will meet at Des Moines Dec. 16 to discuss the liquor problem, with a view to influencing legislation. The second annual convention of the Cattle and Horse-growers' Association at St. Louis ended on the 28th ult., after a week's session. The association selected Chicago as the place and the second Monday in November, 1886, as the time for holding the next convention. Federal soldiers drove the cattle of Burke & Martin from lands in Oklahoma and burned their buildings.

THE SOUTH.

At Atlanta, Ga., Henry C. Pope probably fatally shot Colonel Albert Howell, brother of the editor-in-chief of the *Daily Constitution*. Pope had asked questions regarding the arrival of a train, and Howell, answering that he knew nothing about it, Pope called him a liar. The Colonel then knocked Pope down with an inkstand, and the latter upon rising fired the fatal shot.

A TRAIN on a narrow-gauge road in North

Carolina was thrown down an embankment near Gastonia and twelve passengers were seriously injured. Another train was sent into the river at Warm Springs, by which an engineer and fireman lost their lives. R. L. Fulton, Mayor of Galveston, assaulted Colonel R. G. Lowe, managing editor of the *News*, with a large oyster cane. Both were bloody when separated by the spectators.

THE stallion Epaulet, worth \$300 three years ago, was sold at Lexington, Ky., to Robert Steele, of Philadelphia, for \$22,500.

Antoine Pellegrini was killed in a street duel at New Orleans by Charles Camp, who accused him of having insulted his family. A death from yellow fever occurred at Galveston, Tex.

WASHINGTON.

SECRETARY MANNING has dismissed a clerk because he was impertinent to a stranger who called to inquire about the business of the office, and this prompt action will have a good effect upon all the departments. Reports received at the Treasury Department indicate a growing scarcity of 10-cent silver pieces in all parts of the country. In accordance with instructions from the Treasury Department about \$40,000 in dimes were coined at the Philadelphia Mint about a week ago. These, however, were found insufficient to supply the demand, and the Superintendent of the Mint has since been instructed to coin into dimes all the uncurrent subsidiary silver coin there may be at the mint. A Washington telegram of Nov. 25 says: "There was a full attendance at the Cabinet meeting yesterday. The session lasted about three hours, and was devoted almost entirely to the consideration of the President's message to Congress. The document is in an advanced condition, and will be completed several days before the meeting of Congress. One of the questions discussed to-day was the order in which certain topics should be considered. The President favored the custom adopted by a majority of his predecessors as to the order of precedence, with a few exceptions, and was sustained in his views by all the other members of the Cabinet."

WASHINGTON special: In his annual report, Attorney General Garland will strongly recommend the reorganization of the Federal judiciary. He said to-day: "The subject has been agitated for twenty years. It has been urged and argued, but has thus far failed. Now it seems absolutely imperative that some action be taken. The Supreme Court is three years behind with its docket, and is constantly getting further behind."

A WASHINGTON special says: It is probable that the President's recommendations on the tariff question will be much less radical than has been supposed. One of the principal Treasury assistants says that the President's policy will be "slow but sure." It is known from various conferences which have been held that, while Mr. Cleveland believes in "tariff for revenue only," he is very reluctant to enter into a contest with the protected interests, or do anything which they will regard as an attack upon business. For this reason it may be expected that the President's tariff recommendations will be conservative, if not timid.

POLITICAL.

APPOINTMENT CLERK HIGGINS says he is not a candidate for Doorkeeper or Sergeant-at-Arms. He says he is "too good a Democrat to hold one office and apply for another. However, if they elect me it would be a different thing." Senator Cockrell has for years enjoyed great popularity in Missouri, says a Washington dispatch, and he is one of the very best political managers in the country, but some opposition to him is being developed. His successor will be elected by the next Legislature to be chosen in Missouri, and wire-pulling is already going on to secure the election to the Legislature of the friends of Cockrell and his rivals. Senator Cockrell is a man of much ability and of unquestioned integrity. With Senator Cockrell on one side and Senator Edmunds on the other, it is pretty hard work to get a job through the Senate undetected. But his opponents, or the friends of rival candidates complain that he has been taking too good care of his own and his wife's relatives. It is also complained that Senator Cockrell is too high-toned, and doesn't look after the boys who do the work. The principal candidate in opposition is Col. James Burnes, a man of ability, of very great wealth, and the owner of *The St. Joseph Gazette*. Judge Sherwood, of Southwestern Missouri has announced himself as a candidate.

At a special election in Atlanta, Ga., after a most extraordinary campaign, prohibition carried the day by a majority of 224 votes. A Grand Army post of Philadelphia has presented President Cleveland with a series of inquiries in regard to the removal of Gen. H. S. Huidekoper from the postoffice in that city, conveying the idea that a Union soldier has been discriminated against in favor of a civilian.

THE following Federal appointments are announced from Washington:

Richard D. Lancaster to be Surveyor of Customs for the port of St. Louis, Mo.; Oliver P. Remick to be First Assistant Engineer in the marine service of the United States; M. L. Cormack, of Grand Forks, Dak., to be Secretary of Dakota Territory; To be Registers of Land Offices: Robert V. Yeakle, of Little Rock, Ark.; at Little Rock, Ark.; Henry C. Tipton, of Melbourne, Ark.; at Harrison, Ark.; Chester E. Warner, of Colfax, Washington Territory; at Walla Walla, Washington Territory; Bartholomew Coffey, of Salem, Oregon, to be agent for the Indians of the Umatilla agency in Oregon.

