SENATOR SCHURZ'S LATEST ACCUSATION AGAINST THE PRESIDENT.

Carl Schurz, United States Senator from the State of Missouri, addressing his constituents in St. Louis, on Monday evening, the 23d ult., made the following grave accusation against the President of the United States:

"When the San Domingo scheme was pending, two gentlemen in intimate relation with the White House came to me. Each were separately soliciting my support of the project. They assured me that if I would give that support, or abstain from opposition, all the patronage I desired would be at my disposal, making me in that respect one of the most influential men in the land. One of these gentlemen subsequently admitted to me in writing that the offer was made to me with the consent of the President himself. He said he had withheld this statement a long time in spite of many provocations, and made it now only because as the papers have recently stated, that the President himself put forth the assertion in a public interview, that he, (Schurz), was opposed to him because he had not received as much patronage as he wanted."

Though Senator Schurz does not charge the President with a personal offer of the kind, still his statement is explicit enough for all the purposes which that gentleman desires to accomplish—and perhaps, too, for some he does not now realize. The "intimate relations with the White House," which the Senator asserts the presumed traffickers in patronage possessed, are matters susceptible of easy proof, as the Senator must well understand.

Friends, personal and political, of the President, citizens of St. Louis, who were in the meeting, and heard the accusation, at once telegraphed to Washington and asked for the President's reply. He was then en route from Long Branch, and could not of course be reached. On the 23d, before the Cabinet assembled, the Secretary of War, General Belknap, brought it to his attention, and the following statement was authorized by the President:

"WASHINGTON, D. C., July 23, 1872.

"The charge made last evening by Senator Schurz, in his St. Louis speech to the effect that he had been offered official patronage by the President or his friends to vote against his convictions of duty in regard to the annexation of San Domingo, was laid before the President by Secretary Belknap, on General Grant's arrival here this morning. The President pronounces the whole statement, as far as it attempts to reflect upon him, as absolutely unfounded in fact. Senator Schurz was either imposed upon or is the utterer of a malicious fabrication. In no way was any one ever authorized to tender to Mr. Schurz, or any other Senator, the control or use of any patronage for his approval of the San Domingo annexation policy, or any other measure of this Administration. The President expresses his earnest desire that Mr. Schurz will at once publish the letter he claims to have, relating to this pretended proffer, in order that if any one has so imposed upon the Senator, it may lead to a full exposition of the dishonest motives and character of that person."

This statement was telegraphed to the country by the President's wish, and if it could have been made in more explicit and positive terms, they would have been used.

Mr. Schurz must meet the issue he has himself raised. He must take either horn of the dilemma in which his accusation places him, and be compelled to acknowledge himself a man whose reputation is not above suspicion, or he would not have been approached in the way he states, or be himself branded as a slanderer, willfully and maliciously maligning the Executive. The President's manly and dignified denial admits of no evasion. It presents the square issue, and Mr. Schurz cannot evade it. The Senator must walk up to the rack, "fodder or no fodder."

FROM GRAND RAPIDS.

Correspondence Holland City News.

MR. EDITOR, SIR—I was in your city, some time ago, on a pleasure trip, and as I was looking up your misfortune with the late October fire, my mind ran along something in this way:

What a splendid spot the city of Holland is for men with capital. Just look at your splendid river and lake, for an outlet for navigation, besides two railroads; just think of it for manufacturing purposes, such as furniture, pails and tables, and all kinds of wooden ware, boiler shops, brush factories, etc. Just think of it, reader. You have, also, an iron ore bed and a stone quarry, and plenty of timber for any kind of manufacturing purposes.

Then I thought why is it that these people of Holland are lying still? It is reported that a few of your citizens have not lost everything they had, but are well off yet, and are owners of hard cash. City lots! hundreds of acres of land, and plenty of credit. Why then, say I, are you lying still and allowing your neighbors to go ahead of you? Some of you will say this is not so, our neighbors are not going ahead of us. Just look at us, will you? See what we are doing, building stores, dwellings, and also a flour mill. I say in answer to this, this does not help your case. I advocate the only salvation for you, is to at once organize companies for the purpose of building factories of various kinds, and this will give your laborers work in the cold winter. These people in your city are compelled to consume each winter, what they have earned in the summer; and had you these factories it would give the laborers and mechanics work the year round. It would increase your population, double it in a year after you had your factories in running order, and your capitalists will make money, as they ought surely to do.

