President's Report

This Year at Hope College

Students Seek Moral Imperative in Education

Events of the past several months lead us to believe that the Christian liberal arts college is needed today as never before. It is probable that higher education will never again be quite the same as it was in the early Sixties. Today students everywhere are deeply concerned about a moral stance and a moral imperative in their education. With the impetuousness of youth they are questioning tradition and challenging authority. They seek not only meaning and purpose in their individual, personal lives, but also solutions to the burning problems of the larger society. They are dedicated to expressing their own faith in action and in constructive efforts to improve moral world order.

In times like these the unique role that colleges like Hope can fill assumes increasing importance on the American educational scene. The term "Christian liberal arts college" takes on fresh meaning and significance. We are indeed fortunate that all you who have supported Hope so liberally sense the relevance of its education in today's world for enriching the life of the student and for the well-being of society.

Students Seek Models and Examples

Liberal arts education in a Christian context demands enormous quantities of insight, patience, energy, concern, and time from faculty and administrators. With these it can provide both the basis and the dynamics for learning and living. Students, while striving for knowledge and wisdom, are also seeking models and examples which are supplied by the type of faculty member with which we are liberally blessed at Hope. Young people are interested not only in what our faculty members know, but also in what they are, in what they do, and in how they express their beliefs in their lives. They earnestly desire serious and meaningful encounter with their teachers. We rejoice that for over a century this type of student-faculty relationship has been a hallmark of Hope College. We are happy also that all but four of our present faculty members will return for the 1970-'71 academic year.
Relevance Amidst Upheaval

A meaningful report on student life during the year must mention two unusual activities, both the result of discussion, debate, and an all campus search for meaning amidst turbulence, for relevance amidst upheaval.

Spring brought a solemn and significant memorial service held in response to the tragic events of our times. The service and march which followed the Kent State deaths received special recognition in the news media for their spiritual significance and profound meaning. Immediately after the service, the College administration received a letter of appreciation from Holland city officials for the exemplary conduct of the marchers and the College Board of Trustees passed a resolution of commendation for the students.

Hope College has pioneered in having student participation on campus policy-making Boards and committees. Faculty, students, and administrators have a long-standing habit of working together. Yet unusual days call for new techniques, and so in May the first all-college retreat, with representatives from the student body, the Trustees, the administration, the alumni, and the faculty, was held. The retreat was planned to be the first in a continuing series in which the College community will redefine its goals, purposes, and philosophy, and unify its thinking on how we can better make these a living reality on Hope’s campus.

At its meeting in May, the Board of Trustees voted to provide for the addition of two members of the faculty as regular members of the Board, and for the addition of one or two students to each of the Board’s five standing committees as resource persons.

Revision of the Curriculum

The academic program of the College has seen the establishment this year of one new department — Communications. This follows by three years the establishment of our next newest department — Geology. Geology is now offering a full complement of courses for a major of integrity.

A student-faculty curriculum committee has been working during ’69-’70, making recommendations for a comprehensive, thorough going revision of the curriculum. The report of the committee has been completed and will be under study during the coming academic year. In addition, one department has completed a full revision of its own offerings. The Department of Religion has designed a new curriculum to strengthen our commitment as a church-related institution, to cover the field of religion systematically and comprehensively, to enable each faculty member to teach in his specialty, and to provide wider elective possibilities for students.
Honors

The decision of the Council of Phi Beta Kappa to recommend to the United Chapters this fall that they establish a chapter at Hope represents the culmination of a dream that the College has held for decades.

Three seniors were honored by being named Woodrow Wilson designates: Robert Bates, Charles Lieder, and Mary Luckey. Anne Larsen received honorable mention. Charles Lieder was also named one of 12 outstanding chemistry students in all colleges and universities in the nation by CHEMICAL AND ENGINEERING NEWS, the third time in the five-year history of the Award that a Hope student was so honored. Mary Luckey was among the top 50 seniors across the nation to receive honorable mention for the Award.

Two Academic Symposia

Two important academic symposia were held during the year. With the financial assistance of area businesses and conservation groups a Symposium on the Environment was held for both students and community residents. The two-day meeting brought Carl Klein, Under Secretary of the Department of the Interior, and Representative Guy Vander Jagt from Washington, along with a number of prominent scientists working on pollution control, to Holland.

The Sperry and Hutchinson Foundation supported a symposium on “Mechanism, Man and Nature: The Data and the Inference.” Position papers dealing with the fundamental nature of man were presented by a geneticist, a physicist, and a psychologist. Computer-generated films and a concert of electronic music completed the program.

