Hope a Family School

Eighty students, fourteen per cent of the entering students in August 1973, indicated they were second generation, or more, Hope young men and women. The Alumni Magazine would like to be informed of any in this category who are not listed here.

Sixty more students indicated that relatives: brother, sister, aunt or uncle had attended Hope. For one, Martha Barnett of Rushville, Indiana, it was her grandmother, Henrietta Van Zealand of Rushville, who made her eligible for second generation status.

The total number of new students with family members who were former Hope students is one hundred and forty-one, or nearly 25 per cent of the five hundred seventy new students this school year.

This Magazine is proud of the fact that 14 per cent of the new students this year are children of former Hope men and women. It is pleased to feature them, the 14 third, and the two fourth generation freshmen in this issue.

Fourth Generation

There are two fourth generation new students on campus this year: Phyllis Hagler, West Chicago, Illinois and Cynthia De Jong, Wichita, Kansas. At least, there are two that we know about.

Phyllis Hagler, left, is looking toward a career in medicine, therefore she’s already majoring in biology. She is the daughter of David ’52 and Kay Bruce ’57 Hagler. She is a fourth generation Hopeite by way of her grandfather, the late John Hagler ’22 and her grandmother Lucille Heemstra ’21 Hager of Grand Rapids; and her great grandfather, the late J. F. Heemstra ’95. The oldest child in the family, Phyllis has two brothers and two sisters.

Always interested in science, it was a month-long stay in a hospital under treatment for viral encephalitis that fixed Phyllis’ career objective. She has, however, many other interests and activities. She appeared in the first semester production “Hot-Cha” a musical review of the popular dances of the 30’s. She has studied ballet and enjoys dance.

Phyllis was president of her own corporation in West Chicago. “Equilibrium Incorporated” was a non profit business of arts and crafts, an art gallery and an antique store. When West Chicago opposed the “open campus” concept for West Chicago Community High School for which Phyllis worked as a member of the student council, Phyllis started her business in an effort to prove to the community that students are mature and serve the community. She appeared at many luncheons and other meetings speaking about the concept of her business which was to stock the arts and crafts made by residents of nursing homes and other institutions, and she hoped for some of the silver and leather artwork made by Chicanos, numbers of whom live in West Chicago. The name of her corporation was chosen by her from the dictionary definition of equilibrium as a balance between two opposing forces. Her business made a profit in its first three months. This she gave to Rotary in payment of the loan she received to start her venture.

Cynthia De Jong, daughter of David ’55 and Dorothy Eseebangers ’55 De Jong of Wichita, Kansas, has three grandparents, all retired missionaries, who elevate her to third generation: Garrett ’22 and Everdene Kyuper ’23 De Jong formerly of Kuwait, Persian Gulf; Arabia, now living in Tucson, Arizona, and Theodore Eseebangers ’26, formerly of Mussoorie U.P., India, now of Colchester, Connecticut. Her late great grandfather was Cornelius Kyuper, a Hope graduate of 1898. He raises Cynthia to fourth generation status.

Cynthia is majoring in biology also, but with the objective of being a veterinarian or a marine biologist. She likes animals, of course, which motivates her toward the D.V.M. degree. At home she has three dogs and two cats. The dogs breedwise are German Shepherd, part German Shepherd, and Beagle. Her favorite is the German Shepherd. Liking to swim and snorkel promoted her interest in marine biology.

The De Jong family moved to Wichita about three years ago where her father is a pathologist at St. Francis Hospital. They formerly lived in Panama Canal Zone when Cynthia was in grades seven through nine. Cynthia registered high enthusiasm for their life in Panama. The family includes also two brothers, John and Schuyler.

Third Generation

(cover photo)

Hope’s class of 1977 boasts thirteen third generation members. Starting at the top of the picture and moving clockwise they are:

Julia Van Wyk, daughter of Gordon ’41 and Bertha Vis ’41 Van Wyk; granddaughter of Amelia Menning Van Wyk ’17, grand-daughter also of the late Jean A. Vis.

S. Craig Van Zanten Jr., son of S. Craig ’50 and Judith Mulder ’49 Van Zanten; grandson of Bernard ’19 and Louise Weaver ’20 Mulder.

Mark Moerland, son of Abraham ’50 and Elin Veenschoten ’50 Moerland; grandson of H. M. Veenschoten ’14.

Robin Lemmer, daughter of Margaret Bilker ’41 Lemmer; granddaughter of the late Henry A. Bilker ’14.

Janet Seaman, daughter of Joyce Timmer ’46 Seaman; granddaughter of Albert ’23 and Esther Koops ’25 Timmer. Janet is also the great, great grand niece of Gerrit J. Koop, Hope’s third president.

Philip Bosch, son of Randall B. ’53 and Carol Jacobs ’54 Bosch; grandson of Randall C. ’26 and the late Marthena Bayles ’26 Bosch; also the grandson of Rev. Henry C. Jacobs ’14.

James D. Paul, son of Daniel L. ’50 and Joan Ten Hoeve ’50 Paul; grandson of the late Thomas Ten Hoeve ’27.

Rachelle Hesselink, daughter of Kenneth ’38 and Lenora Banninga ’42 Hesselink; granddaughter of the late Ira Banninga ’17.

Deborah Decker, daughter of Gerald ’53 and Dolores Crooks ’53 Decker; granddaughter of the late Gerhard J. Decker ’28.

Cynthia De Jong, daughter of David C. ’55 and Dorothy Eseebangers ’55 De Jong; granddaughter of Garrett ’22 and Everdene Kyuper ’23 De Jong, and also granddaughter of Theodorus Eseebangers ’26; great granddaughter of Cornelius Kyuper ’29 (see 4th generation).
Another
Third Generation

The alumni secretary apologizes for overlooking Jennifer Yeomans' third generation status. It was after the third generation photos had been taken that the secretary remembered that Jennifer's grandmother, the late Frances Bosch '16 Yeomans, made her eligible.

Jennifer is already a biology major with her eye on medical school. She likes hiking and snow skiing. She also has good memories of a week last summer in Pomona, California, at Claremont College, attending a conference of Christian Reformed Church youth.

Edward (Jack) '48 and Ruth Koop '49 Yeomans are Jennifer's parents. Her father is a manufacturers representative; her mother is advancing in the administration of the Woman's Literary Club of Holland. Another of Jack and Ruth's daughters is a junior at Alma College, yet another is in the ninth grade at Holland Christian High School.

PARENTS PLEASE!