I thought further, is it possible that the farmers surrounding your city are supporting your merchants? I presume they are; but your merchants cannot save or lay anything up, admitting that their rents and clerk hire is cheaper than in this place. If, as I have stated before, you had factories, of various kinds, it would also be better for your merchants, and hotel keepers.

And do not let me forget the Press, it would increase the number of your subscription list; and by the way, your people ought to support, yes, liberally support your American paper, the HOLLAND CITY NEWS, without regard to party, but for themselves and every body's interests; and I will give you my reasons for it:

The people throughout the United States, know that Holland City is settled principally by Holland born citizens, and by sending your American paper among the American people, all over the United States, your chances are good for an American immigration to your city, and you will soon have American capitalists settle among you, and your city could, and soon would be made one of the best on Lake Michigan. More anon. From your

CORRESPONDENT.

Delegates to Congressional Convention—R. B. McCulloch, George Lauder, John Haire, John Spoon, Robt. A. Haire, E. P. Ferry.

Henry S. Clubb, from Committee on Resolutions, reported as follows:
The Republicans of Ottawa County, Michigan, in Convention assembled this 29th day of July 1872, hereby declare,

First, That they have undiminished confidence in the integrity, ability, fidelity and patriotism of President Ulysses S. Grant, and do most cordially endorse the re-nomination made by the Republican National Convention, held at Philadelphia June 5th, 1872.

Second, That the nomination of Hon. Henry Wilson, for the nomination of Vice President, they regard as a proper and just tribute to manly worth and patriotic devotion, and as an indication that the Republican party desire to do justice to the laboring masses of the country, of whom Henry Wilson is most distinguished, able and trusted champion.

Third, It is the duty of every patriot, to take a determined stand in the present political era, so as to preserve the credit of the country, and maintain the high position in the scale of nations, attained through the victories of war, and the achievements of peace, secured through the eminent leadership of Ulysses S. Grant, the most successful General and President since Washington.

Fourth, In the re-election of President Grant we are confident of a continuance of the unexampled prosperity which has been enjoyed during the present administration, whilst the election of Horace Greeley, however gratifying to himself and personal friends, we should regard as a public calamity, as tending to unsettle the finances and disturb confidence, admitting as it would to power a party whose distinctive record is antagonistic and in bitter opposition to every measure of reform advanced by Republicans from the abolition of slavery to the establishment of civil rights; a party that condemned the war for the maintenance of the Union, and rejoiced at every defeat of the Union army, and that its utmost to render that war unsuccessful even to declaring it a failure; a party that did its best to destroy the credit and value of U. S. securities, at a time when the country was in peril, and but for whom those securities would have realized their true value, and the public debt have been proportionately less; a party whose financial record, when and wherever in power, is plunder and re-plunder; whose political record is disunion, and whose only ambition is to rule or ruin. While we state this as the record of the Democratic party as a body, we honor the men, who, as war Democrats, stood shoulder to shoulder with the Republicans in fighting for and maintaining the integrity of the Union and the credit of the national flag.

Fifth, To those many honest patriots still in the Democratic party who prefer the unity, credit and prosperity of the country to the triumphs of party, we appeal with confidence that they will prefer to unite with us, for the maintenance of a stable, safe and reliable government, in preference to the uncertainties and eccentricities forced upon them by the politicians at Cincinnati and Baltimore. To such we offer a cordial reception and a fair share of political honor.

Sixth, In the present changes of political affinities and associations, we earnestly recommend the formation of Grant and Wilson Clubs in every city and township, and invite all, without regard to past political associations, to enroll as members, and we hereby request the several township committees to report the names of all members of all said Clubs, to the next County Convention, so that in the selection of candidates, at that Convention, our newly acquired friends shall have a fair proportion of political consideration.

Finally, We urge all who desire the perpetuity of our glorious Union, the maintenance of human rights to life, liberty, and the pursuit of happiness; the preservation of the credit, honor, prosperity and tranquility of our common country, to unite with us in supporting for re-election Ulysses S. Grant, the man who has proved his capacity to secure these inestimable blessings, and who, in the words of Horace Greeley, "never had been beaten, and never will be."

Received with applause, and the report was unanimously adopted.

On motion of J. A. Leggat:

Resolved, That the above resolutions be published in the Republican papers of the county.