Jacob Schoenhof, of New York, to be Consul of the United States at Tunstall, England; Frank J. Parke, of West Virginia, to be Principal Clerk of the Public Lands; William K. Ramsey, of Arkansas, to be Register of the Land Office at Camden, Ark.; John R. Thompson, of Arkansas, to be Receiver of Public Moneys at Camden, Ark.

Postmasters: Edward D. Porter, at Joplin, Mo.; James S. McGee, Paris, Mo.; D. W. Scott, of Galena, Ill.; John Marcus Hamilton, of Lloyd N. Lease, Tiffin, O.; W. E. Cannon, Merrill, Wis.; Robert J. McNally, Keosauqua, N. Y.; Frank White, Murfreesboro, Tenn.

GENERAL.

DURING the month of October 25,918 immigrants arrived in this country, a decrease of 6,179 compared with October, 1884. The visible supply of grain, as compiled by the New York Produce Exchange, is: Wheat, 54,635,343 bushels; corn, 4,140,202 bushels.

THE Mexican town of Linares, controlled politically by the Federal General Martinez, has joined in the revolt against the State government of Nuevo Leon. A physician ordered to investigate hog cholera in Ontario reports himself unable to find a case.

NOTWITHSTANDING the predictions that the Canadian Government would not carry out the sentence of death passed upon the eight Indians concerned in the Frog Lake massacre and other outrages during the rebellion, the entire squad was hanged by the neck at Battleford, Northwest Territory, on the 27th of November. Three others were condemned with the eight, but the sentence was commuted, and Dressy Man and Charlebois, the Indians who killed a crazy squaw, were respited. Since the sentence of death was passed upon the Redskins they had been constantly attended by priests. They all confessed their crimes and expressed their indifference as to their fate. Wandering Spirit, who belonged to Big Bear's band, who was known to be the worst Indian in the Northwest, was responsible for the Frog Lake massacre, and when talked to by the priests he remained defiant, and frequently said if he had the chance again he would do the same thing. The total number of failures in the United States reported to *Bradstreet's* last week was 225, as compared with 234 the previous week, with 237 in the like week in 1884, 232 in 1883, 186 in 1882, and 115 in 1881. The total number of failures in the United States from Jan. 1 to Nov. 27 was 10,086, against 10,171 in a like portion of 1884 (a loss of 85), as compared with 8,816 in 1883, with 7,049 in 1882, and with 5,447 in a like portion of 1881. A subscription list has been opened in Montreal to raise funds for the benefit of Reil's family. It is designed to secure co-operation in other parts of Canada and the United States.

THE steamer Idaho, from Sitka, Alaska, has arrived at Victoria, B. C., and brings wonderful tales of the richness of the Cassiar gold fields. The report of the Government officer who visited the Granite Creek mines is published. He states that he saw \$400 taken out of a rocker in a single afternoon, and several claims are yielding from \$250 to \$400 a day. The steamer Idaho brought \$70,000 in gold dust from Douglass Island.

FOREIGN.

THE main body of the Serbian troops has been expelled from Bulgaria. King Milan is preparing for a final stand against the victorious Prince Alexander. Gen. Jovanovitch, late commander of the Danube division of the Serbian army, to whose disobedience of orders is attributed the recent disasters from Slivnitsa to Saribrod, and who was dismissed, has committed suicide. In a nationalist convention at Drogheda, Ireland, Mr. Callan demanded the reason of Mr. Parnell's objections to his re-election to Parliament, and was promptly informed that it was his drunkenness in the House of Commons. Mr. Callan admitted the charge, and vainly appealed to the electors against a packed convention. The Allan line steamer Buenos Ayres carried small-pox from Montreal to Glasgow, where she has been quarantined.

A NUMBER of Carlist chiefs are making preparations for a Carlist rising in Spain. Marshal Serrano, the well-known Spanish General and statesman, died in Madrid, aged 75. Caceres, the Peruvian revolutionary General, has defeated the Government troops, and is reported to be marching on Lima.

CABLE dispatches report that the entire army of Bulgaria attacked the Servians on the 27th of November and was repulsed with heavy loss by artillery fire. Large bodies of Serbian troops were hurrying to the front. Widdin was still under bombardment. A rumor was sent out from Vienna that King Milan had secretly visited that city to secure assistance from the Emperor.

THE Tory organs in London deny that there is an understanding between the leaders of that party and Mr. Parnell. This is held to indicate that the Tories feel strong enough to be independent of the Irish vote in Parliament. Mr. Parnell's late manifesto is said to have saved the Tories at least a dozen seats.

A CABLE dispatch of the 30th ult. says: The election returns show a Coeservative gain of 80, against a Liberal gain of 36. The political situation indicates that the Conservatives will remain in power. It now seems impossible for Mr. Gladstone's party to secure that majority of members in the next Parliament which Lord Salisbury has declared necessary to prove that the British people desire a change in the government. Gladstone is English above all things. He has it in his power to deprive Parnell of all the benefits on which he counts, in the control of a solid Irish party.

