## Fall Tax Bills Out This Week

Ottawa County Rate  
Up Slightly; Allegan  
Rate Down This Year

Fall tax bills for Holland city, Holland township and Park township will be in the mail this week.

The city's taxes cover county taxes, special assessments, and school taxes for those portions of the city that lie in Hamilton and New Groningen school districts.

According to City Assessor Alvin De Haan, the county tax rates for the city are \$8.58 in Ottawa county and \$10.83 for Allegan county. This represents a slight increase for Ottawa county which last year levied \$8.35. The Allegan rate is lower. Last year it was \$12.37 but that included voted millage for a youth home.

Total levy lists \$537,471.31 for Ottawa county and \$81,621.17 for Allegan county. In county taxes, Holland city is levying \$315,017.63 for Ottawa county and \$40,642.55 for Allegan county. Included in the totals are \$49,248.93 for the Ottawa county intermediate school district and \$4,821.47 for the Allegan county intermediate school district. Both represent special voted ½ mill for special education.

City tax bills are expected to be ready for mailing on Friday. More than 10,000 tax bills are involved.

Park township tax bills were in the mail today, listing a total levy of \$424,830.19. Holland township bills totaling \$834,829.95 will be in the mail later this week. All township bills represent all taxes covering county and township taxes, school taxes and special assessments.

Holland township treasurer Glenn Van Rhee said about 78 per cent of the township lies in West Ottawa school district. Tax rate for the West Ottawa district is \$49.50 per \$1,000 assessed valuation, \$37.37 for Zeeland city school district, \$26 for Federal district and \$27.90 for East Holland district. The county rate is \$11.12 and the township rate \$4.75. In most cases, this represents a slight reduction from last year.

Holland township taxes are levied on a total assessed valuation of \$13,840,325. The equalized valuation is \$32,650,928. All rates quoted on the tax bill are geared to assessed valuation.

Park township Treasurer H. L. Tinhoft said the rate for county taxes is \$8.53 per \$1,000 assessed valuation. Property owners in the Harrington school district will pay a total rate of \$47.37 per \$1,000 assessed valuation, 94 cents less than the 1963 rate of \$48.31.

Park township property owners in the West Ottawa school district will pay a total rate of \$57.77 per \$1,000 valuation, \$1.95 less than the 1963 rate of \$59.72. Deadline for taxes will be Feb. 15, 1965, instead of the usual Jan. 20 deadline.

City residents pay their taxes at the treasurer's office in City Hall. All Holland township taxes are to be paid in the new township headquarters at 373 North 120th Ave., not at the northside fire station. The office is open week days from 9 a.m. to 5 p.m. and Saturday from 9 a.m. to 3 p.m.

Park township residents may pay taxes at Peoples State Bank downtown or northside branch, the South Side Fire station at Virginia Park or Park township office on Ottawa Beach Rd.

## Councilman Volkema Will Leave Office

Harold Volkema, third ward councilman who was elected state senator for the 23rd district in the Nov. 3 election, told City Council Wednesday night that under the new state constitution he will be unable to serve as councilman after the first of the year, and that his fellow councilmen should think in terms of naming his successor soon, perhaps at the final meeting in December.

"I would like to think that there are many qualified people in the third ward who might be interested in serving in such a civic capacity until next election," he said. The term expires in April, 1965.

Mayor Nelson Bosman thanked Volkema for his years of service and wished him well in his new career as state senator.

Volkema responded that there are always some disappointments and a great deal of satisfaction in public service of this kind. He said one of his disappointments was failure of plans for a swimming pool to materialize and he hoped that in the future Council would have new views on the situation and take positive action with perhaps the new recreational director and the city manager setting up the machinery.

Council also passed Volkema's motion to discharge the recreational committee which he had headed inasmuch as the special committee had accomplished its purpose in hiring a full-time recreational director. He expressed his personal thanks to the committee members who had served with him.

The senator-elect also introduced his children, Tom and Barb, who were present at the Council meeting.

## Pedestrian Safety Is Studied Here

Safety for pedestrians in the Dykema Ct.-Fairbanks Ave. area occupied the attention of City Council for quite some time at its regular meeting Wednesday night in City Hall.

First, Council heard a report from the Traffic and Safety Commission which had made a thorough study of the problem including interviewing residents living there, and giving detailed information on the number of children walking and riding to school.

It was pointed out that the only feasible solution to the problem would be the installation of a sidewalk on the north side of Eighth St. from Fairbanks Ave. west to Lincoln Ave. The commission also said children should be discouraged from using the route through Home Furnace property and crossing the railroad tracks at an unauthorized crossing.

The report said, however, that if the sidewalk on Eighth St. were installed at this time, the parents of only three children indicated they would instruct their children to use such a walkway.

At first Council voted to accept the commission's recommendation and then it developed that it was less a recommendation than a report on factual details. Council then considered ordering in such a sidewalk installation, but City Manager Herb Holt pointed to such engineering difficulties as spur crossings and relocation of utility poles. The report finally was referred to the city manager and city engineer with instructions to submit an engineering report at the next Council meeting.

In other safety matters, Council approved a Traffic and Safety commission recommendation to eliminate parking on the north side of 13th St. for a distance of 60 feet west of Maple Ave. The vote carried 5 to 3, with Councilmen Eugene Vande Vusse, Donald Oosterbaan and Harold Volkema dissenting. Volkema said he would prefer more detailed reports on accidents, etc., before taking action.

Council instructed the city attorney to draw up an amendment to the ordinance code increasing the salary of the associate municipal judge to \$10 an hour, \$25 a half day and \$50 a day, to exceed \$1,500 in any one year. Council also set the municipal judge's salary at \$10,000 for the six-year term commencing Jan. 1, 1966. This is unchanged from the present salary which was adjusted in a special vote several months ago.

A communication from Holland Cotton Products Co. commending the fire department for the manner in which it handled a fire at the factory Nov. 4 was referred to the fire chief.

## Authorities Are Seeking Second Man

Fast Work by Three  
Agencies Credited  
With Initial Arrest

John Sebasta, 30, of 766 136th Ave., today was charged with breaking and entering in the nighttime in connection with a break-in and safe cracking at the Brewer City Coal Dock office early this morning.

Holland police today were questioning a suspect in connection with a break-in and safe burglary early this morning at Brewer's City Coal Dock office on Pine Ave. A second suspect in the break-in is being sought by police.

Police said about \$420 was taken in the break-in, along with a number of papers and business records. All of the money and papers were in a metal cash box taken from the office safe.

The suspect being questioned by police was stopped by Holland Township Constable Norman Fynewever about 5 a.m. within a couple blocks of the scene of the break-in.

Found in the suspect's car was a cash box, containing a number of the Brewer papers, taken during the break-in. A number of tools also was found in the car.