The Convention then adjourned.

JOHN ROOST, Chairman.

REDUCTION OF THE NATIONAL DEBT.

On the first day of March 1869, the public debt of the United States, less the amount of cash in the treasury, according to the official statement then published, was \$2,525,463,260 01. Supposing that during the first four days of the month the debt was reduced by \$35,573 10, which is four-thirtieths of the reduction for the entire month, the amount of indebtedness, less cash in the treasury, on the fifth day of March, 1869, was \$2,525,427,685 91.

On the first day of June, 1872, the total public indebtedness, less cash in the treasury, was \$2,193,517,478 94, showing the enormous reduction of \$331,910,207 97 in the amount of the debt since the fourth of March, 1869.

It thus appears that during a little more than three years of President Grant's administration the public debt existing at its commencement has been reduced by nearly one-seventh of its entire amount. European journals, commenting upon this achievement, have spoken of it with astonishment, as something wholly unparalleled in financial history. To appreciate its full value to the people, however, we must consider the immense saving which it involves in our public expenditures; for the interest on the debt existing on the first day of June, 1872, was less by \$22,002,519 a year than that on the debt existing on the first day of March, 1869. Had the administration adopted the policy of postponing the payment of the debt to an indefinite time in the future, as some persons have censured it for not doing, this twenty-two millions a year would still have to be drawn out of the pockets of the people. The money they would thus be compelled to sink forever in the payment of interest, would, in ten years, without compounding, amount to the enormous sum of \$220,000,000, and in twenty-five years would exceed one-fourth of the entire national debt. The true economy of the policy of prompt payment adopted by President Grant and his excellent minister of finance is thus made manifest. Already it has produced an annual saving, as we have seen, of more than twenty-two million dollars, a monthly saving of \$1,833,543 25, and a daily saving of \$611,181 08. Other plans of relieving the people from taxes, which have, from time to time, been put forward, have been mere temporary expedients, whose sole effect would have been to prolong the period, and greatly augment the aggregate amount of taxation; but this plan brings permanent relief and is accompanied by no haunting thought of evil days to come.

Moreover the process of a reduction is still rapidly going on, and every year the diminution of the amount required for interest, renders it possible to apply so much the more to the payment of the debt. Even the twenty-two millions a year already saved, if deposited annually in a sinking fund, at five per cent interest compounded semi-annually, would alone suffice to pay off the entire National debt, in thirty-six and one-quarter years, and compounded at six per cent, would pay it in thirty-three years. Well might President Grant cherish the sanguine hope, expressed in his letter of acceptance, of leaving to his successor, whether at the end of this term or another, a country with credit at home and abroad, and without embarrassing questions to threaten its future prosperity.

St. PAUL, MINN., July 24.—Last night three or four hundred citizens of Brainerd, Minn., went to the jail and took from there the two Chippewa Indian murderers of Miss McArthur, and hung them to a pine tree on the principal business street. Nearly the entire population witnessed the hanging. The bodies were left hanging all night, and cut down this morning. The proceedings were generally indorsed by the people.

Geneva dispatches say that the claims for damages caused by the vessels Boston, Sallie, Jeff Davis, Joy and Music have been dismissed by the arbitration. The demurrer of Great Britain concerning the other vessels is overruled. The case of the Florida was concluded to-day. The decision, it is believed, awards \$2,600,000 damages for her depredation. The Board then took up the case of the Alabama.

A correspondent from Lapeer says: Our District Convention, after electing delegates to the State Congressional Conventions, adjourned without making any nomination for a Legislative candidate or delegates to the Senatorial Convention.

Local News.

Dan Rice's circus came and went, paying \$15.00 into the city Treasury, receiving good losses therefor.

We call the attention of mechanics to the advertisement of H. Walsh, Esq., inviting proposals to build an Episcopal Church in this city. We are glad to announce that preparations are so far perfected as to insure its success, send in your bids gentlemen.

A series of parlor entertainments will be given at the Cutler House, commencing the 30th ult. Two for more will be given each week. The programme will include readings, debates, lectures and dancing. The properties of the mineral water at Grand Haven, Spring Lake and Fruitport will be discussed.

LITTLE BOY.—Be you the drug man? Druggist—Yes sonny. What can I do for you? Little boy—Dad's got 'em again! Little boy is full of 'em, and he's howling like thunder, and mother sent me over to get something for him quick. Druggist—What does he want? Little boy—Don't know, but he's yellin' for "anything to beat Grant."