The above mention of the alumni secretary's overlooking a third generation student is a springboard to alert parents of new students to let the Alumni Office know if their children are third, fourth or fifth generation Hopeites. Another alumni secretary, in all probability, will have no way of knowing who is a student's grandparents, great grandparents, or great, great grandparents. The computer is able to printout second generation students if the students register one or both parents as alumni. If this feature of the Alumni Magazine is to be continued, the office will need your help.

Second Generation

Oscar, son of Oscar and Marian Holman '49 Agre, Scott A.F.B., Ill. 
Miriam, daughter of James '42 and Eunice Baar, Lombard, Ill.
Susan, daughter of Avery '50 and Eleanor Baker, Holland.
Jennifer, daughter of Lester '49 and Mary Jane Bartels, Muskegon.

A Distance Runner Pacing the World

by MAURINE W. KISH/Publicist for the Lake Hills Community Church

Harold Leestma '39 started a unique church in Laguna Hills, California. Named the Lake Hills Community Church, it has been hailed by the Los Angeles Times as "one of the most ambitious" of the drive-in churches of America. This new church, retreat and renewal center with recreational facilities, like its founding pastor Dr. Leestma, is carving out a creatively original path for others to follow. It is his latest venture of faith.

Harold Leestma often reminds his listeners that it was in the Hope College Chapel in his junior year that he fully committed himself to the specific area of life work — evangelism — in which he has for more than 25 years formulated and originated patterns, goals and trends for America's religious leaders to emulate.

The delights and demands of establishing new churches and rejuvenating existing ones occupied the early years of his ministry. During these years Dr. Leestma was actively engaged in church planning and development leadership of the Reformed Church in America. But there came a time when, as Dr. Leestma describes it, he found himself engaged in his own church expansion program, one of such scope that it consumed all of his time.

This came about in 1962 as a result of a meeting with Robert H. Schuller '48 while on a tour of the Holy Land. Dr. Schuller was pastor of one of the world's great and beautiful churches: the walk-in, drive-in Garden Grove Community Church in Southern California. Not long after that meeting the Reverend Mr. Leestma joined the staff of this church to enlist, train, inspire and motivate a strong lay leadership in the capacities of Co-Pastor and Minister of Evangelism.

Adopting the aim "To know Him and to make Him known" and the motto "Come with us to Christ," he led a growing evangelism department in launching one successful innovative program after another. During the nearly eleven years that followed, the church membership grew from 800 to 6,200. Something spectacular was going on. Ministers and laymen from across the nation were renewed and revitalized at institutes, conferences, retreats and seminars under his leadership. This man was moving to the forefront of America's evangelists; his program left onlookers breathless, coworkers energized, and worshippers inspired and rededicated.

How has the Reverend Mr. Leestma been able to maintain a schedule equally remarkable in its demands and in its results? His staff has given up trying to explain. His is a functional Christianity that goes beyond organization and preaching. To the many who have visited his office on the eleventh floor of the Tower of Hope for counseling or conference, that office became a special sanctuary. Church members, staff workers, the unchurched and the searching poured in and out daily, each to talk with a man who caringly focused complete attention and concern on the person before him.

While his plans and programs have been trendsetters, and though Dr. Leestma has shared what he has learned with clergymen around the world (Hong Kong, Honolulu, Amsterdam, Sydney, Berlin, as well as all across America), the touchstone of his ministry is that it is an eminently personal one. One of his friends has stated it this way: "I won't make an appointment to see him, he's far too busy. But he's the kind of a guy that, if I drop by the office, he'll take the time to have a cup of coffee with me anyway."

Lake Hills Community Church seems destined also to bear the marks of originality and a personal ministry. Not long before its opening in March of last year, Dr. Leestma made the decision to begin this exciting mission to serve south Orange County, California, an area expected to experience population growth in the next 10 years of at least a quarter of a million. In a series of unprecedented decisions, the denomination moved quickly to fund the project with a $300,000 loan, and 421 missionary-minded charter members were mobilized into action. In its young but history-making course Lake Hills has already set a number of records. By Easter (in its sixth week) the new church served nearly 4,000 people at four worship services, one being a beautiful sunrise service at an amphitheatre of Lion County Safari, an African wildlife preserve bordering the church's future site. By the end of its first three and one half months it was organized and had added two new associate pastors to its staff. From its inception it has held a double-session Sunday School and offered a burgeoning program to a community encompassing at least 23 cities — all from its temporary meeting place in the auditorium of an intermediate school.
Real People, Real Events, Real Issues

Since 1970 when he returned from a vacation to find himself launched by laymen upon a radio ministry, Mr. Leestma has been the weekly speaker on a “broadcast of help and hope” known as Uplift, aimed at strengthening the growing Christian and reaching “the uprooted, alienated, misinformed, fearful, lonely, or purposeless” in home, hospital or automobile in the four states in which it is currently heard. His messages won awards (Freedoms Foundation, 1969; Decision magazine, 1971) and appeared in numerous published forms. Among these are the paperbacks An Earthling’s Walk with God, Find New Life, God Helps You, Love is the Greatest, and two parts of a projected trilogy, Steps to a Powerful Faith and Steps to a Purposeful Love: (the third, Steps to a Permanent Hope, is programmed for future preaching). Last year, in addition to founding the Lake Hills church, Harold Leestma saw the nationwide release by Word, Inc. of Texas of his hard-cover book on conversion, God at My Elbow, and completed studies earning a doctorate at California Graduate School of Theology in Glendale.

His messages abound in real life stories of what he calls “modern-day miracles,” and there are frequent references to Michigan experiences and inspirations. He says, “I ask God at the beginning of the week to show me the people, the problems, the prayers, and the scriptures that will illumine the subject I will be preaching about.” By week’s end he has knit together the message — born of the relevant and the needed. The listener hears about real people, real events, and real issues and thus feels himself drawn quickly into the personal lives and fellowship of other Christians. This style is capped by a unique artistry in phrasing (much of Dr. Leestma’s extemporaneous message is delivered in a fluid, metered prose) which fastens down a few main points in what one young listener described as “the kindness voice” with “staying power.” Not infrequently a new convert will point out from one of Dr. Leestma’s sermons some brief simple phrase of such import to the listener that it literally “opened the door to the New Life” for that person.

The Leestmas, Harold and Lois Voorhorst, also a 1939 Hope graduate, make their home in Tustin, California. In addition to daughter Mary Biegel ’66, director of two Lake Hills children’s choirs, they have three sons. Peter attended Hope for two years, then enlisted in the U.S. Air Force. He is currently a graduate student of Oriental culture at the University of California, Irvine. David is an honor graduate of the U.S. Naval Academy and of the U.S. Naval Postgraduate School at Monterey, California with a master’s degree in aeronautical engineering. He has completed flight training at N.A.S. Pensacola and radar intercept training in

Glync, Georgia, and is now stationed at San Diego. Mark is a sophomore at California State University, Fullerton.