Fynewever nabbed the suspect after Ottawa County Sheriff's deputy Lauren Wassink had followed a second suspect from the suspect's home into Holland. When Wassink stopped the car he was following at Seventh St. and River Ave., a second car, which had been following Wassink, turned off River and headed toward Pine Ave. where it was halted by Fynewever. Fynewever had originally followed the car into Holland because the driver had been speeding south on River Ave. near the Black River bridge.

Wassink said he found nothing in the car he stopped to warrant his taking the driver into custody. It was learned later, however, that the man stopped by Wassink had been with the suspect now in custody earlier in the day.

Police narrowly missed nabbing the second man after they learned he had been at a local restaurant. Several Holland police accompanied Wassink to the restaurant but found the second suspect had fled.

The break-in had been discovered by Holland patrolman Robert Ryzanica at 2:50 a.m. Ryzanica said the rear door of the office building had been forced open and the thieves had smashed holes through two restroom walls and the wall of a walk-in vault to get at the safe containing the cash box. The back of the safe had been peeled open, Ryzanica said.

At 2:59 a.m. Deputy Wassink said he heard the Holland police radio message about the break-in. He said he drove near the home of the suspect now under questioning and placed a stake-out on the home.

It was 4:45 a.m. when one of the suspects left the home to go to Holland and was followed by Wassink, who stopped the suspect's car at Seventh St. and River Ave. Shortly afterward Fynewever had nabbed the second suspect.

A station wagon belonging to the suspect who had eluded police was found parked in downtown Holland. Found in the car was a number of tools.

Holland police Chief Jacob Van Hoff commended patrolman Ryzanica, Deputy Wassink and Constable Fynewever for the early discovery of the break-in and apprehension of the suspect.

## Clerk Notifies 323 City Voters

City Clerk D. W. Schipper notified 323 Holland voters today that their registration had been suspended.

Those persons who received notice of suspension may continue their registrations, Schipper said, by signing the card that was sent to them, and returning it to the clerk's office within 30 days. After the 30-day period a person must appear in person at the clerk's office to re-register.

The Board of Public Works discussed a preliminary study of future water needs for Holland and the surrounding area at its regular meeting Monday afternoon at City Hall.

Guy Bell, superintendent of public utilities, said that the board authorized city engineers to make the study last summer when pumps at the pumping station had to operate at full capacity to supply the city during peak hours of water use. Another consideration in making the study, Bell said, was a request from Holland Township for purchase of water from the city.

Bell said that the engineers are attempting to determine how much more pumping capacity must be added to the present plant to meet future needs.

## String Quartet Charms Literary Club Audience

Music filled the Woman's Literary Club Tuesday afternoon when, by popular demand, the Western Michigan University String Quartet returned to play the chamber music they are noted for throughout the state.

Julius Stulberg, violinist and director of stringed instruments at WMU, Olive Parkes, violinist; Joseph Work, violist and Herbert Butler, cellist, played Beethoven and Mozart the way it should be played, intimately and brilliantly, and then, to show the contrast, they played music by a contemporary composer, Malipiero.

The quartet opened the program with Beethoven's "Quartet, Opus 18, No. 4 in C Minor." Mr. Butler, who announced the program, said it was from the first of the quartets written by Beethoven and in its day was criticized as much as some of the contemporary music is today.

Before playing "Quinto Quartetto" by D. Francesco Malipiero, Mr. Butler said "this music is new to our ears and we must get used to the dissonance and enjoy the melodic patterns." The program closed with Mozart's "Divertimento in D Major," written when the composer was 16 years old.

As a special treat, Mr. Stulberg invited the audience to join in singing Christmas carols. They played the carols first and the women joined in singing "O Come, All Ye Faithful," "Joy to the World," and "Silent Night."

In keeping with the musical program, the stage was decorated with a Christmas tree ornamented with musical notes, staffs, birds and tiny lights. Mrs. Kenneth Kooker, club president, invited the members and guests to the tea which followed in the tearoom. She announced the Christmas recess.

Pouring at the beautifully arranged tea tables were members, Mrs. Harold Denig, Mrs. Fred Winter, Mrs. W. C. Kools and Mrs. George Gupker. The tea was in charge of Division IV with Mrs. Leonard Zick and Mrs. Alvin Bonzelar, chairmen. The greens and floral arrangements with gaily colored ornaments were made by Mrs. Robert De Nooyer, Mrs. Paul McIlwain, Mrs. George Speet, Mrs. Carl Harrington, Mrs. Lincoln Sennett and Mrs. Leonard Dick.

Reservations were made by club members for the Dec. 15 dessert-bridge to be a holiday feature of the club open to guests. Table reservations may still be made with Mrs. Albert Nutile or Mrs. Robert Hobeck.

## Dutch Errors On Defense Aid Winners

Hope College's basketball team made lots of opening game mistakes Wednesday night and an alert Valparaiso team responded to chalk up an 83-64 win before 1,700 fans in the Civic Center.

Coach Russ De Vette has his work cut out in smoothing out his club as the Flying Dutchmen had trouble in all departments especially on defense.

De Vette gets another non-league look at his club Saturday against first time foe Elmhurst in Elmhurst, Ill., before starting on the MIAA trail next Wednesday at Adrian.

Valparaiso has the makings of a strong club this season and the Crusaders showed they are able to take advantage of an error. Hope had frequent defensive lapses and Valparaiso responded with a basket.

Hope played the winners about even most of the first half, taking the lead one time and then tying the game five times before the Crusaders gave a quick preview of things to come.

Three baskets by 6'6" sophomore center Ken Rakow as the half ended pushed the winners from a 39-37 advantage to a 45-37 halftime margin.

Hope's lone lead came on Chris Buys' falling down jump shot with 7:45 left in the first half and made the score 21-20. Freshman Floyd Brady followed with a basket before Valparaiso scored the next four points.

