Changes in the Faculty

Prof. Bruno Meinecke, A. M., succeeds Prof. Milton Hoffman in the Chair of Latin. He received his Bachelor's degree from the University of Tennessee, in 1906, and his Master's degree from the University of Michigan, in 1916. He has had nine years of successful teaching experience in the following places: University of Tennessee, Knoxville, Tenn., 1906–1907; East Liverpool High School, Ohio, 1907–1908; Carleton College, Carleton, Mo., 1908-1910; Lutheran Ladies’ College, Red Wing, Minn., 1910-1911; Midland College, Atchison, Kas., 1911-1916. In each of the above institutions Prof. Meinecke has made himself known thru his violin-playing, in the capacities of concert performer, orchestra director, or instructor. He succeeds Miss Coleman as teacher of violin in the School of Music.

Mr. John J. De Boer, A. M., who fills the chair of History in the absence of Prof. Wynand Wichers, received his Bachelor's degree from Hope College in 1915. The University of Michigan in 1916 granted him the degree of A. M. in Philosophy. From 1916 to 1917 Mr. De Boer was an Assistant in Philosophy at Michigan. Previously to taking up his College work, Mr. De Boer had three years of successful teaching experience in the public schools of Michigan.

Status Quo.

This first bulletin for the academic year 1917-18 is sent out to alumni and friends of Hope College with the cordial greetings of the administration.

Our gravest fears that the unsettled conditions brought about by the war, which so largely disturbed family, social, industrial and commercial life, might also to a considerable degree demoralize our college work, have not been realized.

The war indeed has made its demands upon our studentry. Immediately upon the declaration of hostilities a generous contingent of our young men enlisted. Then came the conscription act laying its hand of claim upon a goodly number more. There is no other denominational college in Michigan in which so large a percentage of students comes from other states in the union, and for that reason, perhaps, our college is more largely affected by the demands of the war than any of its sister colleges in the state.

The regret and disappointment felt because we do not have as large an enrollment as last year are, however, more than
offset by the satisfaction and pride of knowing that Hope College is as ready to serve the nation in its need as she is to serve the Church, that she is loyal to the principles of democracy, and ready to do her full "bit" to make the world safe for democracy.

More than that, by the students that have gone to the different training camps and across the sea to the firing line, the Christian spirit and wholesome and manly influence of Hope are being carried right to the heart of things where the need is greatest and the benefit will be most telling. Those of the "boys" who have been back on brief furlough and addressed the student body—Korteling, Voss, Mulder, Prins, Heusinkveld and Steketee—have given proof that their interest in the higher and better things of life has not abated one iota, and that they are as zealous for the success of the war against sin as for the triumph of our arms in the world-wide struggle. God bless them one and all! Our boys will not be slow to improve every opportunity for well doing; they can be depended upon to give a good account of themselves everywhere. Verily they have their reward.

Hope College is affected in another way by the titanic conflict. Unless the Church and our friends in it come to the rescue, this will be a very lean year financially. Our expenditures are increased, our income is diminished. While the strictest economy is practised along every possible line, it must not be done at the expense of maintaining a high standard of efficiency in our educational work. The product we are preparing to send out into the world, bearing the imprimatur of this college of the Reformed Church, must measure up fully to the rank of those who have gone out from us in the past. They must be well equipped scholastically as well as in character to fill with credit the many places of service that will open to them upon the completion of their studies. We feel therefore that our appeal to our alumni and to the Church for funds calls for no apology at this critical time. We need your generous cooperation and we need it now.

A. Vennema.
War. Extension Courses

The colleges of America face a crisis in their careers brought about by the World War. Their attendance is seriously affected, for a loss in students varying from 15pct. to 35pct. or more is evidenced by the rolls as they are being completed for the first quarter or first semester of this year. Many critics are voicing the opinion that the existing methods and theories of education are undergoing a test which will prove fatal to most colleges of liberal arts. Others, of a kindlier and saner type, are certain that great changes are under way, altho these changes need not be fatal to the existing type of college. Hope College realizes the seriousness of the situation but does not discern a menace in it. The call seems to be only the more imperative to uphold the things of the spirit. The emergency calls for vision, energy, fortitude. Preparation for the time of peace to come is necessary. Then the ideals of the old culture will be heeded again. The materialistic "kultur" which now menaces the world of freedom and democratic development, will find its death-blow in the present struggle. For these better days to come Hope College is preparing. As a step in this direction it proposes to inject its spirit into the camp and the barracks. War Extension Courses are being prepared and are offered to all students who entered government service from residence courses. These are the regular curriculum courses except those which involve laboratory work. Any course listed and described in the general catalog, whether an elective or a required course, may be taken by correspondence. A descriptive circular giving details of registration and the character of the work, may be obtained from Prof. A. Raap, Chairman of the Committee on War Extension Courses.