Lois Voorhorst Leestma as a child offered herself to God’s service as a Christian missionary. “She has been the best missionary I have ever known,” says Dr. Leestma. She makes a point of being as active and accessible as her husband and recently launched the women’s ministries of the new church. “Being geared to the pace of the life we lead is demanding,” she says, “but it is full of rewards and excitement.” Lois too has pioneered as she has kept step with Harold, often accompanying him across the country to share her own insights, innovations, and faith with minister’s wives and laywomen at conferences.

The Lake Hills Community Church, to be developed on 54 acres of rolling ranchland hills about an existing 15 acre lake with woods, promises to be one in which “the church is going to the people” and “the people are going to the church.” Where they meet with impact, their center may thus become not only a “mission to the community,” but also a “community of missions” in which the total Christian life may be fully expressed and experienced.

With these goals Lake Hills may become a reflection of the outstanding contribution Harold F. Leestma has made to his world: a living demonstration of the joy-filled, active Christian life.

The explanation? Harold Leestma simply smiles and says, “I have a contagious disease — Christianity — and I want everybody to catch it!”
The Dedication of Peale Science Center

The Hope Spirit was at zenith throughout the whole weekend — the Dedication and Homecoming! Friday, October 26, 1973 was the day of dedication of Peale Science Center; a building dreamed of, planned and worked for during the past ten years, now a reality. The day was one of Michigan's beautiful golden autumn days, hoped for in late October.

The dedication ceremony at eleven in the morning was a gem, a cross between formality and delightful informality. The academic procession accompanied by organ and brass choir marked the occasion as a formal convocation in Dimnent Memorial Chapel.

President Gordon J. Van Wylen presided at the short ceremony of presentation and acceptance of the keys to the new Peale Science Center. Appropriate remarks were made by Ronald J. Posthuma, president of the Student Congress, and by Dr. David Marker, associate dean of academic affairs.

Following Ronald's splendid short presentation, President Van Wylen told the audience which filled the Chapel that Ron was not only a fine student and president of the Student Congress, but also the outstanding defensive tackle on the football team (the team won all MIAA games in '73).

Chairman Hugh DePree of the Board of Trustees introduced the special guests of the day, Ruth Stafford Peale and Norman Vincent Peale. Their professional way with an audience was highly evident on this occasion. Each combined good humor with touching practical moral philosophy, and appreciation of the honor bestowed upon them in the naming of the new center, in brief remarks.

The pleasantly informal feature of the program was Ekdal Buys' presentation of Mr. Stanley S. Kresge for the honorary degree, doctor of humane letters. Throughout the rest of the day this segment of the program was frequently mentioned. Mr. Buys not only called attention to the great contribution Mr. Kresge has made to education, community, and church, in many places and of his continuing practice of the religious and spiritual life, but also he boasted of that magical football team each had played on. Mr. Buys also seemed to want to display his knowledge of Mr. Kresge's family; when he came to the number of grandchildren (Buys said 15; Kresge, 16) and great grandchildren (Buys 3; Kresge 4), he had to be corrected on the spot by Mr. Kresge. The audience was delighted! Mr. Kresge enjoyed it too and graciously made a touching response, received gratefully by the audience. Responses are not usually made at Hope degree conferring ceremonies.

Another mark of the ceremony being a treasured Hope College convocation was the presence of the Chapel Choir and the anthem sung in the sunlighted...
choir loft. The Choir was directed by Professor Roger Rietberg, who is filling in for Dr. Robert Cavanaugh, now on a sabbatical year.

Others contributing to the beauty of the service were the Reverend William C. Hillegonds, College Chaplain; Professor Roger Davis at the chancel organ, student Alfred Fedak at the gallery organ. The Brass Choir comprised of students Gary Jones and Linda Swinyard, trumpets; Robert Ambrose and Scott Bradley, trombones; and Richard VandeBunte, tympani.

The ceremony closed with the academic recessional which moved the audience across College Avenue to the Peale Science Center for the brief Ribbon Cutting Ceremony. A horn quartet: Professor Robert Cecil, students Jan Laman, Mary Jane Myers and James Wildgen lead off, followed by Mr. Hillegonds’ prayer and the actual ribbon cutting by Dr. and Mrs. Peale.
Dedication Quotes

"Special thanks goes to Mr. Kresge whose large gift was the cornerstone of our new center...the money for new buildings comes from generous individuals who give to Hope College not because they will derive any direct benefit from what happens here, but because they believe in the work that goes on here. So now it is up to the students and faculty to make full use of the educational opportunities afforded by this new facility."

Ronald Posthuma / President, Student Congress

"Our students are encouraged to work side by side with faculty in solving fundamental research problems...the expectation is that learning will be accomplished by doing. The design of the Peale Science Center derives from this philosophy...we have found that this building with its great diversity of well equipped laboratories provides a stimulating environment in which learning by doing can take place."

Dr. David Marker / Associate Dean of the Faculty

"Dr. and Mrs. Peale seem to bring a special joy to people wherever they go. It's an honor to Hope College to have a building named the Peale Science Center."

Chairman Hugh De Pree / Board of Trustees

"Hope College is very much a part of my life. It's a wonderful institution. It has all the things we think of as excellent when we are aware of an educational institution. It stands for the value system...it demands scholastic excellence...but most of all, Hope College believes in people-making. That's the most important thing that can happen in the life of a young person today...and Hope College is dedicated to people-making."

Ruth Stafford Peale

"In the old days when American civilization was developing, Godly men and women raised churches and educational institutions for the purpose of making believers of their children. It is these people who laid under the American Constitution the great supports that developed this nation. When these supports begin to rot, when evil attacks our nation, not only in Washington but everywhere in this country, then the time has come for the believers once again to pour a pure stream into this beloved land to the end that we will recover morality, honor and decency. I hold that if we had a Hope College in every town in the land, this nation would be what it was intended to be, God's country, a place where the men and women can grow in the knowledge and love of God."

Norman Vincent Peale

In Retrospect

"The whole day was totally pleasing. There was no single event of the ceremony that made it special, the whole thing fell into place to make it practically perfect."

Irwin J. Brink / Chairman of the Dedication Committee

"There were no catches, as far as I was concerned, at Dedication and Homecoming. I had a glorious time being so proud of the fact that I was a Hope graduate. It's a great feeling."