SUMNER FOR GREELEY.—Charles Sumner has written a letter in reply to certain colored citizens, renewing his attacks on President Grant, and declaring that in his opinion "the best interests of the country and of the colored race demand the election of Greeley and Brown." This letter fills about three columns in the Detroit Free Press.

THE SPIRITUALISTS.—The Van Buren County Circle of Spiritualists will meet in Convention at South Haven, to-day and to-morrow, August 3d and 4th. Mr. Giles B. Stebbins, Frank McAlpine, Albert Stegeman and James Choate are engaged as speakers. Lady speakers are also expected to be present. A cordial invitation is extended to all.

Jay A. Hubbell of Houghton, (Lake Superior), has been placed in nomination by the Republicans for the honors of the Ninth Congressional District on the 32nd ballot. He is said to be a very popular man from the Upper Peninsula, and will no doubt be elected. Hon. J. W. Begole of Genesee Co. is the Republican candidate from the Sixth District. He received his nomination on the 42nd ballot.

As four ladies were passing at the corner of Eighth and Cedar streets, about 9 o'clock on Thursday evening last, they were accosted by the same number of bipeds in male attire, and from remarks and demonstrations made, the ladies became frightened, and ran away from them. The young men's names are known, and officers are watching them. It is about time that public sentiment demanded of our city fathers some suppression of lawlessness in our midst. If it has come to this, that a respectable lady cannot walk the streets of our city, after dark without being insulted, there is a lack of vigilance somewhere. Let us investigate and prosecute at once, and make short work with all such culprits. We hope, however, our Courts will not be too eager in issuing criminal process, that innocent men may suffer and the guilty go unpunished.

UNION FAIR ITEMS.—The frame of the new Art Hall is going up to-day. By Saturday night it will all be up. The structure "looms" up not a little, and will add even more to the grounds than any anticipated. A steam engine of 75 horse power for the Fair is making at Messrs. Lietelt Bros' shop. There is to be a line shaft 100 feet long and 2 7/16 inches in diameter attached to the engine in "Mechanical" Hall. A solid plank floor for the machinery to rest on will be laid. The President of the society has received a letter from Wm. Smith, of Detroit, applying for stalls for nine head of fat cattle, some of the finest in the State, and for 10 or 15 pens for imported swine, and sheep, said to be as fine as any in the United States. He has over 70 applications for stalls for cattle already, and says he must build more than 100 new stalls again this season.—Daily Herald.

REPUBLICAN STATE CONVENTION.—The Republican State Convention to nominate State officers was held at Lansing Wednesday last, and made the following nominations: For Gov., John J. Bagley; for Lieut. Gov., Henry H. Holt; for Secretary of State, Daniel Striker re-nominated without opposition; for State Treasurer, V. P. Collier re-nominated without opposition; for Auditor General, Wm. Humphrey; for Commissioner of the State Land office, L. A. Clapp; for Attorney General, Byron D. Ball; for Supt. Public Instruction, Daniel B. Briggs. Nearly every County in the State was represented and the best of feeling prevailed. Speeches were made by Mr. Bagley, Gov. Baldwin, Senator Stockbridge during the session of the Convention. In the evening a rousing meeting was held on Capitol Square, addressed by Post Master General Cresswell and Senator Chaudler. A grand torch light procession by 300 tanners was a part of the programme, which together with the music from the Band and the Lansing Glee Club formed a combination of exercises for the evening that held the audience of from three to five thousand people as by magic; altogether it was a day of promise to the Republican party of Michigan, indicating a spirit of unanimity and a degree of strength wonderfully pleasing to Greeley Brigade. Michigan may be set down for 50,000 majority for Grant and Wilson.

ORGANIZE.—We this week publish a call for the purpose of organizing a Grant and Wilson Club in this city. Let an effective and thorough organization be made. Let every hand, and heart be engaged in the effort to save the reputation of the nation. But for what do we organize? Only to work. It will be more than useless to effect a political organization unless we are ready and willing to work. There should be organized in every school district, clubs composed of workers. What is to be done by thus organizing? Very much depends upon the frankness and unanimity of expression; of allowing no jealousies or personal rivalries to manifest themselves in our club organizations. If this call means such, then we are ready to honor all such drafts as may be required of us, and would urge the good work forward; but if the question of caste, color, or nationality, (elements of discord,) are to be dragged in; we can have no sympathy with it. Organize for work and unanimity of purpose, and much good will be done.