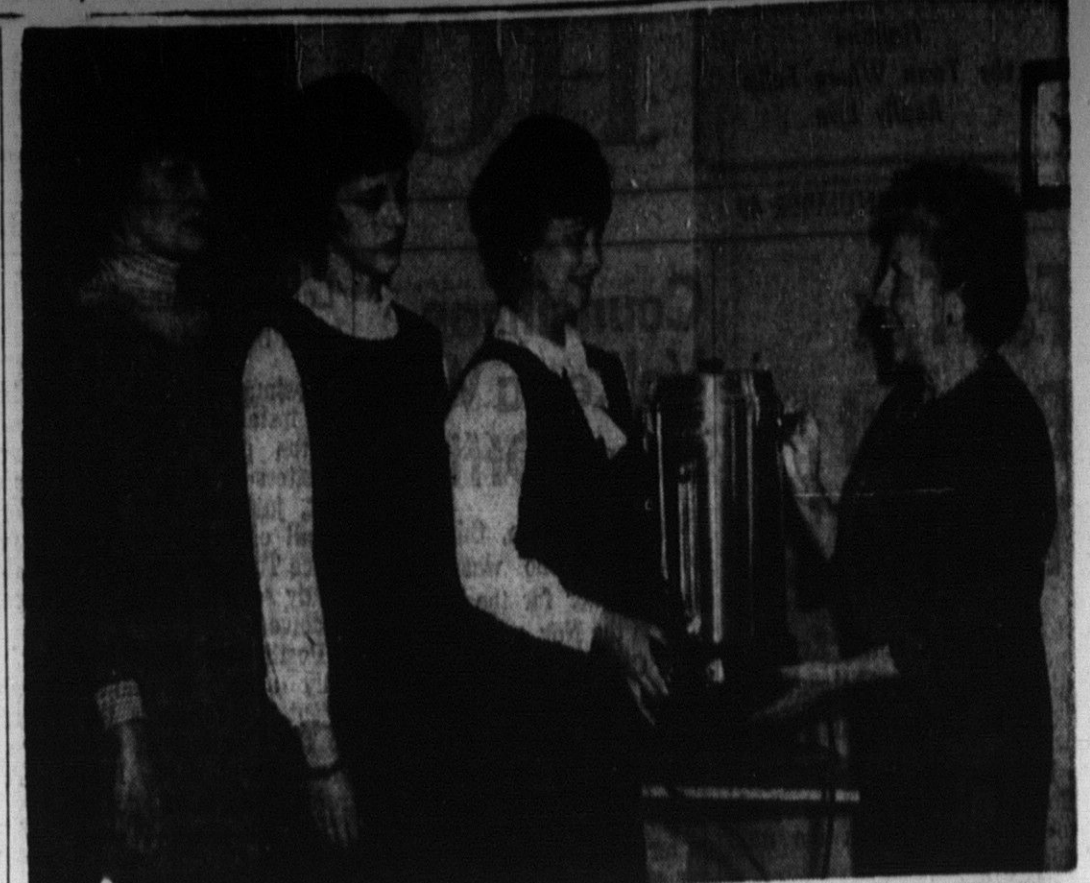

The ties began with five minutes to go in the half and stretched from 27-all to 35-all. Rakow gave Valparaiso its 35th point but Dean Overman matched it.

Rakow's two-pointer was the first of six straight as he made all of the rest of Valparaiso's first half points. Overman picked up Hope's final two tallies. Defensive errors left Rakow alone and he fired from near the foul line and underneath. He had nine of 13 from the floor in the first half and helped the winners to a fine 21 of 42 for 50 per cent in the first 20 minutes.

In the second half, conditioning showed as the tiring Flying Dutchmen missed assignments and allowed the Crusaders to slip through for baskets. Hope also had trouble moving the ball and getting shots.

The losers got only 26 shots in the second half and made 12 while the Crusaders picked up 40 second half shots and made 16. Hope only took 57 shots in the game and hit 25 of 42 for 60 per cent. The winners made 37 of 82 for 45 per cent.

At the free throw line, Hope also had trouble as they made 14 of 28 while the winners sank nine of 14. Rakow led the winners with 27 while Rich Eynon had 22. Guard Tom Smith did a good job of ball handling and

## Fennville Mulls New Classrooms

**FENNVILLE** — How to house 153 kindergartners who will be first graders next year was the subject of discussion of three PTA building committees which met with the Board of Education Monday night at the high school.

As kindergartners, the youngsters use 2½ classrooms on half-day schedules. As first graders there will be a need for five full time classrooms.

Points of discussion follow: 1. With \$45,000 in the present building and site fund plus an approximate \$20,000 to be collected this year, four classrooms could be built with perhaps \$5,000 left for equipment. This would take care of next year's first grade and possibly close one rural school. Similar difficulties would probably develop next year.

2. Use the \$45,000 plus \$20,000 sinking fund and borrow \$20,000 on next year's sinking fund to build and equip six classrooms and have some for future use. This would probably take care of first grades and close three rural schools, allowing the district to "get us by" for three years or until forced to replace the old high school building.

3. Start building classrooms with funds available, tell people in the district the need and that the 1966 bond issue could be extended two years on a vote of the people, thereby providing funds for immediate building. This could provide approximately \$24,000 a year during 1965 and 1966.

4. Ask the people to vote a \$500,000 long term bond issue and remove the present 1½ mill sinking fund and not levy the 1½ mill debt millage for two years. This would make \$565,000 available. This would create a delay but would not increase the tax rate at the present time.

The board has suggested a straw vote. Meanwhile, a meeting will be held with the architect to consider adding four or six classrooms with monies available.

Parents present at the meeting were Mr. and Mrs. Bernard Hutt, Mr. and Mrs. John Metz, Mrs. James Clark, Mr. and Mrs. Harris Huyser, Mr. and Mrs. Robert Hutchinson, Ben Marfia, Mrs. Lloyd Dornan, Mr. and Mrs. Don Moeller, Luther Jones and Mr. and Mrs. Edward Smierka.

The Rev. John Van Harn performed the ceremony before a setting of two tree candelabra, fuji mums and an arch. Mrs. Myron Becksvort was organist and accompanied Mrs. Hugh Harper when she sang "The Lord's Prayer" and "Because."

Given in marriage by her father, the bride chose a full-length gown of mist taffeta highlighted with princess styling, Chantilly lace panel and tiered back from which the chapel train fell. She wore a three-tiered crown and carried fuji mums on a white Bible.

The bride was attended by Miss Marcia Lemmen as maid of honor and Miss Sharynne Overway and Mrs. Dale Dams as bridesmaids. They wore identical floor-length gold gowns with matching pillboxes and carried bouquets of fuji mums. The groom was attended by

Craig Baker as best man and David Wieling and Dale Dams as groomsmen. Ushers were Gordon Dams and Ronald Baker.

Kelly Baker was flower girl and Jon Baker was ring bearer.

The bride's mother wore a toast brown suit and the groom's mother wore a green suit with pink brown accessories. Each wore a corsage of carnations.

The couple greeted about 200 guests at a reception held in Hotel Warm Friend with Mr. and Mrs. Carl Dams presiding as master and mistress of ceremonies. ## Students Build Six-Room Home

Fifteen West Ottawa High School seniors are building a six room house during their afternoon class periods.

The boys are members of a vocational arts class taught by James Van Lente, who was a carpenter himself before becoming a teacher. They started their three bedroom project, located in Brook Lane subdivision off 142nd Ave., when school began in September, and hope to finish it before graduation next June.

The construction is being financed by a loan. School officials plan to turn it over to a realtor upon completion, and hope to sell it for about \$15,000. In addition to the three bedrooms, it has a living room, kitchen, bath, full basement, and a two car garage. It is of frame construction, with brick facing in the front.