Kari Natalie Reed Franck '25

"That whole Friday of October 26 is almost too much for me to really contend with. It was so highly charged emotionally for me as it was for my sister. I know I met many wonderfully sincere and thoughtful people that day. The day has taken on a lovely aura now in my mind."

Helen Patterson Richardson / Daughter of the late Frank N. Patterson

"It has taken a while to sort things out, but it's still not easy to express without sounding phony how genuinely and pleasantly we were impressed to find Hope the fine small college everyone wants to believe really exists.

"We thought the honor paid Hope's science pioneers was unique and worthy of attention. There has never been a time when heroes were not needed, but traditional heroes are usually not quiet men who teach and inspire and motivate generations of students, without themselves inventing a thing or two or creating political or ideological waves. So thank you for your kindness and consideration in behalf of our father."

Barbara Patterson Finch / Daughter of the late Frank N. Patterson

Gathering for the Ribbon Cutting
The Dedication Luncheon

The Hope Spirit was even more charged at the luncheon following the Ribbon Cutting ceremony held in Phelps Hall dining room. More than 500 invited guests enjoyed the luncheon in the beautifully arranged room.

The Women's League for Hope College had, during the summer, provided new, modern, lighter tables and chairs, and had papered the walls of the dining room. Their efforts contributed greatly to the beauty of the dedication luncheon setting.

Here again, both Chairman De Pree and President Van Wylen presided at the program following the luncheon.

Mr. De Pree reviewed the emergence of the Peale Science Center in his opening remarks titled "The Idea, The Planning, The Realization." A brief accounting of the planning and building of the Center was given by the architect, Mr. Glen Paulsen, partner in Tarapata, MacMahon, Paulsen Corporation of Bloomfield Hills, Michigan.

Mr. Henry Boersma of the College staff who was project manager during the building was given a photograph of the Center for his painstaking work.

The program moved to recognition of Hope’s three Science Pioneers: Professor Douwe B. Yntema who was tapped in 1893 by President Kollen to initiate the teaching of Science at Hope College. Members of the Yntema family present were Dr. and Mrs. Theodore O. Yntema, Miss Clara Yntema, and Dr. and Mrs. Dwight Yntema.

The second pioneer was Dr. Almon T. Godfrey, a physician, who was asked by President Kollen in 1904 to join Professor Yntema in the growing Science Department. Dr. Godfrey was given the responsibility for the Chemistry Department when Science was divided in 1909, Professor Yntema kept the Physics Department. Mrs. Godfrey, 92 years of age, a resident of Resthaven in Holland, was unable to attend the ceremonies because of a hip injury. Mr. and Mrs. Henry Steffens and Miss Clara Reeverts, friends of Mrs. Godfrey represented her.

Dr. Frank N. Patterson, who came to Holland in 1909 to be head of the Department of Biological Sciences, was the third pioneer recognized. His two daughters and their husbands were present: Mr. and Mrs. Paul B. Richardson of Phoenix, and Mr. and Mrs. Lester McCoy Finch of Pasco, Washington. Mrs. Patterson, who lives with the Richardsons was not able to make the trip.

Dr. Fredrick F. Yonkman, a Trustee, paid tribute to these revered teachers. Mr. DePree announced that there would be a memorial portrait plaque of these pioneers placed in Peale Science Center, also a portrait plaque of Dr. and Mrs. Peale.

The professors who followed Dr. Godfrey in chemistry, Dr. Gerrit Van Zyl and Dr. Harvey Kleinheksel were paid tribute. Dr. William A. DeMeester, a student of both of these great Hope teachers who became nationally renowned, paid tribute to them.

Members of Dr. Van Zyl’s immediate family present were Mrs. Van Zyl, Mr. and Mrs. Andrew Post (daughter), Dr. and Mrs. Allison Van Zyl and their four children, and Mr. and Mrs. A. E. Rackes, a sister.

Mrs. Kleinheksel and her daughters, Mrs. J. T. Jordan, and Mrs. and Mr. Robert Bolte were present.

Responses to the tributes to Dr. Van Zyl and Dr. Kleinheksel and appreciation for gifts to the Kleinheksel-Van Zyl Memorial Library in Peale Science Center, were given by Dr. Sara Jo Bolte, daughter of Dr. Kleinheksel and by Dr. Allison Van Zyl, son of Dr. Van Zyl. Their remarks were brief and exquisite.

Concluding the program, Dr. Van Wylen asked Mr. Kresge for a few words. He expressed a lot of appreciation for his honorary degree and for his and Mrs. Kresge’s Great Day at Hope College.

President Van Wylen closed the program with the announcement of the work being done by the Varsity H Club toward the building of a physical education center in the near future. This facility will complete the campus requirements now.

Another memorable Hope College Day! It had been characterized by loving memories of the past, delight in a new facility for a better today, and with an eye on the future. Hope College, may she live forever!

Luncheon Quotes

"The Van Zyl and Kleinheksel families felt that a library, filled with the knowledge to aid students in their learning, was the most appropriate form of memorial to be dedicated to these two professors. But I dare to ask for a further dedication, or rather a redecoration, by the faculty here at Hope, to continue the excellence of teaching for which this College is known and to which our father devoted his life."

Dr. Sara Jo Bolte / Daughter of Dr. Kleinheksel

"I have been graduated from this College for almost twenty-four years, and not a year has passed in which some professional person in one field or another hasn’t said to me "if it hadn’t been for your father getting me into this graduate school or that, I wouldn’t be here today." This tribute today is evidence of the keen interest that my father had for his students.

On behalf of my mother and my family, I would like to thank all of you for helping us to remember Dr. Gerrit Van Zyl, a teacher who cared."

Dr. Allison Van Zyl / Son of Gerrit Van Zyl

More than 125 persons attended the service of dedication for the Hinkamp Memorial at Resthaven in Holland on September 30. The memorial, which is a stained glass window in the lounge area of Resthaven commemorates the REV. PAUL E. HINKAMP '07, co-founder of Resthaven. Rev. Hinkamp's wife, the former MARTHA DE JONG '07 is a resident of Resthaven. She and several other members of the family were present at the service including two sons, Dr. Paul Hinkamp '49 of Midland and Dr. James Hinkamp '40 of Birmingham; and his daughter, Mrs. Vernon Boersma (Lois) '44 of Holland. RUDOLF HOSPERS '19 writes the Alumni Office, "I am semi-retired and still practice law in Harrisburg, Pa. on a leisurely and selective basis."