Dispatches received at Vienna state that the Bulgarian garrison at Widin made a sortie, but was repulsed after desperate fighting, in which many bayonets were crossed and hand-to-hand struggles occurred. The slaughter was heavy on both sides. A severe battle was fought at Piot, in which the Bulgarians forced the Servians to retire at the point of the bayonet, and captured that town. The Porte has telegraphed to Prince Alexander asking him to stop the advance of the Bulgarian army in Serbia. The element of uncertainty still exists regarding the future of Spain. A state of siege has been declared in a large portion of the country, and outbreaks of Revolutionists and Carlists are looked for at various points on the frontier, if not in Madrid also. It is thought, however, that the military at the disposal of Gen. Campos will be able to cope with any rising that may take place. The steamship city of Pekin, arrived at San Francisco, brings advices that the steamer Greyhound, Captain C. W. Sieder, trading between Hong Kong and Pakhoi, started from Hong Kong Oct. 17 with 120 passengers and a general cargo. About seventy miles from that port about forty apparently innocent passengers suddenly opened fire on the crew. The captain was killed and the crew were batted down in the hold. The pirates held the vessel nine hours and escaped with \$10,000 in plunder. Under instructions from the War Office in London, preparations are being made at Alexandria and Cairo for a new expedition to Dongola, comprising about 6,500 men.

ADDITIONAL NEWS.

JOHN DILLON, the Nationalist, has been defeated for Parliament by Lord Ernest Hamilton. Osman Digna, according to a letter to a Rome newspaper, is not dead, and that he avenged the prisoners hanged in Abyssinia by massacring all the people of Kassala, Europeans included. King Theebaw attempted to arrange an armistice with Gen. Prendergast, but was compelled to surrender the forts at Ava and permit the British to move forward to Mandalay. A horrible and shocking sight was witnessed at the hanging of Robert Goodale, at Norwich, Eng. A fifteen-stone weight was used and the drop was six feet. When the drop was sprung the rope rebounded violently and Goodale's head was severed from his body, the trunk and head falling to the ground, the head lying at the feet, and blood oozing freely from both the body and head. The spectators were horror-stricken and became sick at the scene. An inquest was held. The hangman said Goodale's head looked as though it had been cut off with a knife. He had a thin vertebra. The surgeon said the hangman was sober, cool and collected when he sprung the trap. The jury returned a verdict in accordance with the facts, attaching no blame to the hangman.

THE New York papers contain the announcement that the Stock Exchange firm of W. E. Connor & Co., in which Jay Gould is a special partner, will be dissolved December 31, and not renewed. Jay Gould himself, in an interview, says: "I have decided to leave Wall street. I have been down there twenty-five years, and now that I am about fifty, I think I am entitled to retire. Let some of the younger men take care of things down there." If the country could really believe Mr. Gould's statement to be true there is nothing it would hail with more satisfaction. General Shaler, commander of the militia of New York State, was arrested at New York on a charge of bribery in connection with the purchase of army sites.

HOG-CHOLERA carried off one-third of all the swine in Central Illinois the present year. John C. Turner, Frank Hurst, Hugh Ryan, Alonzo M. Wells, and James Dorman, five of seventeen prominent citizens of Denver who had been indicted at Omaha for land frauds in Nebraska, were taken by a Deputy United States Marshal to Omaha last week. Other arrests will soon be made.

A MOVEMENT has been inaugurated at New Orleans to erect a monument to John James Audubon. The distinguished ornithologist was a native of that city. The movement started among the children of the public schools, who propose to contribute a nickel a month to a fund for the monument.

ABOUT two weeks ago the wife of the celebrated Mr. John L. Sullivan, of Boston, got a divorce from him. Mr. Sullivan, being domestically free, went to Washington and entered into a domestic contract. The bride was Miss Annie Livingston, a young and pretty serio-comic singer.

Customer—Waiter, you may bring me a plate of green turtle soup.

Waiter—Yes, sir.

(Customer waits several hours and waiter reappears.)

Customer—See here, waiter, this is not what I ordered. This is "mock turtle."

Waiter—Yessir.

Customer—Well, where does the green come in, waiter.

Waiter—In the customer most generally, sir.—*New York Mail and Express.*

The Mathematical Philanthropist.

A French philanthropist and scientist at New York wishes to form a syndicate, with from \$5,000 to \$100,000 capital, to "break the bank" at Monte Carlo. He is not a gambler, but he has made a life-long study of roulette, and insists that he can beat the game and win \$3,500,000 in a year. If the syndicate is formed, he is to have a royalty of 25 per cent, for his services.

MEN OF NOTE.

Hon. Alfred P. Edgerton, One of the Civil-Service Commissioners.

Alfred P. Edgerton, of Indiana, who has been made Chairman of the Civil-Service Commission, is a native of Plattsburg, N. Y., and is now seventy-seven years of age. He was in early life a clerk in a mercantile house in New York City, but while yet a young man went to Northern Ohio as the agent of the Northern Land Company. He established a law office at Hicksville, Defiance County, at which 140,000 acres of land were sold. In 1852, Mr. Edgerton