The basement was dug and constructed before school started this fall, by a private contractor, since the class is not involved in masonry. The students are doing all the carpentry, however, during three hour work periods every afternoon. Although most of the electrical, brick, plumbing, heating, and plaster work will be sublet to contractors, the boys will help in the work that interests them. The project is part of an expanded program of vocational training. Van Lente emphasizes however, that the purpose of the class is not to train carpenters, but "to give students a variety of experiences in fields where they otherwise would have none. You can't train a carpenter in nine months," he said.

Such "on the job" training is a relatively new innovation in vocational teaching, and teachers must make special efforts to make the projects succeed. In addition to the customary college degree, teachers in special vocational classes must have four years of job experience in the area they plan to teach.

Van Lente was a carpenter for 14 years before he decided to become a teacher in 1960. He entered Western Michigan University and earned his degree in three years, graduating in 1963. This is his second year at West Ottawa High.

Van Lente noted that more attention is being given now to the vocational aspects of school curricula. "The pendulum is swinging back," he said, from the emphasis placed on mathematics and physical sciences brought about by the U.S.S.R.'s 1957 Sputnik. More and more consideration is being given to students who have no interest in these areas.

## Views From The Campus

Dr. Ralph M. Perry is Professor and Chairman of the Romance Language Department. He has taught in Morton High School, Cicero, Ill., University of Illinois, Harris Tech in St. Louis and Eastern Illinois University. Dr. Perry joined Hope's faculty in 1961. He attended the University of Chicago for his undergraduate work and obtained his M.A. degree from there also. In 1949 he was granted a Ph. D. degree from the University of Illinois. Dr. Perry is a member of the Modern Language Association of America, American Association of Teachers of French, the National Education Association and Phi Beta Kappa. Presently he is serving as a member of the liaison committee of the Great Lakes Colleges Association project concerning programmed instruction. (Editor's Note.)

By Dr. Ralph M. Perry Hope College enjoys the reputation of being one of the outstanding four-year liberal arts colleges in the country, particularly among those with church affiliations. Its fame is widespread in the field of science, with many of its graduates going on to positions of great responsibility in industry and education, and in the area of music, where traveling choral and instrumental groups have

"audio-lingual approach," with emphasis on hearing and speaking the language in question, is used in modified form in most elementary and intermediate modern foreign language classes. Advanced classes in these languages are largely conducted in the foreign language, with ample opportunity for discussion by the students.

Some of the special features of the various foreign language departments which appeal to different segments of the students enrolled in these classes are the following: French and German houses on campus, as well as a Spanish "corridor" in one of the women's residence halls, all under the expert tutelage of students who are native speakers of French, German, and Spanish respectively, and who have been brought to Hope College on combination scholarships and assistantships for the specific purpose of serving as resource persons for the language houses and corridor in addition to performing other duties in connection with their departments; a strictly modern and functional language laboratory, with facilities for listening and speaking which can be utilized simultaneously by as many as 75 foreign language students; foreign language clubs and national honorary societies,

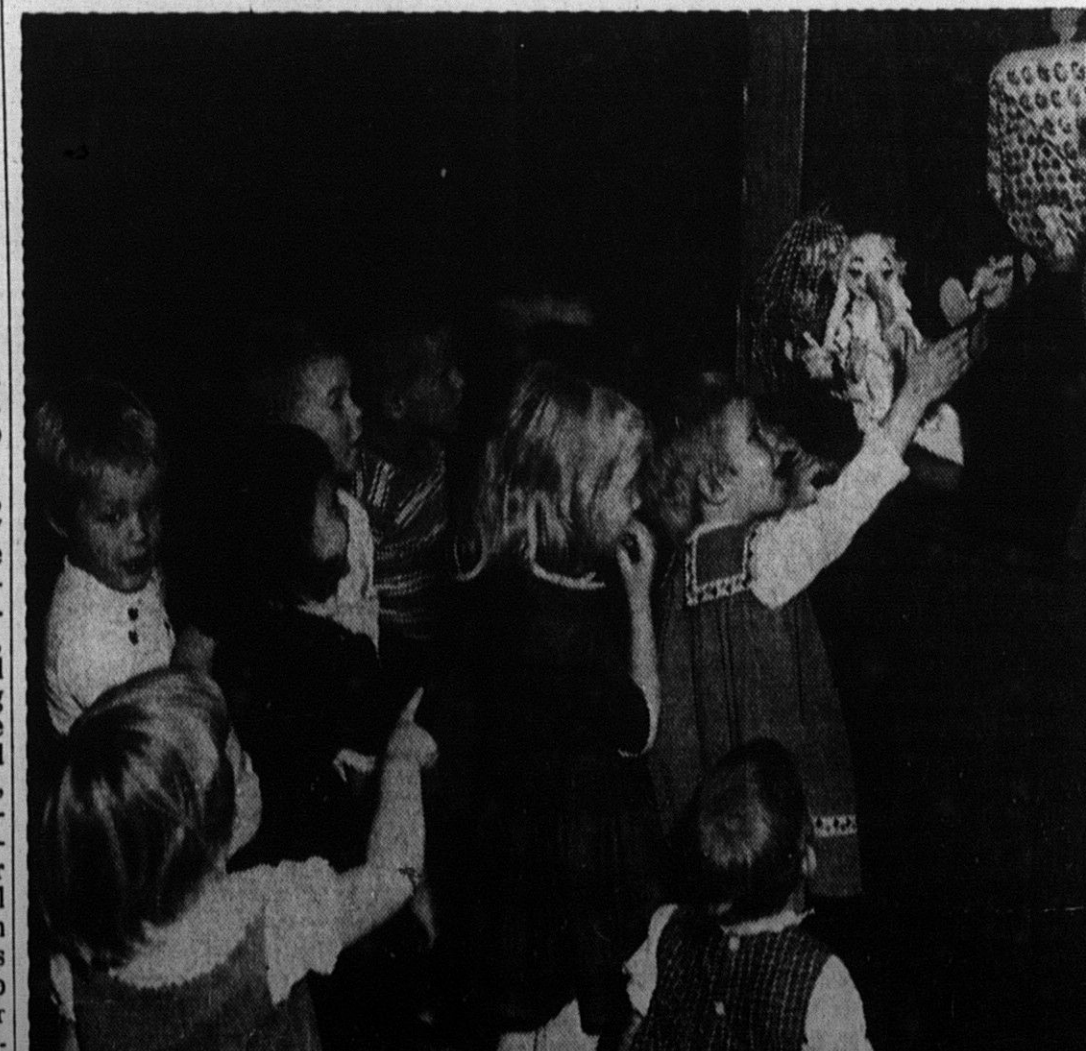

which foster a greater awareness of foreign cultures through formal programs and informal conversation; and finally, a proposed course in descriptive linguistics, to be made available to majors in English and other areas as well as to those students specifically specializing in some foreign language.