20's

DR. CORNELIUS VANDER KLOSTER '20 and his wife Belle were honored by their daughter and son-in-law on their 50th wedding anniversary. Mr. and Mrs. Kenneth Knutsen held an open house on October 3 in Sarasota to celebrate the golden anniversary of her mother and father. The Vander Klostors have been Florida residents for ten years since moving from New Jersey where Belle was a professional organist and Dr. Vander Klotor was an electrical engineer. Both are active in Sarasota music clubs and Mrs. Vander Klotor still teaches both piano and organ. She was one of the first to play the electronic organ at Newark's radio station WJZ and has performed on large pipe organs in various New York and New Jersey churches. In addition to their daughter, Jacqueline Knutsen, the couple has three grandchildren.

MAURICE B. VISCHER '22 has been given two awards, one the Wiggins award for excellence in research and another award for excellence in the instruction of physiology. Dr. Vischer is Regent's Professor Emeritus of Physiology at the University of Michigan.

Cornelia Ossewaarde Oosting '24 has been elected an elder in the First Presbyterian Church of Durham, N.C. MARY PIETERS KOEHANE '25 retired in June from the Shimer College, Mt. Carroll, Ill. faculty. She spent the past summer teaching in the Shimer-in-Oxford program, Oxford, England.

FRIEDERICK F. YONKMAN '25 has been awarded an alumni citation commemorating the centennial celebration of the Boston University School of Medicine. The citation honored Dr. Yonkman for his achievements in pharmacology, which he "practiced as effectively in an industrial setting as in academia." Dr. Yonkman was formerly vice president in charge of research for CIBA-GEIGY Pharmaceutical Company in Summit, N.J.

More honors for EVELYN VAN EENENAAM '26, listing in World's Who's Who of Women and also in National Register of Prominent Americans and International Notables. REV. A. NELSON DOAK '27 has been elected president of Silver Ridge Park Association, one of New Jersey's many retirement communities. This letter to the Editor of the Amsterdam, N.Y. daily paper was mailed to the Alumni Office by Rutherford Huizenga '27 with the hope that it would "find its way into the Alumni Magazine." The magazine is pleased to do so.

REMEMBERING CLINT COLE '28

Dear Editor: Perhaps from this distance this will add some deserved dimension to what must be some inevitable sad comment on the late Clint Cole. He was my friend and frankly, could one find among those who knew him a person who did not call him "friend"?

The depth of my grief is only exceeded by the breadth of my satisfaction that I knew him so well. In those Law School days, to see him in the morning was to insure the day's success - to see him in the evening was to erase any deficiency the day may have produced. I am sure he never doubted in this accomplishment as he walked these many years the sidewalks of upstate New York.

Here was a man whose way of life was a happy and compatible union of a spark of the Almighty and a touch of the Devil - but he never ran any risk between those Dieties. I am certain that St. Peter in all his robes could not, as we could not, resist that smile. His earthy good nature, his charity perhaps to a fault, all his essential and sufficient goodness contributed massively to the "fellow traveling" that life is all about. Recalling this rare and lovable man, and will be good - very good...

GEORGE COOK '28 was inducted as a knight into the Order of Orange Nassau by order of Her Majesty Queen Juliana of the Netherlands in October. This decoration, founded in 1892, is conferred for unusual service for the queen, state or society. Mr. Cook was employed by the Holland Netherlands Information Service for 30 years. HAROLD HESSELINK '28 has now retired in Sheboygan, Wl. after serving 42 years as an ordained minister of the Reformed Church of America in Ontario, Canada and Minnesota. MILLARD WESTRETE '29 retired from Brown & Root, Inc., Houston, in early September. He and his wife MABEL ESSENBURG '30 are now living in Florida at 103 El Dorado Pkwy., W. Cape Coral. Mabel and Millard are pleased that their grandson Robert Klomprenes is a soph-

omore at Hope. Bob is the son of Marilyn Westrate and Aiden Klomparens, both of the class of 1956, of Midland. They wrote, "We were pleasantly surprised when he decided to go to Hope College last year. He is very happy there."

COLLINS OTTIPOHY '51, a resident of Kingman, Ariz., was a first-hand witness to the butane railroad tank car explosion which occurred in that small Arizona town this past July. Mr. Ottipoby is a junior high mathematician teacher who works with the National Forestry Department in the summer, heading a pump-unit crew. His crew had been called to a fire about 14 miles from Kingman. During that time, a railroad tank car filled with compressed propane gas caught fire from which the crew could not get away. Mr. Ottipoby lives while the city fire department was attempting to put out the fire, the whole tank car exploded. Mrs. Ottipoby was inside at the time of the explosion and felt the whole house shake and the extreme heat from the blast. The leaves in front of their house were completely withered. The Ottipoby's live some 500 yards from the blast so it is not hard to imagine what happened to people and homes which were much closer. The pump crew had returned to town to help fight the fire and found the town in complete bedlam. Business establishments for a whole block were on fire. Gradually, all fires were suppressed with the help of an Air Force bomber, which dropped chemicals on the fires. Mr. Ottipoby and his family had survived the disaster, but other families were not so fortunate. He summarized his account by saying "...The stunning part is that in a small town like this, everyone knows everyone else."

KARIN GRANBERG wrote the Alumni Office in October: "I will soon be completing the most fulfilling year of my life thus far. There are many reasons why it has been such an enriching year. I am involved in teaching English to 8th, 9th, 10th and 12th grade students at Miyagi Junior-Senior Girls' High School. Miyagi College for Women was founded in 1886 by the Old Evangelical and Reformed Church which is now the United Church of Christ. As a mission school, it has sought to expose its students to Christianity by maintaining a high quality of education with a distinctly Christian emphasis. To do this is even more difficult in a non-Christian culture than in ours, I am discovering. Japan is not used to having local friendships. Only now, after a year of working in the school and attending a local church, am I able to reap some of the benefits of students feeling free to come to my home to talk and study. I have had to become more persistent in cultivating friendships. Since my arrival, I have had the opportunity to give a chapel talk through an interpreter. It would be impossible to name all the new experiences my work here has provided. Suffice it to say that it is a joy to be here. I am disturbed by the fact that when I leave to enter Fuller Theological Seminary in Pasadena next August, it will not be easy to replace me. It is not easy for a Christian young person to join the work in Japan. Contract-missionaries like myself have to finance their own transportation to and from Japan unless the school can afford to do so. Salaries are small. Is this obstacle necessary? Have I wondered? Surely, the Church wants the work begun by faithful missionaries to continue. How else can the Word be shared? Yet, unless the Church, through missionaries, there will be few young Christians who can afford to give 2-3 years time and money to this effort. It is with many regrets that I will be leaving Japan to enter seminary. But I feel that I am guided in that decision. If there are any young college graduates interested in becoming contract-missionaries and in teaching English, I urge them to write for Mrs. Ruth Elmer, Council of Cooperation for Christian Schools in Japan, Japan Christian Center, 551 Totsuka-machi 1-chome, Shinjuku-ku, Tokyo, Japan 160.