OUR PROSPECTS.—There has been no time since the great conflagration of last October that our citizens have manifested a disposition to delay any enterprise which had for its object the rebuilding of our city, so far as our local internal affairs are concerned. But there are now, and have been for some time past, objects of great importance to us as a city, which require immediate action. We refer at this time, particularly to the Michigan Midland Railroad, a project which our citizens have been invited to consider. There is not, perhaps, an individual in this city that is not willing to acknowledge that should this road terminate here, it would be of material interest to this city. Yet all efforts adopted to secure a wide awake interest, favorable to the enterprise, have proved an abortion. The people are not in reality, all dead here, neither are they so poor that they cannot do something to encourage more railroads to come here. A committee has been appointed to canvass the city for funds to secure a survey from Alaska, in Kent Co., to this city, and they are at work with fair prospects of succeeding. If we can present the natural advantages of this route, authoritatively, to the company building this road, we have no fears of the result. We hope every citizen will add his mite to aid in securing this great prize to our city.

THE MICHIGAN MIDLAND.—Contractor Gossage having again tendered us a seat in his carriage, enables us to give the reader a few facts upon the all-interesting topic heading this article—"The Michigan Midland." The total grade established is a little under five miles; the work is well done, and speaks for itself. Besides what has been graded near Orion, and during the two days' session of the Board of Directors, the past week, it was resolved to put the whole line from Fenton east to Ridgeway, into the same working order as that between Ridgeway and St. Clair. Mr. Gossage has contracted to do this, we understand, and leaves to-morrow, he will pay the gang laborers employed at Orion, organize new gangs at different points on the line, and as our citizens may well expect, push things at a lively pace to completion. A large gang of men reached this city on Sunday last, from Alvirton, Ont., where the work is finished, and are to go to work on the Midland. Re-inforcements are daily expected. The contractors are well known in Canada, and can procure all the help they desire. We are authorized to say that all reports in circulation as to the consolidation of the Canada, Michigan & Chicago Railroad with the Michigan Midland, are untrue. Nothing of the kind has been done—has been in contemplation. The reports to this effect are in no wise entitled to credence. We put entire faith in the Michigan Midland, feeling assured that this road, at least, will be built, and right speedily.—St. Clair Republican.

CALL FOR A GRANT AND WILSON CLUB.—We, the undersigned, citizens and voters of the city of Holland, wishing to promote the election of General Ulysses S. Grant and Senator Henry Wilson to the Presidency and Vice Presidency of the United States, and believing these candidates to be honest and faithful, and in every respect fit for the high offices for which they were nominated, and wishing especially for a continuance of the present faithful, economical, energetic and peaceful administration, which has reduced our public debt, faithfully collected our Internal Revenues, kept us at peace at home and abroad, and has been a blessing to our common country, do wish to organize ourselves into a Grant and Wilson Club, and invite our fellow citizens to join with us. A meeting for the further organization of the Club, and to elect officers, will be held next Thursday evening, at 7 o'clock, at Binkneant's Hall. All the are cordially invited to attend.

The Milwaukee Light Guards, a very gentlemanly body of men, made their appearance in our city last Saturday, small in numbers but big in weight. Among the valiant crowd we noticed the familiar faces of Hess and Heinman, of the Sentinel. After parading through our streets for an hour or two, they took the boat for Fruitport, where they enjoyed themselves during the day, taking dinner at the Pomona. In the evening, they had a ball at the Cutler House, returning to the Cream City Sunday morning. The trip will long be remembered by the Guards, as one of the pleasant episodes that occur but seldom in a life-time.—Grand Haven Union.

INS. Co. OF PHILADELPHIA, PA.

(ESTABLISHED 1794.)

Why? Because it is the oldest Ins. Co. in the United States.

Because it was the first to pay its Holland losses in Ready Cash.

Because it has paid over \$26,000,000 losses.

Because it has a surplus (over and above its debts) of more than any two Ins. Co's. in the United States.

Because it has a surplus of more than five times that of all the other Ins. Co's. in the city combined.

For proof, read the (Jan. 1872) Report of the Superintendent of the Insurance Department of New York.