With all of Hope College's departments continuing to work in the future in as close harmony as they have in the past, avoiding needless duplication but each contributing in some significant way to the betterment of higher education in America, there can be no doubt that Hope's reputation as a worthy center of learning will be maintained and perhaps even enhanced.

That letter we ran in our Nov. 11 column from the Denver judge addressed to teenagers telling them to go home and WORK, made quite a hit with a lot of harried parents hard put to direct the energies of their young fry. It made a considerably less hit with the teenagers themselves who didn't entirely appreciate the pitch on learning to cook, cleaning the basement, doing homework, etc.

Cheer up, kids, maybe you'd better save the letter. In another generation you'll wish you had it to read to your own teenagers.

Did you know Spring Lake was once a health resort of note? That 1901 state "cyclopedia" that Bob Kouw dug up some time ago lists Spring Lake among 12 health resorts in the state of Michigan. It reads:

"SPRING LAKE — This resort has been noted for its mineral springs for many years past. It has an attractive location on Spring Lake, Ottawa county, and the water has long been known to be very efficacious in the treatment of rheumatism and its complications; rheumatic gout, dyspepsia and hepatic irregularities; atonic weaknesses of the digestive apparatus; chronic constipation, especially if attended with defective alvine secretion.

"In affections of the kidneys and bladder, caused by gravel and phosphatic deposits, this water with its powerful solvent properties acts with wonderful effect. Eczema in all its stages and all eruptive affections of the skin yield to its curative ingredients."

Then followed a complete analysis of its chlorides, calcium, sodium, sulphates, etc. Further research revealed that a luxury hotel for 72 guests had been built on the site plus many separate cottages, but the hotel was destroyed by fire.

The same booklet has this to say on water in Michigan:

"Michigan can more properly than any other be called the 'Water State.' It is almost surrounded by great bodies of fresh water; its interior is watered by tens of thousands of large

## Dog Repellent Now Carried By Mail Men

Local postal carriers went on their appointed rounds today armed with a new dog repellent designed to protect them from attacking dogs.

The aerosol tube containing the special repellent clips onto a pocket much like a pen or pencil.

It is sprayed directly at the eyes of the attacking animal by pressing the control on the top of the container and has an effective range up to 12 feet. It is also effective when applied to the nose and mouth of the animal.

Without a whimper, the dog will retreat. Within 10 or 15 minutes, the effect of the repellent has worn off and the dog returns to normal. It leaves a yellowish coloration on the dog's hair, which is removable by washing. This coloration is a help in identification of the animal if a check for rabies is necessary.

The repellent consists of 15 per cent oleoresin capsicum (extract of cayenne pepper) and 85 per cent mineral oil, propelled by an inert gas contained in an aerosol spray can.

Extensive laboratory and field tests were made before the repellent was released for general use. Postal tests were conducted in Baltimore, Maryland, Miami, Florida, Detroit and San Francisco. Results of these tests indicated over 84 per cent effectiveness in controlling animal attacks. Dog bite injuries account for 18 per cent of all injuries to postal personnel each year.

Postmaster Louis A. Haight explained that the repellent does not replace the policy of non-delivery of mail where there is a dog menace. Collection and delivery service personnel are to report the name and address of the patron where such a menace occurs. It is the dog owner's responsibility to control his dog. Most communities, including Holland, have ordinances for the control of dogs.

ivers and beautiful streams, and other thousands of sparkling lakes. All of these waters are surpassingly clear and the region is absolutely unrivaled in the abundance and purity of its water supply.

"There are living springs in almost every county. One at Northville, Wayne county, discharges 375 gallons per minute. Artesian wells from 100 to 400 feet deep are numerous and afford a plentiful supply of water. In some instances the water rises to a height of 50 feet.

"Mineral springs are found in many parts of Lower Peninsula, those at Alma, Bay Port, St. Clair, Spring Lake, Midland, Mt. Clemens, Hudson, and Ypsilanti being especially noted."

Mrs. Robert Cecil of the Higher Horizons group from Hope College, was guest speaker at the Junior Welfare League meeting Tuesday evening in the Woman's Literary Club.

Mrs. Cecil, introduced by League president, Mrs. Roger Prins, talked on the Higher Horizons program. She explained the tutorial program is not for the delinquent child, but for the child not working up to capacity. The school child is recommended to the college by the grade school.

Last year the program began with 48 pupils in grades four through six from Lincoln, Washington, and St. Francis de Sales Schools. This year there are 130 children and 130 college students and the program has been ex-

tended to include the junior high school.

Each college student provides individual tutoring for one hour each week. Together they go on field trips and visits to the library. The program can only be successful by home visits involving the parents.

Mrs. Cecil was commended for the fine work being done by the volunteer college students. She asked for League volunteers to assist them in their program.

carried Hope's good name wide and far.

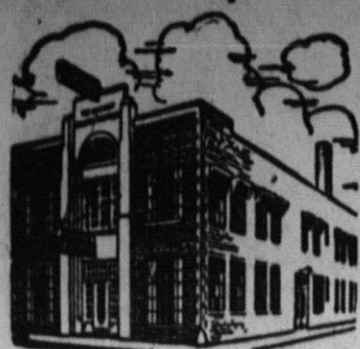

In the humanities (English, history, philosophy, foreign languages, etc.) Hope College is less well known, although in these areas it is definitely on the upswing. For example, its Vienna Summer Session, under the direction of the chairman of the history department, is justly famous, attracting not only Hope students among its registrants but also students from a variety of other institutions.

The English department at Hope College has by far the largest number of majors of any department on campus, and in my opinion this speaks eloquently for the caliber of work done there. Likewise, philosophy has recently added new strength to an already strong department by adding another instructor to its staff.

In foreign language teaching, six languages are currently being offered in three separate departments. A conscientious effort is made in all of these languages (French, German, Greek, Latin, Russian and Spanish) to keep the offering up-to-date, consonant with the needs of the students enrolled in each language course. Thus, the German and Romance language departments are presently introducing changes in their curricula which it is felt will better equip their majors with the knowledge and techniques necessary to enable them to compete successfully after graduation with their counterparts from other colleges and universities.

Likewise, the methods of instruction used in language classes are among the most modern in existence. The so-called

THE GREATEST OF THESE  
IS LOVE

Among those killed was Dr. Paul Carlson. This was the news out of the Congo. Dr. Carlson had gone to the Congo to serve the Congolese with his skill as a doctor. He had gone because he was prompted by a Christian concern for them. Out of his small salary he had saved \$1,400 but when the time came that a need arose, he used that also for those he had gone to serve. There were many others who were killed, many of them who had gone to the Congo out of love for the people. In addition to those of white skin, hundreds of Congolese were slaughtered. Those who refused to take part on the side of the rebels were accounted no better than the foreigners, and they were hated in the same way.