New Appointment

Owen J. Koeppke has been named provost for academic affairs at the University of Missouri in Columbia. Previous to his new appointment, Dr. Koeppke had been chairman of the Faculty Council since 1970 and chairman of the Department of Biochemistry in the Medical School since 1968.

Dr. Koeppke interrupted his Hope career after one year to serve in the U.S. Navy for two years. He returned to Hope to get his degree in 1949, continued his studies in biochemistry at the University of Illinois where he received his M.S. in 1951 and the Ph.D. in 1953. He went on under a post doctoral fellowship at the University of Minnesota 1953-1955.

He joined the faculty of the University of Missouri in 1955 as a member of the Department of Biochemistry in the Medical School, chairman of the department in 1968. Dr. Koeppke spent a sabbatical leave 1963-1964 at Tufts Medical School in Boston.

He and his wife, JoAnn Moessner '49, have three children, John, a junior at Hope; Robert, a freshman at the University of Missouri, and Barbara, a high school sophomore.

Alumni Club Meetings

LOS ANGELES

Seventy-three enthusiastic alumni helped to set an attendance record at the Los Angeles area alumni dinner. Roy and Annel Ver Meulen '53 Ward entertained the gathering at their home in Newport Beach on September 20 for "punch on the patio followed by an African feast at orange-and-blue covered tables around the pool. Those who questioned the gustatory excellence of a stew featuring chicken and peanut butter, served on rice and topped with everything from chopped eggs to fruit to hot pepper, should have seen the very large number who went back for seconds. Some fifteen couples shared in the cooking (from a recipe provided by Bee Wellman '39) and in providing the additional goodies and supplies. Our alumni president, Midge June '67 Vanderlaan, presided and Harold Hakken '41, Alumni Association President, was the featured speaker." New officers elected for the coming year were: Co-presidents Harold and Lois Voorhorst Leestma (both '39) and secretary Midge June Vanderlaan '67.

KALAMAZOO

The Kalamazoo Alumni Club held a "Meet the President Dinner" on September 25 at Schensul's Cafeteria in Kalamazoo's West Main Mall. Following the dinner, Dr. Van Wylen outlined several activities currently being carried on at Hope and plans for future expansion of college facilities, after which a discussion took place. New officers for the following year are: President, Dr. William Wichers '37, 1st Vice Presidents, George '69 and Mary Koop '69 Arway; 2nd Vice Presidents, Ray '58 and Sharon Hackman '58 Vins; Secretary-Treasurer, Margaret Bosker '68.

NEW JERSEY

Skip and Mary Van Ham Nagelvoort (both '64) hosted a Sunday afternoon coffee for northern New Jersey alumni on September 30 at their new home in Wyckoff. Over 60 alumni attended the gathering which was convened to meet President Van Wylen and hear him speak about up-to-date College programs.

WASHINGTON, D.C.

The fall meeting of the Washington, D.C. Alumni Club was held on November 10 at the home of Bill '50 and Lois England '51 Jellema in Potomac, Maryland. A record attendance of over 45 alumni were present at the meeting, with about one third of the group attending their first alumni gathering. After a gourmet potluck dinner, two area alumni spoke briefly of their occupations. Phyllis Yeager '62 Hockman spoke of her career as a professional singer and delighted her audience with several songs. Dr. Vergil Dykstra '49, new president of George Mason University in Fairfax, Va., related information about George Mason and its history.
Stegenga Presents Citation

Preston J. Stegenga, Ph.D. '47 presented the "Distinguished International Service Citation" to Dr. William R. Tolbert, President of the Republic of Liberia, West Africa. The citation was given in recognition of President Tolbert's "dedication and service to his nation; outstanding administrative achievements; inspirational leadership to Liberia and Africa; encouragement of worldwide spiritual and cultural understanding and distinguished national and international career". The citation was awarded by the International Center of the California State University at Sacramento, of which Dr. Stegenga is the director.

Of special interest was the fact that President Tolbert has been personally acquainted with Dr. Stegenga since 1966 when Dr. Stegenga served in Liberia for two years as the Chief of the Cornell University project sponsored by the United States Agency for International Development at the University of Liberia.

Dr. Stegenga recently accepted an invitation to be the personal guest of President Tolbert in his country. He left for his three week visit on November 7 and will review the Liberian Development Program in Higher Education and also evaluate possible international educational exchange projects between the University of Liberia and California State University.

Prior to his two year appointment in Africa from 1966-1968, Dr. Stegenga served for 11 years as the President of Northwestern College in Iowa. He currently serves as a member of the Board of Directors of the Sacramento World Affairs Council and also the United Nations Association.

Research Success

Judson Van Wyk, M.D. has been acclaimed for the success of his research, the isolation of a growth-producing hormone in the blood. The isolation of the hormone 'somatomedin' in the blood could help dwarfed children and aid in cancer research.

Dr. Van Wyk, a pediatric endocrinologist, researcher and professor of pediatrics at the University of North Carolina School of Medicine, Chapel Hill, said he had used two tons of outdated human blood plasma and had been able to isolate but one-milligram of 'somatomedin.'

A 1943 graduate of Hope, Dr. Van Wyk received his M.D. from Johns Hopkins Medical School in 1948. His wife is Persis Parker, a 1944 Hope alumna.

Isolation of a newly purified hormone from the blood is a major milestone in researching human growth.

Award Established

The Department of Foreign Languages and Literatures announces the establishment on October 8, 1973, of the LAURA ALICE BOYD MEMORIAL AWARD IN GERMAN. The seventy-five dollar cash award, which will be presented at Commencement each year to the senior German major whose interest and achievement in the German language and literature has been most significant, is made possible by the generosity of an anonymous donor.

Miss Laura Boyd, who retired as Professor of German and chairman of the German Department in 1955, had served on the Hope College faculty since 1921. Miss Boyd died on November 24, 1962. This award is indeed a fitting memorial to her thirty-four years of dedicated service to the college community.

Visitor from Iraq

Alexander Amso '39 of Baghdad, Iraq, visited with his Hope College friend, James Hallan '39 of Holland in September. Although Amso and Hallan had not seen each other for 33 years, they had corresponded regularly. Amso left Hope after two years to study transportation at the University of Illinois.

Maysoon, Mr. Amso's daughter, (in photo with Amso) her husband, Albert Simman, with their young son and daughter
of Detroit, accompanied Amso to Holland.