found himself the owner of 40,000 acres in Northern Ohio, which he sold to actual settlers on the most liberal terms as regarded payments. He reserved for himself a country-seat near Hicksville, which he still holds, and where he resides part of each year. In 1845 he was elected to the State Senate of Ohio. Here he opposed Alfred Kelley, leader of the Whigs in that body, and brought himself into wide repute thereby. In his official action he evinced such knowledge of the finances of the State that he was strongly urged for Governor by leading Democrats. In 1848 he was a delegate-at-large to the Baltimore Convention. In 1850—after the close of his term in the State Senate—he was elected a member of Congress from the Toledo District, and re-elected in 1852, and was the Chairman of the Committee on Claims of that body. In 1853 he was elected by the Board of Fund Commissioners the Financial Agent of the State of Ohio to reside at New York City. In 1856 Mr. Edgerton was Chairman of the National Democratic Convention at Cincinnati. In 1859 he was very appropriately appointed by the Ohio Legislature one of the committee to investigate frauds upon the State Treasury, and made an elaborate report, exposing the frauds and their authors. In 1857 he removed to Fort Wayne, but retained his citizenship in Ohio until 1862. Two years later he was a delegate-at-large to the Chicago Convention. In 1859, in connection with the late Pliny Hoagland and Hugh McCulloch (late Secretary of the Treasury), he became lessee of the Indiana canals, and then general manager. In 1868 he was nominated on the ticket with Hon. T. A. Hendricks for Lieutenant-governor of Indiana, and was defeated by less than 1,000 votes. He declined the nomination of the O'Connor Democrats for Governor in 1872. By appointment of ex-Governor Porter, Mr. Edgerton is now a Director of Purdue University. He has been engaged in many successful business enterprises, is in easy circumstances, and is a practical student of public affairs. He is a man of such high integrity that he paid over \$500,000 to the creditors of his brother-in-law some years ago, although his legal obligation was, at the outside, \$200,000. He was for many an intimate friend and associate of Chief Justice Waite, who, with Senator Henry B. Payne, Governor Gray of Indiana, Vice President Hendricks, and many leading citizens of Ohio and Indiana, warmly indorsed him as possessing qualities peculiarly fitting him for the work of the Civil-Service Commission. He is in fullest sympathy with the reform.

ELECTION ECHOES.

The Official Figures in New York. The complete official vote of the State of New York for the State officers voted for at the election held Nov. 3 has been published. The vote of Davenport, Republican, for Governor, was 489,737; for Hill, Democrat, 501,418; for Jones, Greenbacker, 2,127; for Bascom, Prohibitionist, 30,866. In 1884 Blaine's vote in New York was 562,001, Cleveland's 563,048, Butler's 16,955, St. John's 24,999. In a total vote of 1,171,263 Cleveland had a plurality of 1,047. The total vote at the last election was 1,024,138, or only 147,125 below the very heavy vote of 1884. There was a falling off in the Republican vote of 72,274, and a falling off in the Democratic vote of 61,630. There was a falling off in the Greenback vote of 14,828, and an increase in the Prohibition vote of nearly 6,000.

Official Count in Dakota.

LAI'D TO REST.

The Remains of Vice-President Hendricks Consigned to the Grave

Indianapolis Crowded with Distinguished People to Pay Respect to His Memory.

Impressive Services in the Church Where He Had Worshipped During His Lifetime.

Lying in State.

The remains of the late Vice President Hendricks were in state in the City Hall in Indianapolis from Sunday forenoon to Monday forenoon, the 30th ult., and were viewed by over 50,000 people. So great were the crowds at times that the military and police were called into requisition to keep the mass moving and to prevent a blockade. When the doors of the building were closed a waiting crowd, numbering thousands, stood in line trying to take a last glance at the face of the dead statesman. At 4 o'clock p. m. Monday the doors were closed, and the casket was borne through the south entrance to the street, where it was placed in the hearse, and escorted by the four Indianapolis military companies, was returned to the parlor of the homestead. All along the line of march the people flocked to see the sad spectacle.

Public Sorrow.

On Tuesday, the 1st of December, the mortal remains of Thomas Andrew Hendricks, the fifth Vice President to die during his term of office, were conveyed to the tomb prepared for their reception. The clergy of Indianapolis, without respect to sect, joined in the obsequies, the bells of all the churches tolled a requiem, and the presence of the populace in the column which followed his funeral car, or stood as silent spectators of the solemn spectacle, attested their fealty to his memory. The early morning trains on all the railways brought delegations from the national capital and all the leading cities of the Union, to gather with an influx of people from all the interior cities and hamlets of Central Indiana and Illinois. The train arrivals swelled the multitudes on the streets to an extent to impede the ordinary progress on all the chief thoroughfares. The emotions of mourning which began to appear on public and private buildings the day of the Vice President's death had grown in quality and design until the whole city was in funeral garb. Washington street presented an almost unbroken line of draped houses, while on every business street, and even along the residence streets, the people were lavish in their display of the signs of public sorrow. Portraits of the deceased, all shrouded in black, were profusely hung in windows. The general effect told in mute eloquence of the high respect with which the people of Indianapolis regarded their fellow-townman.

At the Modest Home.

One of the central points of attraction for the visiting multitude was the modest home of the late Vice President, a plain, two-story brick structure. On the front door of the house was a black rosette, from which was pendent a strip of black crape, which constituted the only outward emblem of mourning.

The scene presented in the interior of the house, however, carried with it all the evidence of death. Emblems of mourning and memorial floral designs were at hand everywhere. The oil portraits of Mr. and Mrs. Hendricks were almost hidden in banks of flowers and trailing smilax.

The most notable representation of the designs in flowers was that of the log cabin in which Mr. Hendricks was born in Ohio. It stood at the head of his coffin remains, and was the work of ladies of the city, where Mr. Hendricks had formerly lived. It was six feet in length and four in height, its sides being composed of calla lilies, hyacinths, carnations, and roses. The roof was of English ivy and smilax, and the chimney of red and white carnations. On one side of the miniature structure, in purple immortelles, was the inscription: "The Home of My Boyhood," and beneath, "Shelbyville."

On the end of the cabin was suspended a black satin banner bearing, in letters of gold: "God's fingers touched him and he slept," and the second inscription underneath: "Shelbyville mourns her distinguished and gifted son."