The Congo remains the scene of a great struggle for the minds of men. It remains a struggle between two ideologies, and the gulf is wide. The storming of American, British, Belgian, and Congo embassies is indicative of the two ideologies face to face.

In the annals of world history, there are stories of men and women whose lives live on. Dr. Paul Carlson, and the scores of dedicated missionaries who died with him, speak of a way of life that never fails. They lived and died saying that only love can overcome the gulf that separates men.

Sunday School  
Lesson

Sunday, Dec. 6  
Righteous Living  
Titus 1:15; 2:10  
By C. P. Dame

Crooked people cannot live righteously. In order to have righteous living it is essential to have righteous people. Paul preached the gospel in order to persuade people to live righteously and he urged his helper and spiritual son Titus to do the same.

I. The call to purity is timely. Many of the early Christians came from pagan life. They had to overcome the pull of unclean living which as former pagans they had to meet. Paul said, "Unto the pure all things are pure." The Jewish religion demanded the observance of many rules and regulations.

Certain kinds of food were considered clean and others unclean. Paul said that nothing is unclean to believers because they have clean minds and hearts. The Bible says that "everything created by God is good" (I Timothy 4:4). The person who is pure in heart sees purity but the person with a dirty mind makes the finest things smutty. Both the mind and the conscience of the doublehearted are defiled. We think about a decision with the mind and let the conscience decide whether it is right or wrong.

If both mind and conscience are darkened no good will come to pass. The unclean person is repulsive to clean-minded people and disobeys God and becomes useless to God and man.

II. The aged should set a high example. Doctrine is important and that is why Paul uses the word 15 times in his letters to Timothy and Titus. Wholesome doctrine feeds the soul and shapes conduct. The aged men must be "sober, grave, temperate, sound in faith, in charity, in patience" and the aged women should stress holiness—"not false accusers, not given to much wine, teachers of good things" and teach the younger women, "to be sober, to love their husbands, to love their children, to be discreet, chaste, keepers at home, good, obedient to their own husbands."

Some modern young women may object to the words of Paul but many young married women would save themselves and their families much trouble if they would put in practice these words and the number of divorces would decrease. Home-making is a fine art.

III. Youth needs direction. Paul calls upon the young men to be sober minded. Young people face many temptations. Young people are apt to be more reckless than their seniors. Some young people think when it is too late and hence they learn the hard way.

Titus was a young preacher. Paul told him to set a high example. A youth leader who is not ready to set a high example has no right to serve in that capacity. All who teach young people should be consistent, free from hypocrisy.

IV. Christian employees have obligations. Slavery existed in Paul's day. Many slaves became Christians. The whole Roman economy depended upon slavery. The slave of a pagan master, if he was a consistent Christian could influence his master for Christ. If both master and slave were Christians there was the danger that they might expect too much of each other.

Today Christian workers have many opportunities to witness to their unbelieving fellow workers and to speak in labor unions about Christian principles. It is not easy to be a Christian today.

Work Starts  
On New Home  
For Firm

ZEELAND — Plans for a new building for the Howard Miller Clock Co. of Zeeland were outlined at a Christmas dinner for employees Tuesday night in Van Raalte's restaurant. More than 125 attended.

The new facility, on which construction has already begun, is located on a 15-acre tract on East Byron Rd. The building 400 feet long facing Byron Rd. and 100 feet wide will enable the firm to consolidate all its manufacturing operations under one roof. The company currently employs about 80 persons and expects to increase employment by 50 in the coming year.

The manufacturing area is considerably larger than now occupied. Increased operating efficiencies may possibly double production in the new facilities. Offices are located in the center of the building. There also is an area for employees' locker rooms, lounge, etc.

One of Zeeland's long-time industries, the company manufactures clocks of all types for commercial and domestic use as well as lighting fixtures, home furnishing accessories, precision wood parts and cases, and recently entered the automotive field in the manufacture of oak wood with rose wood inlay steering wheels for one of America's leading sports cars.

George Fisher served as master of ceremonies for the Christmas event. Special honors went to Walter Ver Hoeven and Mrs. Jennie Smith who have been employed by the company over 20 years. THOUGHTS ON FOOTBALL AND STUDIES — Home for the Thanksgiving holiday, Ben Farabee spent his time Friday at the Herrick Public Library preparing an assignment for Monday. A senior at Michigan, Farabee is a starting end

on the Big Ten champion Wolverines who are headed for a New Year's Day date in the Rose Bowl. Farabee is pursuing a course in labor relations and plans to take a position after his graduation in June, 1965. (Sentinel photo)

## Ben Farabee Anxious for Rose Bowl

A boyhood dream comes true on New Year's Day for Ben Farabee Holland senior end on the University of Michigan Rose Bowl bound football team.

Farabee, home to visit his parents, Mr. and Mrs. G. L. Farabee of 14995 Ransom St., over the Thanksgiving holiday, said Friday that the trip to California to play in the Rose Bowl will be the fulfillment of a dream and his biggest thrill.

"I really can't comprehend that it's happening to me," Farabee said. "I've always watched the Rose Bowl on television and dreamed of playing in it. But now to win the Big Ten championship and get to play in the Rose Bowl certainly has to be my greatest thrill."

Farabee hopes to be starting at end for the Wolverines in the Pasadena classic. He has been battling with senior Steve Smith this season and has been the starting end choice since the Minnesota game.

After playing behind Smith on the two-way team for the first four games, Farabee started the Homecoming game against the Gophers and also started against Northwestern, Illinois, Iowa and Ohio State on successive weeks.

Farabee caught eight passes this season for 88 yards including a 14-yard aerial against the Buckeyes in the championship game. One of his catches in the Navy game was filmed as part

of a sequence on teammate Bob Timberlake who was selected by NBC as an All-American. Farabee scored two points this season and they were made on a two-point catch after a touchdown against the Middles.

The 21-year-old-Holland High graduate divulged the Wolverines vowed after the Purdue loss that they would win the Big Ten championship.

Looking at this year's Michigan club, Farabee felt "the team played well together and we progressed throughout the season." "We had several outstanding sophomores," Farabee said, "good seniors led by our captain Jim Conley, and we got so much help from players like Chuck Kines, Dave Butler and Arnold Simkus who didn't letter last year."

"Tony Mason our offensive line coach helped us a lot as did the other coaches," Farabee said. "It was a concentrated effort," he added.