During his weekend in Holland, Mr. Amso made two appearances arranged by Hallan. He spoke to the Adult Fellowship of Hope Church on Sunday evening and in Hope College Chapel on Monday morning. At Hope Church he talked on a subject he has been interested in for many years, "Archaeological Discoveries in Ancient Iraq". He showed slides of many interesting and beautiful artifacts unearthed in the digs made in Assyria, Babylon and Ur of the Chaldees, early civilizations now comprising Iraq.

An avid reader of the Bible, Mr. Amso tied these finds to passages in the Holy Texts. His introduction of these middle eastern areas prominent in antiquity was impressive. He also greeted Hope Church people on behalf of the Evangelical Church in Busrah and Baghdad.

Mr. Amso's short meditation in Chapel was based on the Bible text from the Epistle to the Galatians, 5:22 and 23 also St. Mark, 12:30 and 31. He mentioned an acrostic of the word Hope: Help Other People Everywhere and expressed his belief that this motto describes the Hope student and alumni character and spirit.

Mr. Amso has retired from 32 years of civil service in Iraq. At the close of his service, which dealt mostly with rail and ship transportation, he was the Director of the Technical Training Program of Port Administration.

Mr. Amso graduated in 1933 from the American Mission High Hope High School in Busrah and from the preparatory School of the Universal College in Aley, Lebanon in 1934. He entered Hope College in 1935 upon the recommendation of the late Reverend Dr. John Van Ess '99, who was at that time director of the American Mission School.

Stoppels Elected President

A. Dale Stoppels '47 has been elected President of the Michigan Probate and Juvenile Court Judges Association. Judge Stoppels received his Juris Doctor degree from the University of Michigan Law School and was first elected Judge of Probate for Kent County in 1958.

He served as a Naval officer in World War II in the South Pacific area and was the Michigan Commander of the Disabled American Veterans in 1961-62. He has served for many years on the Hope College Board of Trustees and is presently Vice-Chairman of the Board.

The Judge has been active in various community affairs in Grand Rapids. He was founder of the Big Brothers of Grand Rapids and first chairman of its board of directors. Recently he has served as Trustee of the Mary Free Bed Hospital and Rehabilitation Complex.

Judge Stoppels and his wife, Sara have three children. John is a freshman at Hope and daughters, Jillon and Beth are students in the Grand Rapids Public Schools.

Reception in Japan

Hope alumni and friends gathered in the garden of the International House in Tokyo, Japan for the wedding reception on June 18 of James and Patricia Van Wyk '73 Bartlett. From left to right are: Mr. and Mrs. Kazu Shukuzaki, Mr. and Mrs. Yutaka Akagawa (the husband in each couple attended Hope with a group of Japanese students in 1966 and 1965 respectively), Miss Helen Zander '28 (missionary in Yokohama); Miss Kay Oae '72; Mr. Richard Traylor, a Hope sophomore; Patricia Van Wyk '73 Bartlett, James Bartlett and Dr. and Mrs. David Clark, Hope history professor on sabbatical leave in Japan. Second row: Gordon '41 and Bertha Vis '41 Van Wyk and Russell '49 and Eleanor Short '51 Norden.

Yntema Chair Established

The Theodore O. Yntema Professorship of Finance, an endowed chair, was established in the University of Chicago Graduate School of Business early in 1973. The chair will be supported by an endowment fund created by gifts from the Ford Motor Company Fund, friends and associates of Yntema, as well as by unrestricted gifts to the School by Yntema.

Dr. Yntema '21 retired several years ago as Chairman of the Finance Committee, Vice-President - Finance, and a director of the Ford Motor Company. He is the former chairman and current vice-chairman of the National Bureau of Economic Research, a trustee of the Committee for Economic Development, a trustee of The University of Chicago, a member of the Council on the Graduate School of Business, and a Professorial Lecturer in Finance at the School.

T. O. Yntema's association with the Graduate School of Business spans more than 50 of the School's 75 years of existence. After acquiring the M.S. degree in chemistry from the University of Illinois, he went to the Business School as a student in 1922. In 1924 he was awarded the A.M. in business and also passed the C.P.A. examination of the State of Illinois; in 1929 he received the Ph.D. degree at the School. His doctoral dissertation, "A Mathematical Reformulation of the Theory of International Trade" (U. of Chicago Press 1932) is a classic in its field.

Sidney Davidson, Dean of the Graduate School of Business said: "I do not know of a more appropriate way to honor Ted Yntema than by the establishment of this Chair. The School and University have benefited from long association with this eminent scholar and business statesman; we are pleased to have this means of assuring the permanent association of Yntema's name to outstanding scholars in his field."
The Musical Ritsemas

Unique in the annals of higher education is the story of two brothers, Albert and Herman Ritsema, who married sisters, Susan and Elizabeth Tallman, and together developed a highly successful gladiola farm in Momence, Illinois. Desiring the best college education for their sons and daughters, the two families sent their seven children to Hope College.

The children of Mr. and Mrs. Albert Ritsema are Nell '47, who married the Rev. Dick W. Vriesman '47; Arlene, who married the Rev. George Muyskens '53; Robert '57, who married Mary Alice Ferguson '57 and Raymond '60, who married Joan Peelen '59. The children of Mr. and Mrs. Herman Ritsema are Herbert '50, who married Jeanne Ver Beek '51; Harold '57, who married Anna Gettner '58 and Daniel '61, who married Evonne Taylor '66.

Thus all of the seven children from the two families are Hope graduates, and six of the seven majored in music at Hope. In addition, all of the seven married Hope graduates and three of the spouses majored in music, as well. Of the total fourteen, nine sang in the Chapel Choir and/or one of the Glee Clubs, and three played in the orchestra and/or band. Most of them continue to be active in music, either in teaching or church music. Nell Vriesman, as organist, assists her husband in his pastorate at Grace Reformed Church in Holland, while Dick frequently employs his fine baritone voice in solo singing in the area. Arlene Muyskens is choir director of husband George's pastorate at Peace Reformed in St. Paul, Minnesota. Robert is Associate Professor of Music and Chairman of his Alma Mater's Music Department, as well as choir director of the Fellowship Reformed Church of Holland. Herbert is a member of the music faculty of Northwestern College in Orange City, Iowa, and with wife Jeanne runs a music store in Orange City, and is choir director and organist at the American Reformed Church in Orange City. Harold is Director of Bands and Assistant Principal at the Oakland, New Jersey High School, and also directs the choir at the Patterson Reformed Church. Alumni Release Album

John Burggraaf '62 and Harlan Hyink '66 have teamed up with Todd Gould to record and produce an L.P. record album that fits a personal and practical Christianity to a folk, country sound. The album, *Time Takes on Meaning*, contains ten songs written by them and was released during the summer.