At 9 o'clock Mrs. Hendricks entered the room for her last leave-taking, accompanied only by her brother and Mrs. Morgan. The ordeal was most trying and the desolate woman seemed to be utterly prostrated, clinging to the last to the clay so soon to be hidden forever from her view, and impressed with the placid and life-like appearance of the dead, she desired to preserve this last scene, and so, late as it was, she sent for a photographer to take a picture of the casket.

Shortly after this the pall-bearers arrived. The draped hearse and the funeral train for the family and friends were marshaled before the door, and preparations were made for the final removal of the body. This was done without further leave-taking.

At the Church.

The police and military kept the curious but always respectful mass of people out of the way, and the little parade moved quietly with its military escort through the densely lined streets to the Cathedral of St. Paul. The casket was borne into the church at 11:40 o'clock, the vast congregation having already been seated, with the exception of the immediate relatives and the church vestry. The officiating clergy, four in number—Bishop Knickerbocker, of the Indianapolis Diocese; the Rev. Dr. Stringfellow, of Montgomery; the Rev. Dr. Fulton, of St. Louis, a former rector of St. Paul's; and the Rev. Dr. Jenckes, the present rector—in their robes of office, met the remains at the main entrance of the cathedral on Illinois street. The body was borne up the central aisle, the clergymen and members of the vestry going in advance. Bishop Knickerbocker, who voiced the opening sentence of the burial service, "I am the resurrection and the life," followed by the Rev. Drs. Stringfellow and Fulton in their recitation of the other verses used for the dead, until the casket had been carried and placed outside the chapel.

The great audience stood while the impressive scene was enacted. After the bier came the widow, leaning on the arm of her brother, Mr. S. W. Morgan, followed by the other relatives, all in deep mourning.

When the casket had been placed in front of the chancel rail the choir sang the anthem "Lord, Let Me Know My End." The lesson for the dead was then read by the Rev. Dr. Jenckes. This was followed by the singing of the hymn "Lead, Heavenly Light," by the choir, the audience joining. The Rev. Dr. Jenckes, speaking from the lectern, delivered an eloquent and touching funeral oration.

"Mr. Hendricks' youth," said he, "has a profile lesson for the youths of our land. In an adjoining county some fifty years ago his tutelage began. The days so often spent by thoughtful boys in pointless diversions from hard study he, with energy and application, devoted to the acquisition of useful, permanent knowledge, laying with painstaking, earnestness, and perseverance, and zeal, the foundations of that sturdy, indomitable character which in later life carried him to the proud pinnacle of exalted success. The years of his early manhood were years of trial and comparative privation. With the sturdy men who were his co-laborers in the aggressive work, he carved out a rugged, commonwealth. He was an honest, brave, exemplary young man, who scorned to do a mean or unworthy action; who recognized the restraining influences of moral obligations, and by both precept and example inculcated probity and purity of life."

"Then in maturer years we have this sturdy, hearty man, with a strong mind and a warm heart in a sound body, essaying an active, earnest, prominent part in the affairs of his State and country. As the second officer in the administration of this great nation he was everywhere and always the same able, conservative, consistent and conscientious character. No one who appealed to him for sympathy, counsel, or assistance ever turned away empty. Though his right and his left hands were not in

each other's confidence, [still there is a record somewhere of his open-handed liberality in numerous cases of destitution and suffering. He experienced in his daily life the joy of faith and the patience of hope and the comfort of love. These were with him ever: faith, hope, and charity—these three, but the greatest of these was charity. And the admirably organized charities of our city have long felt the guiding impulses of his skillful hand and been cheered by the sympathetic throbbings of his generous heart."

"Dare we tread upon the verge of hallowed ground and touch upon the conjugal relations of Gov. Hendricks and describe how for forty years, and two months he passed along with dignified, steady, and faithful pace beside the noble and devoted woman whom he had chosen for better or for worse; and how, through storm and sunshine, like Isaac and Rebecca, they lived faithfully together in perfect love and peace?"

"Eminent citizen, faithful friend, Christian gentleman, honest man—farewell!"

When the speaker had concluded, Mrs. Doner, of Chicago, sang "Rock of Ages," the Bishop closing with prayers and benediction. The casket was then lifted and borne from the church, the audience remaining seated.

To the Cemetery.

The bells of all the city churches began their tolling when the remains were taken from the house, and continued their pealing during the continuation of the church rites and while the procession was on its long march to Crown Hill Cemetery. The column moved in the following ORDER OF PROCESSION:

Metropolitan police, mounted and on foot. Band.

Chief Marshal Knickerbocker and staff. Chief of Staff, Maj. C. L. Holstein. Aids of Chief Marshal.

FIRST DIVISION.

Adj. Gen. George W. Koontz, commanding. Staff of Governor of Indiana.

All military organizations in positions assigned by Gen. Koontz.

SECOND DIVISION.

Edward Hawkins, United States Marshal, commanding. Chief of Staff, Col. Charles E. Zollinger. Aids of Marshal of Second Division. Band.

Carriage containing officiating clergy. Pall-bearers. Committee of Arrangements.

Police. Hearse. Police.

Indianapolis Light Infantry, Capt. J. B. Ross Commanding, guard of honor and special escort.

Carriages containing family and friends. Distinguished guests.

Governor of Indiana and State officers. State judiciary. United States military officers. United States civil officers. County judiciary. County officers. City officials.

THIRD DIVISION.

Maj. Jas. L. Mitchell, commanding.

FOURTH DIVISION.

William E. Christian, commanding. INDIANAPOLIS FIRE DEPARTMENT. Chief Webster, commanding.