He lauded the Michigan coaching staff headed by Bump Elliott. "We'd do anything for him," Farabee said of the Michigan head coach, "and he is always sincere and pleasant." Speaking about Timberlake, the team's most valuable player, Farabee was high in his praises. "He is by far the best athlete I've ever played with. He never clutches and his running ability is fantastic." Farabee said the Michigan

coaches go over play situations with the quarterbacks during the week as to possible plays to call at various spots on the field. The 17-yard touchdown play against Ohio State, where he was used as a decoy, was sent in from the bench.

Michigan practices start with group drills, following calisthenics, and for the past several weeks of the season ended with dummy scrimmage. Live scrimmages were held in the first weeks of the season.

Farabee said he will start working out on his own next Monday. Plans call for the Wolverines to practice 16 days prior to the Rose Bowl and Farabee said the team expects to leave Ann Arbor, Dec. 19.

Farabee's brother, Dave, is a West Ottawa senior and an all-conference football player. Ben would like to see him attend Michigan. The Farabees have lived in Holland since Ben was a sixth grader and moved here from Gadsden, Ala.

Farabee's father is a construction steel worker. As for the New Year's Day plans of Mr. and Mrs. Farabee and son Dave, they will be flying to Pasadena to watch Ben play in the Rose Bowl.

Many other Holland residents will be watching on television as Farabee, a three-year letterman at Michigan concludes his college career. His number is 80.

## Speak French and German At Hope Language Houses

For most Hope College students, speaking a foreign language is usually restricted to the classroom. Twenty Hope women living in the college's two language houses, however, are learning to make everyday conversations into French and German.

"Deutches Haus" and "La Maison Francaise" are residential houses adjoining the campus where interested women may live in order to develop proficiency in a foreign language. Ten girls inhabit each of the houses, which are supervised by student resident advisors Mary Hakken, Sepulveda, Calif.; Marilyn Hoffman, Hudson, N.Y.; JoAnne Kemink, Grand Rapids, Mich., and Tina Velthuisen, Everson, Wash.

Lending authenticity to the language houses are two Swiss exchange students, Maja Etterlin from German-speaking Basel, and Daniele Gottraux, from the French speaking city of Lausanne. Under their supervision the girls in "La Maison" and "Das Haus" may have weekly literary discussions of French fables, learn the German version of the Virginia reel or collect such useful expressions as "I'm starved."

Touches of French and German culture characterize the houses, from college announcements written in French or German to continental periodicals and records by Edith Piaf and "Les Djinns Singers." The piano and collection of French records at the French House were donated by Hope professor of French Miss Nella Meyer.

Not all women living in the language houses are French or German majors, but advisors report that ease in conversation is increasing, although sentences are frequently a comic juxtaposition of foreign and English words.

Swiss coeds Maja and Daniele, who are enrolled at Hope under the Institute of International Education program, were surprised to find they would live in a house instead of a dormitory.

"I couldn't imagine living at school in the first place," said Maja, "since in Switzerland school is for lessons. Most Swiss students live with their families or in apartments. I was worried about adjusting to a large dorm and was glad to find myself in a house with nine other girls."

The Swiss girls' impressions of the United States were sometimes surprising to Hope students. While Americans usually consider themselves citizens of a "melting pot" Maja and Daniele were immediately impressed by the similarities of speech, styles and traditions in

different areas of the U. S.

"Switzerland is a small country, but we have four national languages, and the differences between linguistic sections are quite striking," said the two. Besides German, French and Italian, the Swiss national languages include Romansche, a unique dialect derived from Latin and spoken in the remote hills of the country by about one per cent of the population.

They were amazed, said Maja and Daniele, by the friendliness between students and professors at American schools. "Swiss schools are more firm," they agreed. "In Switzerland a student never talks to a professor unless it's absolutely necessary — and even then he's glad when it's over!"

## Christian Wins Thriller

Freshman Lloyd Dozeman calmly hit two free throws with no time showing on the clock Friday night in the Civic Center to give the Holland Christian Little Maroons a thrilling 53-53 win over the Hudsonville Unity Christian reserve team.

After leading practically the entire game, the Maroons saw the Crusaders knot the count with just five seconds left before they committed the costly game winning foul.

It was a tight battle all the way, although Coach Elmer Ribbens' club held the upper hand most of the way. Holland led 10-9 at the end of the first period and upped the count to 26-21 at halftime.

Christian pulled away in the second half and at one time led by 10 points before the Crusaders fought back to take a two point bulge. At the end of the third period the Little Maroons led 36-34 to set the stage for a tension-packed final period.

John Lappenga led the Maroons with 20 points but he was followed by two freshmen, Dozeman 14 and Bob Van Langevelde, 12. Don Hulst, seven and Wes Masselink two. Bob Van Koevering led the losers with 21 points.

## Seat Belts Save Family

**ZEELAND** — Four members of the Herbert A. Allen Jr. family of Charlotte, Mich., escaped with only a few bumps and bruises when their station wagon rolled end over end following a two-car collision at M-21 and 101st Ave. Friday afternoon. All were wearing seat belts.

Ottawa County deputies said Allen, 32, his wife Ellen, 29, and their two children, Dianna, 7, and David, 4, were headed west on M-21 when a car driven by Harlan J. Morley, 16, of 742 Plainfield Ave., Zeeland, pulled into the westbound lane of the divided highway, striking the Allen auto in the side. Allen's car left the road and rolled over.

Allen, who is a safety engineer, told deputy Carl Myrick his family never travels without fastening their seat belts. Even the back seat was equipped with belts for the children.

Morley, who was driving north on 101st Ave., had crossed the eastbound lane of the highway and proceeded from the median into the westbound lane when the accident occurred.

He told deputies his vision was obscured by fog on the car windows. Deputies ticketed Morley for interfering with through traffic.

## Christian Takes 76-66 Opening Win

Holland Christian's basketball squad combined great shooting and good overall floor play into a season-opening win before a sellout crowd of over 2,500 fans in the Civic Center Friday night by stopping Hudsonville Unity Christian 76-66.

Coach Art Tuls' club showed midseason shooting form by hitting 30 out of 61 tries from the field for almost 50 per cent to stop the Crusaders. In addition the Maroons exhibited a stronger bench than did the invaders as the Maroons pulled away in the last two periods after a tight first half.

Tuls was naturally well pleased with the victory and said, "We found out some of our weaknesses but we were also pleased with the team performance in addition to some fine work on the part of the individuals." Particularly gratifying to Tuls was the work of substitutes Vic Sharda, Paul Steggerda, Les Hulst and Jack Berghoef. This group gave the Christian coach an opportunity to rest every one of his starters at some time in the first half. The move paid off as the Maroons held the upper hand throughout the second half.

The winners after leading by just three points at halftime built up 14 point leads on several occasions in the final half. Unity's biggest lead was a momentary four-point midway in the second quarter. They never led in the game after this margin.

Holland received some fine guard play from Tom Deur and Larry Klaasen, both of whom sparked on offense with good shooting and fine individual moves. Jack Kalmink and Tom Wedeven looked good at the forwards as did Harold Alferink at center who came into his own on the boards in the second half.