John Burggraaf, who married Jackie Schrotenboer '64, lives in Holland and has three children Jill 7, Dawn 4 and infant Mark. While in college he played and sang with several combos for fraternity parties, Homecoming activities, etc. and was a member of the Knickerbocker fraternity. He has been teaching English at Hudsonville High School since his graduation from Hope.

Harlan Hyink, who married Carle LaRiccia '68, lives in Jenison and has three children Kenny 6, Kristi 4, and Johnny 1. While at Hope he quarterbacked the football team to MIAA Conference co-championship in 1966, and was a member of the Cosmopolitan fraternity. Since his graduation he has been a policeman on the Grand Rapids Police Force.

The album can be obtained through record stores in the Western Michigan area or by sending $4.98 to "Harlan, John and Todd", Box 1570, Grand Rapids.

Study Appointment

William Jellemra '50, Ph.D., has been appointed to direct a study of Indiana's independent colleges and universities in relation to their role in the state with a view to strengthening private higher education in Indiana. This study represents the first comprehensive effort by the 32 independent colleges and universities of Indiana to assess their past in relation to planning for future contributions to education in that state.

Focusing initially on educational, economic, social and cultural contributions to the state's progress, the project is being conducted jointly by the Independent Colleges and Universities of Indiana, Inc., and Associated Colleges of Indiana under a grant of $150,000 from Lilly Endowment, Inc.

For the past six years, Dr. Jellemra has been executive associate and research director of the Association of American Colleges in Washington, D.C. In that capacity, he served as a consultant to individual colleges and groups of colleges in areas of curriculum, administration, finance, inter-institutional cooperation, improvement of teaching and future planning.

He also has just completed a major study of the financial status of private institutions of higher learning, which has been the basis for his most recent book, *From Red to Black?*, Jossey-Bass, Inc., Publishers, San Francisco. In addition to this book and various published reports and articles, he has produced three other volumes in the last two years: *Colleges and Commitments* (with Lloyd J. Averill), *Institutional Priorities and Management Objectives* and *Efficient College Management*.

Announcement

Mark Cook, the new manager of the Hope-Geneva bookstore in DeWitt, Center, announces Volume 8 of the Hope College Chapel Choir recordings. This volume, recently released, is a full length stereo L.P. containing the program presented by the Choir on last year's tour through the Midwest. Selections include works by Bach, Mendelssohn, Williams, and nine other composers of sacred music. The album is available for $3.50 post paid from the Hope-Geneva Bookstore, Hope College, Holland, Michigan 49423.
Snow Takes Position

Curtis M. Snow, Ph.D. ’45 has been named manager of technical development and services in the Environmental Systems Division of Koppers Company, Inc. of Pittsburgh, Pennsylvania. Dr. Snow will have the responsibility for all technical, research and development activities and will be located at the Environmental Systems Division headquarters in Baltimore.

Previously, Dr. Snow was manager of new technology for Monsanto Enviro-Chem Systems, Inc., in St. Louis, Missouri. He has had experience in the fields of air, water and solid pollution control.

Koppers Environmental Systems Division supplies products and services to solve environmental problems for industry, utilities and municipalities. The division designs, engineers and produces sound reduction apparatus, electrostatic precipitators and gas conditioning systems to control air pollution and equipment for water purification facilities.

Vaude Poel Honored

James R. Vande Poel, First Ward Councilman of Holland, president of Tulip Time and owner of Superior Sport Store, was named by the Holland Jaycees in late November to receive its Distinguished Service Award for 1973 as Holland’s outstanding young man.

The DSA is presented annually by the Holland Jaycees in recognition of the contribution made by a young man to his church, community or family.

Vande Poel has served on the Jaycee Board and is serving his third year as president of Tulip Time. He was elected to the City Council in November. He served on the board of the Holland-Zeeland YMCA, four years on the Chamber of Commerce board, was president of the Downtown Merchants Association and worked on United Way solicitations.

A member of First Reformed Church, Mr. Vande Poel has served on the consistory. He and his wife Irene have three sons, Eric 8, Dirk 6, and Joel 3. He has been the owner of the family-run Superior Sports Store since 1968.

New Alumni Director

Elsie Parsons Lamb ’46 was elected Director-at-Large for the Central area at the Alumni Board meeting on October 27, 1973.

Born in Hudson, New York, where she received her early education, Elsie was influenced to attend Hope by Reverend Harvey Hoffman of the Reformed Church of Hudson. Her marriage to Lawrence William Lamb ’46 was solemnized in Hope Memorial Chapel in 1948.

Mrs. Lamb is devoutly active in Holland’s Hope Reformed Church, also in the Holland Day Care Center, the Holland Rhythmic (Sacred Dance) Choir, the Women’s Guild for Service, an Intercessory Prayer Group, a Neighborhood Bible Study, and a Tutoring program. She attended and participated in all Triennials of Reformed Church Women, also the Family Festival in Colorado in 1972.

Communitywise, Mrs. Lamb assisted her husband when he served as councilman and Mayor. She is a charter member of the League of Women Voters in Holland, has worked five years on the Human Relations Commission of the city, is a member of the Philanthropy Committee of Women’s Literary Club and of the Latin American Society.

Mrs. Lamb’s term on the Alumni Board will be for three years. She replaces Doris Adams De Young ’52 of Friesland, Wisconsin whose term expired.

New Trustee

Norman W. Thompson, M.D. was elected to the Hope College Board of Trustees in October 1973 to fill the unexpired term of Dr. Fritz Lenel. Dr. Lenel had just retired from a professorship at Rensselaer Polytechnic Institute, Troy, N.Y., and will be out of the country for a period of time as a visiting professor in Europe.

Dr. Thompson, a Hope graduate in 1953, is Professor of Surgery at the University of Michigan and Chief of the Red Surgical Service. Currently President, Michigan Chapter of the American College of Surgeons, he holds consulting positions in surgery at the University of Michigan Health Service, the Veterans Administration Hospital, Ann Arbor, and the Wayne County General Hospital besides his work at the University of Michigan Medical Center. His publications include thirty-seven articles in Scientific Journals.

Dr. Thompson has served on the consistory of the University Reformed Church in Ann Arbor and as an area chairman for Hope College.

The Thompson family comprises Marcia Veldman ’56, wife of Dr. Thompson, their son, Robert Winslow 16, three daughters, Karen Louise 12, Susan Margaret 8, and Jennifer Elizabeth 6. They live at 2112 Greenview Drive, Ann Arbor.