Policies issued at the Holland agency, as low as by any other responsible Company.

A full stock always

A Humbug of Neatness.

Charles D. Warner, in his new book, "Saunterings," thus ventilates one of the stock "sights" of Holland:

"We drove out five miles to Broek, the clean village; across the Y, up the canal, over flatness flattened. Broek is a humbug, as almost all show-places are. A wooden little village on a stagnant canal, into which carriages do not drive, and where the front doors of the houses are never open; a dead, uninteresting place, neat, but not especially pretty, where you are shown into one house got up for the purpose, which looks inside like a crockery shop, and has a still little garden with box-trained shapes of animals and furniture. A roomy-breeched young Dutchman, whose trousers went up to his neck, and his hat to a peak, walked before us in slow, cow-like fashion, and showed us the place especially some horrid pleasure-grounds, with an image of an old man reading in a summer-house, and an old couple, in a cottage, who sat at a table and worked, or ate, I forget which, by clock-work, while a dog barked by the same means. In a pond was a wooden swan sitting on a stick, the water having receded, and left it high and dry. Yet the trip is worth while for the view of the country and the people on the way; men and women towing boats on the canals; the red-tiled houses painted green, and in the distance the villages, with their spires and pleasing mixture of brown, green and red tints, are very picturesque. The best thing that I saw, however, was a traditional Dutchman, walking on the high bank of a canal, with soft hat, short pipe, and breeches that came to the armpits above, and a little below the knees, and were broad enough about the seat and thighs to carry his, no doubt, numerous family. He made a fine figure against the sky."

Policy of Rich Men.

It is told us that the Rothschilds never take into their employment any person who has been unsuccessful in the affairs of life, and that the fact of any man having failed in an undertaking is in itself an absolute bar to his entering their service. We do not know whether this statement be true or fictitious, but if true, it does not prove that the Rothschilds have adopted the only wise course of action in this matter. For example, the great New York millionaire, and a man of business, A. T. Stewart, has for a quarter of a century carried out a policy exactly opposite to that attributed to the Rothschilds, and has always been in the habit of taking into his employment men who had previously failed to business on their own account, not considering that one failure indicated an absence of capability on their part. He has probably at this time no less than one hundred of these merchants in his service in various capacities at home and abroad. Most of them are men of middle age, but many are even older than that. He considers them the most valuable and faithful of his subordinates, and acknowledges how much they have done to build up his immense interests. He not only gets the benefit of their experience and knowledge, but many of them have been the means of bringing to him a large amount of business through their mercantile connections and acquaintances. He often takes in men, who, before their failure, had been among his sharpest competitors. By steadily pursuing this line of policy, he has surrounded himself with thoroughly efficient clerks—men who know their business, and guard his interests wisely.

And now another fondly cherished tradition is sternly swept away by the Rev. James B. Dunn, of Boston, who is traveling in Palestine. The reverend gentleman visited the Dead Sea, and his description of that notorious water and salt, flatly contradicts all the accounts of all other travelers. He says that the waters are clear, and ripple beautifully, that the shores are green with shrubbery, and bright with pretty flowers. He admits that the waters are heavy and bitter, but denies that they are never ruffled; on the contrary, "their waves splashed on the pebbly beach, and in the distance their white crests looked like so many white fawns."

In a Western railroad car the other night, a young and lovely couple were talking "tunnel" assiduously, until, as the train entered the tunnel, while the lamps inside the car burned brightly, the lovers indulged in one of those hearty salutations that are made to be felt, but not to be seen by indifferent spectators. Of course the carload exploded, while the impulsive swain apologized to his Dulcinea with the unsatisfactory explanation, "Confound the lamps, I didn't think of them."

STEKETEE & KIMM'S Holland Stomach Bitters.

These Bitters are good for all diseases arising from a derangement of the stomach. As a corrective, it cannot be excelled. Pleasant to the taste, assists digestion, and keeps the system generally in good condition.

Reason why we have so great a Demand for OUR BITTERS.

First—Because they are more food than other Bitters. Second—Because the Bitters are as large as a great many Bitters which sell for \$1.00, while ours are sold for the small sum of FIFTY CENTS. Druggists.—One-half wine glass before each meal. Take one-third Bitters and two-thirds liquor, and you will have a pleasant drink. Sold by dealers generally.