The carriages were driven three abreast. The movement was slow, the progress at times being almost imperceptible, until the column emerged upon Meridian street, a broad and very handsome avenue leading to the entrance to the beautiful Crown Hill Cemetery. The cortege moved on by the handsome homes of the wealthy, whose windows and sidewalks were filled with great throngs. The broad thoroughfare stretched out into the country beyond the limits of the city, and when the head of the column came within sight of the cemetery, a mile distant, the Indianapolis Light Artillery began to fire minute guns, which was continued until the hearse approached the grave.

At the Tomb.

Winding through a thick growth of Beach and maple trees, the military division came upon a large open view, and, approaching the open grave on the Hendricks family lot, which occupies the most commanding view in the grounds, turned to the left and entered the tract of the cemetery, which was completely enclosed by the right of the Hendricks plot forms a part.

The most careful attention had been given to the matter of decoration at the cemetery. The monument of the deceased statesman—a massive and beautiful shaft of about thirty feet in height, and built entirely of polished gray granite—stands on probably the most attractive as well as commanding ground in the inclosure. Immediately opposite to the exquisite chalet of the Cemetery Association, while a little to the northwest is the burying-ground of the Indiana soldiery. In the midst of this a tall flag-staff bore a superb garrison flag at half-mast, and another of the same character was trained about the monument. The latter was covered to a suitable extent with smilax and choice flowers, and about the two sides of the base, on the interior, were ferns and potted plants in great profusion. The grave was closely walled up with mosses, smilax and cut flowers, and the casket was seemingly deposited in a chamber of floral beauty. A heavy marble vault, of size proportioned to that of the casket, was first placed in position, and, on the deposit of the latter, received its cap slab of like material, and this in turn was laden with flowers. The last glimpse of the sorrowing widow and mourners in great profusion. Michigan Harbors.

Advance copies of the report of the chief of engineers of the army have been printed. The report contains much information of great importance to the navigation interests of Michigan. The report will be endorsed and sent to congress by the Secretary of War next week. The chief recommendation is that the government purchase the Portage Lake ship canal of the Portage Lake and River Improvement company for the purpose of making the same a free water way. The engineer recommends the purchase for \$350,000; says it is demanded and warranted by the already large and increasing commerce of Lake Superior. At the opening of congress Senator Conger will introduce a bill to carry out his recommendation. It is proposed to build new and enlarged locks at Sault Ste Marie to obtain a depth of 20 feet of water in both the canal and the river. The estimated cost of these improvements is \$1,700,000 and \$250,000 is asked for to commence the work. To continue and complete the work of getting 20 feet of water in Hay Lake channel, St. Mary's river, the report calls for \$2,334,115, and the amount asked for to be expended during the next fiscal year is \$500,000.

The obligation of the government to build a dry dock at Sault Ste. Marie is referred to in the engineer's report. The estimate for carrying this out is \$353,872, and the amount which can be profitably expended during the next fiscal year is \$215,000, of which \$150,000 should be appropriated by the United States and \$65,000 (more or less) transferred by the state of Michigan. The estimated cost of improvements at the St. Clair Flats Canal is \$153,298.

The work of getting a navigable depth of four feet in the Grand River below Grand Rapids will be continued under the \$19,204.22 unexpended and still available. For the harbor of refuge at Portage Lake a navigable channel 300 feet wide and 18 feet deep is sought. To complete this work \$197,500 is needed, and \$150,000 is asked for the next fiscal year. The project for the ice harbor at Belle river is to get a channel 30 feet wide and 13 feet deep and make a safe harbor against running ice. The estimated cost is \$14,465.

The following estimates for other Michigan harbors and amounts needed for the coming fiscal year are given.

For Completion.	For next fiscal year.
Frankfort harbor.....	\$ 50,000

Street Temptations.

There are parents who were shocked by the recent revelation of vices in London, and yet who are unconscious of the fact that they are permitting their own children to be exposed to the same temptations that brought the youth of London to ruin. In every city in this country it is usual to find the streets crowded in the evening with young people—boys and girls—who are treading dangerous paths. Any evening you will find boys at the corners or lounging by the doors of saloons listening to the ribald talk of those inside. These boys are in the nursery of crime. The ranks of criminals are being constantly recruited from this class. They grow with marvelous rapidity. Girls in their teens are also found on the streets. You see them going up and down or loitering on the corners by twos or threes; girls of respectable parents, who perhaps have their mother's consent to walk out awhile, not knowing that frequently by their actions these young daughters are encouraging the familiar attentions of those scavengers of the devil, the male flirts, whose notice has so often been the forerunner of moral degradation. Whenever a girl chafes at the love guard which a mother's anxiety throws about her she has started on the downward course, the end of which is a blasted home, a mother's heart broken and a father's head bowed in shame. If fathers and mothers wish to save their children they must make their homes happy for the boys and girls within them, and thus keep them out of the street.—Ez.

Common Council.

HOLLAND, MICH., December 1, 1885.

The Common Council met in regular session and was called to order by the mayor.

Members present: Mayor Kanters, Aldermen Ter Vree, Burgess, Bangs, De Roo, Bertch, and the clerk.

Reading of the minutes dispensed with.

The following petition signed by J. Cappon and six others, was presented, to-wit:

GENTLEMEN—It seems that in the original laying out of our city a mistake must have been made by which First Avenue is made to extend only as far as Ninth street. We, the undersigned, would respectfully petition you to complete said first avenue by projecting it to Lake street, so as to bring it in direct communication with Eighth street and the water front.—Referred to the committee on streets and bridges.

