VOLUME 55

AUGUST, 1917

NUMBER 2

Hope College Bulletin

The Hope College Bulletin is issued quarterly. Entered as second-class matter May 19, 1915, at the Post Office at Holland, Michigan, under the Act of August 24, 1912.

College Work Must Go On

The leaders of the Nation appeal to young men and young women to enter College in the Fall. Listen to the men who know.

Secretary Baker: "We need first, munitions; second, food; third, *educated men.*"

The Commissioner of Education: "The number of boys and girls entering College next fall ought to be *much larger than usual.* Their going to College will not lower the productive capacity of the country in any appreciable degree. If the war is long, the country will need trained men and women beyond all possible supply unless our Colleges and Technical Schools increase their attendance."

Enlist for College in the Fall

"You represent for those of your age almost a monopoly of the educated leadership of the future. If *you leave* College, who will take *your* place? If *you fail* to go to College, who will replace *you*? You believe in education. You believe in College. Now is the time to show your faith."

HOPE COLLEGE

invites you to consider its equipment for your education.

Hope College is Christian but non-sectarian.

It has a large campus and a beautiful location.

It is near Chicago and Grand Rapids.

At no other place can a College education be had at such a low cost. Tuition is only twenty-four dollars.

By action of the Board of Trustees, Hope College is admitted to all Intercollegiate athletics.

It is the leading College in the State in Oratory and Debate. Three successive victories in the State Oratorical Contest.

The following are the departments of study.

A. *Preparatory School.*

Prepares for College Entrance.

B. *The College.*

I. LITERARY—Five groups of studies leading to the A. B. degree. Wide range of electives.

II. EDUCATION—Courses leading to the Michigan State Teachers Certificate.

III. MUSIC—Teachers who have studied under the best masters.

IV. SCIENCE.

1. CHEMISTRY—Three full years of work offered. Two laboratories completely equipped. Pre-medical courses.

2. BIOLOGY—Complete library and laboratory equipment. Pre-medical courses. The leading medical schools give advanced credit for work done.

3. PHYSICS—Equipment very much enlarged during the past year. Two full years of work offered. Pre-medical courses.

Hope's Graduates have always been sought by the leading universities. Two Hope students have taken the Rhodes Scholarships at Oxford. Since 1909, eight graduates have won scholarships in medicine, and eleven in Chemistry. The University of Michigan offers every year a Fellowship to a graduate of the College.

The Alumni will be especially interested in the service which Hope students are giving to the country.

Nine students have enlisted in Cavalry service.
Four " " " " Ambulance "
Two " " " " Hospital "
One student has " " Naval "
One " " " " Aviation "

Three are on the reserve list for the Officers' Training Camp. Several have offered their services and have been accepted for Y. M. C. A. work. Many have enlisted in the agricultural service, most of whom will return in the fall.

Who will fill the ranks in the College? ***Enlist for College and serve your country best.*** "When the war is over, there will be made upon us such demands as have never before come to any country. The Colleges of Europe are now almost empty. For many years to come some of these countries will be unable to support their Colleges. ***America must come to the rescue.***

The Government says: "Patriotism and the desire to serve humanity may require of you young men and women the exercise of that very type of self restraint that will keep you to your tasks of preparation until the time comes to render service which cannot be rendered by others."

Enlist in Hope College in the Fall.

School year 1917-1918 opens on September 18. For further information or catalog, address the President, Rev. A. Vennema, D. D., Holland, Mich.