Unity stayed in the game throughout much of the first half on some fine shooting of their own and by outscoring the winners on the boards. Led by some good outcourt shooting of forward Steve Coy and Henry Huizenga along with some strong rebounding by Carl Aalbers, the Crusaders hung on doggedly throughout the first half. Coach Andy Ten Harnsel also received top flight performances from his guards Bob Gerrits and Huizenga, along with reserve Don De Good.

The Maroons scored on an opening tipoff play with Deur hitting from the circle. Unity retaliated before they pulled out to an 8-3 margin midway in the period. Although Deur continued to connect for 11 markers in the period, the best the Maroons could do was a 17-17 count at the first horn.

The count was tied three times at the start of the second period before the Crusaders opened up their 26-22 bulge on some fine shooting by De Good and some Christian faulty board play. Then Alferink came to life in a hurry as he connected for seven straight points to give the Maroons a lead, which they never relinquished. By the end of the half, Holland led 38-35.

After Unity narrowed the count to 40-39 at the outset of the second half, the Maroons scored 10 straight points with all five starters getting into the act before the losers could score again. Huizenga then connected for three one-handers to narrow the gap before the Maroons pushed the bulge to 55-45 going into the last period.

Unity never got any closer than eight in the final stanza as the locals led 68-54 and 72-58 for their biggest leads during the stanza. The Maroons hit nine out of 12 from the free throw lane in the final period to keep the game well in hand.

At the charity stripe, the Maroons hit on 16 out of 24 while Unity scored on 12 out of 19. Deur led all scorers with 24 while Huizenga had 18 for the losers.

## Dutch Drop 69-51 Game In Opener

**GRAND RAPIDS** — Holland High's basketball team ran into a fine shooting, good rebounding and experienced Ottawa Hills squad here Friday night and dropped a 69-51 decision before 1,500 fans in the Grand Rapids Central Christian gym.

The Indians had enough of each of the needed basketball ingredients to be in command throughout although the Dutch made a game of it in the first half and led once in the second quarter by a point, 23-22.

But the superior rebounding, shooting and ball handling performed by veterans told in the second half and the winners jumped from a 28-24 halftime lead to a 52-38 third quarter bulge. Ottawa Hills increased its margin to 21 points, 67-46, late in the game for its biggest spread.

Holland had the misfortune of being against such a strong team for an opening game foe. The winners made 41 per cent of their shots. The Dutch made the usual first game errors but the misplays were more frequent and the play more erratic because of the seasoned opposition.

Big Mike Lawson, 6'10" junior starting his first game for Coach Don Piersma, was up against probably as good a center as he will meet this season. Lawson had his troubles handling 6'6" Ben Johnson and Johnson made 13 baskets and a free shot for 27 points. But Lawson showed that he has a shot and with his size he will be scoring for the Dutch.

Johnson and Vertlee Trice also took the boards away from Holland in the second half. In the first half, the Dutch and Lawson outrebounded the winners.

But frequently Holland was getting the offensive rebound and then missing the shot. This was evidenced throughout as the Dutch shot a poor 25 per cent on 17 baskets in 66 tries. This included periods of 5-17; 3-8; 6-18 and 3-13.

Both teams were ragged in the first half and Piersma shuffled nine players into the game in the first quarter trying to find a combination and relax his club.

His first sub Steve Millard pulled the Dutch up from an early nine-point deficit to within one, 16-15 late in the first quarter before the Indians added two points to leads 18-15 at the period.

Millard, who was all over the floor on defense, added a corner jump shot with three minutes gone in the second quarter to put Holland ahead, 23-22. Johnson wiped out the lead on the return up floor.

John Leenhouts turned in a fine defensive job on Trice. But when he picked up his fourth foul in the third quarter, Trice responded with seven baskets. He ended with 20 points.

Guards Bob Hutson and John Pierucki handled the ball, getting it into Johnson and Trice. Seasoned, this pair wasn't bothered by the jitters and inexperience that frequently cost the Dutch.

Lawson led Holland with 12 points, scoring five in the last two minutes. Three of his four baskets were in the second half. Millard followed with nine and Bob Brolin had eight.

In hitting its 41 per cent, the Indians had periods of 6-13; 5-16; 12-23 and 8-23. At the free throw line, Holland had 17 of 22 including five straight by Leenhouts. The winners sank seven of 20.

Holland opens the home season next Friday against Godwin in the Holland High gymnasium.

## Grand Haven Tax Exceeds \$1 Million

GRAND HAVEN — The bills for the largest tax warrant in Grand Haven's history — \$1,049,463 — were mailed out today by City Assessor George Wessel. This is the first time that the tax bills exceeded \$1 million, Wessel said.

The winter tax bills finance the city's share of the cost of operating the Grand Haven school district and the Ottawa county operating expenses. City taxes are paid in the summer. Last year's winter taxes totaled \$897,000.

Under a new state law, the new deadline for payment of city winter taxes, without penalty, has been shoved back to Feb. 15, giving the taxpayers more time to recoup after the holiday spending spree. The former date was Jan. 20.

Grand Haven's increasing school costs are reflected in the tax bills. The school district recently started a \$3,400,000 building and modernization program and this has assessed almost \$4 per \$1,000 valuation to the tax bills.

The school allocated tax this winter is \$453,000, the payment for debts on the 1960 and 1964 bond issues amounts to \$204,000 and a special 3 mill operating levy will bring in \$138,500. The county tax this year is \$216,000 and the delinquent tax account amounts to \$38,156.

The taxpayers can expect the bills in the mail Tuesday. The boost in the total amount of the tax warrant is caused by the addition of the levy for the new school building program. Work has started on the \$2 million junior high building, the Central elementary school has been completed and additions will soon start on several rural schools. A new grade school is also planned in the city, at Robbins Rd. and Griffin St.

## Mishap Leads To Many More

GRAND HAVEN — It just wasn't their day.

First of all, a car driven by Harvey Rouwhorst, 39, Grand Haven, hit a fire hydrant while backing out of a drive at 731 Beach Tree St. at 7:15 p.m. Saturday.

Water gushed from the broken hydrant and washed out the ground underneath, requiring police aid in directing traffic while water department employees made necessary repairs.

Police Officer Leonard Sletleut turned a cruiser around only to have the ground give way underneath it. That required a tow truck.

Another officer, Delve De Gram, was directing traffic and waved on a car, failing to see that it was pulling a trailer. The trailer hit him, flipping him into the air and onto the pavement. He was not injured.

The water hydrant was located in just about the center of the driveway and the occupant at 731 Beach Tree St. has been trying to get the hydrant relocated for a long time. Rouwhorst lives miles away at 13978 Green St.