The following bills were presented for payment: Peter Braam, night watch, Nov. 18, \$1.50; B. Looyengood, night watch, Nov. 18, \$1.50; J. De Feyter, night watch, Nov. 18, \$1.50; Peter Schoon, lowering flag staff, Nov. 26, \$2.00; Peter Anderson, lowering flag staff Nov. 26, \$3.00; John Krusenja, oil matches, etc. for Hose Co. No. 2, \$1.40; John Krusenja, oil matches, etc. for Council rooms, \$4.24; J. A. Ter Vree, 54 days' team work, \$13.75; J. Klassen, 2 days' labor on streets, \$2.50; Geo. H. Sipp, salary as clerk for November, \$38.33; Ed. Vaupeil, salary as marshal for November, \$38.33; C. Ver Schure, salary as treasurer for November, \$32.92; R. B. Best, 6 months' salary as city physician, \$50.00; R. B. Best, 6 months' salary as health officer, \$12.50.—Allowed and warrants ordered issued on the city treasurer for the several amounts.

The committee on poor reported, presenting the semi-monthly report of the director of the poor and said committee, recommending \$23 for the support of the poor for the two weeks ending December 14th, 1885, and having extended temporary aid to the amount of three dollars.—Approved and warrants ordered issued on the city treasurer for the several amounts.

The committee on fire department requested further time in which to report on such matters as had been referred to them.—Granted.

Message from the Mayor—

HOLLAND, MICH., Nov. 30, 1885. **GENTLEMEN**—The recent attempt to enforce the provisions of our city ordinances has again brought to our attention their deficiency. Upon inquiry and investigation I find that as a whole but little reliance can be placed upon their thoroughness or legality. This is not a new matter, but has been known and realized for years by all who have been charged with the maintenance of the public peace and good order. I do not know of anything more demoralizing to good municipal government than to see the efforts of our public officers, when made in good faith, nullified by our courts on account of insufficient and worthless city ordinances. I am aware that a thorough overhauling and re-enacting and compiling of our present ordinances will involve an additional expense. Still, I would submit to your careful consideration whether the best interests of our city would not be promoted by placing our municipal laws on a firm and legal footing.

R. KANTERS, Mayor.

—Referred to the committee on ways and means and the city attorney.

The marshal reported having collected \$5 for tapping water mains and \$6 water taxes, and receipt of the city treasurer for the money.—Filed.

The treasurer reported for the month of November.—Filed.

The following bills having been approved by the board of water commissioners were certified to the Common Council for payment: P. Winter, salary engineer of water works, November, \$38.33; Van Landegend & Kerkhof, radiators, valve, packing, etc., \$56.85.—Allowed and warrants ordered issued on the city treasurer for the money.

The city physician reported having treated eight cases in the month of November.—Filed.

The board of water commissioners requested the Common Council to direct the marshal to attend to the winding up of the night watch at the water works building.—Request granted.

The clerk reported that the county treasurer had notified him that there was \$818.24, primary school money at his office subject to the order of the city treasurer.—Accepted and the clerk instructed to notify the board of education.

On motion of Ald. Bangs—

Resolved, That the city clerk is hereby instructed to purchase 4 street lanterns for the various places as per petitions granted by the Council at the last meeting.—Adopted.

Council adjourned to Saturday, 7:30 p. m. December 5, 1885.

GEO. H. SIPP, City Clerk.

Magazines, Periodicals, Etc.

Lippincott's Magazine, for December opens with a description of a tobacco plantation in Virginia, written evidently with ample knowledge of all details of the subject, including the condition and habits of the laborers and their present relations with their employers. To many persons the most attractive article in the number will be the "Letters and Reminiscences of Charles Reade," by K. Cornwall. "New York Libraries," by C. B. Todd, contains a mass of information. There are several short papers and stories that do not require to be specified. We notice that, commencing with the New Year, this popular magazine will be reduced in price to \$2.00 per annum, and other important changes will be inaugurated. The next number, beginning a new volume, will be under new editorial management, will appear in an entirely new dress, and will be issued January 1, 1886. Henceforth the magazine will be published on the first of the month whose name it bears.

A personal interest attaches to several of the pictures and articles in the December Century. The frontpiece is a striking portrait of the late Helen Jackson. George Parsons Lathrop draws entertaining word-portraits of the Gardeners of Gardiner's Island, under the title "An American Lordship," and the sketches by Harry Fenn, give charming glimpses of their island estate. Mark Twain contributes a chapter of autobiography entitled "The Private History of the Campaign that Failed," which is humorously illustrated by Kemble. Captain Ericsson furnishes the serious war paper of the number, which is important as a contribution to history and interesting to the general reader, since it describes the principles of construction of the original Monitor, and the performances of the Monitors as a class, all from the point of view of the inventor. The number is replete with short stories, poems, and the usual miscellany.

The Christmas *St. Nicholas* is all that the double promise conveyed in its title implies, and fairly bristles with holiday

features, from the opening poem, "The Little Christmas tree," by Susan Coolidge, to the amusing pictures by A. E. Sterner and O. Herford on the last page. Santa Claus on a lark is the immensely suggestive title of a story by Washington Gladden which is illustrated by Sol. Eythine. Frank R. Stockton contributes a whimsically humorous tale, called "Christmas before last," with five appropriate pictures by E. B. Bessell. There is a decorative Christmas card by D. Clinton Peters. "Our Holiday Party," tells of a party of the holidays. "Through the register" is the name of the middle-aged little folks' Christmas story; and there are other bright and timely contributions by Mary Hallock Foote, Grace Denio Litchfield and Edith M. Thomas.