The Astronaut Visits

Among the widely known visitors to the campus this year was Colonel Frank Borman, the astronaut. Colonel Borman came as a special guest of the Sophomores who had selected him to be their “Class Hero.” He endeared himself to the students, promising to return in June, 1972, for the graduation of “his” class.

New Facilities

Construction on both the De Witt Cultural Center and the Wyand Wichers Wing of the Nykerk Hall of Music is now underway. A new residence, the Brumler House, made possible by a gift from Fifth Reformed Church of Grand Rapids, was opened for senior women. A number of additional residential cottages were also added to campus housing facilities this year.

The receipt of a $500,000 challenge grant from the Kresge Foundation for a new academic-science building has given financing for this much needed facility a tremendous boost.

Students who arrived in September discovered an added dimension to college life in Marigold Lodge
and the Gold Estate. Miss Mary Jayne Gold had given the College her family’s summer home and seven acres of choice property along Lake Macatawa. As the year progressed, students participated in renovating and redecorating the Lodge and in using it for parties, retreats, conferences, and other group activities.

**Record Enrollment**

For the first time in its history of more than a century, Hope College opened a school year with an enrollment surpassing 2000. The admissions policy insured a rich diversity of students who could learn much from each other. The students came from 39 states, 23 foreign countries, and belong to some 20 different religious denominations. Sixty-two were enrolled in off-campus programs and were studying in Beirut, Bogota, Durham, Freiburg, Grenoble, Tokyo, Madrid, Valencia, Vienna, Mexico, New York, Washington, and Philadelphia.

The violent disturbances on many campuses this year have given us all new insight into the importance for each of us and for this nation of a dual system of higher education. At a private, church-related college like Hope direct encounter between students, faculty, and administrators is the normal order of business. There can be no real substitute for personal contact, for the close interaction of the mature scholar-teacher with a passion for great teaching, and the young, eager student with a goal and a dream. This is the only real basis for a stimulating, lifelong education. A gift to Hope College is an investment not only in the lives of outstandingly worthy and deserving young people, but also in a better, continuously progressing future for us all.

**A Tribute to You**

This report is a tribute to you, the many loyal friends of Hope College. Our warmest thanks and most sincere appreciation for your open-hearted generosity to each alumnus, foundation, business, friend and church listed in this report. The support received from you has undergirded the total program of the College and brought closer the realization of her highest dreams and aspirations. The splendid giving of all of you is a tangible expression of confidence in the College and her mission. You do, indeed, supply the margin of excellence and distinction which makes Hope a noble institution.

Special thanks go to Kenneth P. E. DeGroot, chairman of the 1969 Alumni Fund, to Clarence Klaasen, chairman of the Holland Community Drive, and to Hugh DePree, chairman of the Zeeland Community Drive, for the many hours of work and leadership that each devoted to enlisting financial support for the College.

June, 1970

Dear Friends of Hope,
Hope College is part of a great and wonderful picture. Unfortunately, this wonderful scene isn't always viewed by many of our alumni and friends. Instead, every day we seem to be faced with a view of violence, environmental problems, financial crisis and many others. How do we get Hope's great picture across to you? The best way would be to have you revisit the campus - to see the building in progress - to see the beautiful setting - but most importantly to see, visit and sense with pride, the quality and distinctiveness of Hope's fine students. There is a difference, and it should make you happy and proud!

It is so easy for each of us to find a person, an event, or far too often, a rumor, that becomes our excuse for criticism and non-support. They say that even a masterpiece such as a Rembrandt or a Monet may have a flaw, or the finest actor will upon occasion miss a line. In the case of Hope College, I guess it only points out that it takes a hundred and four years, and even a little more to reach perfection. However, your sense of pride and support for all Hope is doing can only increase when you read the President's Report on the preceding pages.

In the shadow of many unpleasantries around us, take a little time to reflect on the beauty and greatness that is HOPE. The many alumni and friends listed here are a vital part of that scene and with the advent of our 1970 Annual Fund Drive now underway, we trust that this picture may be expanded many times during the coming year. Many of us feel that in the midst of all the turmoil and unrest on campuses throughout the world, the Christian college in general, and HOPE COLLEGE in particular, can look forward to its greatest days - WITH YOUR HELP.

Sincerely,

Kenneth P. P. DeGroot
National Chairman
Hope College Annual Fund

P.S.
Our special thanks to the Hope alumni listed below who worked so diligently as Area Chairmen during the 1969 Annual Fund campaign.

"1969 Pace Setter."
A note about Annual Fund recordkeeping --

Your contributions are carefully recorded and receipts are mailed to you as soon as possible. If you contribute more than once during the year, a cumulative total is credited to your name for each calendar year. Should you lose a receipt or wish any information regarding your gifts (for income tax purposes, for example), please contact the Alumni Office by mail or phone.