A Warning.

Pain is given for the wise purpose of informing us of the presence of danger and disease. Any little excitement of an unusual nature disturbs the balance of the system, the nervous energies are exhausted, and headache and a hundred other disturbances are the result. Many of the miseries of modern man and womanhood might be cured and prevented were their approach heeded and resisted, having their origin in derangements of the liver and blood, dyspepsia, jaundice, indigestion, constiveness and other unwholesome conditions. Evils of a diseased nature find a certain cure by the use of Golden Seal Bitters. In this medicine, nature, aided by art, has produced a rare combination of medicinal properties, wisely adapted to the cure of diseases common to mankind. The vitalizing principles embodied in Golden Seal Bitters will assuredly cure the broken down dyspeptic. Sold by H. Walsh, 41-4

THAT HACKING COUGH can be so quickly cured by Shiloh's Cure. We guarantee it.

CATARH CURER, health and sweet breath secured by Shiloh's Catarrh Remedy. Price 50 cents. Nasal Injector free. For sale by Yates & Kane.

FOR DYSPEPSIA and Liver complaint, you have a printed guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. For sale by Yates & Kane.

Only 35 Cents. So confident are we that Dr. Petre's 35-cent Cough Cure will not disappoint the most sanguine expectations of a single broken-down consumptive invalid, that we warrant it. Had we not the most perfect confidence in its virtues, we would not think of offering it as we do. Sold by H. Walsh & Son. 41-4w

FOR LAME BACK, Side or chest use Shiloh's Porus Plaster. Price 25 cents.

SHILOH'S COUGH and Consumption Cure is sold by us on a guarantee. It cures consumption. For sale at Yates & Kane.

For the Holland City News:

"Whatever thy Hand Findeth to do,
do it with thy Might."

Dear friends I suppose we are all ready to say our hands have found much to do and that we are doing it with our might. We are led to suppose that this exhortation or command does not altogether apply to our own temporal business. Can we not read in it a Father's yearning love to His creatures. He seems to say if opportunity offers for assisting, succoring or rescuing thy brother or neighbor. Do it; "Do it with thy might." In another place we are commanded to do it as unto the Lord. Is there nothing of that nature obligatory to us. Have we opened our eyes and looked about us to see whether there was nothing which required our careful, vigorous and resolute effort. The Jews were constantly reminded of their duties to others. Parent, children, neighbors, and even strangers are not to be overlooked. All were to share in the blessings. All were to be safe under the ample folds of their government. These things were written for our instruction. What instruction can we draw from them? Are there none in our favored land who need the blessings that we might dispense, or the succor that we might afford? Thy hand findeth to do. Thy hand, my beloved disciple. Thy hand, thou chief of my workmanship and recipient of my bounty; let thy hand be stretched out for my dear ones. Let thy hand be prompt, powerful and resolute to help and shield the creatures for whom I did. Job was pronounced perfect and upright by his Maker. He declares: "I was eyes to the blind, and feet was I to the lame," "I was a father to the poor; and the cause which I knew not I searched out." "And I broke the jaws of the wicked, and plucked the spoil out of his teeth." These things says the apostle were written for example. Are no such helpless people among us. Are there no such jaws among us to be broken, is there no spoil to be plucked from similar work. Spoil does not remain long in the teeth before it is devoured.

M. S. VAN O'LINDA.
(To be Continued.)

"One fire burns out another's burning," and most pains suffer more to be cured, but Salvation Oil is painless and certain. It costs only 25 cents.

A Walking Skeleton.

Mr. E. Springer, of Mechanicsburg, Pa., writes: "I was afflicted with lung fever and abscess on lungs, and reduced to a walking skeleton. Got a free trial bottle of Dr. King's New Discovery for Consumption, which did me so much good that I bought a dollar bottle. After using three bottles, found myself once more a man, completely restored to health, with a hearty appetite, and a gain in flesh of 48 lbs." Call at H. Walsh's Drug Store and get a free trial bottle of this certain cure for all Lung Diseases. Large bottles \$1.00.

Out Around.

Elijah Bulhand, who, while in a crazy fit, attacked his wife and daughter at Bloomingdale several weeks ago, got well enough to do business, but Saturday evening last attacked his wife. Four men were watching him but had gone outside, and taking advantage of the moment while no one was watching him he grabbed a knife and furiously slashed his wife and gashed the throat of his youngest daughter. The cries of the women brought the men to their rescue, who secured him.

The failure of Norton, Wolf & Co., of Otego, is a bad looking mess. Since Sept. 1 they have bought over \$80,000 worth of goods, but both the stores at Otego and Plainville fail to show more than \$30,000 on hand. They are said to have carted off much of their stock. Norton has been virtually bankrupt for two years, and Wolf never had much capital. This firm had a stock of goods in Bosman's building two years ago.

Mr. DeMerrell, of Holland City, has recently placed in our village cemetery a very fine monument commemorative of Mr. John Rankins. His brother, Mr. Geert-Rankins, also has a very beautiful one for a family memorial.—Coopersville Observer.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are Eczema, Cutaneous Eruptions, Tumors, Bolls, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to continue, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption, and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alternative that it eradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine *Honduras Sarsaparilla*, with *Yellow Dock*, *Stillingia*, the *Iodides of Potassium and Iron*, and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe **AYER'S SARSAPARILLA** as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.
